This report was prepared in the Statistics of Income Branch by the Corporation Statistics Section under the direction of Joel R. Stubbs.

The procedures for sampling, processing and reviewing the data were developed by other branches of the Statistics Division. The returns were sampled at the ten Service Centers located at: Covington, Kentucky; Philadelphia, Pennsylvania; Kansas City, Missouri; Andover, Massachusetts; Holtsville, New York; Chamblee, Georgia; Memphis Tennessee; Austin, Texas; Fresno, California; and Ogden, Utah.

Statistical abstracting of the data was done at the Service Centers and at the Data Center at Detroit, Michigan. The Data Center designed and conducted the computer processing.

COMMISSIONER OF INTERNAL REVENUE

Washington, DC 20224

September 1, 1978

The Honorable W. Michael Blumenthal
Secretary of the Treasury
Washington, DC 20220

Dear Mr. Secretary:

As required by section 6108 of the Internal Revenue Code, we have prepared for publication the complete report, Statistics of Income--1974, Corporation Income Tax Returns. The data in this report are estimates derived from a sample of unaudited corporation income tax returns selected from the nearly 2 million corporation returns with accounting periods ended July 1974 through June 1975.

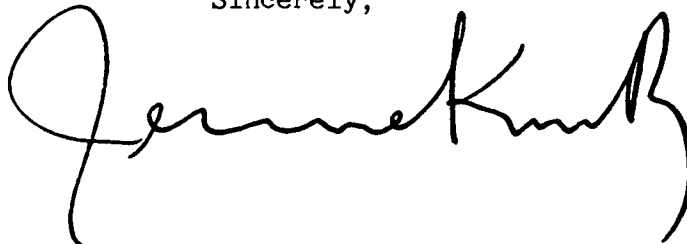

The report presents information on receipts, deductions, net income, income tax liability, tax credits, and distributions to stockholders. Statistics are also provided on the corporate tax base and on the computation of income tax and additional tax for tax preferences ("minimum tax").

Classifications used to present the data include industry and size of total assets, business receipts, net income, and income tax. Separate statistics are included for returns with net income, controlled group members, Small Business Corporations electing to be taxed through their stockholders, and Domestic International Sales Corporations (DISC's). Data are also provided for foreign-owned U.S. corporations as well as on foreign corporations with U.S. business operations.

Additional information about DISC's as well as on the foreign tax credit and Controlled Foreign Corporations reported on the returns of the largest U.S. corporations will be published separately.

With kind regards,

Sincerely,

A handwritten signature in black ink, appearing to read "James K. Knapp". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.

Section 1

Corporation Income Tax Returns, 1974

RETURN COVERAGE

This report presents statistical estimates derived from a stratified sample of unaudited income tax and information returns filed by corporations for the 1974 income year, defined to cover accounting periods ended July 1974 through June 1975. The approximately 1,966,000 returns of active corporations (including 333,000 Small Business Corporations electing to be taxed through their stockholders and 5,500 Domestic International Sales Corporations) filed for this period provided the basis of all financial statistics presented in this report. No data were tabulated from inactive corporation returns, defined as those showing no income or deductions.

Besides returns filed by inactive corporations, the statistics specifically exclude foreign corporations with no income effectively connected with a U.S. trade or business, farmers' cooperatives exempt from income tax under Internal Revenue Code section 521, and nonprofit corporations (educational, charitable, and similar organizations) exempt from income tax under Code section 501.

Section 6012 of the Internal Revenue Code required that all corporations in existence at any time during the income year file returns regardless of whether they had income or not. This applied to active and inactive domestic corporations unless they were expressly exempt from filing, as well as to active foreign corporations with insufficient taxes withheld at the source to satisfy their U.S. tax liability on income earned in the United States.

In addition to legally defined corporations, the Internal Revenue Code recognized many types of businesses as corporations, including joint-stock companies; insurance companies; and unincorporated associations such as business trusts, savings and loan associations, certain partnerships, mutual savings banks, and cooperative banks. Because these organizations possessed characteristics typical of the corporate form, such as continuity of life, centralization of management apart from ownership,

limited liability of owners, and transferability of shares of capital ownership, they were required to file corporation income tax returns.

ACTIVITIES COVERED

The estimates in this report include corporate business activities in the United States as reported on returns of domestic and certain foreign corporations as well as certain foreign activities. Thus, dividends remitted from foreign subsidiaries of domestic corporations and, to a limited extent, undistributed earnings of foreign subsidiaries were included. The estimates also include data on income earned by domestic corporations through foreign branches.

The term "domestic corporations" refers to companies incorporated in the United States, but does not necessarily imply all domestic activity. For instance, a business may have been incorporated in the United States, had its principal office here, and yet conducted all of its business abroad through foreign branches. The effect of foreign activity on the statistics varies accordingly. Some industries may have higher incidences of foreign activity than others and foreign income is reflected in their statistics to a greater extent. Also, foreign activity may occur more frequently among corporations of a given size than among others.

For foreign corporations (defined as those organized abroad) engaged in trade or business in the United States, only income that was considered "effectively connected" with the conduct of the trade or business in the United States is included in the statistics. Other foreign corporations, organized abroad and not engaged in trade or business in the United States, were liable for tax only on investment income from U.S. sources. This income is excluded from this report.

TIME PERIOD COVERED

The estimates in this report are based on data from both returns

with accounting periods that coincided with calendar year 1974 and returns with accounting periods that were for a noncalendar year. The noncalendar years represented in the 1974 statistics ended during the span of months July 1974 through June 1975. In the middle of this twelve-month span was the calendar year, ending December 1974, so that the span, in effect, defines the income year in such a way that the noncalendar year accounting periods are centered at the calendar year.

The 12 accounting periods covered by the 1974 report are presented in chart 1. This chart shows a span of 23 months between the first-included accounting period beginning in August 1973 (and ending in July 1974), and the last-included accounting period beginning in July 1974 (and ending in June 1975). This report, therefore, shows income received or expenses incurred in any or all of the 23 months from August 1973 through June 1975. On the other hand, end-of-year balance sheet amounts such as for total assets and inventories show the position of some corporations in December 1974 and of others as early as July 1974 or as late as June 1975. (Net income (less deficit) and total assets reported on returns for each of the 12 accounting periods are presented in table A.)

Corporations were required by law to file returns for the accounting period customarily used in keeping their books. Less than half of the returns were filed for the calendar year, but these included returns of most of the larger corporations. Over 80 percent of total assets and about 76 and 61 percent of net income (less deficit) and total receipts respectively were reported on calendar year returns. See table A and chart 2.

The total number of active corporations included, in addition to returns with accounting periods that spanned 12 months, returns with accounting periods of shorter duration. Such returns are referred to as part-year returns and were filed, for the most part, by continuing corporations changing their accounting periods, new cor-

Total receipts (Billions of dollars)

porations in existence less than 12 months, merging corporations, and liquidating corporations.

The statistics in this report reflect, to a varying degree, any changes in law that became effective during the accounting periods covered. Depending on the accounting period used and the effective date of the changes in law, the changes may have been fully applicable for some corporations, only partially applicable for others, and not applicable at all for still others.

SUMMARY OF CORPORATE ACTIVITY

Summary statistics for the 1974 income year are shown in table A. Comparisons of 1973 and 1974 data are shown in tables B and C. Table D compares statistics for 1974 on consolidated and nonconsolidated returns. Chart 3 shows a 5-year summary of net income, tax credits, and income tax after credits, for 1970 through 1974. Table E presents a comparison of book net income with tax net income for selected industries.

CHANGES IN TAX RATES

Under prior law, the "normal tax" rate was 22 percent with a 26 percent surtax, but with a \$25,000

surtax exemption. Thus, the first \$25,000 of taxable income was taxed at only 22 percent, while income in excess of \$25,000 was taxed at 48 percent. Expressed another way, total taxable income was taxed at a 22 percent rate and taxable income in excess of \$25,000 was subject to an additional 26 percent tax.

The Tax Reduction Act of 1975 reduced the normal tax rate and increased the taxable income exempt from the surtax, i.e., the amount eligible for the surtax exemption. The normal tax rate was graduated. It was reduced from 22 percent to 20 percent for the first \$25,000 of taxable income, but it remained at 22 percent for taxable income in excess of \$25,000. The surtax exemption was increased from \$25,000 to \$50,000, thereby decreasing the taxable income subject to the combined 48 percent tax rate by \$25,000. Stated differently, the increase in the amount of taxable income exempted from the 26 percent surtax rate to \$50,000 caused the taxable income subject to the 48 percent rate to be limited to the amount in excess of \$50,000.

These amounts and rates initially were to be made effective for taxable years ending in 1975, after which they were to revert to the amounts and rates in effect prior to the enactment of the Tax Reduction Act. Subsequently, the Revenue Adjustment Act of 1975 extended

the effective period through the first 6 months of 1976 making the reduced normal tax rate and the increased surtax exemption also applicable to taxable years ending during the period January through June 1976.

Because the data presented in this report cover accounting periods ended July 1974 through June 1975, they do not fully reflect the effects of the revised normal tax rate and the surtax exemption. For 1974, only corporations with noncalendar accounting periods that ended January through June 1975 were subject to the changes, but since the changes were only allowed based on that part of their taxable years that occurred during 1975, tax had to be prorated between the previous and revised rates. This was done as follows: first, the income tax was computed with a \$25,000 surtax exemption and second, with a \$50,000 surtax exemption. (The normal rate was 20 percent on \$25,000 or less of taxable income and 22 percent on taxable income in excess of \$25,000.) Then the two resulting taxes were prorated according to the number of days in the taxable year before and after December 31, 1974.

The new surtax exemption also caused a change in the provisions relating to certain controlled corporations. Since the tax benefits resulting from the surtax exemption

allowed each member of a controlled group for which a separate return was filed were limited by the size of the surtax exemption, the increase in the surtax exemption also caused the benefit to increase from \$25,000 to \$50,000 for accounting periods ending after December 31, 1974. Also, in applying the revised normal tax rates, the first \$25,000 of taxable income and the second \$25,000 of taxable income were each allocated among the component members of the group in the same manner as the surtax exemption was allocated; i.e., the \$25,000 amounts were either apportioned equally among qualifying members or according to a plan adopted for all members.

THE "FULL ABSORPTION" METHOD OF COSTING INVENTORIES

The rules relating to the costing of inventories used in computing the cost of goods sold and, thus, taxable income were revised by an income tax regulation, issued September 19, 1973. The revised rules required that the "full absorption" method of inventory costing be used by corporations which were engaged in manufacturing or production operations and which were not already using this method. This change was made to simplify the tax reporting for such corporations and also eliminate the uncertainty and controversy of past practices.

Under this method certain production costs were always required to be included when determining inventoriable costs while others were not. Production costs, whether direct or indirect, were those that were incident to and necessary

for manufacturing or production operations or processes. Direct production costs were always included, while indirect production costs could be either included or excluded based on specific conditions.

Direct production costs included those costs which were components of either direct material or direct labor costs. Direct material costs included the cost of those materials which became an integral part of the specific product, as well as those materials consumed in the ordinary course of manufacturing. Direct labor costs included such costs as basic compensation, overtime pay, vacation and holiday pay, sick leave pay, shift differential, payroll taxes, and payments to an unemployment benefit plan.

In determining inventoriable costs, indirect production costs were either always included, not required to be included, or included only if they were similarly treated on the corporation's books of accounts and if this treatment was both consistent with generally acceptable accounting principles and comparable to the corporation's tax accounting methods. Indirect production costs which were always included were for repairs, maintenance, utilities, rent, indirect labor (such as that provided by supervisors, timekeepers, engineers, and truckers), indirect materials and supplies (such as nuts, bolts, rivets, washers, and cotter pins not entering directly into a product, as well as cleaning supplies), tools and equipment not capitalized, and costs of quality control and inspection. Among the indirect production costs not required to be included were expenses associated with marketing, adver-

tising, selling or other distribution, interest, research and development, amortization and depreciation in excess of that reported on the corporation's books of account and percentage depletion in excess of cost depletion. Such indirect production costs as taxes, depreciation necessary for production, depletion, employee benefits, officers' salaries, insurance, and costs attributable to strikes, rework labor, scrap, and spoilage were included only if the corporation's accounting methods were comparable for book and tax purposes. Otherwise, these costs were excluded from inventories.

In applying the full absorption method of inventory costing, there were two steps required in determining the tax treatment of indirect production costs: (1) a determination of the tax treatment of each item of cost on the basis of an objective test, i.e., whether the item had been or could be included in inventoriable costs on the corporation's books of account, and (2) a determination as to whether, under the standards of generally accepted accounting principles, it was appropriate to either include or exclude the item.

Indirect production costs under the full absorption method had to be allocated to goods produced during the taxable year, whether sold during the year or in inventory at the close of the taxable year, determined in accordance with the corporation's method of identifying goods in inventory (e.g., "first-in, first-out," or "last-in, first-out"). If the indirect production costs specified above were allocated to goods sold during the year, they were deducted currently

and, thus, excluded from inventory costs. Otherwise, they were included as inventory costs and allocated to the goods in ending inventory. Thus, the full absorption method causes ending inventory to increase and the cost of goods sold to decrease. The result is an increase in the amount of taxable income.

Notwithstanding the requirement that use of the full absorption method was mandatory for corporations with manufacturing or production operations, corporations not previously using this method had to file a request to change accounting methods, which was subject to the approval of the Commissioner of Internal Revenue, before adopting the method. Special transitional rules were provided if the election was made during the first 180 days of any taxable year beginning after September 18, 1973, and before September 19, 1975. (This transitional period was subsequently extended to November 28, 1975.)

Under the special transitional rules, corporations that made the proper election could prorate any inventoriable costing adjustment over a period designated by the corporation at the time of the election, starting with the year of the transition. The transition period could not exceed the lesser of 10 taxable years or the number of years for which the prior inventory costing method was used. (Corporations which switched after the transition period were not eligible to use the transitional rules.) These inventoriable costing adjustments were included in the statistics for the income or deduction items in which they were reported by the corporation.

Section 2

Tables for 1974

INCOME AND FINANCIAL DATA BY INDUSTRY OR SIZE

- 1 Returns of active corporations: Number of returns, receipts, cost of sales and operations, net income, tax and credit items, distributions to stockholders, total assets, net worth, depreciable assets, and depreciation deduction, by minor industry, 11
- 2 Returns of active corporations: Balance sheets and income statements, by major industry, 20
- 3 Returns with net income: Balance sheets and income statements, by major industry, 28
- 4 Returns of active corporations: Balance sheets and income statements, by size of total assets, 36
- 5 Returns with net income: Balance sheets and income statements, by size of total assets, 38
- 6 Returns of active corporations: Selected balance sheet, income statement, and tax items, and distributions to stockholders, by major industry, by size of total assets, 40
- 7 Returns of active corporations: Selected balance sheet, income statement, and tax items, and distributions to stockholders, by industrial division, by size of business receipts, 74
- 8 Returns of active corporations: Beginning and ending inventories, business receipts, net income (less deficit), total income tax, and total assets, by major industry, 79
- 9 Returns of active corporations: Number of returns, total receipts, net income or deficit, income subject to tax, income tax, tax credits, distributions to stockholders except in own stock, and total assets, by industrial division, by size of net income or deficit, 82
- 10 Returns of active corporations: Book net income or deficit, provision for Federal income tax, and selected tax return items, by major industry, 85

INCOME SUBJECT TO TAX AND INCOME TAX

- 11 Returns of active corporations: Tax items: Number of returns by selected types of tax, net income or deficit, statutory special deductions, income subject to tax, income tax, credits, payments, and dividend items, Small Business Corporations (Form 1120S), by major industry, 90
- 12 Returns of active corporations other than Forms 1120S and 1120-DISC: Income subject to tax: Number of returns, net long-term capital gain, net income, income subject to tax, income tax, and credits, by size of income taxed at normal tax and surtax rates or size of deficit, 106
- 13 Returns of active corporations other than Forms 1120S and 1120-DISC: Number of returns, selected receipts, net income, statutory special deductions, income subject to tax, income tax, credits, tax payments, tax due or overpayment, selected tax preference and investment credit items, by size of income tax after credits, 111
- 14 Returns of active corporations: Taxpayments: Number of returns, net income, special deductions, income tax, credits, tax payments, tax due or overpayment, by taxpayment status, by size of total tax after credits, 114
- 15 Returns of active corporations other than Forms 1120S and 1120-DISC: Number of returns, net income, income subject to tax, income tax, credits, payments, and tax due and overpayment, for total returns and returns with and without estimated tax payments, by size of income tax subject to estimated tax payments, 119
- 16 Returns of active corporations: Income, special deductions, income tax, credits, and taxpayment items, by accounting period, 122
- 17 Returns of active corporations with estimated tax payments: Number of returns, net income, income subject to tax, income tax, credits, payments, tax due, and overpayment, by tax status, by accounting period, 124

INVESTMENT CREDIT ITEMS

- 18 Returns of active corporations other than Forms 1120S and 1120-DISC: Investment credit and related items, for total returns, and returns with carryover, by size of investment credit, 126
- 19 Returns of active corporations other than Forms 1120S and 1120-DISC: Investment credit items: Number of returns, cost of property, investment qualified for credit, tentative credit, carryover, income tax, investment credit, unused credit, depreciable assets, depreciation deduction, and returns with carryover, by major industry, 128

TAX PREFERENCE ITEMS

- 20 Returns of active corporations other than Forms 1120S and 1120-DISC: Tax preference items: Number of returns, and tax preference and related items, by tax preference status, by major industry, 132
- 21 Returns of active corporations other than Forms 1120S and 1120-DISC: Tax preference items: Number of returns, and tax preference and related items, by size of total assets, 140
- 22 Returns of active corporations other than Forms 1120S and 1120-DISC: Tax preference and related items, by income status, by normal tax, surtax, and alternative tax status, by size of total items of tax preference, 142
- 23 Returns of active corporations other than Forms 1120S and 1120-DISC, with items of tax preference: Number of returns, tax preference and related items, by tax status, by size of total items of tax preference after statutory exclusion and income tax used as an offset, 151

WORK INCENTIVE (WIN) CREDIT ITEMS

- 24 Returns of active corporations other than Form 1120-DISC: Work incentive (WIN) credit items, by industrial division, by size of total assets, 156

SMALL BUSINESS CORPORATIONS
ELECTING TO BE TAXED THROUGH
STOCKHOLDERS

- 25 Number of returns, income tax, selected tax preference items, and investment credit property, by industrial division, 159
- 26 Selected balance sheet and income statement items, income subject to tax, tax, and distributions to stockholders, by industrial division, by size of total assets, 160
- 27 Stockholders, business receipts, net income (less deficit), distributions to stockholders, and net worth, by industrial division, size of total assets, and number of stockholders, 165

FOREIGN CORPORATIONS AND FOREIGN-
OWNED U.S. CORPORATIONS

- 28 Returns of active domestic corporations: Number of returns with and without 50 percent or more ownership by another entity, and balance sheets and income statements for returns with 50 percent or more foreign ownership, by selected industrial divisions, 168
- 29 Returns of active foreign corporations with U.S. business operations, Form 1120F: Income statement and tax items, by industrial division, 170

DOMESTIC INTERNATIONAL SALES
CORPORATIONS (DISC's)

- 30 Balance sheets and income statements, as shown on Form 1120-DISC, 171
- 31 Balance sheets and income statements, by selected industries, 172

CONSOLIDATED RETURNS AND CONTROLLED
GROUPS

- 32 Consolidated returns: Balance sheets and income statements, by size of total assets, 174
- 33 Consolidated returns: Balance sheets and income statements, by industrial division, 176
- 34 Returns of members of controlled groups other than Form 1120-DISC: Number of returns, total assets, total receipts, net income, income tax, and selected dividend items, by major industry, by type of return, 177

RETURNS OF ACTIVE CORPORATIONS

RETURNS OF ACTIVE CORPORATIONS

Table 1.—Number of Returns, Receipts, Cost of Sales and Operations, Net Income, Tax and Credit Items, Distributions to Stockholders, Total Assets, Net Worth, Depreciable Assets, and Depreciation Deduction, by Minor Industry—Continued

(All figures are estimates based on samples—money amounts are in thousands of dollars)

Minor industry	Number of returns		Total receipts		Business receipts	Cost of sales and operations	Net income (less deficit)	Net income	Income subject to tax	Total income tax
	Total	With net income	All returns	Returns with net income						
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

150 Miscellaneous nondurable goods, wholesale trade not allocable	21,215	14,655	36,303,868	30,745,615	35,603,816	29,678,676	960,481	1,098,926	764,512	327,665

Footnotes at end of table. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS

Table 1.—Number of Returns, Receipts, Cost of Sales and Operations, Net Income, Tax and Credit Items, Distributions to Stockholders, Total Assets, Net Worth, Depreciable Assets, and Depreciation Deduction, by Minor Industry—Continued

[All figures are estimates based on samples—money amounts are in thousands of dollars]

	Minor industry	Number of returns		Total receipts		Business receipts	Cost of sales and operations	Net income (less deficit)	Net income	Income subject to tax	Total income tax
		Total	With net income	All returns	Returns with net income						
		(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
	Wholesale and retail trade—Continued

RETURNS OF ACTIVE CORPORATIONS

Table 1.—Number of Returns, Receipts, Cost of Sales and Operations, Net Income, Tax and Credit Items, Distributions to Stockholders, Total Assets, Net Worth, Depreciable Assets, and Depreciation Deduction, by Minor Industry—Continued

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Minor industry	Foreign tax credit	Investment credit	Total income tax after credits ¹	Distributions to stockholders except in own stock		Total assets	Net worth	Depreciable assets	Depreciation deductions
				All returns	Returns with net income				
	(11)	(12)	(13)	(14)	(15)	(16)	(17)	(18)	(19)

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

*Excludes companies with gross income under \$150,000 which are tax-exempt under Code section 501.

*Coefficient of variation is less than .05 but greater than zero.

*The small size of the sample yielded unreliable estimates.

*Estimate is based on returns sampled at a 100 percent rate and coefficient of variation is zero.

*Credits include foreign tax, investment, and work incentive (WIN) credits.

NOTE: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS

Table 2.—Balance Sheets and Income Statements, by Major Industry

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Item	All industries	Major industry					
		Agriculture, forestry, and fishing	Total mining	Metal mining	Coal mining	Oil and gas extraction	Nonmetallic minerals, except fuels
	(1)	(2)	(3)	(4)	(5)	(6)	(7)

(⁸) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹ Includes loans to stockholders, mortgage and real estate loans, and "other investments."

² Includes depletable assets less accumulated depletion, land, and intangible assets less accumulated amortization.

³ Includes accounts payable and mortgages, notes, and bonds payable in less than one year.

⁴ Less than \$500 per return.

Note: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

(¹) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹Size of total receipts was used in lieu of business receipts to classify statistics for Finance, insurance, and real estate industries.

²Includes accounts payable and mortgages, notes, and bonds payable in less than one year.

³Excludes Form 1120-DISC returns.

⁴Less than \$500 per return.

NOTE: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS

Table 8.—Returns with Beginning and Ending Inventories and with "Last-in, First-out" (LIFO) Method of Inventory Valuation: Business Receipts, Net Income (Less Deficit), Total Income Tax, and Total Assets, by Major Industry

(All figures are estimates based on samples—money amounts are in thousands of dollars)

[All figures are estimates based on samples—money amounts are in thousands of dollars]												
Major industry	Total returns of active corporations					Returns showing inventories for both beginning and end of year						
	Number of returns	Business receipts	Net income (less deficit)	Total income tax	Total assets	Inventories		Number of returns	Business receipts	Net income (less deficit)	Inventories	
						Beginning of year	End of year				Beginning of year	End of year

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

*Less than \$500 per return.

NOTE: Tax return net income or deficit after tax is after investment and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

Corporation Returns/1974

RETURNS OF ACTIVE CORPORATIONS

Table 11.—Tax Items: Number of Returns by Selected Types of Tax, Net Income or Deficit, Statutory Special Deductions, Income Subject to Tax, Income Tax, Credits, Payments, and Dividend Items, Small Business Corporations (Form 1120S), by Major Industry

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are in the appropriate totals.

¹Includes net operating loss deduction and Western Hemisphere Trade Corporation deduction which are shown separately under "Returns With Net Income Other Than Forms 1120S and 1120-DISC."²The following amounts were reported on returns without net income by 25 life insurance companies and banks with life insurance departments taxable under special provision of the Internal Revenue Code: Income subject to tax, \$2,539,000; Total income tax, \$1,138,000; Investment credit, \$147,000.

NOTE: Credits include foreign tax, investment, and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

Table 12.—Income Subject to Tax: Number of Returns, Net Long-Term Capital Gain, Net Income, Income Subject to Tax, Income Tax, Foreign Tax, Investment, and Work Incentive (WIN) Credits, by Size of Income Taxed at Normal Tax and Surtax Rates, or Size of Deficit

Income and tax status and size of income taxed at normal tax and surtax rates, or size of deficit	Number of returns	Net long-term capital gain reduced by net short-term capital loss	Long-term capital gain from certain binding contracts and installment sales	Net income or deficit	Income subject to tax		Income tax

(*) Estimate not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹Includes returns with income taxed at alternative rates, and a few returns of mutual savings banks, regulated investment companies or real estate investment trust not eligible for alternative tax, but with capital gains taxed at alternative rates under special provisions of the Internal Revenue Code.

NOTE: Credits include foreign tax, investment, and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS, OTHER THAN FORMS 1120S AND 1120-DISC

Table 13.—Number of Returns, Selected Receipts, Net Income, Statutory Special Deductions, Income Subject to Tax, Income Tax, Credits, Tax Payments, Tax Due or Overpayment, Selected Tax Preference and Investment Credit Items, by Size of Income Tax After Credits

[All figures are estimates based on samples—money amounts are in thousands of dollars]

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹ Excludes returns with only tax from recomputing prior year investment credit, tax from recomputing prior year work incentive (WIN) credit and/or additional tax for tax preferences.² Includes returns with only tax from recomputing prior year investment credit, tax from recomputing prior year work incentive (WIN) credit and/or additional tax for tax preferences.

NOTE: Credits include foreign tax, investment, and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

Less than \$500 per return.

NOTE: Credits include foreign tax, investment, and work incentive (WIN) credits.

See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS, OTHER THAN FORMS 1120S AND 1120-DISC

Table 15.—Number of Returns, Net Income, Income Subject to Tax, Income Tax, Credits, Payments, and Tax Due and Overpayment, for Total Returns and Returns With and Without Estimated Tax Payments, by Size of Income Tax Subject to Estimated Tax Payments

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Type of returns, size of income tax subject to estimated tax payments ²	Number of returns	Net income or deficit	Income subject to tax	Income tax					Foreign tax credit	Investment credit

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹Excludes returns with only tax from recomputing prior year investment credit, tax from recomputing prior year work incentive (WIN) credit and/or additional tax for tax preferences.²Includes returns with normal tax, surtax, and alternative tax after foreign tax, investment and work incentive (WIN) credits plus tax from recomputing prior year investment and work incentive (WIN) credits. Excludes additional tax for tax preferences.³Credits include foreign tax, investment, and work incentive (WIN) credits.

NOTE: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

NOTE: Credits include foreign tax, investment and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS WITH ESTIMATED TAX PAYMENTS

Table 17.—Number of Returns, Net Income, Income Subject to Tax, Income Tax, Credits, Payments, Tax Due, and Overpayment, by Tax Status, by Accounting Period

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Item	Total	Total annual returns	Accounting period ended (annual returns)

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹Excludes tax from recomputing prior year investment credit, tax from recomputing prior year work incentive (WIN) credit, and/or additional tax for tax preferences.

²Includes returns with only tax from recomputing prior year investment credit, tax from recomputing prior year work incentive (WIN) credits, and/or additional tax for tax preferences.

NOTE: Credits include foreign tax, investment, and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals

Includes the following amounts which are not shown separately: accelerated depreciation on personal property subject to a net lease, \$414,000, and reserve for losses on bad debts, \$1,125,833,000.

NOTE: Credits include foreign tax, investment and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹Includes the following amount which is not shown separately: accelerated depreciation on personal property subject to a net lease, \$414,000.

NOTE: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

Corporation Returns/1974

RETURNS OF ACTIVE CORPORATIONS, OTHER THAN FORMS 1120S AND 1120-DISC

Table 22.—Tax Preference and Related Items, by Income Status, by Normal Tax, Surtax, and Alternative Tax Status, by Size of Total Items of Tax-Preference

* Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

† Includes the following amounts which are not shown separately: amortization of on-the-job training facilities, \$53,000; amortization of child care facilities, \$21,000.

‡ Less than \$500 per return.

NOTE: Credits include foreign tax, investment, and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS, OTHER THAN FORMS 1120S AND 1120-DISC, WITH ITEMS OF TAX PREFERENCE

Table 23.—Number of Returns, Tax Preference and Related Items, by Tax Status, by Size of Total Tax Preference After Statutory Exclusion and Income Tax Used as an Offset—Continued

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Tax status, size of total items of tax preference after statutory exclusion and income tax used as an offset	Total tax preference items less statutory exclusion and income tax used as an offset	Tentative additional tax for tax preferences	Net operating loss for 1974 remaining as a carryover to a succeeding year		Deferred additional tax for tax preferences	Tentative additional tax for tax preferences less deferral		Returns showing tax preference items based on—							
			Number of returns	Amount		Number of returns	Amount	Depreciation				Amortization			
								Accelerated depreciation tax preferences		Depreciation deduction		Amortization tax preferences		Amortization deduction	
								Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount
	(43)	(44)	(45)	(46)	(47)	(48)	(49)	(50)	(51)	(52)	(53)	(54)	(55)	(56)	(57)

(*) Estimate is not shown separately because of the small number of returns not used in the estimate.											

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

Includes the following amounts which are not shown separately: accelerated depreciation on personal property subject to a net lease, \$4,276,000; and amortization of: certified pollution control facilities, \$76,402,000; railroad rolling stock, \$132,137,000 and on-the-job training facilities, \$53,000.

NOTE: Credits include foreign tax, investment, and work incentive (WIN) credits. See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE CORPORATIONS, OTHER THAN FORM 1120-DISC.

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹Includes "Nature of business not allocable" which is not shown separately.²Includes loans to stockholders, mortgage and real estate loans, and "other investments."³Includes depletable assets less accumulated depletion, land, and intangible assets less accumulated amortization.⁴Includes accounts payable and mortgages, notes, and bonds payable in less than one year.

NOTE: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

¹ Includes "Nature of business not allocable" which is not shown separately.² Size of total receipts was used in lieu of business receipts to classify statistics for Finance, insurance and real estate industries.

NOTE: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

RETURNS OF ACTIVE DOMESTIC CORPORATIONS

Table 28.—Number of Returns With and Without 50 Percent or More Ownership by Another Entity, and Balance Sheets and Income Statements for Returns with 50 Percent or More Foreign Ownership, by Selected Industrial Divisions

(All figures are estimates based on samples—money amounts are in thousands of dollars)

(*) Estimate is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

Includes "Wholesale and retail trade not allocable" which is not shown separately.

NOTE: See text for "Explanation of Terms" and "Description of the Sample and Limitations of the Data."

Section 3

Explanation of Terms

The following explanations include definitions and limitations of terms used, and adjustments made in preparing the statistics. These explanations are designed to aid the user in interpreting the statistical content of this report and should not be construed as interpretations of the Internal Revenue Code, or related regulations, procedures, or policies. Code sections cited were those in effect for 1974. Whenever a year is cited, it refers to the calendar year unless otherwise stated. Refer to the index for reference to specific items not separately listed in this section.

Accounts Payable

Relatively short-term liabilities arising from the conduct of trade or business which were not secured by notes of indebtedness were generally included under this heading. Nontrade payables, on the other hand, were generally includable in the estimates for "Other Current Liabilities."

Banks and savings institutions may have reported deposits and withdrawable shares in accounts payable. When these amounts could be identified, they were transferred to "Other Current Liabilities."

Additional Tax for Tax Preferences

This was a special tax ("minimum tax") on excessive amounts of "economic" income resulting from certain kinds of investments in excess of "taxable" income and deductions allowed under the Code which were considered "tax preferences." A discussion of each of the "tax preferences" is included under "Tax Preference Items" in this section.

For the most part, the 10 percent tax was levied on the sum of a corporation's "tax preferences" which exceeded (1) a \$30,000 exclusion, (2) current year income tax reduced by foreign tax credit, investment credit, and work incentive (WIN) credit, and (3) tax carryover from prior years (i.e., income tax after credits, of the 7 preceding years, not used as an offset to the tax preference items).

In general, all corporations were liable for the additional tax. However, regulated investment companies and real estate investment trusts were subject to the tax only on amounts attributable to tax preferences not passed through to their stockholders. Small Business Corporations electing to be taxed through their stockholders were liable for the additional tax only on certain capital gains. (Because the incidence of such capital gains was low, there were no returns in the *Statistics of Income* sample for 1974 that showed this tax.) In addition, members of a controlled group of corporations filing separate returns were required to apportion a single \$30,000 statutory exclusion among the members of the group either equally or based on a plan adopted for all members. However, members that were Domestic International Sales Corporations (DISC's) were not subject to the additional tax for tax preferences.

The computation of the tax for returns other than Form 1120S is shown in detail on a facsimile of Form 4626 in section 5. In brief, the computation went as follows:

(1) All tax preference items were totaled.

(2) From this total, the \$30,000 "statutory exclusion" was subtracted.

(3) "Total items of tax preference less statutory exclusion" were next reduced by "Income tax available as an offset, current year" and then by "Income tax available as an offset, carryover." The "current year" tax was the sum of (a) normal tax, surtax, and alternative tax after foreign tax, investment and work incentive (WIN) credits, and (b) tax from recomputing prior-year investment and work incentive (WIN) credits. By law, the "carryover" tax represented any tax not usable for the tax preference reduction in prior years because it was in excess of the effective amount; excess amounts were to be carried forward for use over a 7-year period. (Even though the current year and carryover tax amounts shown in the statistics are totals, they are understated because some corporations included in the tax reduction only enough to equal total

tax preferences after the \$30,000 exclusion and other corporations did not report these amounts at all when total preferences were offset completely by the exclusion.)

(4) "Tentative additional tax for tax preferences" was computed by multiplying "Total tax preferences less statutory exclusion and tax used as an offset" by 10 percent.

(5) The tentative additional tax was reduced by the lesser of 10 percent of the "Net operating loss for 1974 remaining as a carryover to a succeeding year" or the amount of tentative additional tax; this amount is shown as "Deferred additional tax for tax preferences." If the corporation had a net operating loss for 1974 available as a carryforward to future years, the corporation was allowed to defer the additional tax until the net operating loss was used to reduce net income in future years. When this net operating loss was deducted from net income, additional tax which had been deferred because of the net operating loss became due.

(6) Finally, "Additional tax for tax preferences" was the sum of "Tentative additional tax for tax preferences" reduced by "Deferred additional tax for tax preferences" that resulted from prior-year net operating losses, plus the "Additional tax for tax preferences deferred from prior years."

Advertising

Advertising expenses were allowable as a deduction under Code section 162, if they were ordinary and necessary and bore a reasonable relation to the trade or business of the corporation. The amount shown in the statistics includes advertising identified as a cost of sales and operations as well as advertising separately identified as a business deduction.

The types of expenditures covered by the advertising deduction may have varied somewhat from company to company and a few companies did not separately identify

advertising when it was included in the cost of sales and operations. In addition, certain kinds of advertising expenditures, such as for billboards, were capitalized and recovered only as part of depreciation. For these reasons, a more definitive explanation of the advertising deduction statistics is not possible.

Allowance for Bad Debts

Most corporations identified on their balance sheet the allowance or reserve set aside to cover uncollectible or doubtful notes, accounts, and loans as an adjustment to notes and accounts receivable. A few corporations, however, reported only net receivables and thus did not show the allowance for bad debts. In addition, tax return balance sheets used by Domestic International Sales Corporations (DISC's), and life and certain mutual insurance companies did not require the allowance to be reported. Both the statistics for the allowance and for the gross amount of notes and accounts receivable would therefore be understated by these unidentifiable amounts.

Since corporation tax return balance sheets did not provide for the separate reporting of reserves for uncollectible mortgage and real estate loans, many banks and savings and loan associations may have included the item in the allowance for bad debts. If, on the other hand, these reserves were reported in supporting schedules, they were later added to the allowance for bad debts during statistical editing.

Amortization

Amortization was a deduction for recovery of certain expenditures over a certain period of time in a manner similar to straight-line depreciation. Typically, the period of time over which the expenditure was written off was much shorter than if depreciation had been used; often, depending on the specific provision of the law, the period of time was only 60 months. The following types of amortization, applicable to the statistics in this report, were specifically mentioned in the Code as allowable deductions:

- bond premiums (section 171)
- child care facilities (section 188)
- coal mine safety equipment (section 187)
- lessee's improvements to leased property (section 178)
- on-the-job training facilities (section 188)

- organization expenditures of corporations (section 248)
- pollution control facilities (section 169)
- railroad rolling stock (section 184)
- railroad tunnel bores and grading (section 185)
- research and experimental expenditures (section 174(b))
- trademark and trade name expenditures (section 177)

Of these, amortization of leasehold improvements was frequently reportable as depreciation and amortization of bond premiums (as well as of such other financial items as loan or mortgage costs) was often reported as part of "other deductions." Write-offs of patents, copyrights, and other intangibles were usually included in depreciation. None of these amounts involved rapid write-offs of the assets concerned. Therefore, in order to confine the statistics insofar as possible to rapid write-offs, identifiable amounts reported as amortization that related to leasehold improvements, bond premiums (or other financial items), and intangible assets, and, in addition, to depreciable assets other than those eligible for rapid amortization, were transferred to depreciation or "other deductions," as appropriate. (See also, "Depreciation" and "Other Deductions.")

Amortization of certified pollution control facilities, of railroad rolling stock, of on-the-job training facilities and child care facilities were considered tax preference items. The excess of these special rapid write-offs over what otherwise would have been depreciation deductions under Code section 167 constituted a portion of the base (after adjustments) upon which the additional tax for tax preferences was levied. (See also, "Tax Preference Items.")

Annual Returns

Annual, or calendar year returns were those filed for the twelve-month period beginning in January and ending in December. Most of the larger corporations filed for this period. Chart 1 in section 1 shows the percentage of returns filed for each of the accounting periods covered in this report.

Bad Debts

Bad debts occurring during the year, or a reasonable addition to an allowance or reserve for bad debts, were allowable as a deduction under Code section 166.

Commercial banks, mutual savings banks, savings and loan associations, small business investment companies and other financial institutions were permitted to take a deduction for a reasonable addition to their bad debt balance which was far greater than that allowed other businesses. Unlike other businesses, which could deduct additions to their reserves only to the extent justified by their actual loss experience, these financial institutions could elect to increase their reserves based on percentages of outstanding loans. However, certain restrictions were introduced in 1969 to begin to bring these institutions in line with other businesses. For commercial banks, beginning with 1969, deductible additions to the reserves were to decrease in three transitional steps. These steps were to be completed by 1988, at which time the deduction would have to be based on actual losses for the current and 5 preceding years, the same as for other businesses. The first transitional step, for years before 1976, reduced the percentage for eligible loans outstanding used as the basis for the deduction from 2.4 to 1.8 percent. For small business investment companies, deductions for additions to the reserves, using an industry average as the norm, were permitted during the first 10 years of the company's existence. Thereafter, additions to the reserves had to be based on their own experience. For mutual savings banks, savings and loan associations, and cooperative banks, the deduction was based on a percentage of an adjusted taxable income figure before reduction by the bad debt deduction, provided it did not increase the reserve beyond 6 percent of qualifying loans. The percentage was to decrease from 60 to 40 over a 10-year period, in general, starting with 1970. For 1974, the percentage was 47.

For banks and other financial institutions, corporate or government debts evidenced by certain bonds which became worthless during the year were chargeable as bad debts under Code section 582. For other corporations, such losses were subject to the special capital gain or loss provisions of the law.

Recoveries of bad debts previously deducted by corporations were generally netted against the year's bad debts deduction. However, amounts of recovered bad debts reported by corporations as an income item were to be included in "Other Receipts."

Business Receipts

Business receipts were, in general, the gross operating receipts of the corporation reduced by the cost of returned goods and allowances.

Business receipts included rents reported as a principal business income by real estate operators and by certain types of manufacturing, public utility, and service corporations. The latter corporations included manufacturers that frequently rented products rather than sold them, such as automatic data processing equipment; lessors of public utility facilities, such as docks, warehouses, and pipelines; and companies engaged in rental services, such as the rental of automobiles or clothing.

Some corporations treated sales taxes and excise and related taxes which were included in the sales price of their products as part of their gross receipts from sales; others reported their receipts after adjustment for these taxes. When treated as receipts, sales taxes and excise and related taxes were deducted on the tax return as part of the cost of sales and operations or were included in the separately itemized deduction for taxes paid. In any case, the receipts as reported by the taxpayer were included in the statistics. See also, "Cost of Sales and Operations" and "Taxes Paid."

In the finance, insurance, and real estate division, business receipts included such banking items as fees, commissions, trust department earnings, exchange collections, discounts, and service charges, when identified in schedules attached to the return. Business receipts also included interest which was not separately identified. (Interest, the principal operating income of banking and savings institutions, is shown separately in the statistics under "Other Interest" and is therefore excluded from business receipts.) Special statistical treatment was required for the few banking institutions which traded certain securities "on their own account" and which reported the purchase and sale of the securities as part of cost of sales and operations and business receipts, respectively. For the statistics, the amount paid by the banking institutions for these securities was excluded from the cost of sales and operations and a corresponding amount was excluded from business receipts.

Also in the finance, insurance, and real estate division, premium income of most insurance companies was included in business receipts.

However, certain mutual insurance companies with total receipts of less than \$500,000 were not required to report premium income. Therefore, total business receipts for insurance carriers are slightly understated.

Generally, in the finance, insurance, and real estate division, income from investments, when identified in schedules attached to the return, was allocated to one of the specific types of investment income for which statistics are shown separately. Rent or cooperative apartment assessments reported by real estate operators, however, were accepted as business receipts.

Business receipts reported by stock and commodity brokers, dealers, and exchanges, and by real estate subdividers, developers, and operative builders, required special statistical treatment. For these operations, net profit or loss from the sale of stocks, commodities, or real estate when identifiable, was allocated to the statistics for net gain or loss from noncapital assets. If the corporation reported both business receipts and cost of sales and operations without identifying the source, and the cost of sales and operations was 50 percent or more of the business receipts, the items were considered to include stock, commodity, or real estate transactions and only the net gain or loss was used for the statistics. Otherwise, business receipts for these companies were used as reported and included commissions and service fees.

In addition to the income types described above which were uniquely treated by law, by the tax return, or for the statistics, there were certain other kinds of income from sales and operations that are not reflected in business receipts. In general, this income was included as part of the much broader category, sales of property used in trade or business. For additional information about this income, see "Net Capital Gains" and "Net Gain (or Loss), Noncapital Assets."

For Domestic International Sales Corporations (DISC's), business receipts included only "qualified" export receipts, i.e., the sum of (a) gross receipts from noncommission sales of export property, leasing or renting of export property, services related and subsidiary to a qualified export sale or lease, engineering and architectural services, and export management services, and (b) commissions earned by DISC's acting as commission agents for someone else (rather than the gross receipts on which the commissions

were earned). In other words, "qualified" receipts were those which were considered to be export related and as such were the only receipts included in the statistics for business receipts. Receipts not considered to be export related (i.e., "nonqualified" receipts) were included in "Other Receipts."

Capital Stock

This end-of-year balance sheet liability item included amounts shown for outstanding ownership shares of both common and preferred stock.

Cash

This balance sheet asset item included the amount of actual money or instruments and claims which were usable and acceptable as money on hand at the end of the taxable year.

For Domestic International Sales Corporations (DISC's), this item was the sum of the following accounts shown separately on the tax return: working capital (i.e., cash and necessary temporary investments) and funds awaiting investment (i.e., cash in U.S. banks in excess of working capital needed to acquire other qualified assets).

Compensation of Officers

Salaries, wages, stock bonuses, and bonds were included in this deduction item as well as other benefits if they were identified as having been paid to officers for personal services rendered. Understatement of this item was possible to the extent compensation was reported as part of another deduction item (such as an overall employee compensation figure) and if not clearly identified was included in the statistics for "Cost of Sales and Operations" or "Other Deductions."

Consolidated Returns

Consolidated returns were income tax returns which contained the combined financial data of two or more corporations meeting the following requirements: (1) a common parent corporation owned at least 80 percent of the voting power of all classes of stock and at least 80 percent of each class of nonvoting stock (except stock which was limited and preferred as to dividends) of at least one member of the group, and (2) these same proportions of stock of each other member of the group were owned within the group.

The filing of a consolidated return for a parent corporation and its subsidiaries constituted an election of group reporting, which, with certain exceptions, had to be followed in subsequent years. The consolidated filing privilege could be granted to all affiliated domestic corporations connected through stock ownership with a common parent corporation except: (1) regulated investment companies, (2) real estate investment trusts, (3) corporations deriving a large percentage of their gross income from sources within a U.S. possession, (4) corporations designated tax-exempt under Code section 501, (5) China Trade Act corporations, and (6) Domestic International Sales Corporations (DISC's). Affiliated insurance companies were allowed to file a consolidated return if they were taxable under the same provisions of the Code; however, noninsurance companies with which they also may have been affiliated could not be included in the same return.

A consolidated return, filed by the common parent company, was treated as a unit, each statistical classification being determined on the basis of the combined data of the affiliated group. Therefore, filing changes to or from a consolidated return basis affect year-to-year comparability of the statistics. See also the explanation of "Members of Controlled Groups" in this section.

Constructive Taxable Income From Related Foreign Corporations

This represented the sum of (1) "Includable Income from Controlled Foreign Corporations," and (2) "Foreign Dividend Income Resulting from Foreign Taxes Deemed Paid." Each of these items is discussed under separate headings.

Contributions or Gifts

Contributions or gifts to charitable, religious, educational, and similar organizations were deductible under Code sections 170, 809, and 882. In general, the deduction was limited to 5 percent of net income computed without regard to this deduction; certain additional adjustments were required in the case of life insurance companies. Amounts contributed in excess of this limitation during the 5 preceding years could be carried forward and included in the current year's deduction so long as the sum of the current year contributions and the amounts carried forward did not exceed the limitation based on

current year income. The excess was again carried forward until the 5-year carryover period expired. The amounts shown for 1974, therefore, include some contributions actually made in previous years, and exclude some contributions made in 1974 which exceeded the current year 5 percent limitation. These excess contributions were then carried forward.

Corporations Owned 50 Percent or More by Another Entity

Domestic corporations directly or indirectly owned 50 percent or more by one stockholder based on voting stock, were asked to so indicate, to provide the percentage of ownership, and to report whether the owner was other than a U.S. "person" and, if so, the owner's country. (Code section 267 set forth the rules used to define direct and indirect ownership.) A "person" included another corporation, or an individual, partnership, estate or trust. Some corporations failed to answer all or part of the question so that the total shown for the number of returns indicating 50 percent or more ownership by a foreign entity may be somewhat understated. The question was not asked on Form 1120M filed by mutual nonlife insurance companies and the Form 1120S filed by Small Business Corporations electing to be taxed through their stockholders.

Cost of Property Used for Investment Credit

Amounts included under this heading are estimates for the total cost or basis of depreciable property (defined in Code section 48 and described under "Investment Credit") reported in connection with the computation of the investment credit. The cost or basis was the full cost or basis of property with a useful life of 3 years or more (4 years or more in the case of "pre-termination property," also described under "Investment Credit").

Although corporations generally reported their investments at cost, most corporations claiming the investment credit for leased property used the fair market value instead.

The statistics include amounts reported but not used for the computation of the investment credit. A limitation of \$50,000, for instance, was placed on the amount of used property which could be taken into account in the computation of the credit. Also included were amounts which were

ultimately used in the computation of the credit by the stockholders of Small Business Corporations which had made the election to be taxed through those stockholders.

Prior to 1973, Small Business Corporations were required to attach a statement to their returns showing the allocation of investment to the stockholders by amount, type, and life of property. Beginning with 1973, Small Business Corporations no longer filed Form 3468, Computation of Investment Credit, as other corporations using the investment credit provisions did, because the credit was claimed by their stockholders. Instead, these corporations had to complete Schedule K on their returns showing the allocation to stockholders of cost of property eligible for investment credit.

Cost of Sales and Operations

Cost of sales and operations generally included the direct costs incurred by the corporation in producing goods or providing services. Included were costs of materials used in manufacturing, costs of goods purchased for resale, direct labor, and certain operating expenses. Manufacturing corporations with taxable years beginning after September 18, 1973 were required to compute taxable income in accordance with the "full absorption" method of inventory costing as prescribed by the income tax regulations. Under full absorption costing, in general, indirect production costs as well as direct production costs were allocated to goods produced during the taxable year, whether included as costs of the taxable year or as inventory at the close of the year determined in accordance with the corporation's method of identifying goods in inventory. Thus, the statistics also include certain indirect production costs (such as repairs, maintenance, and utilities) reported by corporations as a cost of sales. See the discussion in section 1.

Included in cost of sales were costs incurred by Domestic International Sales Corporations (DISC's) for warehousing (which could include rental warehouse facilities, labor, heat and power) of export related articles.

Operating expenses, considered part of the cost of goods sold, included sales taxes and excise and related taxes only if the corporation treated these taxes as part of the sales price of the product. When these taxes were identified in cost of goods sold schedules, they were added to the

statistics shown for the separate deduction for "Taxes Paid." Similarly, operating expenses for depreciation, depletion, amortization, rent of buildings or real estate, advertising, contributions to pension plans, and contributions to employee benefit programs, whether direct or indirect costs in the case of corporations with manufacturing or production operations, were transferred to their respective deduction categories when identified in cost of goods sold schedules.

The income or loss from sales of securities, commodities, or real estate by stock and commodity brokers, dealers, and exchanges, and by real estate subdividers, developers, and operative builders was transferred from business receipts, and the net profit or loss from these transactions included in net gain or loss from sales or exchanges of noncapital assets. Special statistical treatment was also required for the few banking institutions which traded certain securities "on their own account" and which reported the purchase and sale of the securities as part of cost of sales and operations and business receipts, respectively. For the statistics, the amount paid for these securities was excluded from cost of sales and operations and a corresponding amount was excluded from business receipts. Therefore, the cost of such sales was excluded from the statistics.

Cost of Treasury Stock

This item was the total value of issued common or preferred stock, which had been reacquired and was held at the end of the accounting year by the issuing corporation. The stock, which was available again for resale or cancellation, may have been purchased by the corporation or acquired through donation or as settlement of a debt. Treasury stock was not a part of capital stock outstanding and did not include unissued capital stock.

The amounts shown may be somewhat understated. Treasury stock intended for resale may have been reported as an asset on some tax returns and if not clearly identified would have been included in the statistics for "Other Investments." When identified though, such stock was transferred to the statistics for "Cost of Treasury Stock."

Credit for Tax Paid by Regulated Investment Companies

Regulated investment companies were required to pay a tax (at capital gains rates) on amounts of

undistributed net long-term capital gain less net short-term capital loss. Stockholder corporations, for their part, were required to include in the computation of their long-term capital gains any such gains designated by the parent as undistributed dividends. The stockholder corporations were then deemed to have paid the tax on the undistributed long-term capital gain dividends and were allowed a credit (or a refund) for the tax they were deemed to have paid. It is this credit which comprises this item.

Credit for Tax on Special Fuels, Nonhighway Gasoline and Lubricating Oil

Section 39 of the Code allowed a credit in full or in stated amounts for excise taxes on:

- (1) gasoline used on farms for farming purposes,
- (2) gasoline used for nonhighway purposes or by local transit systems,
- (3) lubricating oil used for nonhighway purposes, and
- (4) noncommercial aviation fuels used for nontaxable purposes or fuels which were resold during the taxable year.

These taxes could be applied as a credit against income tax liability as an alternative to having the taxes refunded directly. This item also included amounts refunded through Domestic International Sales Corporations (DISC's) although these corporations were nontaxable.

Depletable Assets

Depletable assets represented, in general, the gross end-of-year value of mineral property, oil and gas wells, other natural deposits, standing timber, intangible development and drilling costs capitalized, and leases and leaseholds, each subject to depletion. Accumulated depletion represented the cumulative adjustment to these assets shown on the corporation's books of account. In some instances, depletable assets may have been included with "Depreciable Assets," or may have been reported as "Land" or as "Other Investments" by the taxpayer, and could not be identified for this report.

The value of depletable assets and accumulated depletion may not be closely related to the current year depletion deduction. The depletable assets and accumulated depletion balance sheet accounts reflected book values; the depletion reflected the amount claimed for tax purposes.

Depletion

This deduction was allowable for the exhaustion of natural deposits and timber. For standing timber, depletion was computed on the basis of cost. In the case of natural deposits, the depletion could be computed either on the basis of cost or upon a fixed percentage of the gross income, less rents and royalties, from the depletable property. Generally, for gas and oil wells the gross income was the actual sales price, or representative market or field price if the gas or oil was later converted or manufactured prior to sale. For other natural deposits, gross income was the gross income from mining, defined to include extractive and certain treatment processes. Also included as gross income were exploration expenditures, previously deducted, that were required, under certain provisions of Code section 617, to be recaptured when the mine reached the production stage.

Percentage depletion, though based on percentages of gross income from depletable property, was limited. It could not exceed 50 percent of the net income from the property, computed without the depletion deduction. Percentage rates of gross income for each type of natural deposit are listed in Code section 613 and range from 5 to 22 percent.

Under elective provisions of the Code, exploration and development expenditures connected with certain domestic natural deposits (except gas and oil) could be deducted currently, treated as deferred expenses, or capitalized. The write-offs of amounts deferred or capitalized were not included as part of depletion.

The amounts shown in the statistics include any identifiable depletion reported as part of the cost of sales and operations.

Depreciable Assets

Depreciable assets, reported on the corporation's end-of-year balance sheet, consisted of tangible property (such as buildings and equipment) which was used in the trade or business or held for the production of income and which had a useful life of 1 year or more. The statistics for this item could include fully depreciated assets still in use and partially completed assets for which no deduction was allowable when the corporation reported them as depreciable in its balance sheet. The statistics for depreciable assets exclude those intangible assets which were depreciable or amortizable only for tax purposes. Such assets, patents

and copyrights for example, were includable in intangible assets. The amounts shown as accumulated depreciation represent the portion of the assets that were written off in the current year as well as in prior years.

The amounts shown for depreciable assets are, in general, the gross amounts before adjustments for depreciation or amortization charged in current and prior years. Some corporations, however, reported only the net amount of depreciable assets after adjusting for these depreciation or amortization charges. Among the corporations reporting only a net amount of depreciable assets were many insurance carriers reporting balance sheet information in the format required by State insurance regulations. This format usually provided for the reporting of only net depreciable assets and only the home and branch office buildings and equipment were included. Other real estate holdings of these corporations were reported as "Other Investments."

The value of depreciable assets and accumulated depreciation may not be closely related to the current year depreciation deduction. The depreciable assets and accumulated depreciation balance sheet accounts reflected book values; the depreciation deduction reflected the amount claimed for tax purposes.

Depreciation

Depreciation deducted as a reasonable allowance for the exhaustion, wear and tear, and obsolescence of business property was allowable under Code section 167. A deduction for depreciation was not allowable on inventories, or land apart from the physical improvements or developments added to it.

Several methods of computation could have been used in determining the deduction for the year. A common method was straight line, whereby an equal amount of depreciation is deducted in each year of the useful life of the asset. The declining balance and the sum of the years-digits methods, whereby a larger portion of the asset's cost is written off during the earlier years of its life than during its later years, were also commonly used. Accelerated methods of depreciation were restricted for public utilities and certain kinds of real property beginning in 1969.

Property lives could be based either on the corporation's own experience, asset by asset, or on the Class Life Asset Depreciation Range (CLADR) system which pro-

vided for generally shorter than average lives. See also, "Depreciation under Class Life Asset Depreciation Range (CLADR) system."

Amounts shown as depreciation include any identifiable depreciation reported as an operating or manufacturing cost. Also included in the statistics are amounts deducted on leasehold improvements, patents, and copyrights, as well as small amounts of additional first-year (Code section 179) depreciation (limited by law in the case of controlled group members beginning with taxable years ended on or after December 1970). To comply with the definition of depreciation under the Internal Revenue Code, so-called amortization on station connections in the communications industry and of capitalized film production costs in the motion picture industry reported elsewhere in the return were also included in the statistics.

Depreciation Under Class Life Asset Depreciation Range (CLADR) System

Starting with 1971, the CLADR system was introduced as a new method of depreciating assets acquired during a given year. This was an elective method that enabled a corporation, on an annual basis, to group eligible assets into categories, called guideline classes. The corporation was then allowed to depreciate all assets in a class over a prescribed period of time, called a class life. The guideline class included assets grouped, regardless of their composition, according to the industrial activity (broadly defined) in which they were used. However, in the case of certain property types in general use, the asset classifications cut across industry lines.

The principal changes applicable to corporations in 1974 were as follows:

(1) New asset classes and lives were prescribed for assets used:

(a) to provide recreation and entertainment services in bowling alleys, billiard and pool parlors, theaters, concert halls, and miniature golf courses,

(b) to provide rides, attractions, and amusements in amusement-type parks, including accessory and support facilities if owned by the park, such as lodging and eating facilities and land improvements, and

(c) to produce electricity, for sale, by use of such prime movers as combustion turbines, and internal combustion engines that were jet, diesel and gasoline powered.

(2) Extant classes were modified to include assets used to transmit, distribute, and produce electricity generated by hydraulic, nuclear, and steam means.

For most assets, class lives could be increased or decreased by up to 20 percent at the corporation's option and use of them was unrelated to past replacement and retirement practices. This range was not allowed in the case of buildings, land improvements, or assets used outside the United States. Within a class, assets could be further grouped into one or more "vintage accounts" depending, for example, on the depreciation method used, or in order to separate depreciable real property from all other depreciable property.

In computing the depreciation deduction under the CLADR system, salvage value was not considered although no "vintage account" could be depreciated below a reasonable salvage value.

In using the system, corporations had a choice between assuming all acquisitions in a year were placed in service at the beginning of the second half of the taxable year, or that all acquisitions in the first half of the year were placed in service at the beginning of the year and all acquisitions in the second half of the year were placed in service at the beginning of the following year. The subsequent year's depreciation was computed as if all acquisitions were made at mid-year.

There were certain limitations and exceptions in using the CLADR system. Although all corporations could use CLADR, public utilities using accelerated depreciation methods could do so only if the resulting tax benefit was used as a source of working capital and not as a means of lowering rates to consumers. Also, certain property types could be excluded from the CLADR system, for example, used property (under special conditions). Other types were required to be excluded, for example, property for which there was no appropriate class, property for which depreciation was not based on the useful life concept, and property for which 60-month rapid amortization had been elected in lieu of depreciation.

Additionally, certain other property was excluded from the CLADR system under special provisions for real property and "subsidiary assets" (i.e., special tools such as jigs, molds, returnable containers, glassware, textile mill cam assemblies, and other equipment, which were specifically designed to produce or process particular

products, that could no longer be used after the particular products were modified) placed in service during the 3-year period, 1971-73, unless the Treasury could study and decide earlier whether their inclusion under the CLADR system was appropriate. All or part of the depreciable real property under section 1250 was excludable if a useful life shorter than that authorized by the 1962 Depreciation Guidelines was justified. Also excludable was all depreciable section 1245 property (principally machinery and equipment) which included a significant portion of subsidiary assets for which there was a separate class under the 1962 Depreciation Guidelines. This exclusion from the system applied if shorter lives were justified and if subsidiary assets comprised at least 3 percent of the aggregate cost or unadjusted basis of the year's acquisitions in a given class. However, beginning with 1973, many types of subsidiary assets were incorporated into the CLADR system for the first time in new revenue procedures which were first applicable to property placed in service after December 31, 1973. One of the new procedures was first applicable to property placed in service prior to January 1, 1974, and included motor vehicle manufacturing subsidiary assets such as jigs, dies, fixtures, molds, patterns, gauges, and specialty transfer and shipping devices. Another was first applicable to property placed in service after December 31, 1973, and included these same subsidiary assets if used to manufacture finished locomotives and railroad cars.

New shortened class lives were prescribed for a new group of subsidiary assets covering special tools and the definition of subsidiary assets was broadened to include service assets that became eligible for the CLADR election in 1974. In addition to jigs, dies, fixtures, molds, patterns, gauges, and specialty transfer and shipping devices, subsidiary assets, special tools, were defined to include mandrels, lasts, returnable containers, specialty containers, pallets, shells, and tire molds and accessory parts used by corporations to manufacture products made of glass, rubber, fabricated metal, and miscellaneous finished plastic. These assets were also included if used by ship and boat builders and manufacturers of primary ferrous metals, primary nonferrous metals, metalworking machinery, other machines, and electrical equipment. For food and beverage manufacturers, these assets were special handling devices such as returnable pallets, palletized contain-

ers, and fish processing equipment. Under the new shortened class lives, these assets could be depreciated over periods that ranged from 2 to 3 years for glass products, to 5 to 8 years for ship and boat building and other machines.

Subsidiary assets that were service assets comprised assets that tend to wear out, break, or disappear much faster than other assets. Such assets were primarily used by corporations engaged in wholesale and retail service and personal and professional services. Glassware, silverware including kitchen utensils, crockery, and linens were among the assets considered service assets. These assets could be depreciated over a 2 to 3 year period.

In conjunction with the CLADR system, depreciation of assets placed in service prior to 1971 could be placed under a special guideline Class Life System (CLS) on an elective basis as an alternative to computing depreciation based on the corporation's own experience. The CLS consisted of the CLADR classes and lives but without the 20 percent ranges associated with them. This system could be used regardless of whether the corporation had previously elected to use the Depreciation Guidelines in connection with pre-1971 acquisitions under Revenue Procedure 62-21. This previous procedure also encompassed the class life concept, but the lives (and any departures from them) had to be justified based on replacement and retirement practices using the depreciation "reserve ratio test." The CLADR (and CLS) systems thus replaced and superseded the 1962 Depreciation Guidelines.

Distributions to Stockholders

Distributions to stockholders consisted of the corporation's own stock, and of cash and other property, generally reported as part of the analysis of unappropriated retained earnings. Liquidating dividends, when identified, were excluded.

In those instances where a corporation reported only a single total for distributions to stockholders and did not identify this distribution as cash or stock or other property, that total was treated as a distribution to stockholders in cash and property other than in the company's own stock.

Regulated investment companies and real estate investment trusts could treat certain dividends paid after the close of their taxable

year as distributions during the current taxable year. In a similar manner, for Small Business Corporations electing to be taxed through stockholders, distributions of money made within 2-1/2 months after the close of the taxable year were considered to be distributions of the corporation's undistributed taxable income of the preceding taxable year. Otherwise, the statistics do not include amounts taxed but not actually distributed to stockholders in 1974. Conversely, the statistics do include amounts taxed through stockholders in previous years but not distributed until 1974.

For Domestic International Sales Corporations (DISC's), only amounts actually distributed (i.e., distributions that were made to meet the DISC qualification requirement under Code section 992, including "deficiency distributions" made after the close of the taxable year to avoid disqualification as a DISC, or other actual distributions) were included in the statistics. Those dividends not actually distributed, i.e., amounts deemed distributed under section 995, were excluded.

Dividends Received From Domestic Corporations

Dividends received from domestic corporations represented most distributions from current as well as accumulated earnings and profits of companies incorporated in the United States. For the most part, dividends received from domestic corporations included those recognized in computing the special deduction from net income for domestic intercorporate dividends received. (See "Statutory Special Deductions" in this section.)

Certain domestic dividends, although not deductible, were nevertheless included in dividends received from domestic corporations. They were dividends received by regulated investment companies, real estate investment trusts, and Small Business Corporations electing to be taxed through stockholders. Additionally, dividends from Domestic International Sales Corporations (DISC's) were included as domestic dividends received but were not deductible. Certain other dividends, not deductible, were treated for the statistics as "Other Receipts."

For most of the domestic dividends received, the deductible portion was equal to 85 percent (about 60 percent for dividends received on certain public utility stock). However, a 100 percent deduction was allowed for dividends received by members of a

controlled group from other members of the same controlled group. This deduction was allowed when the group did not elect to file a consolidated return and agreed instead to apportion a single surtax exemption among the group members. For members of controlled groups electing multiple surtax exemptions under section 1562 which had made that election prior to April 23, 1969, the deductible portion increased from 85 percent to 87.5 percent for those returns including December 31, 1970, to 90 percent for those returns including December 31, 1971, to 92.5 percent for those returns including December 31, 1972, to 95 percent for those returns including December 31, 1973, and to 97.5 percent for those returns including December 31, 1974. For other electing members, the rate remained at 85 percent. This increase corresponded to the gradual elimination of the multiple surtax exemptions for these groups.

Dividend distributions among member corporations electing to file a consolidated return were eliminated from the statistics as part of the consolidated reporting of tax accounts. For tax purposes, dividends reported on these returns represented amounts received from corporations that were outside the tax-defined affiliated group.

Dividends Received From Foreign Corporations

These dividends were paid from current as well as accumulated earnings and profits of companies incorporated in foreign countries.

Dividends received from foreign corporations included:

(1) dividends, subject to the 85 percent deduction, received by U.S. corporations from those foreign corporations at least 50 percent or more of whose gross income was effectively connected with business conducted in the United States,

(2) dividends, subject to the 100 percent deduction, received by U.S. corporations from wholly-owned foreign subsidiaries all of whose gross income was effectively connected with the conduct of U.S. trade or business, and

(3) any other foreign dividends, not subject to a deduction, which included--

(a) minimum distributions of Controlled Foreign Corporation profits under subpart F of the Internal Revenue Code,

(b) certain gains from the sale, exchange, or redemption of Controlled Foreign Corporation stock,

(c) foreign dividends received by Small Business Corporations electing to be taxed through stockholders,

(d) dividends (deemed or actual) received from Domestic International Sales Corporations (DISC's) were treated as if they were foreign dividends to the extent the dividends were attributable to certain export receipts.

Excluded from the dividend statistics was the "gross-up" of foreign taxes paid or deemed paid on the profits from which the dividends of subsidiaries incorporated in "developed" countries were distributed. This was done even though "Foreign dividend income resulting from foreign taxes deemed paid" (gross-up) was considered by law to be part of the dividends received. Dividends only constructively received from foreign subsidiaries, reported on the tax returns as "Includable income from Controlled Foreign Corporations," were also excluded. If these amounts were actually distributed at a later date, they were neither retaxed nor reported. For the statistics, both items were combined and shown under "Constructive taxable income from related foreign corporations." Table 11, however, shows them separately.

The foreign dividend statistics presented in this report are subject to certain limitations. They may be somewhat understated because some corporations reported certain foreign dividends as "Includable income from Controlled Foreign Corporations," since both were reported in the schedule for dividends received. When identified, these amounts were treated as foreign dividends for the statistics. Also, some corporations included as foreign dividends the gross-up of dividends by foreign taxes paid or deemed paid ("Foreign dividend income resulting from foreign taxes deemed paid"), while others did the reverse. Where these variations in taxpayer reporting were identified, the amounts were transferred to the correct item for the statistics.

Domestic International Sales Corporation Returns

Form 1120-DISC, Domestic International Sales Corporation Return, was filed by corporations which were established under the Revenue Act of 1971 as a means of encouraging the exportation of U.S. goods and services.

A system of tax deferral for DISC's and their stockholders

(mainly other corporations) was provided and in addition, the profits of a DISC were not taxed to the DISC but were taxed to the stockholders of the DISC when distributed or deemed to be distributed. In general, the stockholders of a DISC were deemed to receive an annual dividend equal to one-half of the DISC's taxable income. This deemed distribution was fully taxable to the stockholders even if the earnings were not actually distributed. Federal income taxation was deferred on the one-half of the DISC's taxable income which was not deemed distributed until one of the following events occurred: the income was actually distributed to the DISC's stockholders; a stockholder disposed of the DISC stock; the DISC was liquidated; or the election to be treated as a DISC was terminated or revoked.

Corporate stockholders receiving DISC dividends were not permitted the intercorporate dividends received deduction. The dividends received deduction was designed to prevent multiple taxation of corporate earnings; consequently, as a DISC itself was not subject to taxation the dividends received deduction was not applicable.

Dividends (deemed or actual) paid by a DISC were treated as dividends from a foreign corporation to the extent the dividends were attributable to certain export receipts of the DISC. Thus, all stockholders could claim a foreign tax credit for any foreign taxes imposed on a DISC dividend.

To qualify as a DISC, a corporation must have been organized under the laws of any State or the District of Columbia, have only one class of stock, issue outstanding capital stock with a par or stated value of at least \$2,500, and satisfy the "gross receipts" and "gross assets" tests.

The gross receipts test required that at least 95 percent of the corporation's gross receipts consist of "qualified export receipts." "Gross export receipts of DISC" in the statistics were from the sale, lease, or rental of property held primarily for these purposes during the ordinary course of business, and income from all other sources. In the case of commissions, gross receipts meant the total receipts on the sale, lease, or rental of property on which the commission was earned. In the case of gain or loss from the sale of assets, gross receipts meant the amount of net gain or loss. In general, qualified export receipts were receipts from the sale, lease, rental, or other disposition for

use outside the United States of "export property," or from the furnishing of services related and subsidiary to the sale or lease of export property. Also included were amounts of interest on obligations which were "Qualified export assets" and "Qualified dividends" which consisted of dividends and "Includable income from Controlled Foreign Corporations," in this case "Related foreign export corporations." (All other dividends and "Includable income from Controlled Foreign Corporations" were classified as "Nonqualified dividends.") "Export property" was defined as property manufactured, produced, grown or extracted in the United States. Receipts from exports subsidized by the U.S. Government or exports intended for use in the United States did not qualify as export property. A DISC could not engage in producing, growing, or manufacturing export property.

For statistical presentation, the sum of "Total qualified export receipts" and "Total nonqualified receipts" was adjusted to equal "Total receipts" as follows: total qualified and nonqualified export receipts were increased by the "Interest on State and local Government obligations: and the "Net loss, noncapital assets" and were decreased by the "Includable income from Controlled Foreign Corporations" to equal total receipts. These adjustments are shown in table 30, which shows items unique to the DISC return. Many of these items were combined for the standard presentation contained in table 31.

The gross assets test required that at least 95 percent of the corporation's assets be qualified export assets. In general, qualified export assets were inventories of export property; necessary operational equipment and supplies; trade receivables from export sales (including commissions receivable); producer's loans (i.e., loans of the DISC's profits to a U.S. export producer whether or not related to the DISC); working capital (i.e., cash and necessary temporary investments); investments in related foreign export corporations (including real property holding companies and associated foreign corporations); obligations issued, guaranteed, or insured by the Export-Import Bank or the Foreign Credit Insurance Association; and, obligations of the Private Funding Corporation.

A DISC which, for a taxable year, failed to satisfy the gross receipts test or the gross assets test, thereby failing to qualify

as a DISC, could nevertheless satisfy these qualification requirements by making a "deficiency distribution" for such a year, whereby the DISC made a distribution to its stockholders after the close of the taxable year. The DISC, at this time, had to demonstrate that the failure to make these distributions prior to the actual date made was due to reasonable cause.

Additionally, to qualify as a DISC, a new or previously existing corporation had to file an election requesting to be treated as a DISC. For the election to be valid, all stockholders of the corporation on the first day of the election year must have consented in writing. The election remained valid unless the corporation revoked it or failed to qualify as a DISC for 5 consecutive years.

The types of corporate organizations not eligible to be treated as a DISC were: (1) tax-exempt corporations; (2) Personal Holding Companies; (3) banks and trust companies; (4) mutual and savings banks, domestic building and loan associations, and cooperative banks; (5) insurance companies; (6) regulated investment companies; (7) China Trade Act corporations; and (8) Small Business Corporations electing to be taxed through their stockholders.

A DISC usually acquired export property from its parent or an affiliated corporation ("related suppliers") and then sold the property abroad; however, it could act simply as a commission agent on export sales of related suppliers. The method used for allocating income between a DISC and its related suppliers was therefore an important part of the DISC statute. The allocation was achieved through special intercompany pricing rules.

The allocation of income between a DISC and its related suppliers was affected to the extent the DISC itself incurred "export promotion expenses" (i.e., the ordinary and necessary expenses incurred to obtain qualified export receipts). In general, export promotion expenses included market studies; advertising; salaries and wages of sales, clerical and other personnel; rentals; sales commissions; warehousing (which could include rental warehouse facilities, labor, heat and power) and other selling expenses; and, one-half of the freight expenses (not including insurance) for shipping export property aboard airplanes owned and operated by U.S. persons or ships documented under the laws of the U.S. in those cases where law

or regulations did not require that the property be shipped aboard such airplanes or ships. Not included were interest expenses, income or franchise taxes, the cost of assembly operations or any expenses which did not directly or indirectly further the distribution of export property for use abroad. Also excluded were intercompany transactions in which the DISC contracted with an affiliate for export services to be rendered to it.

For any taxable year in which a corporation was a DISC or in which at any time it owned, directly or indirectly, stock in a DISC or former DISC, the corporation was not allowed to take the Western Hemisphere Trade Corporation deduction and was not entitled to exclude income earned in U.S. possessions which was otherwise tax-exempt under Code section 931.

Employee Benefit Programs

Contributions made by employers to such plans as death plans, health or accident and sickness plans, and other welfare plans, were deductible under Code section 162. The statistics for this item include amounts identified in the cost of sales and operations schedules.

Excluded were deductions claimed for employer contributions to pension plans and certain other deferred compensation plans within the scope of Code section 404. (See "Pension, Profit-Sharing, Stock Bonus, and Annuity Plans.")

For years prior to 1971 this item was entitled "Other Employee Benefit Plans."

Estimated Tax Payments

Estimated tax payments were quarterly installments required if a corporation's income tax (including tax from recomputing prior year investment and work incentive (WIN) credits and additional tax for tax preferences) after foreign tax, investment, and work incentive (WIN) credits was reasonably expected to exceed the sum of the exemption from estimated tax under Code section 6154 and any payment credits such as for the Federal excise tax paid on special fuels, nonhighway gasoline, and lubricating oil. Estimated tax was the excess of the expected tax over the exemption.

The statutory exemption from estimated tax was gradually reduced from \$100,000 in 1967 to \$40 in 1977. The reduction was to be accomplished over two 5-year periods, 1968 through 1972 and 1973 through 1977.

During the first 5-year period, the total exemption was the sum of a "temporary exemption" plus a "transitional exemption." The temporary exemption during the 5-year period was \$5,500 (equal to the 22 percent normal tax on the first \$25,000 of taxable income). The transitional exemption was the difference between the original \$100,000 exemption and the \$5,500 temporary exemption, decreased by 20 percent each year so that in 1968 it was \$75,600 (80 percent of the above difference) and so on, until in 1972, when it became zero.

During the second 5-year period, the total exemption was equal to the \$5,500 temporary exemption reduced each year by 20 percent until in 1976, when it was to become zero. For purposes of the 1974 statistics, the total exemption was either \$4,400 (the temporary exemption minus the initial 20 percent for taxable years beginning in 1973) or \$3,300 (the temporary exemption minus an additional 20 percent for taxable years beginning in 1974).

Estimated tax payments shown in this report may be somewhat less than the legal maximum percentages of tax due because, under the provisions of Code section 6655, certain tolerances were allowed in the relationship of the installment payments to the tax (for example, a corporation was not required to pay an estimated tax greater than the amount of tax liability for the previous year provided that the corporation had a tax liability for the previous year). Besides the limitations based on law, payments shown in the statistics may be slightly understated because of taxpayer reporting variations and the inability to identify all of the amounts from the tax returns.

Separate statistics are presented for 1974 estimated tax payments, credit for overpayment of prior year tax, quick refunds of estimated tax payments, and net payments after refunds.

Foreign Corporations With U.S. Business Operations

These were corporations incorporated in a foreign country which had income "effectively connected" with the conduct of a U.S. trade or business. Most of these foreign corporations filed on Form 1120F. In addition, since all life insurance companies, domestic and foreign, were required to file Form 1120L, foreign life insurance companies with income effectively connected with a U.S. life insurance business were also included in the statistics. If any of these same foreign corporations also had

income which was not effectively connected with a U.S. business, such income was not included in the statistics.

Income "effectively connected" with a U.S. business, in general, covered all types of income attributable to or generated by a U.S. place of business even if it was from foreign sources. All deductions, attributable to "effectively connected income" were allowed, except for certain charitable contributions which were totally deductible regardless of the "effectively connected" rule. In addition, under certain conditions, limited categories of other income from foreign sources were also included. These comprised rents and royalties from licensing businesses; certain income from banking, financing and similar businesses; and certain sales income attributable to U.S. sales offices if the property sold was for use abroad and an office abroad was instrumental in making the sale. However, dividend, interest, or royalty income from a foreign subsidiary 50 percent or more owned by the foreign corporation receiving the income was specifically excluded from "effectively connected" income. Also excluded was so-called "Subpart F income" (see "Includable Income from Controlled Foreign Corporations") since this income was deemed distributed to U.S. parent corporations and was thus already subject to tax once.

Foreign Dividend Income Resulting From Foreign Taxes Deemed Paid

Foreign dividend income resulting from foreign taxes deemed paid related to certain foreign taxes on profits of companies which were (a) 10 percent or more owned by domestic corporations and (b) incorporated in "developed countries" (defined in Code section 955). If dividends were distributed to a domestic corporation (from these foreign profits), the domestic corporation was required to increase (or "gross-up") such dividends by a proportionate amount of the foreign taxes deemed paid on the foreign profits for which the domestic corporation claimed a foreign tax credit. See also, "Foreign Tax Credit."

Analysis of returns of some of the larger corporations revealed instances where amounts reported as foreign dividend income resulting from foreign taxes deemed paid were actually dividends received from foreign corporations, and instances where amounts reported as dividends received from foreign corporations were actually the gross-up of foreign taxes paid or deemed paid. (Both of these items

were reportable on the dividends received schedule on the return.) If these amounts were so identified on supporting schedules they were transferred to the correct item for the statistics.

For all tables except table 11, foreign dividend income resulting from foreign taxes deemed paid is combined with includable income of Controlled Foreign Corporations and shown under the statistics for "Constructive Taxable Income from Related Foreign Corporations." Table 11 shows the items separately.

Foreign Tax Credit

Code section 901 allowed a credit against the U.S. income tax for income, war profits and excess profits taxes paid or accrued to foreign countries or U.S. possessions. Credit was also allowed against the U.S. tax under sections 902 and 960 for foreign taxes "deemed paid."

The credit could be claimed by domestic corporations, and also by foreign corporations engaged in trade or business in the United States, for foreign taxes on income effectively connected with the U.S. business. The credit was not allowed though, for Small Business Corporations electing to be taxed through stockholders even when these corporations were taxed on certain capital gain income. Since Domestic International Sales Corporations (DISC's) themselves were not taxable, foreign tax credit was not applicable; however, DISC stockholders could claim a credit for foreign taxes paid by a DISC.

When the foreign tax credit was claimed, the alternative, a business deduction for foreign taxes, could not be used in computing taxable income. The U.S. income tax which could be reduced by the credit excluded the tax from recomputing prior year investment credit, the tax from recomputing prior year work incentive (WIN) credit, and the additional tax for tax preferences.

Under Code section 902, credit was allowed for foreign taxes deemed paid, when a domestic corporation received a dividend from a foreign corporation in which it owned a 10 percent or more voting stock interest, for the taxes paid on the foreign corporation's accumulated profits out of which the dividends were paid. A portion of the taxes paid or accrued by the "first-tier" foreign corporation was deemed to have been paid by the domestic corporation. The taxes eligible for credit were determined based on the relationship between the

foreign corporation's profits and the amount paid to the domestic corporation as dividends.

In addition, if the first-tier foreign corporation owned 10 percent or more of the voting stock of a "second-tier" foreign corporation from which it received a dividend, the first-tier foreign corporation was deemed to have paid a proportionate amount of the foreign taxes of the second-tier foreign corporation. In turn, the domestic corporation was deemed to have paid a portion of these same taxes. However, section 902 did not apply unless the percentage of voting stock owned by the domestic corporation in the first-tier foreign corporation and the percentage of voting stock owned by the first-tier foreign corporation in the second-tier foreign corporation equalled at least 5 percent when multiplied together.

The second-tier foreign corporation was deemed to have paid a proportionate amount of the foreign income, war profits and excess profits taxes paid or accrued by a "third-tier" foreign corporation whenever it owned 10 percent or more of the voting stock of a third-tier foreign corporation from which it received a dividend, and the product of the following equalled at least 5 percent: the percentage of voting stock owned by the domestic corporation in the first-tier corporation, the percentage of voting stock owned by the first-tier foreign corporation in the second-tier foreign corporation, and the percentage of voting stock owned by the second-tier foreign corporation in the third-tier corporation. In turn, the first-tier foreign corporation and the domestic corporation were deemed to have paid a portion of these same taxes.

Credit computed the same way as that described above for section 902 was also allowed for taxes deemed paid on distributions constructively received from Controlled Foreign Corporations under Code section 960. The credit was allowed for these distributions if the domestic corporation owned 10 percent or more of the first-tier Controlled Foreign Corporation. However, if the first-tier Controlled Foreign Corporation received distributions from a second-tier Controlled Foreign Corporation, it was required to own at least 50 percent of that corporation's voting stock before it could include the taxes deemed paid of the second-tier Controlled Foreign Corporation in the computation of its own taxes deemed paid. No credit was allowed under section

960 for taxes deemed paid on distributions received from third-tier Controlled Foreign Corporations. Constructive distributions, i.e., distributions "deemed" but not "actually" received, are described under "Dividends Received from Foreign Corporations" and "Includable Income from Controlled Foreign Corporations."

In the case of taxes paid on foreign mineral income, the foreign tax credit was reduced to the extent that (a) the foreign tax exceeded the U.S. income tax payable on such income and (b) the excess was due to the lower profits recognized for U.S. tax purposes because of the deduction for percentage depletion.

The amount of the foreign tax credit was limited. Code section 904 provided two alternative methods of computing the limit. Corporations could elect the "overall" limitation method whereby the foreign taxes claimed for credit could not exceed an amount based on the ratio of total foreign taxable income to the U.S. corporation's total taxable income. (There were restrictions on the use of the "overall" method in the case of affiliated groups filing consolidated returns that included Western Hemisphere Trade Corporations.) Corporations could elect to use a "per country" limitation method instead. (For taxes paid in connection with certain interest income, the credit was computed separately and on a "per country" basis, regardless of the limitation elected for the rest of foreign income.) Under this method the same ratio was used but it was computed separately for each country of which taxes were paid.

Generally, income of all types from foreign sources could be combined for purposes of computing the foreign tax credit. However, for dividends received from Domestic International Sales Corporations (DISC's) that were attributed to certain export receipts (and were thereby regarded as foreign dividends), the foreign tax credit limitation was computed separately with respect to aggregate dividends received from all DISC's, and then to all other foreign source income.

Foreign taxes in excess of the limitation for any one year could be carried back to the 2 preceding years and then carried over to the 5 succeeding years to reduce income tax, subject to the foreign tax credit limitation of the years to which they were carried. Any unused foreign taxes remaining at the end of the carryover period could not be claimed. The 1974 statistics therefore include

excess foreign taxes carried over from the 5 preceding years. However, because *Statistics of Income* is based on returns as originally filed, the amount of excess foreign taxes carried back from the 2 succeeding years for inclusion in a recomputed 1974 foreign tax credit was not available. Therefore, the statistics for the 1974 credit are necessarily incomplete.

Gross Export Receipts of DISC and Related U.S. Persons

This item represents the gross receipts of the Domestic International Sales Corporation (DISC) and related U.S. persons derived outside the United States reported on Schedule N, Form 1120-DISC. Related U.S. "persons" included: (1) individuals (who were citizens or residents of the United States) and domestic partnerships, trusts, or estates which controlled a DISC; (2) domestic corporations which controlled, or were controlled by a DISC; and (3) domestic corporations which were controlled by the same person or persons who controlled a DISC. Control meant direct or indirect ownership of more than 50 percent of the voting stock of a DISC or other domestic corporation.

Inactive Corporation Returns

Corporations in existence during any portion of the taxable year were required to file a return even though they may have been inactive. The number of returns for inactive corporations (defined for this report as returns showing no item of income or deduction) is presented in table B. Financial data from these returns were excluded from the statistics.

Includable Income of Controlled Foreign Corporations

This item represented amounts, not actually received, which a domestic corporation owning at least 10 percent of a Controlled Foreign Corporation was required by Code section 951 to include in its gross income. For most purposes, the foreign corporation was considered controlled if more than 50 percent of its voting stock was controlled by U.S. persons, including domestic corporations, each of whom owned at least 10 percent of its voting stock.

The includable income consisted of:

(1) subpart F income, defined below, except if "minimum distributions" (based on the relation-

ship of the foreign and U.S. tax rates so that the combined tax on the foreign corporation's earnings approximated 90 percent of what the U.S. tax alone would have been) were made,

(2) any previously excluded subpart F income which had been invested in qualified assets in "less developed countries," but which was now either withdrawn from these countries or remitted to the U.S. stockholders and was thereupon taxable, and

(3) any increase in Controlled Foreign Corporation earnings due to investment in U.S. property.

Subpart F income, defined in Code section 952, included:

(1) income attributable to premiums received by foreign insurance companies that were Controlled Foreign Corporations (here defined in terms of 25 percent voting stock ownership), 75 percent or more of whose insurance business was on U.S. risks, and

(2) "foreign base company income," which included:

(a) foreign "personal holding company" income (income derived from portfolio investments or from "passive" investments),

(b) foreign base company sales income (generally from the sale of property produced in the United States or a foreign country by one corporation and sold by a related corporation, generally a trading company, organized in another country, having a low rate of taxation, for use outside that country), and

(c) foreign base company services income.

Foreign base company income excluded income from qualified investments in less developed countries or from sales of U.S. exports as well as income derived from use of aircraft or vessels in foreign commerce and related services.

Analysis of returns of some of the larger corporations revealed instances where amounts reported as includable income from Controlled Foreign Corporations were actually dividends received from foreign corporations (both of these items were reportable on the dividends received schedule on the return). If these amounts were so identified on supporting schedules they were classified for statistical purposes as foreign dividends. Since the full extent of such variations in taxpayer reporting is not known, the amount shown for includable income may be somewhat overstated.

Table 11 shows this income separately. In other tables it is combined with "Foreign Dividend Income Resulting from Foreign

Taxes deemed paid" under the heading "Constructive Taxable Income of Related Foreign Corporations."

Income Subject to Tax

The 1954 Code provided several tax bases for different types of corporations. These included the "taxable income" base defined by Code section 63, used by the majority of corporations, and to which the normal tax and surtax rates applied; a variation of this base in combination with long-term capital gain when the lower capital gains rate was applicable; the special capital gains tax base of Small Business Corporations electing to be taxed through their stockholders; the several tax bases applicable to insurance companies; and the amounts taxable to regulated investment companies and real estate investment trusts. All of these tax bases are included under this heading; however, small amounts of regulated investment company undistributed long-term capital gains were excluded. Since Domestic International Sales Corporations (DISC's) themselves were not taxable, income subject to tax was not applicable (see "Domestic International Sales Corporation Returns").

For most corporations, the income subject to tax consisted of net income minus certain "statutory special deductions" (described in this report under separate heading). However, there were certain exceptions where net income minus statutory special deductions did not equal income subject to tax. In some cases, the statutory special deductions for dividends received and for dividends paid on certain preferred stock of public utilities exceeded net income. For these returns, income subject to tax was reduced to zero and the excess of the two special deductions became the statutory loss for the year, available for deduction purposes over the prescribed carryback and carryover periods.

Also, the tax bases applicable to Small Business Corporations electing to be taxed through their stockholders, life insurance companies, regulated investment companies, and real estate investment trusts were not defined as net income less statutory special deductions.

Depending on which resulted in the lowest tax, the tax base for Small Business Corporations electing to be taxed through their stockholders was either (1) net income, (2) the amount of net long-term capital gain in excess of \$25,000, if more than 50

percent of net income; or (3) the amount attributed to gain from the disposition of property using a "substituted basis" (i.e., the basis that was transferred from another corporation which was not a Small Business Corporation electing to be taxed through its stockholders). No net operating loss carryovers and carrybacks were available, nor were deductions allowable for statutory special deductions.

For life insurance company statistics, net income was derived from gain or loss from operations (which included the "company's share" of investment income) to which statutory special deductions were added back. Income subject to tax was the smaller of gain from operations and the "company's share" of investment income less the deductions applicable; plus, when this investment income was the smaller, half the difference between investment income and gain from operations. To this total was added any amount subtracted from the policyholders' surplus account (which contained income nontaxable in the year earned, but taxable later on when withdrawn from this reserve account, even if the company had no current year net income).

In addition, the life insurance company provisions applied to mutual savings banks with life insurance departments; the banking and insurance departments were each separately taxed although data for the two departments were combined for the statistics.

In the case of regulated investment companies and real estate investment trusts, any net long-term capital gain (reduced by net short-term capital loss) which was not distributed to stockholders was taxed to the companies, and always at the capital gains rate, even though the alternative tax method was not allowed. The balance of undistributed income was taxed at the normal tax and surtax rates. Undistributed net long-term capital gain taxed at the capital gains rate was not available from the income tax computation schedule of the return form and no attempt was made to obtain it from attached schedules for the statistics.

See also, "Income Tax."

Income Tax

Income tax was the gross amount of income tax liability before deducting the foreign tax, investment, and work incentive (WIN) credits. (Since Domestic International Sales Corporations (DISC's) themselves were not taxable, income tax was not applicable; see "Domestic

International Sales Corporation Returns.")

The basic income tax consisted of:

(1) a normal tax of 22 percent on total taxable income plus a surtax of 26 percent on total taxable income in excess of \$25,000, for corporations with 1974 accounting periods ended in 1974 (for purposes of this report, July 1974 through December 1974);

(2) for corporations with 1974 accounting periods extending into 1975 (ended January 1975 through June 1975, for this report), the Tax Reduction Act of 1975 required a proration of tax since, for 1975, the normal tax rate was reduced from 22 percent to 20 percent for the first \$25,000 of taxable income. For taxable income in excess of \$25,000, the normal tax rate remained at 22 percent. Also, the surtax exemption was increased from \$25,000 to \$50,000, thereby decreasing the amount of income subject to the 48 percent tax rate by \$25,000. The proration was computed as follows: first, the income tax was computed with a \$25,000 surtax exemption and second, with a \$50,000 surtax exemption. The normal tax rate was 20 percent of the first \$25,000 of taxable income and 22 percent on taxable income in excess of \$25,000. Then the two taxes were prorated according to the number of days in the taxable year before and after the December 31, 1974, effective date of the law change;

(3) in lieu of the normal tax and surtax on total taxable income an alternative tax was allowed, whereby the excess of net long-term capital gain over net short-term capital loss was taxed at the capital gains rate while the balance of income was taxed at the normal tax and surtax rates. This method of computing income tax was not available to regulated investment companies and real estate investment trusts. The alternative capital gains rate was 30 percent in most cases. In certain other cases, the alternative capital gains rate was 25 percent. (See "Net Capital Gains" in this section.)

In addition to the preceding, the statistics for income tax also include:

(4) an additional tax for tax preferences ("minimum tax"), described under separate heading,

(5) the tax from recomputing a prior year investment credit, described under separate heading,

(6) the tax from recomputing a prior year work incentive (WIN) credit, described under separate heading,

(7) the 30 percent tax on certain long-term capital gains of Small Business Corporations electing to be taxed through their stockholders, and

(8) the 30 percent tax on undistributed net long-term capital gain (reduced by net short-term capital loss), and the normal tax and surtax on the balance of undistributed income of regulated investment companies and real estate investment trusts.

Income tax shown in this report for returns without net income was attributable to the small number of returns showing:

(1) income tax under special provisions of the Internal Revenue Code applicable to insurance businesses,

(2) tax from recomputing a prior year investment credit,

(3) tax from recomputing a prior year work incentive (WIN) credit, and

(4) additional tax for tax preferences.

Statistics for income tax do not reflect the Personal Holding Company tax nor do they reflect any adjustments to the tax liability such as those resulting from:

(1) recomputation of the 1974 taxable income to reflect the carryback of net operating losses and certain capital losses for future years,

(2) reduction of income tax by foreign tax, investment, and work incentive (WIN) credits recomputed to take account of the carryback of unused investment credit and foreign taxes of certain future years,

(3) audit examinations and other enforcement activities, and

(4) uncollectible taxes.

The statistics therefore differ somewhat from the actual income tax collections and the final income tax liability of corporations for tax year 1974.

Industrial Classification

Among the several classifications used in this report, tax return data were classified according to the *principal* business activity of the corporation. Returns were classified in the "minor" industry which accounted for the largest portion of total receipts even though the return may have been for a company engaged in many business activities or may have been a consolidated return filed for the members of an affiliated group of corporations. Industrial divisions were comprised of major industries, which in turn were comprised of minor industries.

Year-to-year changes in the classification of specific corporations could have resulted

from mergers and other changes in organization or from filing consolidated returns as well as from a change in the principal source of total receipts.

The industries used in this report generally conform with the Enterprise Standard Industrial Classification (ESIC) authorized by the Office of Federal Statistical Policy and Standards of the Department of Commerce. This classification, which was designed to classify companies (which are often engaged in more than one industrial activity), follows closely along the lines of the more detailed Standard Industrial Classification (SIC) which was designed to classify single activity "establishments." Some departures from the ESIC system were made for *Statistics of Income* for the finance industries in order to reflect particular provisions of the Internal Revenue Code.

Intangible Assets

The total gross amounts (before the reduction by amounts of accumulated amortization) for contracts, copyrights, formulas, licenses, patents, registered trademarks, research or experimental expenditures and similar assets were included in this category only if amortization (or depreciation) were shown against them. These assets could be amortized only if they had a definite life and value. Other intangible assets which were not amortizable were included in the statistics with "Other assets."

Accumulated amortization represented the cumulative adjustment to these intangible assets as shown on the corporation's books of account.

Interest on State and Local Government Obligations

The interest on obligations issued by States, municipalities and other local Governments, the District of Columbia, and U.S. possessions was exempt from the income tax. The amounts shown for this item are less the amortizable bond premium.

For statistical presentation, this interest is shown as part of the income statement and is included in total receipts. Most corporations reported this tax-exempt interest in the reconciliation of income per books with income per return (schedule M-1 on the Form 1120 tax return).

Interest on United States Government Obligations

This taxable interest, a component of total receipts, was

received from obligations issued by the United States, its agencies, or its instrumentalities. The amounts shown for this item are less the amortizable bond premium.

Interest Paid

These amounts were deductible as ordinary and necessary business expenses and included interest paid by corporations on business indebtedness. Included in the statistics were amounts of interest paid on installment purchases if they were stated in the contract, as well as certain unstated amounts under Code section 483. For banking and savings institutions the amounts also included interest paid on deposits and withdrawable shares.

Inventories

Based on amounts reported on the balance sheet, inventories included such items as raw materials, finished and partially finished goods, merchandise on hand or in transit, and growing crops reported as assets by agricultural concerns. Amounts reported by investment and holding companies (other than operating holding companies), security and commodity brokers, dealers and exchanges, and real estate developers and operative builders, were excluded and included in "Other investments." However, for consolidated returns which included these companies, amounts which could not specifically be identified as inventories of these companies were included in the statistics.

Inventories were generally valued at cost or at the lower of cost or market price. A variation of the cost method was the "last-in, first-out" (LIFO) method of inventory identification, based on the proposition that the most recently purchased or produced inventories were those that were sold first and that taxable income was most clearly reflected by relating the cost of the most recently acquired inventories to sales. Table 8 shows inventories valued using the LIFO method and related statistics. The statistics for corporations which used the LIFO method shown in this table are based on the attachment of a Form 970, Application for the Adoption and use of the Elective Inventory Method, to the return for the taxable year in which LIFO was first adopted for all inventories or only for the inventories of a product line, geographic group, division or other specific part of the corporation, or on information provided in the narrative

description of inventory valuation methods requested in the cost of goods sold schedule. The data are understated to the extent corporations used the LIFO method, but did not indicate this in the cost of goods sold schedule and did not have to attach a Form 970 to the return because LIFO had previously been adopted.

Corporations with manufacturing or production operations had to use the "full absorption" method to determine the cost of inventories for taxable years beginning after September 18, 1973. The full absorption method was prescribed by income tax regulations and required that corporations include indirect as well as direct production costs in determining the cost of inventories. (See the discussion in section 1.)

Investment Credit

Investment credit, restored by the Revenue Act of 1971, was the reduction, after limitations, of income tax allowed corporations based on their investments in certain depreciable property with a useful life of at least 3 years. Such property could not be disposed of prior to the end of the useful life used as the basis of the credit. Otherwise, the credit already taken had to be repaid as an additional tax for the year in which the disposition occurred. (See "Tax from Recomputing Prior Year Investment Credit.")

In general, the investment credit before limitations was equal to 7 percent of "investment qualified for credit" (4 percent for public utility property), an amount derived from the cost of property and designed to give weight to investments in longer-lived assets. The credit claimed could equal the income tax available for investment credit--income tax (excluding tax from recomputing prior year investment credit and additional tax for tax preferences) less foreign tax credit but before work incentive (WIN) credit--unless the tax available for the credit was in excess of \$25,000. Then, the investment credit was limited to \$25,000 plus 50 percent of the excess over \$25,000. Certain limitations were applicable to special classes or kinds of corporations. Code section 46 limited the applicability of the credit for mutual savings banks, building and loan associations, and cooperative banks by reducing the qualified investment and \$25,000 tax liability limitation by 50 percent. In the case of regulated investment companies and

real estate investment trusts, the qualified investment and \$25,000 tax liability limitation were reduced in the same proportion in which the organizations' taxable income was reduced by dividends paid to stockholders or beneficiaries. Similarly, in the case of cooperatives, the qualified investment and \$25,000 tax liability limitation were reduced in the same proportion in which the organizations' taxable income was reduced by patronage dividends and nonpatronage distributions. Section 48 reduced the tax and used property limitations for members of "controlled groups" so that the group as a whole was subject to the same dollar limitations as an individual corporation not part of a group and the controlled group was somewhat more broadly defined than for ordinary tax computation purposes.

Generally, the investment credit that could not be claimed became the unused investment credit for the current taxable year and could be used to reduce the income tax liability in other years.

The credit was allowed for the first year that the property was placed in service. Property qualified for the credit was defined as tangible personal property, tangible real property (except buildings and their structural components), plus elevators and escalators. "Tangible personal property" comprised all property which was contained in or attached to a building, such as machinery or equipment. Certain types of property, even though physically located outside a building or accessory to a building were also considered to be tangible personal property. Tangible personal property also included livestock other than horses, and motion picture and television film.

"Tangible real property" included property used as an integral part of manufacturing, production, or extraction; or, used in furnishing transportation, communication, electrical energy, gas, water or sewage disposal services; or, used as a research or storage facility in connection with any of these activities.

Public utility property was property used predominantly in the business of selling or furnishing (1) electrical energy, water, or sewage disposal services, (2) gas through local distribution systems, (3) telephone services, and telegraph services by means of domestic telegraph operations, and (4) other communication services except international telegraph services. However, the rates for

any of these services had to be established or approved by certain types of government regulatory bodies. Public utility property subject to the 4 percent credit also included communication property, or property for communication purposes, acquired by nonregulated companies if it was the type normally used by regulated utilities. Other rules applicable to public utility property limited somewhat the eligibility of submarine cables for credit if the credit was passed on in its entirety to customers through lower rates (rather than dividing the benefit between investors and customers).

Investment credit could not be claimed for property with a useful life of less than 3 years, and the eligibility of used property was further limited in that the total cost recognized could not exceed \$50,000. Also ineligible for the investment credit was (1) property used for lodging, except for coin-operated machines in apartment buildings, (2) property used predominantly outside the United States, except for commercial communication satellites, submarine telephone cables used exclusively in communication links between the United States and foreign countries, and drilling equipment used in international or territorial waters, (3) property used by certain tax-exempt organizations, (4) property used by governmental units, or international organizations, (5) property consisting of horses; or, of other livestock if sold and replaced by substantially identical animals during a relatively short specified period of time, (6) property for which special 5-year rapid amortization was elected in lieu of ordinary depreciation (including certain pollution-control facilities, railroad rolling stock, coal mine safety equipment, on-the-job training and child care facilities, and expenditures for the rehabilitation of low-income rental housing), and (7) certain foreign-produced property (especially defined) that was constructed or erected after August 15 and before December 20, 1971, or acquired pursuant to an order placed during this same period (but with exceptions chiefly for certain agricultural equipment), and thereafter only if stated under executive order of the President.

For property constructed, reconstructed, or erected beginning before April 1, 1971 and completed after August 15, 1971, only that part of the cost incurred after August 15 was eligible for the credit. However, "pre-termination property" (property which, in

general, was constructed under a binding agreement prior to the April 1969 repeal of the investment credit) continued to be eligible for the credit even if construction began before April 1, 1971.

The special capital gains tax imposed on Small Business Corporations electing to be taxed through stockholders could not be reduced by investment credit since these companies were not eligible to claim the credit (their investment was allocated among the stockholders, who then claimed the credit).

Investment Credit Carryover

Amounts of "tentative" or "earned" credit based on "qualified investment" could not be claimed if they exceeded the first \$25,000 of income tax plus 50 percent of the tax in excess of \$25,000 in a given year. (For this purpose, income tax was defined as the amount remaining after deducting any foreign tax credit and excluding additional tax for tax preferences and tax from recomputing prior year investment credit.) Amounts of credit in excess of these limitations (including amounts earned by corporations that had no tax for the year) could be carried back, chronologically, for use in the 3 preceding years provided they were within the same limitations based on tax for each year. Any amount remaining could then be carried over to the 7 succeeding years, in chronological order, in the same manner. Special rules were set forth for the carryover period for unused credits still eligible to be claimed for investments made prior to the 1969 repeal. The Tax Reform Act of 1969 had repealed the credit for all property that was acquired or whose construction, reconstruction, or erection began after April 18, 1969. To effectuate the repeal of the credit, the 1969 Act had provided that the unused credits which could be used in 1969 and later years could not exceed 20 percent of the aggregate carryover to 1969. Under the Revenue Act of 1971, the carryover period was extended from 7 to 10 years.

In order to discourage corporations from postponing investments eligible for credit until any remaining unused credits under the previous law were "used up," the 1971 Act repealed the 20 percent limitation for taxable years ending after December 1971; and, for that part of a taxable year that ended after August 15, 1971, but prior to 1972, the 20 percent limitation was increased

by 6 percent per month for the part of the year that occurred after August 15. The 1971 Act also reversed the normal sequence in which the current-year tentative credit and the unused credit carryover from prior years could be applied with regard to the credit limitations based on size of tax. In contrast to the sequence provided under prior law, the 1971 Act provided that for taxable years beginning in 1971 or later, the limitations were to be first absorbed by carryovers from pre-1971 years, and then, to the extent possible, by the tentative credit for the current year, and finally, by carryovers and carrybacks from post-1970 years. Additionally, for taxable years beginning in 1971 or later, the carryovers from pre-1971 years could be used up over a 10-year rather than a 7-year period. However, the 3-year additional carryover period did remain in effect for carryovers and carrybacks to taxable years beginning after December 31, 1968 and ending after April 18, 1969, but only for carryovers and carrybacks to taxable years beginning before January 1, 1971. Under this rule, only that portion of a carryback or carryover to such taxable years that could not be completely used up solely because of the 20 percent limitation qualified for the additional 3-year period.

The statistics may include any carryover of unused credit for "suspension period property" (up to \$20,000 worth of property was exempted from the temporary suspension of investment credit from October 10, 1966, through March 9, 1967). The statistics may also include the carryover of any unused credit for "pre-termination property" (property which was acquired or constructed during the period April 19, 1969, through August 15, 1971, when the credit was terminated if there was a binding contract entered into before the period began). Data for the carryback of unused credit were not reported on the current year return and, thus, are not reflected in the statistics. (For the relationship between carryover and the unused credit see "Unused Investment Credit.")

Investment Qualified for Credit

Under the law in effect prior to 1971, qualifying property with a useful life of 4 years or more was eligible for the investment credit. Beginning in 1971, the law allowed the credit for eligible property with a useful life of 3 years or more. Previously, if property had a life of 4 but less than 6 years,

one-third of its cost (or basis) comprised "qualified investment" eligible for credit. Property with a life of 6 but less than 8 years "qualified" with respect to two thirds of its cost and property with a life of 8 years or more was fully "qualified." For property acquired or constructed after March 31, 1971, the Revenue Act of 1971 maintained those proportions of investment qualified for credit but shortened the useful life classes by one year each. More specifically, the proportion of the property's cost (or basis) which comprised "qualified investment" eligible for the credit was: one-third if the property had a useful life of 3 but less than 5 years; two-thirds if the property had a useful life of 5 but less than 7 years; and the full amount if the property had a useful life of 7 years or more. (The former classes continued to apply, however, for "pre-termination property" acquired or completed before August 16, 1971, unless construction began after March 31, 1971.)

"Qualified investment" (shown in the statistics as "investment qualified for credit") was thus the base upon which the credit was computed. It took into account purchases of new property and to a limited extent, purchases of used property. While, for corporations in general, qualified investment equalled the sum of amounts based on the useful life class percentages described above, for "public utility property" qualified investment was equal to 4/7 (previously 3/7) of the sum thus determined. Thus, in effect, the investment credit for public utility property was 4 percent (previously 3 percent) instead of the 7 percent allowed corporations in general.

However, in completing Form 3468, Computation of Investment Credit, corporations with investment in public utility property were asked to report the full amount of qualified investment, but to use a reduced percentage (4 percent) in computing the tentative investment credit. (See "Tentative Investment Credit.") Therefore qualified investment as defined by the law is somewhat overstated in the statistics. This should be taken into consideration in relating qualified investment to tentative investment credit. Other limitations applied to certain banking and savings institutions, investment companies, and cooperatives.

For 1974, the statistics for investment qualified for credit may have included amounts of suspension period property acquired during the temporary suspension of the credit (October

10, 1966 through March 9, 1967) but not placed in service until the 1974 tax year. This property, which was not eligible for the credit was normally identified by the taxpayer and was removed from the total during the editing stage of statistical processing.

However, in some cases it could not be identified for removal and remained in the total.

The statistics for investment qualified for credit do not include property constructed or acquired during the termination period after April 18, 1969 and generally through March 31, 1971. However, so-called pre-termination property (which was constructed or acquired during this period under a binding contract in effect on April 18, 1969) is included.

Investments in Government Obligations

This balance sheet asset item comprised (1) bonds or other obligations of a State, or U.S. possession, including obligations of political subdivisions and of the District of Columbia, and (2) U.S. obligations, including those of instrumentalities of the Federal Government. In those instances where a corporation reported only one total for investments in Government obligations and did not indicate whether the obligations represented those of the United States or of State and local Governments, the total was treated as investments in U.S. obligations.

Land

Land, which was reported as a separate capital asset on the balance sheet, may be understated in this report because it could not always be identified. Some corporations may have included land as part of "Depletable assets" or included it in "Other investments." If land was certified as an emergency facility for the national defense, it could be amortized. If so, only the net land value (i.e., the value of land after the adjustment for amortization) was reported.

Loans From Stockholders

This balance sheet liability item was regarded as long-term in duration and may have included loans from stockholder corporations as well as from other stockholders.

Loans to Stockholders

This balance sheet asset item was regarded as long-term in duration and included loans to stockholder corporations as well as to other stockholders.

Long-term Capital Gain From Certain Binding Contracts and Installment Sales

Long-term capital gains which stemmed from installment sales or other disposition made under certain binding contracts entered into before October 10, 1969, if received before January 1, 1975, were taxed at the pre-1970 alternative rate of 25 percent in lieu of the revised 30 percent rate required by the Tax Reform Act of 1969. The 25 percent rate did not apply to gains from timber, coal, or domestic iron ore eligible for capital gains treatment under Code sections 631 and 1231.

Since these gains were reported only in connection with the computation of income tax, the statistics for them may be slightly understated because the amount was not required to be reported separately on returns of corporations not having any income subject to tax.

See the explanations for "Net Long-Term Capital Gain Taxed at Alternative Rates" and "Income Tax" in this section.

Members of Controlled Groups

Members of controlled groups were those corporations which were related to one another generally through 80 percent or more common stock ownership and which filed separate tax returns under the provisions of Code sections 1561-1564. These provisions also effectively covered the filing prerequisites for most consolidated returns since the stock ownership requirement used to define an affiliated group eligible to file a consolidated return was similar to the controlled group ownership requirements. (See "Consolidated Returns.")

The controlled group provisions applied when (1) a common parent corporation had 80 percent or more control of one or more chains of subsidiaries (parent-subsidiary group), or when (2) five or fewer persons (individuals, estates, or trusts), individually or in combination, had 80 percent or more control of each of two or more corporations, but where the sum of each person's "identical" ownership in the group totaled

more than 50 percent (brother-sister group). "Identical" ownership was considered to be the lowest common percent of ownership of an individual owner in each of the corporations comprising the group. Thus, if a person had ownership in each corporation in a given group and the smallest percent ownership was, for example, 5 percent of corporation A, that person's identical ownership in the entire group was considered to be 5 percent. Combination groups were possible when a person or persons controlled two or more corporations, one of which was the parent of one or more subsidiary corporations.

Two or more related life insurance companies were required to be treated as a controlled group separate from any other corporation to which they may have been related. Domestic International Sales Corporations (DISC's) were by their nature members of controlled groups. However, control was defined in terms of 50 percent stock ownership. DISC returns were not included in table 34.

Control was based on the total combined voting power or total value of all classes of outstanding shares. Certain stock was disregarded altogether and special constructive stock ownership rules applied depending on the type of controlled group involved. Certain corporations were not considered as members of controlled groups. Included in this category were franchised corporations, tax-exempt organizations, foreign corporations with income not effectively connected with a U.S. trade or business, and corporations which were members of the controlled group for less than one-half the days in their taxable year that preceded December 31.

Code section 1561 limited the surtax exemption to one per group. However, as an alternative, code section 1562 allowed each controlled group that filed separate returns for each member to claim a \$25,000 surtax exemption for each member provided an additional tax equal to 6 percent of each surtax exemption (in excess of the one allowed the group) was reported on each return. Under provisions of section 1564, section 1562 was to be phased out, starting with 1970, over a 5-year transition period at the end of which multiple surtax exemptions would no longer be allowed. During the transition period, each \$25,000 multiple surtax exemption was reduced by \$4,167 per year; the 6 percent additional tax continued to apply over this time, but it amounted to less since it was imposed on the gradually diminished amount of

each exemption. For purposes of the 1974 statistics, the value of multiple surtax exemptions was \$8,333 (for taxable years that included December 31, 1973) and \$4,167 (for taxable years that included December 31, 1974).

Mortgage and Real Estate Loans

Mortgage and real estate loans were, in general, the total amount which a corporation loaned on a long-term basis, accepting mortgages, deeds of trust, land contracts, or other liens on real estate as security. Because the return form did not provide a separate place for reporting any reserve for uncollectible mortgage and real estate loan accounts, such reserves may have been included in the "Allowance for bad debts," shown in this report as an adjustment to "Notes and accounts receivable." If a separate reserve was indicated in supporting schedules, statistics for it were therefore added to the allowance for bad debts.

Mortgages, Notes, and Bonds Payable

These liabilities were separated on the balance sheet according to the length of time to maturity of the obligations. The length of time to maturity was based on the date of the balance sheet rather than on the date of issue of the obligations. Accordingly, long-term obligations maturing within the next taxable year were included together with short-term obligations in the statistics for mortgages, notes, and bonds payable in less than 1 year. Deposits and withdrawable shares may have been reported in mortgages, notes, and bonds payable by banks and savings institutions. When identified, such amounts were transferred to "Other current liabilities."

Net Capital Gains

(Net long-term capital gain reduced by net short-term capital loss)

(Net short-term capital gain reduced by net long-term capital loss)

Net capital gains represented the excess of gains over losses from the sale or exchanges of capital assets subject to the limitations described below. Gains and losses were short-term (if the asset was held for 6 months or less) or long-term (if the asset was held for more than 6 months).

Net short-term gains (reduced by net long-term losses) were taxed

as ordinary income. However, net long-term gains (reduced by net short-term losses) were taxed at a rate of 30 percent for 1971 and thereafter. This rate however did not apply to (1) amounts received under binding contracts and installment sales made before October 10, 1969, and (2) distributions from corporations made before October 10, 1970, as a result of complete liquidation plans adopted before October 10, 1969. For these transactions the lower rate of 25 percent which was in effect for 1969 and earlier years continued to apply.

Excess net losses sustained in taxable years beginning after 1969 could be carried back as short-term losses to be applied against the net capital gains of the 3 preceding years; any losses remaining after carryback were carried over to the 5 succeeding years. Excess net losses sustained in taxable years beginning in 1969 or earlier, could only be carried over; no carryback was allowed. Use of the carryback for post-1969 excess net losses was limited; however, it was not allowed to increase or cause a deductible "net operating loss" for prior years and was not allowed for foreign expropriation capital losses (although a special carryover period of 10 years for such losses was allowed instead) or for capital losses of Small Business Corporations electing to be taxed through their stockholders. If the unused capital loss carryover was not eliminated within the prescribed span of years, it could not be taken.

Code section 1221 defined the "capital assets" (or transactions) to which special treatment applied as all property held by the corporation except:

(1) stock in trade, or property of a kind includable in inventories,

(2) property held for sale to customers in the ordinary course of business,

(3) notes and accounts receivable acquired in the ordinary course of business,

(4) certain short-term Government obligations sold at a discount,

(5) depreciable property used in the trade or business,

(6) real property used in the trade or business, and

(7) certain copyrights, literary, musical, or artistic compositions or similar properties.

Net gains from dispositions of some of the property types excluded from the definition of capital assets under Code section 1221, could receive capital gain treatment under special conditions set forth in other sections, while net gains from some of the

property types included under the definition could be denied capital gain treatment under still other sections. The latter are referred to under the heading, "Net gain or loss, noncapital assets."

Property used in trade or business, excluded from the tax-definition of capital assets, received special treatment under Code section 1231. Gains and losses from sales or other dispositions of this property had to be aggregated first. If the overall result was a net gain, it was included in the computation of net long-term capital gain or loss. If the overall result was a net loss, it was included in the computation of net gain or loss from sales of property other than capital assets. Thus, a net gain under section 1231 could receive the more beneficial treatment of a long-term capital gain taxable at the alternative tax rate, while a net loss under section 1231 could receive the more beneficial treatment as an ordinary loss fully deductible against all types of income and not just against capital gain income.

The types of property (or transactions) to which Code section 1231 applied were:

(1) real and depreciable property used in the trade or business, held for more than 6 months, and not includable in inventory or not held for sale in the ordinary course of business;

(2) timber cut by the taxpayer during the year, if owned, or held under contract to cut, for more than 6 months before the beginning of the taxable year, and if an election was made under Code section 631 to treat the cutting as a sale or exchange of property used in trade or business;

(3) domestic iron ore, timber, or coal, held for more than 6 months, if disposed of under a royalty contract whereby the owner retained an economic interest in the property, so that under Code section 631, the net gain or loss on the royalty income was treated as a net gain or loss on a sale or exchange of property used in trade or business;

(4) unharvested crops disposed of with the land and used in the business of farming if the land was held for more than 6 months; and

(5) livestock (including fur-bearing animals such as chinchillas, minks, and foxes), except poultry, held for drafting, breeding, dairying, or sporting purposes, and, except for cattle and horses, acquired after 1969, held for 12 months or more. The holding period for cattle and horses acquired after 1969 was 24 months or more.

The amount of gain eligible for capital gains treatment under Code section 1231 was reduced in the case of certain real and depreciable property by sections 1245, 1250, 1251, and 1252, and in the case of certain mining property, by section 617.

Code section 1245 provided that eligible gain for most depreciable property except certain kinds of real property be based on the amount of depreciation allowed on it prior to 1962. Section 1250 provided that eligible gain for certain depreciable realty be based on a percentage of the excess of accelerated depreciation over straight line depreciation allowed prior to 1963 and on the length of time the property was held. However, with certain exceptions for sales of housing, no gain based on excess depreciation taken after 1969 was eligible for capital gains treatment.

Section 1251 further limited the eligible gain for certain types of real or depreciable property to the amount in excess of farm net losses accumulated after 1969 or, in the case of farmland, to an amount in excess of certain agricultural deductions accumulated during the most recent 5-year period. Section 1252 went further, by then limiting the gain treatment of farmland depending on the length of time the property was held.

Section 617 limited eligible gain on certain mining property to an amount in excess of the sum of current and recent prior year deductions for exploration and development expenditures.

None of these Code provisions had any effect on the treatment under Code section 1231 of losses resulting from the disposition of such property. For a description of the property to which sections 1245, 1250, 1251, 1252, and 617 applied, see the explanation of "Net Gain (or Loss), Noncapital Assets."

Net gains and certain net losses under Code section 1231 also resulted from "involuntary conversions" not only of the property types or transactions otherwise covered by section 1231, but also of the capital assets defined in section 1221, if they were held for more than 6 months. Gain or loss from involuntary conversions such as by condemnation were included in the regular consolidation of section 1231 gains and losses previously described. Beginning with 1970 though, a separate netting of gains and losses was required for involuntary conversions by theft, or from fire, storm, shipwreck or other casualty, whether insured or uninsured. If the result was a

net loss, it was treated as a fully deductible loss (without regard to other section 1231 transactions) and was excluded from the capital gain statistics. If, on the other hand, the result was a net gain, then it was consolidated with other gains and losses under section 1231. See the discussions of "Net Gain (or Loss), Noncapital Assets" and "Other Deductions."

Net Gain (or Loss), Noncapital Assets

This computation resulted mostly from the sale or exchange of (1) certain depreciable, depletable, and real property (described below); (2) notes and accounts receivable acquired in the ordinary course of business for services rendered or from the sale of property includable in inventory, or ordinarily held for sale; (3) certain copyrights, literary, musical, or artistic compositions or similar properties; (4) securities by dealers; (5) securities, including Government obligations, and other evidence of indebtedness such as convertible debentures, by banking, savings, and certain other financial institutions; (6) certain patents, inventions or designs, secret formulas or processes, and similar property rights by domestic corporations to their more-than-50-percent owned foreign subsidiaries; and (7) qualified export assets by Domestic International Sales Corporations (DISC's). Also included were amounts resulting from (8) certain "involuntary conversions" including net losses from casualty and theft, and (9) certain sales, exchanges, or redemptions of Controlled Foreign Corporation stock (see "Dividends Received from Foreign Corporations").

With respect to the statistics for net gain or loss, noncapital assets, an assumption was made for the statistics in the case of sales of stocks and commodities by stock and commodity brokers, dealers, and exchanges; and sales of real estate by real estate subdividers, developers and operative builders. If these transactions were included in gross receipts and cost of goods sold on the tax return, instead of in net gain or loss from noncapital assets, the resulting profit or loss from the transactions (representing the difference between the receipts and the cost of sales) was transferred to the statistics for net gain or loss, noncapital assets, but only if the cost of

sales was more than 50 percent of the receipts (if 50 percent or less, the receipts were regarded as commission income). The tax return data for receipts and cost of sales were accordingly adjusted for the statistics (see "Business Receipts").

As explained under the definition of "Net Capital Gains," a net gain from dispositions of (or certain transactions involving) specified types of business assets that were considered noncapital assets based on Code section 1221, could receive capital gains treatment under section 1231. Gains and losses from these dispositions or transactions first had to be aggregated. If the overall result was a net gain, it was included in the computation of net long-term capital gain, but if the overall result was a net loss, it was included in the computation of net gain or loss, noncapital assets. The special treatment in this computation of gains and losses resulting from involuntary conversions, due mostly to casualty and theft, is described under "Net Capital Gains." Form 4797 called for net losses from casualty and theft to be included in the computation of "Net gain or loss, noncapital assets" (although some corporations reported them in "Other Deductions").

The amount of gains (though not losses) on dispositions of property includable in the computation of net gain or loss under Code section 1231, was limited as a result of sections 1245, 1250, 1251, 1252, and 617. To the extent the amount eligible for capital gains treatment was thereby reduced, the amount included in the statistics for net gain or loss, noncapital assets, was increased.

Code sections 1245 and 1250 applied to certain depreciable property. Sections 1251 and 1252 prescribed additional rules for much of this same property if it was used in the business of farming, as well as for certain other types of property used in farming and covered under section 1231. Section 617 applied to certain depletable property.

Code Sections 1245 and 1250

The depreciable property to which Code section 1245 applied was: (1) personal property other than livestock, whether tangible (such as machinery and equipment), or intangible (such as patents and copyrights); and (2) other tangible property including certain realty other than buildings and their structural components, if it was an integral

part of specified business activities, or which constituted research or storage facilities used in connection with such activities. The business activities qualifying were manufacturing, production, or the providing of transportation, communications, electrical energy, gas, water, or sewage disposal service.

The depreciable property to which Code section 1250 applied was real property not already covered by section 1245. In general, this property consisted of buildings and their structural components in the case of tangible property; or leaseholds of land, in the case of intangible property.

The amount of gain on dispositions of depreciable property under Code section 1245 and 1250, treated as ordinary income and included in the statistics for net gain or loss, noncapital assets, generally depended upon the amount of depreciation claimed on the asset after a certain date, prior to its disposition, although other factors were also considered in the case of section 1250 dispositions.

Under Code section 1245, the amount of gain treated as ordinary income was based on the depreciation (or amortization in the case of defense "emergency facilities") allowed or allowable after 1961 (after 1963 for elevators and escalators and after 1969 for livestock (including fur-bearing animals such as chinchillas, minks, and foxes)). This "depreciation recapture" applied to dispositions of property made during taxable years beginning after 1962 (after 1963 for elevators and escalators and after 1969 for livestock).

Under Code section 1250, the amount of gain treated as ordinary income was based, in general, on the excess of accelerated over straight line depreciation allowed or allowable after 1963. However, this "depreciation recapture" was further qualified in the case of depreciation taken, or sales made, during 1963-69, so that if the property was held for more than 20 months, the "recapture" was further reduced to a proportion of this difference until, when the property was held for 10 years, the "recapture" as ordinary gain was not applicable at all.

For depreciation taken, or sales made, after 1969, these qualifications were rescinded (with certain exceptions for residential rental housing, housing rehabilitation expenditures, and Government-subsidized housing), so that the entire amount of post-1969 excess depreciation was "recaptured" as ordinary income.

Code Sections 1251 and 1252

Under Code section 1251, net gain or loss from noncapital assets included ordinary gains from the sale or other disposition of certain types of farm business property which would otherwise have been eligible for long-term capital gain treatment under section 1231. Dispositions already regarded as ordinary gain or loss using section 1250 rules were excluded.

Amounts treated as ordinary gain were based on farm net losses accumulated after 1969. These net losses were before the gain or loss under Code section 1231 and, over the years, were first offset against any farm net income. The resultant accumulated loss was then applied against the gain on farm property. If the gain exceeded the accumulated loss, it was treated as ordinary gain to the extent of the loss and only the excess gain was eligible for capital gains treatment. If the reverse was the case, the gain was similarly treated and the excess loss was carried over for use in connection with future gains. For electing Small Business Corporations, this recapture of farm losses was less restrictive and was applicable only if farm net loss exceeded \$25,000, nonfarm net income exceeded \$50,000, and none of the stockholders had a farm net loss of their own. Section 1251 was not applicable if farming operations were accounted for on an accrual basis, inventories used, and deductible amounts capitalized and recovered over the years through depreciation, even though the law permitted expensing of the full amount currently on an elective basis.

Code section 1231 property subjected to these recapture rules included depreciable personal property; livestock (including fur-bearing animals such as chinchillas, minks, and foxes), except poultry; unharvested crops sold with the land on which they were growing; and land. For land, there was a limitation under section 1251 on the amount of gain treated as ordinary income: the amount recaptured could not exceed accumulated deductions for soil and water conservation and land clearance expenditures in the current and 4 preceding years. However, there was an additional recapture for land, under section 1252. This recapture was based on a declining annual percentage of total post-1969 deductions for these same expenditures. The percentage was reduced to zero when land was held for 10 years or more at which time the additional recapture did not apply.

Code Section 617

Under Code section 617, corporations engaged in domestic mining operations that elected to claim unlimited deductions for exploration and development expenses (except for oil and gas) had to "repay" their post-1969 deductions when the mine reached the producing stage or when it was sold. If the mine was sold, the profit was treated as an ordinary net gain from a noncapital asset to the extent that the gain was equal to or less than any post-1969 deductions not already "recaptured" prior to the sale. Such gains are reflected in the statistics. Any net gain in excess of the deductions was a net gain under section 1231, and eligible for capital gains treatment.

Net Income (or Deficit)

This difference between gross taxable receipts and the ordinary and necessary business deductions reflects not only actual receipts but "constructive" receipts as well. "Includable income from Controlled Foreign Corporations" and "Foreign dividend income resulting from foreign taxes deemed paid" in this section describe this income which, though not actually received, was required to be reported by corporations for tax purposes.

The statistics for net income are generally larger than the statistics shown for "Income subject to tax." The reason for this is that certain statutory special deductions from net income were allowed most corporations in computing their income subject to tax. Also, the net income of Small Business Corporations is included in the statistics of net income while only certain long-term capital gains which were taxable to these corporations were assigned to the statistics for income subject to normal tax, surtax, and alternative tax. Further, the net income statistics include the amounts for Domestic International Sales Corporations (DISC's); since these corporations were not taxable, they had no income subject to tax to report.

For mutual insurance companies other than life or marine and other than certain fire or flood insurance companies, the net income (or deficit) used for Statistics of Income was the sum of the net investment income or loss, the statutory underwriting income or loss, and the subtractions from the Protection Against Loss (PAL) account before statutory special deductions

allowed corporations in general. Net income, therefore, reflects not only the ordinary business deductions but the statutory deductions from underwriting income allowed only to these mutual insurance companies. It also reflects the additions (if any) to taxable income of amounts previously deferred from taxation in the PAL account. Statutory deductions from underwriting income and subtractions from the PAL account are described in the Form 1120M return and instructions in section 5 of this report and in Code sections 823 and 824.

Net income for some small mutual insurance companies reporting under Code section 821(c) equalled net investment income only. The provisions of this section were applicable only to companies with income from investments (other than capital gains), with premiums of less than \$500,000, and with no reserve in the PAL account. These provisions were elective. Electing companies were not required to report underwriting income.

For life insurance companies, the net income (or deficit) used for statistical purposes comprised the gain or loss from operations shown on the Form 1120L return (see section 5 of this report) adjusted by adding back the dividends received and the operations loss deductions. Gain or loss from operations (which included both underwriting and investment income) represented gross taxable receipts reduced by ordinary and necessary business deductions and by additions to required reserves, certain other statutory deductions pertinent only to these companies, and by the dividends received and operations loss deductions.

Net Income (or Deficit) per Books of Account

This was the after-tax profits as reported in tax return schedules reconciling income per books of account with income per Internal Revenue Code (see Schedule M-1, "Reconciliation of income per books with income per return," on the Form 1120 return facsimile in section 5 of this report), or in the case of most insurance companies, from the annual statements filed with the return.

For the most part, tax law provisions agree with accepted accounting practices and recognize the application of general accounting principles to the conditions and practices of a particular trade or business. However, for certain kinds of income, deduc-

tions, or transactions, the law allows or requires special accounting that digresses from generally accepted accounting methods.

Four fundamental reasons account for most of the disparity between tax and book profits: (1) different bases, or accounting values, assigned to property which, for example, affect the size of depreciation or gain or loss when the property is sold; (2) different definitions of numerous components, e.g., depreciation, depletion, and bad debt losses; (3) accounting differences in timing the receipt of income and the expensing of deductions, e.g., installment sales, income from construction contracts, prepaid income or anticipated future losses or expenses, income from foreign subsidiaries and expenses typically capitalized on the books but expensed on the tax return, (e.g., intangible drilling costs), or vice versa; and (4) recognition of certain income and deductions for tax purposes only, e.g., the "Foreign dividend income resulting from foreign taxes deemed paid," or for book purposes only, e.g., interest on State and local Government obligations, lobbying expenses, and certain undistributed profits of foreign subsidiaries.

The data shown are subject to certain limitations. Although all corporations were required to provide data for a reconciliation of profits, some did not include them in their tax returns as originally filed, while others provided them in schedules of their own design from which total net income per books could not always be determined. Also, net income for tax purposes is likely to be more uniformly determined than net income for book purposes because of the necessity to conform with provisions of the Internal Revenue Code, although complete uniformity is lacking because of the various elections, special treatments, and other provisions in the law. In addition, net income per books was after taxes. The income tax liability reported on the tax return often differed from the book amount because of the several methods of accounting for taxes on the books. The statistics may be slightly overstated depending on how parent corporations accounted for the earnings of their nonconsolidated subsidiaries. Duplication resulted when the parent reported its equity in subsidiaries in its book net income and the subsidiaries then also reported their individual book net incomes on their own returns.

On an historical basis, both book and tax net income are affected by changes in accounting practices by particular companies, in generally accepted accounting principles, and in tax law. Moreover, because more definitive measures of the differences between tax and book profits are not available, there is no way of knowing how much of the difference is permanent (because of different definitions) or only temporary (timing differences would be expected to "wash out" over a number of years).

Net Long-Term Capital Gain Reduced by Net Short-Term Capital Loss, in Excess of \$25,000

These amounts of gain in excess of \$25,000 represented the tax base for "taxable" Small Business Corporations electing to be taxed through their stockholders (certain newly electing corporations were liable for tax either on their net long-term capital gains in excess of \$25,000 when net long-term capital gains were more than 50 percent of a net income that was over \$25,000, or on their net income in excess of \$25,000, whichever resulted in a lower tax). See the discussion under "Income Subject to Tax" in this section.

Net Long-Term Capital Gain Taxed at Alternative Rates

This was the part of the tax base used for the tax computation allowed under Code section 1201 for those returns where the alternative tax rate resulted in a lower tax liability than would have resulted from using normal tax and surtax rates on total taxable income. See also the discussion under "Income Tax."

Income subject to tax for returns with alternative tax was the sum of (1) net long-term capital gain (reduced by net short-term capital loss), and (2) income taxed at normal tax and surtax rates (the balance of taxable income).

For most corporations, use of the alternative tax did not affect the amount shown as income subject to tax. However, when net long-term capital gain (reduced by net short-term capital loss) was greater than taxable income (net income minus statutory special deductions) but the alternative rate (30 percent for 1971 and thereafter, 28 percent for 1970, and 25 percent for certain transactions occurring before October 10, 1969) applied to the capital gains was less than the regular rates applied to taxable

income, the capital gains, rather than taxable income became the tax base and was used for the income subject to tax statistics.

Net Worth

Net worth represented the stockholders' equity in the assets of the corporation in contrast to the claims of creditors. In the statistics it comprises the net sum of the items:

- (1) capital stock,
- (2) paid-in or capital surplus,
- (3) retained earnings, appropriated,
- (4) retained earnings, unappropriated,
- (5) less: cost of treasury stock.

Each of these items is explained under its own heading in this section.

Noncalendar Year Returns

Returns filed for a twelve-month accounting period ended during July through November 1974 or during January through June 1975 were included in this classification. Chart 1 in section 1 shows the percentage of returns filed for each of the accounting periods covered in this report.

Notes and Accounts Receivable

Notes and accounts receivable were, in general, the gross amounts of current trade items, that is, amounts receivable arising from sales or services to customers on credit during the ordinary course of trade or business which would normally be converted to cash within 1 year. Current nontrade receivables were generally included in "Other current assets."

The tax return balance sheets on most corporation income tax forms called for the reporting of both "gross" receivables and the "Allowance for bad debts." However, some corporations reported only the net amount. In addition, in the case of Domestic International Sales Corporations (DISC's), only the net amount was called for on the tax return balance sheet, and in the case of insurance companies filing balance sheets in the form required under State law, only the net amount was reported.

Loans and mortgages may have been reported in notes and accounts receivable by savings and loan associations. When identified, such mortgage loans were transferred to "Mortgage and Real Estate loans."

The allowance for bad debts, shown as an adjustment to notes and accounts receivable, may also include the reserves for the separate account, mortgage and real estate loans. As a result, it was possible for the allowance for bad debts to exceed the amount of notes and accounts receivable.

Number of Returns

Returns of inactive corporations were excluded from the statistics, except in table B where inactive corporation returns are included in the total number and are also shown separately. (See "Inactive Corporation Returns.") The number of Form 1120-DISC and Form 1120S returns filed, respectively, by Domestic International Sales Corporations and Small Business Corporations for which an election was made to be taxed through stockholders are included in each total number (except for those tables which specifically exclude these returns) and are also shown separately in some of the tables.

Other Assets

Other assets comprised, in general, noncurrent assets which were not allocable to a specific account on the return form balance sheet, and certain accounts for which no distinction could be made between current and noncurrent status.

Includable were such items as deferred charges reported as noncurrent by the corporation, interest discounts, guaranty deposits, and intangible assets not subject to amortization. Other assets of banks included property held in trust if included in the banks' assets. Other assets of life insurance companies included the market value of real estate, and that portion of stock and bond holdings in excess of book value. For Domestic International Sales Corporations (DISC's), this item also included "nonqualified assets" (i.e., assets that were not export related or that failed to meet the requirements indicated for "qualified export assets" in Code section 993).

Other Current Assets

Assets not allocable to a specific current account in the return form balance sheet, and assets specifically reported as short-term by the corporation, as well as marketable securities other than Government obligations comprised this account.

Includable were prepaid expenses, nontrade receivables, coupons and dividends receivable, claims and judgments, and similar items. For construction corporations, amounts reported as a current item for contract work in progress in excess of billings were includable in this item.

Also includable in other current assets were amounts reported as inventories on nonconsolidated returns of investment and holding companies (other than operating holding companies); security and commodity brokers, dealers, and exchanges; and real estate subdividers, developers, and operative builders.

Other Current Liabilities

Other current liabilities included, for the most part, certain amounts due and payable within the coming year. The account comprised accrued expenses, as well as current payables not arising from the purchase of goods and services and not evidenced by bonds, notes, or mortgages. Examples of other current liabilities were taxes accrued or payable, accrued employee accounts such as for payrolls and contributions to benefit plans, dividends payable, overdrafts, accrued interest or rent, and deposits and withdrawable shares of banking and savings institutions.

For construction corporations, amounts of advances or deposits on uncompleted contracts or jobs in progress were included in this item, if reported as current.

Other Deductions

Other deductions comprised (1) business expenses which were not allocable to a specific deduction item on the return form, or which were not included elsewhere on the return form, and (2) certain amounts which were given special treatment in the course of statistical processing.

The first category included such items as administrative, general, and selling expenses; bonuses and commissions; delivery, freight, and shipping expenses; sales discounts; travel and entertainment expenses; utility expenses not reported as part of the cost of goods sold; and similar items.

The second category included salaries and wages not reported as a cost of sales and operations and not reported as a part of another deduction item; amortization of bond premiums and certain other financial items such as loan or

mortgage costs reported as amortization (corporations often reported this deduction as part of other deductions for which no special treatment was required); unrealized profit on current-year installment sales; reported amounts of negative income; and certain "involuntary conversions" (described below). Also included were itemized business deductions and other deductions unique to Domestic International Sales Corporations (DISC's), life and most mutual insurance companies. Included was the "small business deduction" used by life insurance company controlled group members. The use of the "small business deduction" was gradually curtailed beginning with 1970, so that by 1975, only one deduction per group would be allowed. In the case of DISC's, the statistics include deductions such as those for market studies, sales commissions, and freight and other expenses (whether or not export promotional).

The estimates for other deductions may include losses resulting from involuntary conversions by theft, or from fire, storm, shipwreck, or other casualty (see the discussion under "Net Capital Gains") if these losses were reported in the taxpayer's own schedule for other deductions. For the statistics, no attempt was made to transfer the data to the capital gains computation. Losses from involuntary conversions which were reported as ordinary losses were included in the estimates for "Net gain (or Loss), noncapital assets."

Other Interest

Included in this item were amounts received on loans, notes, mortgages, bonds, bank deposits, and corporate bonds less amortizable bond premium. For installment sales, interest received included amounts stated in the contract and certain unstated amounts of interest, as provided in Code section 483.

Other Investments

This category generally included long-term non-Government investments and certain investments for which no distinction could be made as to their current or long-term nature. Non-Government investments generally not held for conversion to another form within the coming year included stocks, bonds, loans on notes or bonds, loans to subsidiaries, and other types of financial securities. Also included in this category

(except in table 30) were investments unique to Domestic International Sales Corporations (DISC's), such as investments in related foreign export corporations, Export-Import Bank obligations, and producer's loans.

Real estate not reported as a capital asset could also be included. In certain instances, land and buildings owned by real estate operators (except lessors of real property other than buildings), and real holdings of insurance carriers, other than their home office and branch office buildings and equipment, were reported as "Other investments."

In one respect the statistics may be somewhat overstated. Treasury stock intended for resale may have been reported as an asset on some tax returns and if not clearly identified as treasury stock would have been included in the statistics for "Other investments." When these amounts could be identified, they were transferred to the liability side of the balance sheet statistics under "Cost of treasury stock."

Other Liabilities

Other liabilities were obligations which were not allocable to a specific account on the return form balance sheet and which were either noncurrent accounts, in general not due within 1 year, or accounts which could not be identified as either current or long-term.

Examples of other liabilities were deferred or unearned income not reported as part of a current account, provisions for future taxes based on the effects of either accelerated depreciation or possible income-tax adjustments such as for the investment credit, and principal amounts of employee and similar funds.

Other Receipts

Other receipts included amounts not elsewhere reported on the return form, such as: profits from sales of commodities other than the principal commodity in which the corporation dealt; income from minor operations; cash discounts; income from claims, license rights, judgments, and joint ventures; net amount earned under operating agreements; profit from commissions; profit on prior years' collections (installment basis); profit on the purchase of a corporation's own bonds; recoveries of losses and bad debts previously claimed for tax purposes; refunds for the cancellation of contracts;

and income from sales of scrap, salvage, or waste. Also regarded as other receipts were certain dividends received, such as from Federal Reserve and Federal Home Loan Banks, and from the following special classes of corporations: China Trade Act corporations; corporations deriving a large percent of their gross income from sources within a U.S. possession; and tax-exempt charitable, educational, religious, scientific and literary organizations, and mutual and cooperative societies including farmers' cooperatives.

For Domestic International Sales Corporations (DISC's), other receipts comprised all "nonqualified" gross receipts reported on the return except nonqualified dividends. In addition, in the case of DISC's acting as commission agents for someone else, only the commissions earned and not the underlying gross receipts on which the commissions were earned were included in the statistics. Nonqualified gross receipts thus took into account: (1) sales of goods and services for ultimate use or consumption in the United States, (2) exports subsidized by the U.S. Government, (3) certain direct or indirect sales or leases for use by the U.S. Government, and (4) sales to other DISC's in the same controlled group of corporations. (See also, "Business Receipts.")

Overpayments Claimed as a Credit

This was the amount of overpayment the corporation specifically requested to be credited to 1974 estimated tax, in lieu of requesting a refund in the prior year. The credit is reflected in the amount shown as estimated tax payments.

Paid-In or Capital Surplus

This balance sheet item comprised additions to the corporation's capital from sources other than earnings. These sources included amounts of surplus occasioned by donation, appreciation of assets, receipts from the sale of capital stock in excess of stated value, stock redemptions or conversions, and similar transactions. The amounts shown are after deducting any negative amounts.

Part-Year Returns

Part-year returns were those filed for accounting periods of less than 12 months which ended in the period July 1974 through June

1975. Such returns were filed as a result of business liquidations, reorganizations, mergers, and changes to new accounting periods. Chart 1 in section 1 shows the percentage of returns filed for each of the accounting periods covered in this report.

Payments With Applications for Extension of Filing Time (Forms 7004 and 7005)

These statistics were derived from the income tax returns rather than from the application for extension of time to file, Form 7004, and the application for additional extension of time to file, Form 7005, or their equivalents. Corporations which filed Form 7004 on time and paid the required amount of tax liability (tentatively determined) were granted an automatic extension of 3 months in which to file returns. A second extension (requested on Form 7005) of 3 months could be granted under certain conditions.

Requesting the extension of time to file the return did not postpone the payment of tax. When an extension was requested on Form 7004, at least half of the unpaid balance of the tax liability tentatively determined (taking into account any credits against tax, as well as any estimated tax payments) was due. If the option of paying the tentatively determined tax liability on an installment basis (with the balance due on or before 3 months after the regular filing date) was not used, the entire amount was due with the application. If a second extension of time to file was applied for, the balance of any unpaid tax liability was due at the time of the application.

The statistics may be slightly understated because of taxpayer reporting variations and because of the inability to identify the total amount from the tax returns.

Pension, Profit-Sharing, Stock Bonus, and Annuity Plans

Contributions made by employers to these plans were deductible under Code section 404. The Code imposed limitations on the amounts deductible for the taxable year and provided a carryover feature for certain amounts paid in excess of these limitations. Deductions were also allowed for employer contributions made to benefit plans established for certain U.S. citizens employed by foreign subsidiaries and branches of domestic corporations. The statistics for this item include such amounts identified in the cost of sales and operations schedules. (See also, "Employee Benefit Programs.")

Personal Holding Company Tax

In addition to being subject to regular income tax and additional tax for tax preferences, corporations classified as Personal Holding Companies were subject to another tax equal to 70 percent of their "undistributed Personal Holding Company income."

Briefly, the term Personal Holding Company was applied to certain closely-held corporations whose income was from passive sources (generally investments and personal service contracts) rather than from the actual active conduct of a trade or business. The 70 percent tax was imposed on the taxable income (especially defined) from passive sources reduced by amounts distributed to owners.

Since most Personal Holding Companies distributed all of their Personal Holding Company income, only a small number were actually subject to the tax. In addition, the tax is slightly understated because the Personal Holding Company tax was not always reported separately from the regular income tax.

The tax appears in the statistics for industries other than "Holding and other investment companies except bank holding companies." This is because a Personal Holding Company could be a subsidiary included in a consolidated return classified in some other industry.

Refunds of Estimated Tax Payments

A corporation which had determined that it had overpaid its estimated tax could have filed for a quick refund or adjustment of the overpayment even before it had filed its return. To have done so, the estimated tax overpayment had to be at least \$500 and be at least 10 percent of the expected "final" income tax liability reported on the tax return.

The application for refund had to be made within 2-1/2 months after the close of the taxable year and before the corporation had filed its income tax return. If the refund (or credit against any other tax owed, in lieu of a refund) was subsequently determined to be excessive, the tax on the excess included an amount determined at a rate of 6 percent per year of the excess.

Rent Paid on Business Property

These deductions for ordinary and necessary expenses consisted of rents paid for the use of land or structures; and rents paid for

leased roads, rolling stock, and work equipment for railroad companies. Identifiable amounts of taxes paid and other expenses of lessees in connection with rent paid were included in their respective deduction headings.

Rents

These were the gross amounts received for the use or occupancy of property. Expenses related to rental property such as depreciation, repairs, interest paid, and taxes paid were not deducted directly from the rental income but were reported as business deductions from total receipts. The rental income of manufacturing, public utility, and service corporations which frequently leased rather than sold their products, was included in "Business Receipts" rather than as rents.

Repairs

Repairs reported as an ordinary and necessary business expense were the costs of maintenance and incidental repairs and could include the cost of labor, supplies, and other items which did not add to the value or appreciably prolong the life of the property. Expenditures for new buildings, machinery or equipment, or for permanent improvements which increased the cost or basis of the property were not deductible currently and were charged to capital expenditures, which were generally depreciable.

For the relatively few taxpayers using the Class Life Asset Depreciation Range (CLADR) system (see the discussion under "Depreciation under Class Life Asset Depreciation Range (CLADR) system" in this section), an alternative method of computing the deduction for repairs was available when ambiguity existed as to whether expenditures for repairs, maintenance, rehabilitation, or improvement of depreciable property could be deducted in the year paid or incurred, or had to be capitalized and depreciated over the useful life of the property. Under the rules prescribed, all qualifying expenditures within a given asset guideline class were treated as currently deductible repairs provided they did not exceed the "repair allowance." The repair allowance for an asset guideline class was based on the percentage prescribed for that class applied to the "average" cost or unadjusted basis of "repair allowance property" in that class. Amounts in excess of the percentage had to be capitalized.

Retained Earnings, Appropriated

Earnings set aside for specific purposes and not available for distribution to stockholders were included under this heading. Included were guaranty funds and reserves for plant expansion, bond retirements, and contingencies for extraordinary losses. Specifically excluded were the reserves for bad debts, for depreciation, for depletion, and for amortization, which were shown separately; and, the reserves for taxes, and unrealized profits or unearned income, which were includable in "Other liabilities."

Retained Earnings, Unappropriated

Retained earnings, unappropriated consisted of the retained earnings and profits of the corporation less any reserves (shown in the statistics as "Retained earnings, appropriated"). The statistics shown are net figures after deduction of any negative amounts.

For Domestic International Sales Corporations (DISC's), this item included previously taxed DISC income, undistributed DISC income, and other earnings and profits.

Similarly, for electing Small Business Corporations, this item included earnings from before the corporation's election as well as earnings since the election, to the extent that they had not yet been distributed to the stockholders.

Returns of Active Corporations

These returns were the basis for all financial statistics presented in the report. They comprised the vast majority of the returns filed, and were defined for the statistics as returns of corporations reporting any income or deduction items.

Returns With Net Income

Returns with net income were those showing gross taxable receipts exceeding the ordinary and necessary business deductions allowed by the Code. (See "Net Income (or Deficit).")

Returns Without Net Income

Returns without net income were those for which ordinary and necessary business deductions exceeded gross taxable receipts. In addition to deficit returns, this classification also included returns where gross taxable receipts and business deductions were equal. (See "Net Income (or Deficit).")

Royalties

Royalties were payments received, generally on an agreed percentage basis, for the use of property rights. Included were amounts received from such properties as copyrights, patents, and trademarks; and from natural resources such as timber, mineral mines, and oil wells. The amount reported was the gross amount received. Expenses relating to royalties, depletion or taxes, for example, were not deducted directly from this income, but were reported among the various business deductions from total gross income.

Excluded from the statistics were certain royalties received under a lease agreement on timber, coal deposits, and domestic iron ore deposits, which were allowed special tax treatment. Under elective provisions of Code section 631, the net gain or loss on such royalties was included in the computation of net gain or loss on sales or exchanges of certain business property under section 1231. If the overall result of this computation was a net gain, it was eligible for treatment as a long-term capital gain, taxable at the capital gains rates. If the overall result was a net loss, it was fully deductible in the current year as an ordinary noncapital loss.

Size of Business Receipts

Size of business receipts was based on the gross amounts from sales and operations for industries except those in the Finance, insurance, and real estate division. For these industries, total receipts, which is the sum of business receipts and investment income, was used as the basis for classification.

Size of Total Assets

Size of total assets was based on the amount reported in the end-of-year balance sheet. Returns with zero assets were used as a classification for returns of (1) liquidating or dissolving corporations which had disposed of all their assets and whose income tax returns were final returns, (2) merging corporations whose assets and liabilities were included in the returns of the acquiring corporations, (3) corporations filing a part-year tax return because of a change in accounting period, (4) foreign corporations with income effectively connected with the conduct of a trade or business within the United States (except

foreign insurance companies providing balance sheet information for U.S. branches). (See also, "Total Assets and Total Liabilities.")

Small Business Corporation Returns

Form 1120S, U.S. Small Business Corporation Income Tax Return, was filed by corporations electing to be taxed through stockholders under section 1372 of the Code.

To qualify as a Small Business Corporation, a firm had to be a domestic corporation, with no more than ten stockholders, each of which was an individual (or an estate) and no one of which was a nonresident alien. The corporation could have only one class of stock and could not be a member of an affiliated group eligible to file a consolidated return. Moreover, the corporation could not receive more than 80 percent of its gross receipts from sources outside the United States nor more than 20 percent from passive investments (interest, rents, royalties, annuities, and gains from the sale or exchange of stock and securities). The 20 percent passive income limitation did not apply during the first 2 years of business unless such income, for the year in question, was \$3,000 or more.

Net income of Small Business Corporations was computed in the same manner as for most corporations. The net operating loss deduction and other statutory special deductions allowed most corporations, such as for dividends received, could not be taken. The electing corporation was generally not taxed. However, an existing corporation that elected (under Code section 1372) to become a Small Business Corporation was subject to a special capital gains tax for the first 3 taxable years of the election. On the other hand, a new corporation which was an electing Small Business Corporation for each year of its existence was not subject to the special capital gains tax at all. Foreign tax credit, investment credit and work incentive (WIN) credit were not available to the corporation to reduce this tax (although the cost of investment credit property and WIN program salaries and wages were allocated to stockholders for their use in computing the credits). Section 1378 of the Code provided that the amount of the tax was the lower of the amounts resulting from the alternative tax rate applied to the excess of net long-term capital gain (reduced by net short-term capital loss) over

\$25,000 when net long-term capital gains were more than 50 percent of a net income that was over \$25,000, or the normal tax and surtax rates applied to net income.

Generally, the income of the Small Business Corporation was taxable to its stockholders as ordinary income. Net long-term capital gains (reduced by any tax paid on them by the corporation) were not taxable as ordinary income, but instead retained their character in the hands of the stockholders. Also, stockholders were allowed to deduct their share of the corporation's deficit from other forms of individual (or fiduciary) income as part of their net operating loss deduction. Undistributed income earned in previous years was taxable to stockholders in the year it was earned, and could be distributed during the current year without any further tax.

Statutory Special Deductions

Statutory special deductions is the term used for the statistics to describe the deductions for: (1) net operating losses of prior years, and (2) total "special deductions" as defined by the Code, i.e., the sum of deductions for intercorporate dividends received, for dividends paid on certain preferred stock of public utilities, and for Western Hemisphere Trade Corporations. Since these deductions were allowed by law, in addition to ordinary and necessary business deductions, they are shown as deductions from net income.

In general, net income less statutory special deductions equalled income subject to tax. However, the two dividend deductions were not restricted to returns with net income, nor, in general, to the amount of net income and thus became part of the statutory "Net operating loss" for some corporations. Statutory special deductions were not allowed to Small Business Corporations for which an election was made to be taxed through stockholders, nor to regulated investment companies and real estate investment trusts.

Although Domestic International Sales Corporations (DISC's) were not taxable, in order to compute "tax deferred income and income taxable to stockholders," two of the statutory special deductions, i.e., net operating loss deduction and intercorporate dividends received deduction, discussed below, were allowed.

Definitions for the statutory special deductions shown in the statistics are as follows:

1. Net operating loss deduction.

The total net operating loss deduction was based on statutory net operating losses of prior or subsequent years which could be used to reduce taxable income for a specified number of years. The amount shown in this report, however, consists only of losses from prior years actually used to reduce taxable income for 1974. Losses incurred after 1974 and carried back to that year at a later date could not be reported on the returns used for this report. In general, losses were carried back over a 3-year period and any amount not offset against income during that time could then be carried forward against income for a period not exceeding 5 years. Longer carryover periods were allowed for certain foreign expropriation losses, and for corporations applying for tax assistance under the Trade Expansion Act of 1962, for regulated transportation corporations, and for new life insurance companies.

Net operating losses upon which the current-year deduction was based included: (a) the excess of ordinary and necessary business expenses over income in the previous loss years, and (b) statutory special deductions claimed in the loss year for dividends received and for dividends paid on certain preferred stock of public utilities (or any excess of such deductions over net income).

The net operating loss deducted for the current year, was limited to net income reduced, first, by the deductions for dividends received and for dividends paid on certain preferred stock of public utilities. Net operating losses incurred by Domestic International Sales Corporations (DISC's) were deductible from net income only if the DISC had been a corporation prior to its election to become a DISC and only for losses incurred prior to the election. The statistics are overstated to the extent small amounts of net operating loss deductions were reported by DISC's without net income.

For a "parent-subsidiary" controlled group that had elected separate surtax exemptions for each group member under prior law, but which had shifted to a single group exemption and filed a consolidated return under subsequent law, special provisions for the treatment of net operating losses of the individual group members applied. The net operating losses of such individual group members sustained in years during which the election of multiple surtax exemptions was in

effect could be carried over and deducted from consolidated net income. (For groups that shifted to a single exemption and filed separate returns, such losses were carried over and deducted only against income of the corporation that sustained the loss.) To utilize this privilege the controlled group had to waive multiple surtax exemptions for the loss year and subsequent years. Further, the group had to file a consolidated return for the accounting period that included a December 31 in the taxable years for 1970-1974. For part-year returns not having a December 31, the nearest December 31 was used.

2. Total special deductions.—The total special deductions presented in this report was the sum of the following deductions:

a. Intercompany dividends received deduction.—The intercompany dividends received deduction, under Code sections 243-246, was the sum of the following components:

(1) a deduction equal to 85 percent of dividends received from domestic corporations which were themselves subject to the income tax. This particular deduction accounted for the major portion of the intercompany dividends received deduction. Since Domestic International Sales Corporations (DISC's) were not subject to tax, the intercompany dividends received deduction was not allowed for dividends received by their stockholders. However, if the dividends were paid out of earnings and profits from a year before the election was made to become a DISC, the stockholders were entitled to the deduction for such dividends.

(2) a deduction equal to 85 percent of certain dividends received from foreign corporations (a) which had been engaged in a trade or business within the United States for at least 3 years, and (b) which also had at least 50 percent of their gross income effectively connected with the U.S. trade or business.

(3) a transitional deduction equal to 97.5 percent (for a tax year that included December 31, 1974 in it, and 95 percent for a tax year that included December 31, 1973 in it) of certain intragroup dividends received (qualifying under Code section 1564) allowed members of controlled groups claiming multiple surtax exemptions under section 1562. Beginning with the tax year which included December 31, 1970, the former rate of 85 percent was gradually increased by 2.5 percent increments per year for such controlled groups so that for tax years beginning after December 31,

1974, the deduction would be the same 100 percent deduction described below under (4). This increase corresponded to the gradual elimination of multiple surtax exemptions over the same period.

(4) a deduction equal to 100 percent of certain intragroup dividends allowed members of controlled groups not electing to file consolidated returns, but sharing instead, a single surtax exemption under Code section 1561.

(5) a deduction equal to 100 percent of dividends received from wholly-owned foreign subsidiaries whose entire gross income was effectively connected with the conduct of a trade or business within the United States.

(6) a deduction equal to 60.2 percent of dividends received on certain preferred stock of public utilities for which a dividends paid deduction, described below, was also allowed the distributing corporation. The applicable percentage was based on the income tax rate.

(7) a deduction equal to 100 percent of dividends received by small business investment companies.

For returns with net income for the taxable year, there was a limitation on the deduction, based on net income, for dividends received not subject to the 100 percent deduction (Code section 246). For these returns the deduction could not exceed 85 percent of net income less any Western Hemisphere Trade Corporation deduction (described below) and less any 100 percent deduction for domestic intragroup dividends. This limitation was not applicable if the corporation had no net income for the year. In this case, the deduction became part of the statutory net operating loss previously described.

b. Deduction for dividends paid on certain preferred stock of public utilities.—For public utility companies, as defined by law, a special deduction was allowable under Code section 247 for dividends paid on certain preferred cumulative stock deemed issued prior to October 1, 1942. This deduction, based on the income tax rate, amounted to 29.2 percent of the dividends paid on such stock.

If the dividends paid were greater than net income reduced (in general) by all other statutory special deductions for the year, the deduction could not exceed the above-described percentage of net income after this adjustment.

c. Western Hemisphere Trade Corporation deduction.—This

deduction was allowed certain domestic companies which qualified under section 921 of the Code. These companies conducted almost all of their business outside the United States, but within the Western Hemisphere. This special deduction was computed at the same percentage rate as described for the deduction for dividends paid on certain preferred stock of public utilities.

Tax Deferred Income and Income Taxable to Stockholders

This amount resulted from the special tax deferral treatment afforded Domestic International Sales Corporations (DISC's). Such corporations were not taxable themselves; taxes were assessed, instead, on their stockholders which in most instances were parent corporations. The amount shown represents the DISC's net income (less deficit) minus the net operating loss deduction and intercompany dividends received deduction. According to the special tax provisions for DISC's, only one-half of this amount was taxable to their parent corporations in the year earned; the remaining half could be deferred indefinitely. (See also, "Domestic International Sales Corporation Returns.")

Tax Due at Time of Filing

Tax due was the amount of income tax liability reported as due at the time the return was filed. To show a tax due the return had to have income tax after foreign tax, investment, and work incentive (WIN) credits. For this purpose, the income tax included tax from recomputing prior year investment credit, tax from recomputing prior year work incentive (WIN) credit, additional tax for tax preferences, and tax on undistributed Personal Holding Company income. Tax due based on this total tax was the amount payable after taking into account (a) credit for taxes deemed paid by regulated investment companies on undistributed capital gain dividends; (b) payments with applications for extension of time in which to file; (c) payments on estimated tax; and (d) credit for taxes on special fuels, nonhighway gasoline, and lubricating oil.

The entire tax due could be paid with the return at the time of filing, or the corporation could elect to pay the tax due in two equal installments. One installment had to be paid at the prescribed time of filing. The balance was due on or before 3 months after that date.

The amounts shown do not reflect adjustments made after the return was filed. The results of tax audit, the carryback of net operating losses, the carryback of foreign taxes paid or accrued in future years, the carryback of unused investment credit, or the carryback of certain capital losses, may affect the final tax liability and the tax due.

Tax From Recomputing Prior Year Investment Credit

This tax, a recapture of investment credit, resulted when depreciable property used in computing the investment credit of a prior year was disposed of before the useful life assumed at the time that the investment credit was originally computed.

The tax was payable for the year in which the property was disposed of and amounted to the difference between the credit originally claimed based on the intended life in the year of acquisition and the credit that would have been allowed based on the actual life in the year of disposition. Under the Revenue Act of 1971, useful life classes for investment credit were shortened for property acquired after August 15, 1971. The revised useful life classes applied to investment credit property disposed of after this date even if the property was acquired (and credit claimed) using the longer useful life classes specified under prior law.

Recapture of investment credit was also required after August 15, 1971, when investment credit property was disposed of by reason of casualty or theft, or if 5-year rapid amortization in lieu of depreciation was subsequently elected for the property for which credit had been claimed earlier. Unless otherwise indicated, tax from recomputing prior year investment credit is included in the statistics for "Income tax" in this report.

Tax From Recomputing Prior Year Work Incentive (WIN) Credit

This tax was based on the WIN credit provisions of the Revenue Act of 1971, effective with taxable years beginning on or after January 1, 1972. A "recapture" of the credit was required whenever an employer who had claimed the credit in a prior year (1) terminated without cause the employment of an employee hired under the WIN program, or (2) failed to pay a WIN employee wages comparable with non-WIN employees for the same services.

Generally, if the WIN employee's employment did not last at least 24 months, the WIN credit had to be paid back, even though a WIN credit could be taken for only the first 12 months of employment.

Unless otherwise indicated, tax from recomputing prior year work incentive (WIN) credit is included in the statistics for "Income Tax" in this report.

Tax Overpayment

This was the amount reported as the excess of payments and credits for the tax already paid over total income tax liability at the time the return was filed. For this purpose, the income tax liability included tax from recomputing prior year investment credit, tax from recomputing prior year work incentive (WIN) credit, additional tax for tax preferences, and tax on undistributed Personal Holding Company income and was after reduction by the foreign tax, investment, and work incentive (WIN) credits. Overpayment then, was the excess of payments and credits over total tax liability after taking into account (a) credit for taxes deemed paid by regulated investment companies on undistributed capital gain dividends; (b) payments with applications for extension of time in which to file; (c) payments on estimated tax; and (d) credit for taxes on special fuels, nonhighway gasoline, and lubricating oil.

The overpayment could be credited toward the following year's estimated tax, refunded, or partially refunded and partially credited. Some taxpayers, however, failed to indicate the way in which the overpayment was to be treated.

The amounts shown do not reflect adjustments made after the return was filed. The results of audit, the carryback of net operating losses incurred in future years, the carryback of certain foreign taxes paid or accrued in future years used to increase the current year foreign tax credit, the carryback of unused investment credit or unused WIN credit, or the carryback of certain capital losses, may affect the final tax liability and the tax overpayment.

Since Domestic International Sales Corporations (DISC's) had no tax, tax overpayment reported on Form 1120-DISC consisted solely of the refund of U.S. excise tax on special fuels, nonhighway gasoline, and lubricating oil.

Taxes Paid

Taxes paid included the amounts reported as an ordinary and necessary business deduction as

well as identifiable amounts reported as part of the cost of goods sold and operations schedules. Included among the deductible taxes were ordinary State and local taxes paid or accrued during the year; social security and payroll taxes; unemployment insurance taxes; import and tariff duties; and business, license and privilege taxes. Income and profits taxes paid to foreign countries or U.S. possessions were also deductible unless claimed as a credit against income tax. Not deductible were such taxes as Federal income and excess profits taxes, gift taxes, taxes assessed against local benefits, and Federal taxes paid on interest from tax-free covenant bonds.

Some corporations included sales taxes and excise and related taxes, which were part of the sales price of their products, as receipts. When this occurred, an equal and offsetting amount was usually included in the cost of sales and operations or as part of the separate deduction for taxes paid. When included in the cost of sales and operations, these taxes often were not identifiable and therefore could not be included in the statistics for taxes paid.

Tax Preference Items

These items constituted the basis (after adjustments described under "Additional Tax for Tax Preferences") upon which the 10 percent additional tax for tax preferences (or "minimum tax") was levied. They comprised various kinds of tax-favored income and deductions, which, in effect, provided corporations with nontaxable "economic" income.

In general, the tax preference items were attributable to U.S. sources. However, the capital gain preference (described below) included amounts from foreign sources if they were not subject to foreign taxation, or if the foreign tax was a preferential one. Other items attributable to foreign sources were treated as preferences only to the extent they reduced U.S. taxable income.

For Small Business Corporations electing to be taxed through their stockholders, all of the tax preference items described below were reported, but only the capital gain preference was taxable to the corporations themselves. The other items were taxable only to the stockholders of such corporations.

Items included as tax preferences were:

(1) Accelerated depreciation (depreciation in excess of the

amount computed under the straight-line-method) allowed on (a) low-income rental housing, (b) other real property (defined in Code section 1250), and (c) personal property (defined by section 1245) subject to a net lease. The tax preference in connection with personal property subject to a net lease did not apply to corporations other than Personal Holding Companies and Small Business Corporations electing to be taxed through their stockholders.

(2) Amortization of (a) certified pollution control facilities, (b) railroad rolling stock, (c) on-the-job training facilities, and (d) child care facilities. The tax preference was the excess of these special rapid write-offs over what otherwise would have been a depreciation deduction under section 167.

(3) Reserves for losses on bad debts of financial institutions. Financial institutions (mostly banks and savings and loan associations) were allowed deductions for additions to a reserve for bad debts under prescribed rules. When these deductions exceeded amounts based on the actual bad debt loss experience of the institution (or in the case of a new company, industry experience), the excess was considered a tax preference. (The appearance of this preference for other than finance division corporations was caused chiefly by the filing of consolidated returns that included finance subsidiaries.)

(4) Depletion. The excess of the depletion deduction over the cost or other basis of the property (reduced by depletion taken in prior years) was a tax preference.

(5) Capital gains. This tax preference was based on the excess of net long-term capital gain over the net short-term capital loss, when these net gains were taxed at the special lower capital gain rate. The amount treated as a preference was this amount multiplied by a ratio of the regular tax rate of 48 percent less the rate applicable to capital gains (generally 30 percent for 1974) to the regular corporate rate of 48 percent.

This was the only tax preference for which Small Business Corporations electing to be taxed through their stockholders (Form 1120S) may have been liable (see the discussion under "Small Business Corporation Returns" in this section). Tax preferences for these corporations were ordinarily passed on to the stockholders for taxation.

Regulated investment companies and real estate investment trusts also included capital gains as a tax preference but only to the extent that such gains were not passed on to their stockholders.

Tentative Investment Credit

Tentative investment credit represented the earned credit before taking into account the statutory limitations based on the size of income tax. For most corporations, the tentative credit was equal to 7 percent of investment qualified for credit, an amount based on the cost of certain depreciable purchases and designed to give weight to longer-lived assets. (See "Investment Qualified for Credit.") An exception was made for investment in certain public utility property. The law specified that for such property the otherwise qualified investment should be reduced to four-sevenths of the total amount. As a matter of practical computation, however, the full qualified investment was usually reported, and a 4 percent rate substituted for the 7 percent rate in order to obtain the legal tentative credit. See the facsimile of Form 3468 in section 5.

Total Assets and Total Liabilities

Total assets and total liabilities were those reported in the end-of-year balance sheet in the corporations' books of account. Total assets were net after reduction by accumulated depreciation, amortization, and depletion, and by the reserve for bad debts. When these reserves were reported as liabilities, they were treated as reductions from the asset accounts to which they related and the totals of assets and liabilities were adjusted accordingly. In addition, total liabilities were net after reduction by the cost of treasury stock. Moreover, when treasury stock intended for resale was identified in "Other investments" on the asset side of the balance sheet, it was moved to the liability side for the statistics, and the totals of assets and liabilities were also adjusted.

Asset and liability estimates for returns of corporations that failed to provide complete balance sheet information were obtained from other schedules on the return form and from relationships between income statement and balance sheet items on similar returns in the same industrial group.

Because Forms 1120L and 1120M used by life and certain mutual insurance companies did not provide for the complete reporting of balance sheet information, asset and liability data for these companies were obtained from reference books or from balance sheets filed with the returns in the form required by State law. These sources were also used for any other insurance companies, not filing returns on Forms 1120L or 1120M, which filed balance sheets in the form required by State law in lieu of the income tax return schedule. (See also, "Size of Total Assets.")

Total Deductions

As derived for the statistics, total deductions comprised (1) the cost of sales and operations, (2) the ordinary and necessary business deductions from gross income, and (3) net loss from sales of noncapital assets.

Components of total deductions are shown in the income statement segment of tables 2, 3, 4, and 5. For certain mutual insurance companies, with total receipts under \$500,000, total deductions represented only investment expenses; business expenses were excluded by law.

Total Receipts

The components of total receipts are shown in the income statement segment of tables 2, 3, 4, and 5. This computed amount was derived for the statistics as follows:

Included items--(1) Gross taxable receipts (before deduction of cost of sales and operations and net loss from sales of noncapital assets), and (2) Nontaxable interest received from State and local Government obligations.

Excluded items--(1) Other nontaxable income recognized by the corporation, and (2) Certain taxable income from related foreign corporations only constructively received.

For certain mutual insurance companies, with total receipts under \$500,000, the gross taxable receipts included in the statistics represented only the receipts from investments; operating income was excluded by law.

Total Receipts Less Total Deductions

This item differed from net income for tax purposes in that it included nontaxable "Interest on

State and local government obligations" and excluded "Constructive taxable income from related foreign corporations."

Unused Investment Credit

This was the portion of the tentative investment credit (plus the carryover of unused credit from prior years) which was in excess of the actual investment credit claimed for 1974. Subject to limitations, the unused credit could be carried back or carried over for use in other years as described under "Investment Credit Carryover."

In general, the amounts shown in the statistics were computed on a return by return basis by taking the difference between the credit claimed and the sum of the tentative credit and the credit carryover.

Work Incentive (WIN) Credit

This credit was intended to expand job opportunities for persons participating in the Federal Work Incentive (WIN) program which was designed to provide job opportunities for welfare recipients and to make participants ready for the jobs when the jobs were ready for them. Taxpayers that were engaged in a trade or business and that hired participants in the WIN program were allowed a credit against their income tax liability for 20 percent of the WIN program expenses; i.e., salaries and wages that were paid such persons in taxable years beginning after 1971 for services performed during their first 12 months of employment (whether or not the 12 months were consecutive).

To qualify as WIN program expenses, salaries and wages must have:

(1) been paid to employees certified by the Secretary of Labor as being from the WIN program and the employees could not have displaced any individual from employment.

(2) consisted entirely of cash remuneration.

(3) been paid or incurred:

(a) for services rendered during the first 12 months of employment. (Although the

employee must have been employed for at least 24 months, the first 12 months could span a 24 month period, after which, the employee must have been employed for 12 months consecutively.)

(b) in the employer's trade or business.

(4) not been less than wages paid to the non-WIN employees performing comparable services.

(5) not been reimbursed to the employer. (If so, the expenses, for credit purposes, were disregarded to the extent of the reimbursement.)

(6) not been paid or incurred:

(a) for employment outside the United States.

(b) after the end of the 24 month period beginning with the first day of the employee's employment. (The employee's total months of employment must have equalled 12 on or before the end of this period.)

(c) to an ineligible individual. (In the case of corporations, an employee who owned directly or indirectly more than 50 percent of the value of the corporation's stock; or was a relative of such an employee.)

The credit for salaries and wages paid was tentative, in that it represented earned credit before considering the impact of a limitation based on the presence or size of income tax. The WIN credit was applied against tax liability that had first been reduced by foreign tax and investment credits, respectively. Tax which could be reduced by the credit did not include tax from recomputing a prior year investment credit, tax from recomputing a prior year WIN credit, additional tax for tax preferences, Personal Holding Company tax, or the special capital gains tax on Small Business Corporations. When applied against tax, the WIN credit was limited. For a given year it could not exceed \$25,000 plus 50 percent of tax in excess of \$25,000. The limitation was uniquely applied to members of controlled groups (as defined by Code section 1563) in that the \$25,000 cutoff applied to the group as a whole and, thus, had to be apportioned among the component members of the group when separate tax returns were filed for each member.

For Small Business Corporations

electing to be taxed through their stockholders, WIN program expenses for each taxable year were allocated pro rata among those persons who were stockholders on the last day of the taxable year for use in computing their own WIN credit.

Further, if the WIN program participant was involuntarily terminated at any time during the first 12 months of employment or before the close of the 12th calendar month of employment thereafter, any WIN credit taken for that particular participant had to be recaptured. The recapture resulted in an increase in the employer's income tax liability, for the year of the termination, by the amount of the disallowed WIN credit.

Unused WIN credit, the amount in excess of the limitation based on the size or presence of tax, could be carried back or forward for use in other years. The unused WIN credit had to be first carried back 3 taxable years or to the earliest applicable taxable year (i.e., only to a taxable year beginning after December 31, 1971) and then any unused amount remaining was to be carried forward 7 taxable years or until the credit had been exhausted. The unused credit carryback and carryover could be used to reduce any income tax liability for years to which it was carried provided it was within the limitation based on size of tax for that year.

Zero Assets

Included in this "asset size" category were:

(1) final returns of liquidating or dissolving corporations which had disposed of all assets,

(2) final returns of merging corporations whose assets and liabilities were reported in the returns of the acquiring corporations,

(3) part-year returns of corporations which changed accounting periods, and

(4) returns of foreign corporations with income "effectively connected" with the conduct of a trade or business in the United States (however, foreign insurance company returns with balance sheet information for U.S. branches were classified by the size of their U.S. branch assets).

Section 4

Description of the Sample and Limitations of the Data

SAMPLE CRITERIA AND SELECTION OF RETURNS

The data presented in this report are estimates based on stratified probability samples of corporation income tax returns selected before audit. The corporation population from which the samples were drawn contained the following types of returns:

- (1) Form 1120--U.S. Corporation Income Tax Return
- (2) Form 1120L--U.S. Life Insurance Company Income Tax Return
- (3) Form 1120M--U.S. Mutual Insurance Company Income Tax Return
- (4) Form 1120S--U.S. Small Business Corporation Income Tax Return
- (5) Form 1120F--U.S. Income Tax Return of Foreign Corporation
- (6) Form 1120-DISC--Domestic International Sales Corporation Return

Returns not included in the corporation population were, for the most part, those in the Form 990 series filed by nonprofit, and therefore, tax-exempt corporations. The estimates were intended to

represent data of returns filed for the 1974 taxable year, i.e., returns with accounting periods ended July 1974 through June 1975. Nearly all of the sampled returns were for this period and were revenue processed during 1974, 1975 and 1976. However, delinquent returns for prior years, revenue processed during this same period, were included in the sample to compensate for current-year returns filed after the cutoff date for the receipt of sample returns for this report.

Sample rates ranged from 0.8 to 100 percent depending on the year sampled, the type of return, size of total assets, and size of net income (or deficit) for Forms 1120, 1120L, 1120M, 1120S, and 1120F. For Form 1120-DISC returns, rates were dependent upon size of total assets of the majority corporate stockholder and size of gross receipts from Schedule N ("Gross export receipts of DISC" in the statistics).

The selection of the returns in the sample was based on the classification shown in table F.

Table G shows the number of returns filed, the number in the sample and the sampling rate for each of the sampling classes described in table F. All sample returns, except those for Domestic International Sales Corporations (DISC's), were computer selected from the Internal Revenue Service Business Master File system on the basis of a systematic design of randomly designated ending digits of the Employer Identification Number. (These numbers were used for revenue processing in the Master File system.) Since Form 1120-DISC returns were not included on the Master File, they were manually sampled using the same system of ending digits.

Returns were sampled when they were received without regard to their accounting periods. Separation of the returns into the appropriate income year based on accounting periods was accomplished during statistical processing. Sampling rates were generally set for the calendar year in which returns were received without regard to the

¹See table F for Sample Class Descriptions.

²Not applicable, since population is assumed to be equal to number of returns sampled at the 100 percent rate. Total returns filed, however, includes differences between population and sample in the 100 percent sampling rate categories.

accounting period. Therefore, if the rate was changed from one calendar year to the next for a particular sample class, that class would have more than one sampling rate. Table G shows prescribed and achieved sample rates for each sample class. These prescribed and achieved rates differ because the distribution of Employer Identification Number ending digits fluctuates from year to year. As a result of this fluctuation, not all of the designated returns are always found in time for inclusion in the sample.

Returns were classified according to either size of total assets or size of net income (or deficit), whichever placed them in the sample class having the higher code (class number). For example, in table F, a Form 1120 return with total assets of \$750,000 and net income of \$75,000 would be in sample class 5 rather than in sample class 3 since the higher class number was selected in accordance with the rule above.

METHOD OF ESTIMATION

The totals for the number of returns filed were the result of computer tabulation of all the returns processed in each of the ten Internal Revenue Service Centers. To make sure the sample plan was working, a comparison was made between the expected and realized number of sample returns in each of the Service Centers and differences were reconciled by follow-up.

Sampling weights were attained by dividing the number of returns

filed per sample class by the number of sample returns for the stratum. All sampling weights were then converted to "integer weighting factors" which were applied to each sample return. For example, if a factor of 19.32 was computed for a stratum, 32 percent of the returns in the stratum were systematically given a weighting factor of 20 and 68 percent, a weighting factor of 19.

Column (1) of table G shows the number of returns which were subject to sampling. A comparison of the total number of returns (1,965,894) in column (1) of table 1 with the total number of returns filed (2,056,622) in column (1) of table G shows a difference of 90,728. This difference occurred for the following reasons: (1) 77,102 returns with neither income nor deductions were classified as returns of inactive corporations (although inactive corporations are excluded from most tables they are shown separately in table B), and (2) the remaining 13,625 were chiefly amended returns not associated with the original return (the original return was already subject to sampling) or tentative returns not associated with a revised return (the revised return was subject to sampling). Other returns were excluded for conceptual reasons. Examples were returns of:

(1) foreign corporations whose income was not effectively connected with a U.S. trade or business,

(2) mutual insurance companies apparently exempt from tax, but that filed nevertheless, on Form 1120M, and

(3) certain foreign corporations exempt from U.S. tax under

reciprocal treaty arrangements.

SAMPLING VARIABILITY

The coefficient of variation is the standard deviation (sampling variability) of the estimate expressed as a percent of the estimated value. The standard deviation, when added to and subtracted from the value, provides (for normally distributed estimates) the computed upper and lower limits within which approximately two out of three estimates derived from similarly selected samples would be expected to fall. Coefficients of variation of selected estimates based on the sum-of-the-squares method, are shown in table 1.

Table H provides coefficient of variation estimates for frequency (but not amount) estimates in general; however, where applicable, the more precise coefficients of variation shown in table 1 for selected frequency estimates should be used. The coefficient of variation estimates shown in table H are based on an "upper limit" formula and tend to be overstated. Thus, for example, table 1 in this report shows that the total number of returns for "Eating and drinking places" under "Retail trade" was 76,601, with a corresponding coefficient of variation of 3.4. The coefficient of variation estimate found in column (8) of table H for 75,000 returns is 4.1.

The coefficients of variation in table H may be used as rough estimates for the coefficients of variation which apply to amounts associated with frequencies.

Table H.—Coefficient of Variation of Estimated Number of Returns, 1974

Estimated number of returns	Tables classified by size of total assets							Tables not classified by size of total assets, excluding Form 1120-DISC
	Size of total assets							
	Under \$100,000 ¹	\$100,000 under \$250,000	\$250,000 under \$500,000	\$500,000 under \$1,000,000	\$1,000,000 under \$5,000,000	\$5,000,000 under \$10,000,000 ²	\$10,000,000 or more

¹Includes zero assets and assets not reported (Forms 1120, -S, -L, -M, and -F).²Including Form 1120-DISC tables not classified by size of total assets of parent corporation.³Coefficient of variation exceeds Government standards for acceptable estimates.⁴Coefficient of variation is zero since returns are sampled completely.⁵Not applicable since the estimated number of returns exceeds the population estimates.

NOTE: Method of Interpolation: Divide the estimate by 100, look up the C.V. in the same column, divide the result by 10. Example: 60,000 returns. Assets \$250,000 under \$500,000. Look up 600. C.V. — 20.0 percent. Divide by 10. C.V. 2.0 percent.

Because of the predominant effect of large corporations on the statistics, the coefficient of variation of an associated amount can be larger if there is a negligible number of large corporations included in a table cell and if the dollar amount of the item measured in the cell varies considerably from return to return.

Numbers of returns (frequencies) and money amounts considered to exceed acceptable sampling variability limits were treated in either one of two ways. They were either (1) combined with other groups of returns so that the combined coefficient of variation was within acceptable limits, or (2) deleted and noted by an asterisk in the body of the table but included in the appropriate totals.

A dash in place of a frequency or amount indicates that: (1) if returns were sampled at a rate of 100 percent, no returns had the particular characteristic; or (2) if returns were sampled at a rate less than 100 percent, either no returns in the population had the characteristic or the characteristic was so rare that it did not appear on any sample returns.

SAMPLE MANAGEMENT AND PROCESSING CONTROLS

Sample and population counts of corporation returns were made by computer and were normally free from error. Sample counts were verified during statistical processing to minimize loss of data. Because of their impact on the statistics, inclusion of returns of the largest corporations was verified by controlling these companies on a name basis.

Incorrect or missing entries were corrected during statistical editing to make them consistent with other entries on the return or accompanying schedules. Data were also adjusted during statistical editing in an attempt to achieve consistent or statistical definitions.

In transcribing and tabulating the information from the returns in the sample, additional checks were imposed to improve the quality of the resulting estimates.

Quality of the basic data abstracted at the processing centers was controlled there by means of a continuous subsampling verification system. In addition, the Statistics Division in the National Office conducted an independent reprocessing of a small subsample of the returns

statistically processed in the field as a further check on the processing. Prior to tabulation, numerous computer tests were applied to each return record to assure that proper balance and relationships among return items were maintained.

Finally, prior to publication, all statistics and tables were reviewed for accuracy and reasonableness, in light of provisions of tax laws, taxpayer reporting variations and limitations, economic conditions, comparability with other statistical series, and statistical techniques used in data processing.

However, the controls maintained over the selection of the sample returns, the processing of the source data, and the review of the statistics did not completely eliminate the possibility of error. Also, practical operating considerations necessitated allowance of reasonable tolerance in the statistical processing of the data. Similarly, data were usually edited from the tax return in thousands of dollars to facilitate statistical processing. While it is felt that this did not affect the overall quality of the data, for certain data this resulted in some irregular relationships.

 11 Tax from recomputing a prior year WIN credit (see instructions—attach computation)
 12 Minimum tax on tax preference items (see instructions—attach Form 4262)
 13 Total tax—Add lines 8 through 12. Enter here and on line 31, page 1

Schedule K Record of Form 503 Federal Tax Deposits (List deposits in order of date made—See instruction G)

Serial number of Form 503	Date of deposit	Amount	Serial number of Form 503	Date of deposit	Amount	Serial number of Form 503	Date of deposit	Amount

- 6 Date incorporated ▶ **Yes No**
 H (1) Did you at the end of the taxable year own, directly or indirectly, 50% or more of the voting stock of a domestic corporation? (For rules of attribution, see section 267(c).)
 If "Yes," attach a schedule showing:
 (a) name, address, and identifying number;
 (b) percentage owned; and
 (c) taxable income or (loss) from line 30, page 1, Form 1120 of such corporation for the taxable year ending with or within your taxable year.
 (2) Did any individual, partnership, corporation, estate or trust at the end of the taxable year own, directly or indirectly, 50% or more of your voting stock? (For rules of attribution, see section 267(c).)
 If "Yes,"
 (a) Attach a schedule showing name, address, and identifying number.
 (b) Enter percentage owned ▶
 (c) Was the owner of such voting stock a person other than a U.S. person?
 If "Yes," enter owner's country ▶
 (See instruction T.)
 I Did you exclude income under section 931?
 J Did you have any contracts or subcontracts subject to the Renegotiation Act of 1951?
 If "Yes," enter the aggregate gross dollar amount billed during the year ▶
 K Did you ever declare a stock dividend?
 L Did you claim a deduction for expenses connected with:
 (1) Entertainment facility (boat, resort, ranch, etc.)?
 (2) Living accommodations (except for employees on business)?
 (3) Employees' families at conventions or meetings?
 (4) Employee or family vacations not reported on Form W-2?
 M Refer to page 7 of instructions and state the principal:
 Business activity
 Product or service
 N Were you a member of a controlled group subject to the provisions of: (1) Section 1561?
 (2) Section 1562?
 If answer to (1) or (2) is "Yes," check the type of relationship:
 (a) parent-subsidiary ☐ (b) brother-sister ☐
 (c) combination of (a) and (b) ☐ (See section 1563.)
 If answer to (2) is "Yes," are you excluded from paying the 6% additional tax because section 1562(b)(1)(A) applies?
 O Did the corporation, at any time during the taxable year, have any interest in or signature or other authority over a bank, securities, or other financial account in a foreign country?
 If "Yes," attach Form 4683. (For definitions, see Form 4683.)
 P Were you a U.S. shareholder of any controlled foreign corporation? (See sections 951 and 957.)
 If "Yes," attach Form 3464 for each such corporation.
 Q During this taxable year, did you pay dividends (other than stock dividends and distributions in exchange for stock) in excess of your current and accumulated earnings and profits? (See sections 301 and 316.)
 If "Yes," file Schedule A, Form 1096. If this is a consolidated return, answer here for parent corporation and on Form 851, Affiliations Schedule, for each subsidiary.
 R Taxable income or (loss) from line 30, page 1, Form 1120 for your taxable year beginning in:
 1971 1972 1973
 S Did you file all required Forms 1087, 1096 and 1099?

Schedule L Balance Sheets

	Beginning of taxable year		End of taxable year

Schedule M-1 Reconciliation of Income Per Books With Income Per Return

1 Net income per books	7 Income recorded on books this year not included in this return (itemize) (a) Tax-exempt interest \$
2 Federal income tax	
3 Excess of capital losses over capital gains	8 Deductions in this tax return not charged against book income this year (itemize) (a) Depreciation \$ (b) Depletion \$
4 Taxable income not recorded on books this year (itemize)	
5 Expenses recorded on books this year not deducted in this return (itemize) (a) Depreciation \$ (b) Depletion \$	9 Total of lines 7 and 8
6 Total of lines 1 through 5	10 Income (line 28, page 1)—line 6 less 9
Schedule M-2 Analysis of Unappropriated Retained Earnings Per Books (line 24 above)	
1 Balance at beginning of year	5 Distributions: (a) Cash
2 Net income per books	(b) Stock
3 Other increases (itemize)	(c) Property
	6 Other decreases (itemize)
	7 Total of lines 5 and 6
4 Total of lines 1, 2, and 3	8 Balance at end of year (line 4 less 7)

1974 Department of the Treasury Internal Revenue Service Instructions for Form 1120 U.S. Corporation Income Tax Return (References are to the Internal Revenue Code.)

General Instructions

A. Who must file Form 1120.—

- Domestic corporations, whether or not having any taxable income, unless exempt under section 501.
- Real estate investment trusts defined in section 856.
- Regulated investment companies defined in section 851.
- Insurance companies described in section 831.
- Certain political organizations described in Revenue Ruling 74-21, I.R.B. 1974-2, p. 6.

B. Returns required of certain organizations.—

- Foreign corporations other than life and mutual insurance companies filing Forms 1120L and 1120M—file Form 1120F.
- Life insurance companies (section 802)—file Form 1120L.
- Mutual insurance companies (section 821)—file Form 1120M.
- Exempt farmers' cooperatives (section 1381)—file Form 990-C.
- Exempt organizations with unrelated trade or business income—file Form 990-T.
- Small business corporations (section 1372(a))—file Form 1120S.
- Domestic International Sales Corporations (section 992)—file Form 1120-DISC.

C. Where to file.—

If the corporation's principal business office, or agency is located in

	Use this address
New Jersey, New York City and counties of Nassau, Rockland, Suffolk, and Westchester	Internal Revenue Service Center 1040 Waverly Avenue Holtzville, N.Y. 11799
New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	Internal Revenue Service Center 310 Lowell Street Andover, Mass. 01812
Alabama, Florida, Georgia, Mississippi, South Carolina	Internal Revenue Service Center 4500 Buford Highway Chamblee, Georgia 30006
Michigan, Ohio	Internal Revenue Service Center Cincinnati, Ohio 45298
Arkansas, Kansas, Louisiana, New Mexico, Oklahoma, Texas	Internal Revenue Service Center 3631 S. International Highway Austin, Texas 78740
Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming	Internal Revenue Service Center 1150 West 1200 South Street Ogden, Utah 84201

Illinois, Iowa, Missouri, Wisconsin	Internal Revenue Service Center 2300 E. Banister Road Kansas City, Mo. 64170
California, Hawaii	Internal Revenue Service Center 5045 East Butler Avenue Fresno, California 93888
Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia	Internal Revenue Service Center 3131 Democrat Road Memphis, Tenn. 38101
Delaware, District of Columbia, Maryland, Pennsylvania	Internal Revenue Service Center 11601 Roosevelt Boulevard Philadelphia, Pa. 19155

Corporations having their principal place of business outside the United States or claiming the benefits of section 931 (relating to income from sources within U.S. possessions) must file with the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pennsylvania 19155.

The separate income tax returns of a group of corporations located in several Service Center regions may be filed with the Service Center for the area in which the principal office of the managing corporation that keeps all the books and records is located.

D. When to file.—In general, Form 1120 must be filed on or before the 15th day of the 3d month after the end of the taxable year.

You may request an automatic 3-month extension of time to file Form 1120 by filing Form 7004.

Form 7005 may be used to request an additional extension but only by corporations that have previously obtained an automatic 3-month extension by filing Form 7004.

E. Information returns and forms that may be required.—

- Forms W-2 and W-3.—Employee's wage and tax statement; and transmittal of income and tax statements.
- Form W-2P.—Statement for recipients of annuities, pensions or retired pay.
- Forms 1087-DIV, INT, MED, MISC, and OID.—Nominees' information returns for reporting dividends, interest, medical and health care payments, miscellaneous income, and original issue discount that were received as a nominee on behalf of another person.
- Form 1096 and Schedule A (Form 1096).—Annual summary and

transmittal of U.S. information returns; and corporate report of nontaxable dividends.

5. Forms 966 and 1099L.—Information returns regarding dissolution or liquidation, and distributions in liquidation.

6. Forms 1099-DIV, INT, MED, MISC, OID, PATR, and R.—Information returns for reporting certain dividends, interest income, medical and health care payments, miscellaneous income payments, original issue discount, patronage dividends, and lump-sum distributions from profit-sharing and retirement plans.

7. Forms 3921, 3922, and 4067.—Information returns concerning exercise of certain stock options and the transfer of stock acquired by certain options.

F. Period to be covered by 1974 return.—File the 1974 return for calendar year 1974 and fiscal years beginning in 1974 and ending in 1975. If the return is for a fiscal year, fill in the taxable year space on the form.

FINAL RETURNS.—If the corporation ceases to exist, write "FINAL RETURN" at the top of the form.

G. Depositary method of tax payment.—The balance of the tax due (line 33) must be paid in full when the return is filed or in two installments, 50% by the 15th day of the 3d month and 50% by the 15th day of the 6th month after the end of the taxable year.

Corporations must deposit all income tax payments, accompanied by Federal Tax Deposit Form 503, with an authorized commercial bank depositary or Federal Reserve bank. Please enter the serial number of Form 503 on your remittance. Do not remit directly to Internal Revenue.

In Schedule K, list all Form 503 deposits that relate to the taxable year for which this return is filed and which were made before or simultaneously with the filing of this return.

Timeliness of deposits will be determined by the date the deposit was received by the commercial bank depositary or Federal Reserve bank.

Forms 503 will be mailed to corporations on a cyclical basis depending on the taxable year of the corporation. Corporations needing Forms 503 may obtain them from the Internal Revenue Service Center where they will file their returns. The application should include the corporation's name, identification number, address, and the taxable year to which the deposits relate.

H. Change in accounting period.—To change your accounting period, see section 1.442-1 of the regulations and

Form 1128, Application for Change in Accounting Period.

1. Accounting methods.—Taxable income must be computed using the method of accounting regularly used in keeping the corporation's books and records. In all cases, the method adopted must clearly reflect taxable income. (See section 446.)

Unless the law specifically permits, you may not change the method of accounting used to report income in prior years (for income as a whole or for any material item) without first obtaining consent on Form 3115, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—The money items may be shown as whole-dollar amounts by eliminating any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

J. Estimated tax.—A corporation must make estimated tax payments if it can expect its estimated tax (income tax less credits less an estimated tax exemption) to be \$40 or more.

For taxable years beginning in 1975, the estimated tax exemption is 40% of the lesser of (1) \$5,500 or (2) total tax less credits. (Members of controlled group of corporations must substitute 22% of their surtax exemption for the \$5,500 mentioned above.)

Form 1120-W may be used as a worksheet to compute estimated tax.

If you overpaid estimated tax, you may apply on Form 4466 for a "quick refund" if the overpayment is (1) at least 10% of expected income tax liability AND (2) at least \$500. This application must be made within 2½ months after the end of the taxable year, and before you file your tax return.

K. Consolidated returns.—The parent corporation must attach Form 851, Affiliations Schedule, to the consolidated return. For the first year a consolidated return is filed, each subsidiary must attach Form 1122.

File supporting schedules for each corporation included in the consolidated return. The schedules must be in columnar form and show, both before and after adjustments, the items of gross income and deductions, a computation of taxable income, balance sheets as of the beginning and end of the taxable year, and a reconciliation of retained earnings. Also attach consolidated balance sheets and a reconciliation of consolidated retained earnings.

2

L. Stock ownership in foreign corporations.—If you owned 5% or more in value of the outstanding stock of a foreign personal holding company, attach the statement required by section 551(d).

If you control a foreign corporation or were a 10% or more shareholder of a controlled foreign corporation, you may be required to file Forms 2952 and 3646.

M. Financial statements.—The balance sheets must agree with your books and records. Any differences must be reconciled. Copies of balance sheets required by Federal, State, etc., authorities may be used in place of Schedule L. Certificates of deposit should be included as cash on line 1 of the balance sheet.

Banks, insurance companies, and other corporations required to submit substantially similar statements of income and expense to any Federal, State, etc., authority may submit copies of such statements in place of the information required on lines 1 through 30, page 1. Railroads may substitute Form 1090. In such cases, taxable income must be reconciled in Schedule M-1 with the net profit shown on the statement and entered as line 30, page 1.

N. Attachments.—You may use attachments if the lines on the form schedules are not sufficient. They must contain all the required information; must follow the format of the official schedules; and must be attached to the return in the same sequence as the schedules appear on the official form.

If an attachment is used in place of a schedule having a summary line on page 1, the total need not be entered on the schedule but must be entered on page 1.

Enter your name and identifying number on all attachments exactly as shown on your preaddressed label.

O. Amended return.—Correct any error in a previously filed income tax return by filing Form 1120X, Form 843 (if a claim for refund), or an amended Form 1120. IRS prefers Form 1120X be used to expedite processing.

P. Transfers to corporation controlled by transferor.—If a person acquires stock or securities of a corporation in exchange for property, and no gain or loss is recognized under section 351, the transferor and transferee must attach the information required by section 1.351-3 of the regulations.

Q. Signature.—The return must be signed by the president, vice president, treasurer, assistant treasurer, chief ac-

counting officer, or any other corporate officer (such as tax officer) authorized to sign.

A receiver, trustee, or assignee must sign any return he is required to file on behalf of a corporation.

R. Total assets.—If there are no assets at the end of the taxable year, show the total assets as of the beginning of the taxable year.

S. Corporations that liquidate within one calendar month under section 333.—Such corporations should attach a computation (following the format in Revenue Procedure 65-10, 1965-1, C.B. 738, as modified by Revenue Procedure 67-12, 1967-1, C.B. 589) of accumulated earnings and profits including all items of income and expense accrued up to the date the transfer of all property is completed.

T. U.S. person.—(See question H (2)(c), page 3, Form 1120.)—The term "U.S. person" means: (1) a citizen or resident of the United States, (2) a domestic partnership, (3) a domestic corporation, or (4) any estate or trust (other than a foreign estate or trust) within the meaning of section 7701 (a)(31). See section 1.6038-2(d) of the regulations for exception of certain residents of U.S. possessions.

Owner's country, for individuals, is their country of residence. For all others, it is the country where incorporated, organized, created, or administered.

U. Penalties.—

1. A corporation that fails to file its tax return by the prescribed due date including any extensions of time for filing may be subject to a penalty of 5% a month, up to a maximum of 25%, for each month the return is not filed (the penalty is imposed on the net amount due—section 6651(a)(1)).

2. A corporation that fails to pay the tax when due may be subject to a penalty of ½% a month or fraction of a month, up to a maximum of 25%, for each month the tax is not paid (the penalty is imposed on the net amount due—section 6651(a)(2)).

The above penalties will not be imposed if the corporation can show that the failure to file or to pay was due to reasonable cause and not to willful neglect.

These penalties are in addition to the 6% a year interest charge imposed on unpaid tax.

3. A corporation that fails to pay the proper estimated tax when due may be subject to an underpayment penalty of 6% a year for the period of underpayment (section 6655).

If you underpaid estimated tax and believe a penalty charge should not be assessed, attach Form 2220.

Specific Instructions

(Numbered to correspond with the line numbers on page 1 of the return.)

Gross Income

1. Gross receipts.—Enter gross receipts or sales from all business operations except those required to be reported in lines 4 through 10. For reporting advance payments and long-term contracts, see section 1.451-5 of the regulations.

If you use the installment method of reporting, enter on line 1 the gross profit on collections from installment sales and carry the same amount to line 3. Attach a schedule showing for the current and 3 preceding years: (a) gross sales, (b) cost of goods sold, (c) gross profits, (d) percentage of gross profits to gross sales, (e) amount collected, and (f) gross profit on amount collected.

2. Cost of goods sold.—The method of valuing inventories may not be changed without permission. Application for permission to change must be made on Form 3115.

If you elect to use the last-in-first-out (LIFO) method of valuing inventory provided in section 472, attach Form 970 or a statement that contains the information required by Form 970 to your return for the first year that method is to be used.

Full absorption method of inventory costing.—Taxpayers engaged in manufacturing or production operations must use the full absorption method of inventory costing. If they are not using the full absorption method of inventory costing, they must change to this method under which both direct and certain indirect production costs are included for inventory value purposes.

A special election is provided so that taxpayers will not have to change to the full absorption method for taxable years prior to the year for which the election is made. The election may be made by filing Form 3115 during the first 180 days of any taxable year beginning on or after September 19, 1973 and before September 19, 1975. The change shall be made for the tax year in which the election is made. For further details, see section 1.471-11 of the regulations.

Cost of operations (where inventories are not an income-determining factor).—If the amount entered on line 2 includes an amount applicable to cost

of operations, attach a schedule showing (1) salaries and wages and (2) other costs in detail.

4. Dividends.—(Numbered to correspond with line numbers in Schedule C.)

[1.] Enter dividends received from domestic corporations subject to income tax and which are subject to the 85% deduction under section 243(a)(1). Include on this line taxable distributions from a DISC or former DISC that are designated as being eligible for the 85% deduction.

Small business investment companies must enter dividends received from domestic corporations subject to income tax even though a deduction is allowed for the entire amount of such dividends in line 1 of Schedule I. For dividends received from a regulated investment company, see section 854 for the amount subject to the 85% deduction.

So-called dividends or earnings received from mutual savings banks, etc., are really interest and should not be treated as dividends.

[2.] Enter dividends received on the preferred stock of a public utility that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

[3.] Enter dividends received from foreign corporations and which qualify for the 85% deduction provided in section 245(a).

[4.] Enter dividends received from wholly-owned foreign subsidiaries and which are eligible for the 100% deduction provided in section 245(b).

In general, this deduction applies to dividends paid out of the earnings and profits of a foreign corporation for a taxable year during which (1) all of its outstanding stock is owned (directly or indirectly) by the domestic corporation receiving the dividends and (2) all of its gross income from all sources is effectively connected with the conduct of a trade or business within the U.S.

This 100% deduction does not apply if an election under section 1562 (election of multiple surtax exemptions by a controlled group of corporations) is effective for either (1) the taxable year of the domestic corporation in which the dividends are received, or (2) the taxable year of the foreign corporation out of the earnings and profits of which the dividends are paid.

[5.] Enter foreign dividends (including minimum distributions under subpart F) not reportable on lines 3 and 4. Exclude distributions of amounts constructively taxed in the current year or in prior years under subpart F.

[6.] Include income constructively received from controlled foreign corporations under subpart F. This amount should equal the total of amounts reported in Schedule A, line 5 of Form(s) 3646.

[7.] Include gross-up for taxes deemed paid under sections 902 and 960.

[8.] Enter only those dividends subject to the elective provisions of section 243(b) and are entitled to the 100% dividends-received deduction under section 243(a)(3). Corporations making this election are subject to the provisions of section 1561.

[9.] Enter only those dividends that are subject to the elective provisions of section 243(b) and are entitled to the dividends-received deduction as computed under the provisions of section 1564(b). Corporations making this election are subject to the provisions of section 1562 as modified by section 1564.

[10.] Enter taxable distributions from a DISC or former DISC that are designated as not being eligible for the 85% deduction.

[11.] Include dividends (other than capital gain dividends) received from regulated investment companies and which are not subject to the 85% deduction; dividends from tax-exempt organizations; dividends (other than capital gain dividends) received from a real estate investment trust which, for the taxable year of the trust in which the dividends are paid, qualifies under sections 856-858; dividends not eligible for a dividends-received deduction because of the holding period of the stock or an obligation to make corresponding payments with respect to similar stock; and any other taxable dividend income not properly reported above.

6. Other interest.—Enter interest on loans, notes, mortgages, bonds, bank deposits, corporate bonds, tax refunds, etc.

Do not offset interest income against interest expense.

7. Gross rents.—Enter the gross amount received for the rent of property. Deduct expenses such as repairs, interest, taxes, and depreciation in the proper lines for deductions.

9(a). Net capital gains.—Every sale or exchange of a capital asset must be reported in detail in Schedule D even though no gain or loss is indicated.

If the net long-term capital gain exceeds the net short-term capital loss, or in case of only a net long-term capital gain, compute the alternative tax on separate Schedule D to see if it produces a lesser tax.

3

9(b). Ordinary gain or (loss).—Enter the total ordinary gain or loss from line 9, Part II, Form 4797.

10. Other income.—The attached schedule should include recoveries of bad debts deducted in prior years under the specific charge-off method. Refunds of taxes deducted in prior years should be reported here and not offset against current year's taxes.

If "other income" consists of only one item, you may identify it by showing the account caption in parentheses on line 10.

Deductions

12. Compensation of officers.—Complete column 8 of Schedule E for your 6 highest paid officers. To determine the highest paid officers, add all allowances, including expense account allowances, to each officer's compensation. Expense account allowance means (1) amounts, other than compensation, received as advances or reimbursements and (2) amounts paid by or for the corporation for expenses incurred by or on behalf of an officer. Column 8 does not have to be completed for any officer for whom the combined amount is less than \$30,000.

This information is to be submitted by each member of an affiliated group included in a consolidated return.

14. Repairs.—Enter the cost of incidental repairs, such as labor and supplies, that do not add to the value or appreciably prolong the life of the property. Include in this line the total amount of repairs from Form 4832.

15. Bad debts.—Bad debts may be treated in either of two ways—(1) as a deduction for debts that become worthless in whole or in part, or (2) as a deduction for a reasonable addition to a reserve for bad debts. (Section 165.)

Application to change the method of computing bad debts must be made on Form 3115.

17. Taxes.—Enter taxes paid or accrued during the taxable year and attach a schedule showing the type and amount of tax.

Do not include Federal income taxes, foreign or U.S. possession income taxes if a foreign tax credit is claimed, or taxes not imposed on the corporation. See section 164(d) for apportionment of taxes on real property between seller and purchaser.

18. Interest.—Do not include interest on indebtedness incurred or continued to purchase or carry obligations on which the interest is wholly exempt from income tax. (Section 265.)

4

Mutual savings banks, building and loan associations, and cooperative banks should enter amounts paid or credited to the accounts of depositors as dividends, interest, or earnings.

See section 267 for limitation on deductions for unpaid expenses and interest in transactions between related taxpayers.

19. Contributions.—Enter contributions or gifts actually paid within the taxable year to or for the use of charitable and governmental organizations described in section 170(c) and any unused contributions carried over from prior years.

The total amount claimed may not exceed 5% of taxable income (line 30) computed without regard to (1) any deduction for contributions, (2) the special deductions in line 29(b), (3) deductions allowed under sections 249 and 250, (4) any net operating loss carryback to the taxable year under section 172, and (5) any capital loss carryback to the taxable year under section 1212(a)(1).

Charitable contributions in excess of the 5% limitation may not be deducted for the taxable year but may be carried over to the next 5 taxable years.

A contribution carryover is not allowed, however, to the extent that it increases a net operating loss carryover. See section 170(d)(2)(B).

Corporations on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3d month after the end of the taxable year if the contributions are authorized by the board of directors during the taxable year. A declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the board of directors during the taxable year, and a copy of the resolution, must both be attached to the return.

Attach a schedule showing the name of each organization and the amount paid. If a contribution is made in property other than money, describe the kind of property contributed and the method used in determining its fair market value. If a contribution carryover is included, show the amount and how it was determined.

Special rule for contributions of certain property.—If you make a charitable contribution of property, the contribution must be reduced by the sum of

- (1) the ordinary income and
- (2) for certain contributions, 62½% of the long-term capital gain,

that would have resulted if the property were sold at its fair market value. The

reduction for 62½% of the long-term capital gain applies to (1) contributions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for its exemption, and (2) contributions of any property to or for the use of certain private foundations. (Section 170(e).)

Bargain sale to a charitable organization.—If you take a charitable contribution deduction for property sold to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

20. Amortization.—If you claim a deduction for amortization, attach a schedule showing: (1) a description of the expenditures being amortized; (2) date acquired, completed, or expended; (3) amount being amortized; (4) amortization deducted in prior years; (5) amortization period (number of months); (6) amortization for this year; and (7) the total amount of amortization less the amount claimed in Schedule A and elsewhere on the return.

See section 169 and related regulations for conditions under which the cost of certified pollution control facilities may be amortized over 60 months.

Also see section 188 for conditions under which certain expenditures for on-the-job training and child care facilities may be amortized over 60 months.

21. Depreciation.—See instructions for Schedule G.

22. Depletion.—The percentage depletion rate for oil and gas wells is 22%. See section 613(b) for rates applicable to other natural deposits.

Attach Form T if a deduction is claimed for depletion of timber.

24. Pension, profit-sharing, etc. plans.—File Form 4848 with a Schedule A (Form 4848) and Form 4849 on or before the 15th day of the 5th month following the close of your taxable year, if you have adopted a pension, profit-sharing, or other funded deferred compensation plan.

25. Employee benefit programs.—Enter the amount of your contributions to employee benefit programs (e.g. insurance, health, and welfare programs) that are not an incidental part of a pension, profit-sharing, etc., plan included on line 24.

26. Other deductions.—No deduction is allowable for any amount allocable to a class of exempt income other than exempt interest income. Items directly attributable to wholly exempt in-

come must be allocated to such income, and items directly attributable to any class of taxable income must be allocated to such taxable income.

If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion of the item, determined in the light of all the facts and circumstances in each case, must be allocated to each.

Attach a statement showing (1) the amount of each class of exempt income and (2) the amount of expense items allocated to each such class. Show the amount allocated by apportionment separately.

29(a). Net operating loss deduction.—The "net operating loss deduction" is the sum of the net operating loss carryovers and carrybacks to the taxable year. (Section 172(a).)

Generally, a net operating loss may be carried back 3 years and carried over 5 years. The net operating loss must first be carried to the earliest of the 8 taxable years to which it may be carried, then to the next earliest year, etc. The portion of the loss that may be carried to each of the other 7 taxable years is the excess, if any, of the loss over the sum of the taxable income for each of the prior taxable years to which the loss may be carried. (Section 172(b).)

The term "net operating loss" means the excess of allowable deductions over gross income, computed with the following modifications under section 172(d):

(1) No net operating loss deduction is allowed.

(2) The special deduction provided in section 922 (Western Hemisphere trade corporations) is not allowed.

(3) The special deductions in line 1 of Schedule I are computed without regard to the 85% limitation provided in section 246(b). See section 1.172-2 of the regulations.

(4) The special deduction allowed by section 247 (dividends paid on certain preferred stock of public utilities) is computed without regard to section 247(a)(1)(B).

As stated, the net operating loss deduction is the sum of the carryovers and carrybacks. However, the following modifications must be taken into account in determining the taxable income that must be subtracted from a net operating loss to determine the portion of such loss that will still be available to carry to a later year:

(a) The special deduction provided in section 922 (Western Hemisphere trade corporations) is not allowed.

(b) The net operating loss deduction is determined without regard to the net operating loss for the loss year or any taxable year thereafter, and under certain circumstances, without regard to any portion of a net operating loss attributable to a foreign expropriation loss.

If you have a net operating loss carryback and want a "quick refund" of taxes, file Form 1139 within 12 months after the close of the taxable year in which the net operating loss occurred. (Section 6411.)

If a net operating loss carryback creates an unused investment credit or an unused work incentive (WIN) credit in a preceding year, the unused credit may be carried back to the 3 preceding years (however, the WIN credit cannot be carried back to years beginning before 1972), and, under the provisions of section 6411, a quick refund of the taxes affected may be obtained by filing Form 1139.

29(b). Special deductions.—See instructions for Schedule I.

Schedule G—Depreciation

Complete Schedule G if you claim a deduction for depreciation of property, leasehold improvements, patents, or copyrights. Form 4562, Depreciation, may be used as a supplement to Schedule G.

Salvage value.—Salvage value must be taken into account in determining the depreciation deduction except under the declining balance method, Class Life (ADR) System, or Guideline Class Life System. For personal property (other than livestock) with a useful life of 3 years or more, salvage value may be reduced by an amount not in excess of 10% of the cost or other basis of the property. Property cannot be depreciated below a reasonable salvage value after you make the above salvage value reduction.

Tangible property other than real property.—Tangible personal property, whether new or used, may be depreciated under the straight line method or the 150% declining balance method.

New tangible personal property with a useful life of 3 years or more may also be depreciated under (1) the double declining balance method, (2) the sum of the years-digits method, or (3) any other method that does not result in accumulated allowances at the end of any year (during the first two-thirds useful life of the property) greater than the total that could have been deducted if the double declining balance method had been used.

New section 1250 property.—The

double declining balance and sum of the years-digits methods may be used only for new residential rental property from which at least 80% of the gross rental income is derived from the rental of residential units. Other new real property may be depreciated under the straight line or 150% declining balance methods.

Used section 1250 property.—Used residential rental property with a useful life of 20 years or more may be depreciated under the 125% declining balance method. Other used real property may be depreciated under the straight line method.

Rehabilitation expenditures for low-income rental housing.—You may elect to compute the depreciation deduction under section 167(k) for rehabilitation expenditures incurred for low-income rental housing under the straight line method using a useful life of 60 months and no salvage value in lieu of any other method of computing depreciation. For details, see section 167(k).

Section 179—Additional first-year depreciation allowance.—For the first year a depreciation deduction is allowable, corporations may elect to write off 20% of the cost (before adjustment for salvage value) of new or used tangible personal property with a useful life of 6 years or more, up to an aggregate cost of \$10,000.

Controlled corporate groups must apportion this \$10,000 amount among members of the group. For this purpose, section 179(d)(7) provides a special definition of controlled groups.

If the additional first-year allowance is elected, the basis of the property must be reduced by the amount of the deduction before computing the ordinary depreciation.

Schedule I—Special Deductions

(Numbered to correspond with line numbers in Schedule I.)

1. A small business investment company operating under the Small Business Investment Act of 1958 may deduct 100% of dividends received from domestic corporations subject to income tax. (Section 243(a)(2).)

No deduction is allowed under section 243 for a dividend from a DISC or former DISC (as defined in section 992(a)) to the extent such dividend is paid out of the corporation's accumulated DISC income or previously taxed income, or is a deemed distribution under section 995(b)(1).

In general, no dividends received deduction will be allowed on any share of

5

stock (a) that is disposed of if the corporation held it 15 days or less, or (b) to the extent the corporation is under an obligation to make corresponding payments with respect to substantially identical stock or securities.

2. Limitation on dividends-received deduction.—Line 2 may not exceed 85% of (line 28, page 1, less the sum of lines 3, 4, and 6 of Schedule I). For this purpose, line 28, page 1, is to be computed without regard to any capital loss carryback to the taxable year under section 1212(a)(1).

In a year in which a net operating loss occurs, sections 172(d) and 246(b) provide that this 85% limitation does not apply even if the loss is created by the dividends-received deduction.

In the case of a small business investment company, the dividends-received deduction of 100% included in line 2 is not subject to the overall 85% limitation.

Financial institutions should see section 596 for special limitation on dividends-received deduction.

5. Deduction for dividends paid on certain preferred stock of public utilities.—Section 247 allows public utilities a deduction of 29.167% of the lesser of (1) dividends paid on their preferred stock during the taxable year, or (2) taxable income computed without regard to this deduction. In a year in which a net operating loss occurs, section 172(d) provides that the deduction is to be computed without regard to section 247(a)(1)(B).

6. Deduction for Western Hemisphere trade corporations.—Section 922 allows Western Hemisphere trade corporations a deduction of 29.167% of taxable income computed without regard to this deduction.

However, no deduction is allowed to a corporation for a taxable year for which it is a DISC or during which it owns directly or indirectly at any time stock in a DISC or former DISC as defined in section 992(a).

Schedule J—Tax Computation

1. Surtax exemption.—In general, corporations are entitled to a \$25,000 surtax exemption. Certain controlled corporations, however, are limited to a smaller amount under the provisions of

sections 1561, 1562, and 1564. (See section 1563 for definition of controlled group.)

Under the provisions of section 1561, a controlled group of corporations, with respect to a specified December 31, must divide one \$25,000 surtax exemption equally among all component members of the group unless the group specifically consents to split up the \$25,000 amount among all component members in accordance with an apportionment plan. See section 1561 and the regulations thereunder for the time and manner of making the consent.

For taxable year 1974, only one member of a group that has made an election under section 1562 may claim a full \$25,000 surtax exemption. The other members are each limited to \$4,167. (Fiscal year 1974-75 members, see below.) Section 1564(a)(2) provides that the component members of the controlled group must elect which member is to receive the full \$25,000 and which members are to be limited to \$4,167. See section 1.1564-1(b) of the regulations for the manner of making the election.

If the group elects to have each component member claim a separate surtax exemption under section 1562, each component member must pay an additional tax of 6% of the amount of income equal to its surtax exemption. If only one member of the group has any taxable income, the 6% tax does not apply. (Section 1562(b)(1)(A).)

Special rules apply to those members of a controlled group having a fiscal year beginning in 1974 and ending in 1975. See Form 1120-FY and example (7) of section 1.21-1(n) of the regulations.

2. Mutual savings banks conducting life insurance business.—The tax under section 594 consists of the sum of (1) a partial tax computed on Form 1120 on the taxable income of the bank determined without regard to income or deductions allocable to the life insurance department; and (2) a partial tax on the taxable income computed on Form 1120L of the life insurance department. Enter the combined tax on line 5 of Schedule J, Form 1120. Attach Form 1120L as a schedule and identify as such.

3. Credit for wages paid or incurred in Work Incentive (WIN) Program.—Employers may claim a credit of 20%

of the salaries and wages paid or incurred to employees hired under a WIN program. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. For special rules and limitations, see Form 4874 and sections 50A and 50B.

4. Tax from recomputing a prior year WIN credit.—If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, you must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred to that employee. (See Form 4874.)

The tax from recomputing a prior year work incentive credit may not be offset against the current year's work incentive credit.

5. Tax from recomputing a prior year investment credit.—If property is disposed of prior to the life-years category used in computing the investment credit, the credit must be recomputed using as the useful life the period the property was actually held. If the credit taken, including carrybacks and carryovers, exceeds the recomputed credit, the tax in the year of disposition must be increased by the excess. Form 4255 may be used to compute the tax.

The tax from recomputing a prior year investment credit may not be offset against the current year's investment credit.

6. Minimum tax on tax preference items.—Corporations having tax preference items in excess of \$30,000 must attach Form 4626, Computation of Minimum Tax.

Items of tax preference are: (1) accelerated depreciation on real property, (2) accelerated depreciation on personal property subject to a net lease,* (3) amortization of certified pollution control facilities, (4) amortization of railroad rolling stock, (5) amortization of on-the-job training facilities, (6) amortization of child care facilities, (7) reserves for losses on bad debts of financial institutions, (8) excess percentage depletion, and (9) capital gains.

*Applies only to personal holding companies.

Single copies of Publication 334, Tax Guide for Small Business (1975 edition), may be obtained without cost from most IRS offices.

Codes for Principal Business Activity and Principal Product or Service

These industry titles and definitions are based, in general, on the Enterprise Standard Industrial Classification system developed by the Office of Management and Budget, Executive Office of the President, to classify enterprises by type of activity in which they are engaged. The system follows closely the Standard Industrial Classification used to classify establishments.

Using the list below, enter on page 1, under C, the code number for the specific industry group from which the largest percentage of "total receipts" is derived. "Total receipts" means gross receipts (line 1, page 1) plus all other income (lines 4 through 10, page 1). On page 3, under M, state the principal business activity and principal product or service that account for the largest percentage of total receipts. For example, if the principal business activity is "Grain mill products," the principal product or service may be "Cereal preparations."

AGRICULTURE, FORESTRY, AND FISHING

Code
0400 Agricultural production.
0600 Agricultural services, forestry, fishing, hunting, and trapping.

MINING

Metal Mining:
1010 Iron ores.
1070 Copper, lead and zinc, gold and silver ores.
1180 Coal mining.
Oil and gas extraction:
1300 Crude petroleum, natural gas, and natural gas liquids.
1380 Oil and gas field services.
Nonmetallic minerals (except fuels) mining:
1430 Dimension, crushed and broken stone, sand and gravel.
1498 Other nonmetallic minerals, except fuels.

CONSTRUCTION

General building contractors and operative builders:
1510 General building contractors.
1531 Operative builders.
1600 Heavy construction contractors.
Special trade contractors:
1711 Plumbing, heating, and air conditioning.
1791 Electrical work.
1798 Other special trade contractors.

MANUFACTURING

Food and kindred products:
2010 Meat products.
2020 Dairy products.
2030 Preserved fruits and vegetables.
2040 Grain mill products.
2050 Bakery products.
2060 Sugar and confectionery products.
2081 Malt liquors and malt.
2088 Alcoholic beverages, except malt liquors and malt.
2089 Bottled soft drinks, and flavorings.
2096 Other food and kindred products.
2100 Tobacco manufactures.
Textile mill products:
2228 Weaving mills and textile finishing.
2250 Knitting mills.
2298 Other textile mill products.
Apparel and other textile products:
2315 Men's and boy's clothing.
2345 Women's and children's clothing.
2388 Hats, caps, millinery, fur goods, and other apparel and accessories.
2390 Misc. fabricated textile products.
Lumber and wood products, except furniture, sawmills and planing mills:
2430 Millwork, plywood, and related products.
2498 Other wood products, including wood buildings and mobile homes.
2500 Furniture and fixtures.
Paper and allied products:
2625 Pulp, paper, and board mills.
2699 Other paper products.
Printing, publishing, and allied industries:
2710 Newspapers.
2720 Periodicals.
2735 Books, greeting cards, and misc. publishing.
2799 Commercial and other printing, and printing trade services.
Chemicals and allied products:
2815 Industrial chemicals, plastics materials and synthetics.
2830 Drugs.
2840 Soap, cleaners, and toilet goods.
2850 Paints and allied products.
2898 Agricultural and other chemical products.
Petroleum refining and related industries (including those integrated with extraction):
2910 Petroleum refining (including those integrated with extraction).
2998 Other petroleum and coal products.
Rubber and misc. plastics products:
3050 Rubber products; plastics footwear, hose and belting.
3070 Misc. plastics products.
Leather and leather products:
3140 Footwear, except rubber.
3198 Other leather and leather products.

Code
Stone, clay, glass, and concrete products:
3215 Glass products.
3240 Cement, hydraulic.
3270 Concrete, gypsum, and plaster products.
3298 Other nonmetallic mineral products.

Primary metal industries:
3370 Ferrous metal industries; misc. primary metal products.
3380 Nonferrous metal industries.

Fabricated metal products, except machinery and transportation equipment:
3410 Metal cans and shipping containers.
3428 Cutlery, hand tools, and hardware, screw machine products, bolts, and similar

3430 Plumbing and heating, except electric and warm air.
3440 Fabricated structural metal products.
3450 Metal forgings and stampings.
3470 Coating, engraving, and allied services.
3480 Ordnance and accessories, except vehicles and guided missiles.
3490 Misc. fabricated metal products.

Machinery, except electrical:
3530 Farm machinery.
3535 Construction, mining, and materials handling machinery and equipment.
3540 Metalworking machinery.
3550 Special industry machinery, except metalworking machinery.

3560 General industrial machinery.
3570 Office, computing, and accounting machines.
3598 Engines and turbines, service industry machinery, and other machinery, except electrical.

Electrical and electronic machinery, equipment, and supplies:
3620 Household appliances.
3665 Radio, television, and communication equipment.
3670 Electronic components and accessories.
3698 Other electric equipment.

Transportation equipment:
3710 Motor vehicles and equipment.
3725 Aircraft, guided missiles and parts.
3730 Ship and boat building and repairing.
3798 Other transportation equipment.

Measuring and controlling instruments; photographic and medical goods, watches and clocks:
3815 Scientific instruments and measuring devices; watches and clocks.
3845 Optical, medical, and ophthalmic goods.
3850 Photographic equipment and supplies.
3998 Other manufacturing products.

TRANSPORTATION, COMMUNICATION, ELECTRIC, GAS, AND SANITARY SERVICES
Transportation:
4000 Railroad transportation.
4100 Local and interurban passenger transit.
4200 Trucking and warehousing.
4300 Water transportation.
4400 Transportation by air.
4500 Pipe lines, except natural gas.
4700 Other transportation services.

Communication:
4825 Telephone, telegraph, and other communication services.
4830 Radio and television broadcasting.

Electric, gas, and sanitary services:
4910 Electric services.
4920 Gas production and distribution.
4930 Combination utility services.
4990 Water supply and other sanitary services.

WHOLESALE TRADE

Durable:
5010 Motor vehicles and automotive equipment.
5030 Lumber and construction materials.
5050 Metals and minerals, except petroleum and scrap.
5060 Electrical goods.
5070 Hardware, plumbing and heating equipment.
5080 Machinery, equipment, and supplies.
5098 Other durable goods.

Non-durable:
5110 Paper and paper products.
5129 Drugs, chemicals, and allied products.

Code
5130 Apparel, piece goods, and notions.
5140 Groceries and related products, except meats and meat products.
5147 Meats and meat products.
5150 Farm-product raw materials.
5170 Petroleum and petroleum products.
5180 Alcoholic beverages.
5190 Misc. nondurable goods.

RETAIL TRADE

Building materials, hardware, garden supply, and mobile home dealers:
5210 Building materials dealers.
5231 Hardware stores.
5265 Garden supplies and mobile home dealers.
5300 General merchandise stores.
5400 Food stores.

Automotive dealers and service stations:
5515 Motor vehicle dealers.
5541 Gasoline service stations.
5598 Other automotive dealers.
5600 Apparel and accessory stores.
5700 Furniture and home furnishings stores.
5800 Eating and drinking places.

Misc. retail stores:
5912 Drug stores and proprietary stores.
5921 Liquor stores.
5995 Other misc. retail stores.

FINANCE, INSURANCE, AND REAL ESTATE
Banking:
6030 Mutual savings banks.
6060 Bank holding companies.
6090 Banks, except mutual savings banks and bank holding companies.

Credit agencies other than banks:
6120 Savings and loan associations.
6140 Personal credit institutions.
6150 Business credit institutions.
6199 Other credit agencies.

Security, commodity brokers, dealers, exchanges, and services:
6210 Security brokers, dealers, and flotation companies.
6299 Commodity contracts brokers and dealers; security and commodity exchanges; and allied services.

Insurance:
6355 Life insurance.
6398 Mutual insurance, except life or marine and certain fire or flood insurance companies.
6411 Other insurance companies.

Real Estate:
6511 Real estate operators (except developers) and lessors of buildings.
6516 Lessors of mining, oil, and similar property.
6518 Lessors of railroad property and other real property.

6550 Subdividers and developers.
6599 Other real estate.
Holding and other investment companies:
6745 Regulated investment companies.
6743 Real estate investment trusts.
6744 Small business investment companies.
6749 Holding and other investment companies, except bank holding companies.

SERVICES
7000 Hotels and other lodging places.
7200 Personal services.
Business services:
7310 Advertising.
7389 Business services, except advertising.

Auto repair and services; misc. repair services:
7500 Auto repair and services.
7600 Misc. repair services.
Amusement and recreational services:
7812 Motion picture production, distribution, and service.
7830 Motion picture theaters.
7900 Amusement and recreation services, except motion pictures.

Other Services:
8015 Offices of physicians, including osteopathic physicians.
8021 Offices of dentists.
8050 Nursing and personal care facilities.
8071 Medical laboratories.
8098 Other medical services.
8111 Legal services.
8200 Educational services.
8599 Misc. services.

Form 1120 Department of the Treasury Internal Revenue Service	U.S. Corporation Income Tax Return For taxable year beginning _____ 1974 and ending _____ 1975. (PLEASE TYPE OR PRINT)	1974 (Rev. 4-75)
Check if a-- A Consolidated return <input type="checkbox"/> B Personal Holding Co. <input type="checkbox"/> C Business Code No. (See page 7 of instructions)	Name _____ Number and street _____ City or town, State, and ZIP code _____	D Employer identification number _____ E County in which located _____ F Enter total assets from line 14, column (D), Schedule L (See instruction I) \$ _____
IMPORTANT—Fill in all applicable lines and schedules. If the lines on the schedules are not sufficient, see instruction II.

Under penalties of perjury, I declare that I have examined this return, including accompanying schedules and statements, and to the best of my knowledge and belief it is true, correct, and complete. Declaration of preparer (other than taxpayer) is based on all information of which he has any knowledge.		
The Internal Revenue Service does not require a seal on this form, but if one is used, please place it here.	Date _____ Signature of officer _____ Date _____ Signature of individual or firm preparing the return _____ Preparer's address _____	Title _____ Emp. Ident. or Soc. Sec. No. _____

Form 1120 (1974) (Rev. 4-75)
Page 2

Schedule A Cost of Goods Sold (See instruction 2)

1 Inventory at beginning of year	
2 Merchandise bought for manufacture or sale	
3 Salaries and wages	
4 Other costs. (attach schedule)	
5 Total	
6 Less: Inventory at end of year	
7 Cost of goods sold—Enter on line 2, page 1	
Method of inventory valuation	

Was there any substantial change in the manner of determining quantities, costs, or valuations between opening and closing inventory? ☐ Yes ☐ No

If "Yes," attach an explanation.

Schedule C Dividends (See instruction 4)

1 Domestic corporations subject to 85% deduction	
2 Certain preferred stock of public utilities	
3 Foreign corporations subject to 85% deduction	
4 Dividends from wholly-owned foreign subsidiaries subject to 100% deduction (section 245(b))	
5 Other dividends from foreign corporations	
6 Excludable income from controlled foreign corporations under subpart F (attach Forms 3646)	
7 Foreign dividend gross-up (section 78)	
8 Qualifying dividends received from affiliated groups and subject to the 100% deduction (section 243 (a)(3))	
9 Qualifying dividends received from affiliated groups and subject to the provisions of section 1564(b)	
10 Taxable dividends from a DISC or former DISC not included in line 1 (section 245(d))	
11 Other dividends	
12 Total—Enter here and on line 4, page 1	

Schedule E Compensation of Officers (See instruction 12)

1. Name of officer	2. Social security number	3. Title	4. Time devoted to business	Percent of corporation stock owned		7. Amount of compensation	8. Expense account allowances
				5. Common	6. Preferred		

Total compensation of officers—Enter here and on line 12, page 1

Schedule F Bad Debts—Reserve Method (See instruction 15)

1. Year	2. Trade notes and accounts receivable outstanding at end of year	3. Sales on account	Amount added to reserve		6. Amount charged against reserve	7. Reserve for bad debts at end of year
			4. Current year's provision	5. Recoveries		
1969						
1970						
1971						
1972						
1973						
1974						

Schedule G Depreciation. (See instructions for Schedule G) Note: If depreciation is computed by using the Class Life (ADR) System or the Guideline Class Life System, you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System) with your return. Check box(es) if you made an election this taxable year to use ☐ Class Life (ADR) System and/or ☐ Guideline Class Life System. See Publication 534.

1. Group and guideline class or description of property	2. Date acquired	3. Cost or other basis	4. Depreciation allowed or allowable in prior years	5. Method of computing depreciation	6. Life or rate	7. Depreciation for this year
1 Total additional first-year depreciation (do not include in items below)						
2 Depreciation from Form 4832						
3 Depreciation from Form 5006						
4 Other depreciation:						
Buildings						
Furniture and fixtures						
Transportation equipment						
Machinery and other equipment						
Other (specify)						
5 Totals						
6 Less: Amount of depreciation claimed in Schedule A						
7 Balance—Enter here and on line 21, page 1						

1	(a) 85% of line 1, Schedule C	
2	(b) 60.208% of line 2, Schedule C	
3	(c) 85% of line 3, Schedule C	
4	(d) 100% of line 4, Schedule C	
5	2 Total—See instructions for limitation	
6	3 100% of line 8, Schedule C	
7	4 Enter dividends-received deduction allowed for dividends reported on line 9, Schedule C. See section 1564(b) for computation	
8	5 Dividends paid on certain preferred stock of public utilities (see instructions)	
9	6 Western Hemisphere trade corporations (see instructions)	
10	7 Total special deductions—Add lines 2 through 6. Enter here and on line 29(b), page 1	

Schedule K **Record of Form 503 Federal Tax Deposits** (List deposits in order of date made—See instruction G)[illegible]

Date incorporated ►		Yes	No	M Refer to page 7 of instructions and state the principal:		Yes	No
H	Did you at the end of the taxable year own, directly or indirectly, 50% or more of the voting stock of a domestic corporation? (For rules of attribution, see section 267(c).)			Business activity _____ Product or service _____			
If "Yes," attach a schedule showing:				N Were you a member of a controlled group subject to the provisions of: (1) Section 1561? _____			
(a) name, address, and identifying number;				(2) Section 1562? _____			
(b) percentage owned; and				If answer to (1) or (2) is "Yes," check the type of relationship:			
(c) taxable income (or loss) from line 30, page 1, Form 1120 of such corporation for the taxable year ending with or within your taxable year.				(a) parent-subsidiary <input type="checkbox"/> (b) brother-sister <input type="checkbox"/>			
(2)	Did any individual, partnership, corporation, estate or trust at the end of the taxable year own, directly or indirectly, 50% or more of your voting stock? (For rules of attribution, see section 267(c).)			(c) combination of (a) and (b) <input type="checkbox"/> (See section 1563.)			
If "Yes,"				If answer to (2) is "Yes," are you excluded from paying the 6% additional tax because section 1562(b)(1)(A) applies? _____			
(a) Attach a schedule showing name, address, and identifying number.				O Did the corporation, at any time during the taxable year, have any interest in or signature or other authority over a bank, securities, or other financial account in a foreign country?

Department of the Treasury
Internal Revenue Service

Instructions for Form 1120 U.S. Corporation Income Tax Return

(References are to the Internal Revenue Code.)

General Instructions

A. Who must file Form 1120.—

- Domestic corporations, whether or not having any taxable income, unless exempt under section 501.
- Real estate investment trusts defined in section 856.
- Regulated investment companies defined in section 851.
- Insurance companies described in section 831.
- Certain political organizations described in Revenue Ruling 74-21, I.R.B. 1974-2, p. 6.

B. Returns required of certain organizations.—

- Foreign corporations other than life and mutual insurance companies filing Forms 1120L and 1120M—file Form 1120F.
- Life insurance companies (section 802)—file Form 1120L.
- Mutual insurance companies (section 821)—file Form 1120M.
- Exempt farmers' cooperatives (section 1381)—file Form 990-C.
- Exempt organizations with unrelated trade or business income—file Form 990-T.
- Small business corporations (section 1372(a))—file Form 1120S.
- Domestic International Sales Corporations (section 992)—file Form 1120-DISC.

C. Where to file.—

If the corporation's principal business, office, or agency is located in—

New Jersey, New York City and counties of Raritan, Hudson, Suffolk, and Westchester	Internal Revenue Service Center 1040 Waverly Avenue Hoboken, N.J. 07030
New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	Internal Revenue Service Center 310 Lowell Street Andover, Mass. 01812
Alabama, Florida, Georgia, Mississippi, South Carolina	Internal Revenue Service Center 4500 Buford Highway Chamblee, Georgia 30008
Michigan, Ohio	Internal Revenue Service Center Cincinnati, Ohio 45298
Arkansas, Kansas, Louisiana, New Mexico, Oklahoma, Texas	Internal Revenue Service Center 3651 S. Interregional Highway Austin, Texas 78740
Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming	Internal Revenue Service Center 1150 West 1200 South Salt Lake City, Utah 84101

Illinois, Iowa, Missouri, Wisconsin	Internal Revenue Service Center 2108 E. Bancroft Road Kansas City, Mo. 64170
California, Hawaii	Internal Revenue Service Center 5045 East Butler Avenue Fresno, California 93888
Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia	Internal Revenue Service Center 1131 Delmont Road Memphis, Tenn. 38110
Delaware, District of Columbia, Maryland, Pennsylvania	Internal Revenue Service Center 11801 Roosevelt Boulevard Philadelphia, Pa. 19155

Corporations having their principal place of business outside the United States or claiming the benefits of section 931 (relating to income from sources within U.S. possessions) must file with the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pennsylvania 19155.

The separate income tax returns of a group of corporations located in several Service Center regions may be filed with the Service Center for the area in which the principal office of the managing corporation that keeps all the books and records is located.

D. When to file.—In general, Form 1120 must be filed on or before the 15th day of the 3d month after the end of the taxable year.

You may request an automatic 3-month extension of time to file Form 1120 by filing Form 7004.

Form 7005 may be used to request an additional extension but only by corporations that have previously obtained an automatic 3-month extension by filing Form 7004.

E. Information returns and forms that may be required.—

- Forms W-2 and W-3.—Employee's wage and tax statement; and transmittal of income and tax statements.
- Form W-2P.—Statement for recipients of annuities, pensions or retired pay.
- Forms 1087-DIV, INT, MED, MISC, and OID.—Nominees' information returns for reporting dividends, interest, medical and health care payments, miscellaneous income, and original issue discount that were received as a nominee on behalf of another person.
- Form 1096 and Schedule A (Form 1096).—Annual summary and

transmittal of U.S. information returns; and corporate report of nontaxable dividends.

5. Forms 966 and 1099L.—Information returns regarding dissolution or liquidation, and distributions in liquidation.

6. Forms 1099-DIV, INT, MED, MISC, OID, PATR, and R.—Information returns for reporting certain dividends, interest income, medical and health care payments, miscellaneous income payments, original issue discount, patronage dividends, and lump-sum distributions from profit-sharing and retirement plans.

7. Forms 3921, 3922, and 4067.—Information returns concerning exercise of certain stock options and the transfer of stock acquired by certain options.

F. Period to be covered by 1974 return.—File the 1974 (Rev. 4-75) return for fiscal years beginning in 1974 and ending in 1975. Fill in the taxable year space on the form.

FINAL RETURNS.—If the corporation ceases to exist, write "FINAL RETURN" at the top of the form.

G. Depositary method of tax payment.—The balance of the tax due (line 33) must be paid in full when the return is filed or in two installments, 50% by the 15th day of the 3d month and 50% by the 15th day of the 6th month after the end of the taxable year.

Corporations must deposit all income tax payments, accompanied by Federal Tax Deposit Form 503, with an authorized commercial bank depository or Federal Reserve bank. Please enter the serial number of Form 503 on your remittance. Do not remit directly to Internal Revenue.

In Schedule K, list all Form 503 deposits that relate to the taxable year for which this return is filed and which were made before or simultaneously with the filing of this return.

Timeliness of deposits will be determined by the date the deposit was received by the commercial bank depository or Federal Reserve bank.

Forms 503 will be mailed to corporations on a cyclical basis depending on the taxable year of the corporation. Corporations needing Forms 503 may obtain them from the Internal Revenue Service Center where they will file their returns. The application should include the corporation's name, identification number, address, and the taxable year to which the deposits relate.

H. Change in accounting period.—To change your accounting period, see section 1.442-1 of the regulations and

Form 1128, Application for Change in Accounting Period.

I. Accounting methods.—Taxable income must be computed using the method of accounting regularly used in keeping the corporation's books and records. In all cases, the method adopted must clearly reflect taxable income. (See section 446.)

Unless the law specifically permits, you may not change the method of accounting used to report income in prior years (for income as a whole or for any material item) without first obtaining consent on Form 3115, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—The money items may be shown as whole-dollar amounts by eliminating any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

J. Estimated tax.—A corporation must make estimated tax payments if it can expect its estimated tax (income tax less credits less an estimated tax exemption) to be \$40 or more.

See Form 1120-W 1975 (Rev. 4-75) which may be used as a worksheet to compute your estimated tax.

If you overpaid estimated tax, you may apply on Form 4466 for a "quick refund" if the overpayment is (1) at least 10% of expected income tax liability AND (2) at least \$500. This application must be made within 2½ months after the end of the taxable year and before you file your tax return.

K. Consolidated returns.—The parent corporation must attach Form 851, Affiliations Schedule, to the consolidated return. For the first year a consolidated return is filed, each subsidiary must attach Form 1122.

File supporting schedules for each corporation included in the consolidated return. The schedules must be in columnar form and show, both before and after adjustments, the items of gross income and deductions, a computation of taxable income, balance sheets as of the beginning and end of the taxable year, and a reconciliation of retained earnings. Also attach consolidated balance sheets and a reconciliation of consolidated retained earnings.

L. Stock ownership in foreign corporations.—If you owned 5% or more in value of the outstanding stock of a foreign personal holding company, at

attach the statement required by section 551(d).

If you control a foreign corporation or were a 10% or more shareholder of a controlled foreign corporation, you may be required to file Forms 2952 and 3646.

M. Financial statements.—The balance sheets must agree with your books and records. Any differences must be reconciled. Copies of balance sheets required by Federal, State, etc., authorities may be used in place of Schedule L. Certificates of deposit should be included as cash on line 1 of the balance sheet.

Banks, insurance companies, and other corporations required to submit substantially similar statements of income and expense to any Federal, State, etc., authority may submit copies of such statements in place of the information required on lines 1 through 30, page 1. Railroads may substitute Form 1090. In such cases, taxable income must be reconciled in Schedule M-1 with the net profit shown on the statement and entered as line 30, page 1.

N. Attachments.—You may use attachments if the lines on the form schedules are not sufficient. They must contain all the required information; must follow the format of the official schedules; and must be attached to the return in the same sequence as the schedules appear on the official form.

If an attachment is used in place of a schedule having a summary line on page 1, the total need not be entered on the schedule but must be entered on page 1.

Enter your name and identifying number on all attachments exactly as shown on your preaddressed label.

O. Amended return.—Correct any error in a previously filed income tax return by filing Form 1120X, Form 843 (if a claim for refund); or an amended Form 1120. IRS prefers Form 1120X be used to expedite processing.

P. Transfers to corporation controlled by transferor.—If a person acquires stock or securities of a corporation in exchange for property, and no gain or loss is recognized under section 351, the transferor and transferee must attach the information required by section 1.351-3 of the regulations.

Q. Signature.—The return must be signed by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or any other corporate officer (such as tax officer) authorized to sign.

A receiver, trustee, or assignee must sign any return he is required to file on behalf of a corporation.

R. Total assets.—If there are no assets at the end of the taxable year, show the total assets as of the beginning of the taxable year.

S. Corporations that liquidate within one calendar month.—Under section 333.—Such corporations should attach a computation (following the format in Revenue Procedure 65-10, 1965-1, C.B. 738, as modified by Revenue Procedure 67-12, 1967-1, C.B. 589) of accumulated earnings and profits including all items of income and expense accrued up to the date the transfer of all property is completed.

T. U.S. person.—(See question B (2)(c), page 3, Form 1120.)—The term "U.S. person" means: (1) a citizen or resident of the United States, (2) a domestic partnership, (3) a domestic corporation, or (4) any estate or trust (other than a foreign estate or trust within the meaning of section 7701 (a)(31)). See section 1.6039-2(d) of the regulations for exception of certain residents of U.S. possessions.

Owner's country, for individuals, is their country of residence. For all others, it is the country where incorporated, organized, created, or administered.

U. Penalties.—

1. A corporation that fails to file its tax return by the prescribed due date including any extensions of time for filing may be subject to a penalty of 5% a month, up to a maximum of 25%, for each month the return is not filed (the penalty is imposed on the net amount due—section 6651(a)(1)).

2. A corporation that fails to pay the tax when due may be subject to a penalty of ½ a month or fraction of a month, up to a maximum of 25%, for each month the tax is not paid (the penalty is imposed on the net amount due—section 6651(a)(2)).

The above penalties will not be imposed if the corporation can show that the failure to file or to pay was due to reasonable cause and not to willful neglect.

These penalties are in addition to the interest charge imposed on unpaid tax.

3. A corporation that fails to pay the proper estimated tax when due may be subject to an underpayment penalty for the period of underpayment (section 6655).

If you underpaid estimated tax and believe a penalty charge should not be assessed, attach Form 2220.

Specific Instructions

(Numbered to correspond with the line numbers on page 1 of the return.)

Gross Income

1. **Gross receipts.**—Enter gross receipts or sales from all business operations except those required to be reported in lines 4 through 10. For reporting advance payments and long-term contracts, see section 1.451-5 of the regulations.

If you use the installment method of reporting, enter on line 1 the gross profit on collections from installment sales and carry the same amount to line 3. Attach a schedule showing for the current and 3 preceding years: (a) gross sales, (b) cost of goods sold, (c) gross profits, (d) percentage of gross profits to gross sales, (e) amount collected, and (f) gross profit on amount collected.

2. **Cost of goods sold.**—The method of valuing inventories may not be changed without permission. Application for permission to change must be made on Form 3115.

If you elect to use the last-in-first-out (LIFO) method of valuing inventory provided in section 472, attach Form 970 or a statement that contains the information required by Form 970 to your return for the first year that method is to be used.

Full absorption method of inventory costing.—Taxpayers engaged in manufacturing or production operations must use the full absorption method of inventory costing. If they are not using the full absorption method of inventory costing, they must change to this method under which both direct and certain indirect production costs are included for inventory value purposes.

A special election is provided so that taxpayers will not have to change to the full absorption method for taxable years prior to the year for which the election is made. The election may be made by filing Form 3115 during the first 180 days of any taxable year beginning on or after September 19, 1973 and before September 19, 1975. The change shall be made for the tax year in which the election is made. For further details, see section 1.471-11 of the regulations.

Cost of operations (where inventories are not an income-determining factor).—If the amount entered on line 2 includes an amount applicable to cost

of operations, attach a schedule showing (1) salaries and wages and (2) other costs in detail.

4. **Dividends.**—(Numbered to correspond with line numbers in Schedule C.)

[1.] Enter dividends received from domestic corporations subject to income tax and which are subject to the 85% deduction under section 243(a)(1). Include on this line taxable distributions from a DISC or former DISC that are designated as being eligible for the 85% deduction.

Small business investment companies must enter dividends received from domestic corporations subject to income tax even though a deduction is allowed for the entire amount of such dividends in line 1 of Schedule I. For dividends received from a regulated investment company, see section 854 for the amount subject to the 85% deduction.

So-called dividends or earnings received from mutual savings banks, etc., are really interest and should not be treated as dividends.

[2.] Enter dividends received on the preferred stock of a public utility that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

[3.] Enter dividends received from foreign corporations and which qualify for the 85% deduction provided in section 245(a).

[4.] Enter dividends received from wholly-owned foreign subsidiaries and which are eligible for the 100% deduction provided in section 245(b).

In general, this deduction applies to dividends paid out of the earnings and profits of a foreign corporation for a taxable year during which (1) all of its outstanding stock is owned (directly or indirectly) by the domestic corporation receiving the dividends and (2) all of its gross income from all sources is effectively connected with the conduct of a trade or business within the U.S.

...This 100% deduction does not apply if an election under section 1562 (election of multiple surtax exemptions by a controlled group of corporations) is effective for either (1) the taxable year of the domestic corporation in which the dividends are received, or (2) the taxable year of the foreign corporation out of the earnings and profits of which the dividends are paid.

[5.] Enter foreign dividends (including minimum distributions under subpart F) not reportable on lines 3 and 4. Exclude distributions of amounts constructively taxed in the current year or in prior years under subpart F.

[6.] Include income constructively received from controlled foreign corporations under subpart F. This amount should equal the total of amounts reported in Schedule A, line 5 of Form(s) 3646.

[7.] Include gross-up for taxes deemed paid under sections 902 and 960.

[8.] Enter only those dividends subject to the elective provisions of section 243(b) and are entitled to the 100% dividends-received deduction under section 243(a)(3). Corporations making this election are subject to the provisions of section 1561.

[9.] Enter only those dividends that are subject to the elective provisions of section 243(b) and are entitled to the dividends-received deduction as computed under the provisions of section 1564(b). Corporations making this election are subject to the provisions of section 1562 as modified by section 1564.

[10.] Enter taxable distributions from a DISC or former DISC that are designated as not being eligible for the 85% deduction.

[11.] Include dividends (other than capital gain dividends) received from regulated investment companies and which are not subject to the 85% deduction; dividends from tax-exempt organizations; dividends (other than capital gain dividends) received from a real estate investment trust which, for the taxable year of the trust in which the dividends are paid, qualifies under sections 856-858; dividends not eligible for a dividends-received deduction because of the holding period of the stock or an obligation to make corresponding payments with respect to similar stock; and any other taxable dividend income not properly reported above.

6. **Other interest.**—Enter interest on loans, notes, mortgages, bonds, bank deposits, corporate bonds, tax refunds, etc.

Do not offset interest income against interest expense.

7. **Gross rents.**—Enter the gross amount received for the rent of property. Deduct expenses such as repairs, interest, taxes, and depreciation in the proper lines for deductions.

9(a). **Net capital gains.**—Every sale or exchange of a capital asset must be reported in detail in Schedule D even though no gain or loss is indicated.

If the net long-term capital gain exceeds the net short-term capital loss, or in case of only a net long-term capital gain, compute the alternative tax on separate Schedule D to see if it produces a lesser tax.

3

9(b). **Ordinary gain or (loss).**—Enter the total ordinary gain or loss from line 9, Part II, Form 4797.

10. **Other income.**—The attached schedule should include recoveries of bad debts deducted in prior years under the specific charge-off method. Refunds of taxes deducted in prior years should be reported here and not offset against current year's taxes.

If "other income" consists of only one item, you may identify it by showing the account caption in parentheses on line 10.

Deductions

12. **Compensation of officers.**—Complete column 8 of Schedule E for your 6 highest paid officers. To determine the highest paid officers, add all allowances, including expense account allowances, to each officer's compensation. Expense account allowance means (1) amounts, other than compensation, received as advances or reimbursements and (2) amounts paid by or for the corporation for expenses incurred by or on behalf of an officer. Column 8 does not have to be completed for any officer for whom the combined amount is less than \$30,000.

This information is to be submitted by each member of an affiliated group included in a consolidated return.

14. **Repairs.**—Enter the cost of incidental repairs, such as labor and supplies, that do not add to the value or appreciably prolong the life of the property. Include in this line the total amount of repairs from Form 4832.

15. **Bad debts.**—Bad debts may be treated in either of two ways—(1) as a deduction for debts that become worthless in whole or in part, or (2) as a deduction for a reasonable addition to a reserve for bad debts. (Section 166.)

Application to change the method of computing bad debts must be made on Form 3115.

17. **Taxes.**—Enter taxes paid or accrued during the taxable year and attach a schedule showing the type and amount of tax.

Do not include Federal income taxes, foreign or U.S. possession income taxes if a foreign tax credit is claimed, or taxes not imposed on the corporation. See section 164(d) for apportionment of taxes on real property between seller and purchaser.

18. **Interest.**—Do not include interest on indebtedness incurred or continued to purchase or carry obligations on which the interest is wholly exempt from income tax. (Section 265.)

4

Mutual savings banks, building and loan associations, and cooperative banks should enter amounts paid or credited to the accounts of depositors as dividends, interest, or earnings.

See section 267 for limitation on deductions for unpaid expenses and interest in transactions between related taxpayers.

19. **Contributions.**—Enter contributions or gifts actually paid within the taxable year to or for the use of charitable and governmental organizations described in section 170(c) and any unused contributions carried over from prior years.

The total amount claimed may not exceed 5% of taxable income (line 30) computed without regard to (1) any deduction for contributions, (2) the special deductions in line 29(b), (3) deductions allowed under sections 249 and 250, (4) any net operating loss carryback to the taxable year under section 172, and (5) any capital loss carryback to the taxable year under section 1212(a)(1).

Charitable contributions in excess of the 5% limitation may not be deducted for the taxable year but may be carried over to the next 5 taxable years.

A contribution carryover is not allowed, however, to the extent that it increases a net operating loss carryover. See section 170(d)(2)(B).

Corporations on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3d month after the end of the taxable year if the contributions are authorized by the board of directors during the taxable year. A declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the board of directors during the taxable year, and a copy of the resolution, must both be attached to the return.

Attach a schedule showing the name of each organization and the amount paid. If a contribution is made in property other than money, describe the kind of property contributed and the method used in determining its fair market value. If a contribution carryover is included, show the amount and how it was determined.

Special rule for contributions of certain property.—If you make a charitable contribution of property, the contribution must be reduced by the sum of

- (1) the ordinary income and
- (2) for certain contributions, 62½% of the long-term capital gain,

that would have resulted if the property were sold at its fair market value. The

reduction for 62½% of the long-term capital gain applies to (1) contributions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for its exemption, and (2) contributions of any property to or for the use of certain private foundations. (Section 170(e).)

Bargain sale to a charitable organization.—If you take a charitable contribution deduction for property sold to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

20. **Amortization.**—If you claim a deduction for amortization, attach a schedule showing: (1) a description of the expenditures being amortized; (2) date acquired, completed, or expended; (3) amount being amortized; (4) amortization deducted in prior years; (5) amortization period (number of months); (6) amortization for this year; and (7) the total amount of amortization less the amount claimed in Schedule A and elsewhere on the return.

See section 169 and related regulations for conditions under which the cost of certified pollution control facilities may be amortized over 60 months.

Also see section 188 for conditions under which certain expenditures for on-the-job training and child care facilities may be amortized over 60 months.

21. **Depreciation.**—See instructions for Schedule G.

22. **Depletion.**—The percentage depletion rate for oil and gas wells is 22%. See section 613(b) for rates applicable to other natural deposits.

Attach Form T if a deduction is claimed for depletion of timber.

24. **Pension, profit-sharing, etc. plans.**—File Form 4848 with a Schedule A (Form 4848) and Form 4849 on or before the 15th day of the 5th month following the close of your taxable year, if you have adopted a pension, profit-sharing, or other funded deferred compensation plan.

25. **Employee benefit programs.**—Enter the amount of your contributions to employee benefit programs (e.g. insurance, health and welfare programs) that are not an incidental part of a pension, profit-sharing, etc., plan included on line 24.

26. **Other deductions.**—No deduction is allowable for any amount allocable to a class of exempt income other than exempt interest income. Items directly attributable to wholly exempt in-

come must be allocated to such income, and items directly attributable to any class of taxable income must be allocated to such taxable income.

If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion of the item, determined in the light of all the facts and circumstances in each case, must be allocated to each.

Attach a statement showing (1) the amount of each class of exempt income and (2) the amount of expense items allocated to each such class. Show the amount allocated by apportionment separately.

29(a). Net operating loss deduction.—The "net operating loss deduction" is the sum of the net operating loss carryovers and carrybacks to the taxable year. (Section 172(a).)

Generally, a net operating loss may be carried back 3 years and carried over 5 years. The net operating loss must first be carried to the earliest of the 8 taxable years to which it may be carried, then to the next earliest year, etc. The portion of the loss that may be carried to each of the other 7 taxable years is the excess, if any, of the loss over the sum of the taxable income for each of the prior taxable years to which the loss may be carried. (Section 172(b).)

The term "net operating loss" means the excess of allowable deductions over gross income, computed with the following modifications under section 172(d):

(1) No net operating loss deduction is allowed.

(2) The special deduction provided in section 922 (Western Hemisphere trade corporations) is not allowed.

(3) The special deductions in line 1 of Schedule I are computed without regard to the 85% limitation provided in section 246(b). See section 1.172-2 of the regulations.

(4) The special deduction allowed by section 247 (dividends paid on certain preferred stock of public utilities) is computed without regard to section 247(a)(1)(B).

As stated, the net operating loss deduction is the sum of the carryovers and carrybacks. However, the following modifications must be taken into account in determining the taxable income that must be subtracted from a net operating loss to determine the portion of such loss that will still be available to carry to a later year:

(a) The special deduction provided in section 922 (Western Hemisphere trade corporations) is not allowed.

(b) The net operating loss deduction is determined without regard to the net operating loss for the loss year or any taxable year thereafter, and under certain circumstances, without regard to any portion of a net operating loss attributable to a foreign expropriation loss.

If you have a net operating loss carryback and want a "quick refund" of taxes, file Form 1139 within 12 months after the close of the taxable year in which the net operating loss occurred. (Section 6411.)

If a net operating loss carryback creates an unused investment credit or an unused work incentive (WIN) credit in a preceding year, the unused credit may be carried back to the 3 preceding years (however, the WIN credit cannot be carried back to years beginning before 1972), and, under the provisions of section 6411, a quick refund of the taxes affected may be obtained by filing Form 1139.

29(b). Special deductions.—See instructions for Schedule I.

Schedule G—Depreciation

Complete Schedule G if you claim a deduction for depreciation of property: leasehold improvements, patents, or copyrights. Form 4562, Depreciation, may be used as a supplement to Schedule G.

Salvage value.—Salvage value must be taken into account in determining the depreciation deduction except under the declining balance method, Class Life (ADR) System, or Guideline Class Life System. For personal property (other than livestock) with a useful life of 3 years or more, salvage value may be reduced by an amount not in excess of 10% of the cost or other basis of the property. Property cannot be depreciated below a reasonable salvage value after you make the above salvage value reduction.

Tangible property other than real property.—Tangible personal property, whether new or used, may be depreciated under the straight line method or the 150% declining balance method.

New tangible personal property with a useful life of 3 years or more may also be depreciated under (1) the double declining balance method, (2) the sum of the years-digits method, or (3) any other method that does not result in accumulated allowances at the end of any year (during the first two-thirds useful life of the property) greater than the total that could have been deducted if the double declining balance method had been used.

New section 1250 property.—The

double declining balance and sum of the years-digits methods may be used only for new residential rental property from which at least 80% of the gross rental income is derived from rental of residential units. Other new real property may be depreciated under the straight line or 150% declining balance methods.

Used section 1250 property.—Used residential rental property with a useful life of 20 years or more may be depreciated under the 125% declining balance method. Other used real property may be depreciated under the straight line method.

Rehabilitation expenditures for low-income rental housing.—You may elect to compute the depreciation deduction under section 167(k) for rehabilitation expenditures incurred for low-income rental housing under the straight line method using a useful life of 60 months and no salvage value in lieu of any other method of computing depreciation. For details, see section 167(k).

Section 179—Additional first-year depreciation allowance.—For the first year a depreciation deduction is allowable, corporations may elect to write off 20% of the cost (before adjustment for salvage value) of new or used tangible personal property with a useful life of 6 years or more, up to an aggregate cost of \$10,000.

Controlled corporate groups must apportion this \$10,000 amount among members of the group. For this purpose, section 179(d)(7) provides a special definition of controlled groups.

If the additional first-year allowance is elected, the basis of the property must be reduced by the amount of the deduction before computing the ordinary depreciation.

Schedule I—Special Deductions

(Numbered to correspond with line numbers in Schedule I.)

1. A small business investment company operating under the Small Business Investment Act of 1958 may deduct 100% of dividends received from domestic corporations subject to income tax. (Section 243(a)(2).)

No deduction is allowed under section 243 for a dividend from a DISC or former DISC (as defined in section 992(a)) to the extent such dividend is paid out of the corporation's accumulated DISC income or previously taxed income, or is a deemed distribution under section 995(b)(1).

In general, no dividends received deduction will be allowed on any share of

stock (a) that is disposed of if the corporation held it 15 days or less, or (b) to the extent the corporation is under an obligation to make corresponding payments with respect to substantially identical stock or securities.

2. Limitation on dividends received deduction.—Line 2 may not exceed 85% of (line 28, page 1, less the sum of lines 3, 4, and 6 of Schedule I). For this purpose, line 28, page 1, is to be computed without regard to any capital loss carryback to the taxable year under section 1212(a)(1).

In a year in which a net operating loss occurs, sections 172(d) and 246(b) provide that this 85% limitation does not apply even if the loss is created by the dividends received deduction.

In the case of a small business investment company, the dividends received deduction of 100% included in line 2 is not subject to the overall 85% limitation.

Financial institutions should see section 596 for special limitation on dividends received deduction.

5. Deduction for dividends paid on certain preferred stock of public utilities.—Section 247 allows public utilities a deduction of 29.167% of the lesser of (1) dividends paid on their preferred stock during the taxable year, or (2) taxable income computed without regard to this deduction. In a year in which a net operating loss occurs, section 172(d) provides that the deduction is to be computed without regard to section 247(a)(1)(B).

6. Deduction for Western Hemisphere trade corporations.—Section 922 allows Western Hemisphere trade corporations a deduction of 29.167% of taxable income computed without regard to this deduction.

However, no deduction is allowed to a corporation for a taxable year for which it is a DISC or during which it owns directly or indirectly at any time stock in a DISC or former DISC as defined in section 992(a).

Schedule J—Tax Computation

1. See Form 1120—FY 1974—75 (Rev. 4-75) for tax computation.

2. Mutual savings banks conducting life insurance business.—The tax under section 594 consists of the sum of (1) a partial tax computed on Form 1120 on the taxable income of the bank determined without regard to income or deductions allocable to the life insurance department; and (2) a partial tax on the taxable income computed on Form 1120L of the life insurance department. Enter the combined tax on line 5 of Schedule J, Form 1120. Attach Form 1120L as a schedule and identify as such.

3. Credit for wages paid or incurred in Work Incentive (WIN) Program.—Employers may claim a credit of 20% of the salaries and wages paid or incurred to employees hired under a WIN program. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. For special rules and limitations, see Form 4874—FY and sections 50A and 50B.

4. Tax from recomputing a prior year WIN credit.—If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, you must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred to that employee. (See Form 4874—FY.)

The tax from recomputing a prior year work incentive credit may not be offset against the current year's work incentive credit.

5. Tax from recomputing a prior year investment credit.—If property is disposed of prior to the life-years category used in computing the investment credit, the credit must be recomputed using as the useful life the period the property was actually held. If the credit taken, including carrybacks and carryovers, exceeds the recomputed credit, the tax in the year of disposition must be increased by the excess. Form 4255 may be used to compute the tax.

The tax from recomputing a prior year investment credit may not be offset against the current year's investment credit.

6. Minimum tax on tax preference items.—Corporations having tax preference items in excess of \$30,000 must attach Form 4626, Computation of Minimum Tax.

Items of tax preference are: (1) accelerated depreciation on real property, (2) accelerated depreciation on personal property subject to a net lease, (3) amortization of certified pollution control facilities, (4) amortization of on-the-job training facilities, (5) amortization of railroad rolling stock, (6) amortization of child care facilities, (7) reserves for losses on bad debts of financial institutions, (8) excess percentage depletion, and (9) capital gains.

*Applies only to personal holding companies.

Single copies of Publication 334, Tax Guide for Small Business (1975 edition), may be obtained without cost from most IRS offices. The latest edition of Publication 334 does not reflect provisions of the Tax Reduction Act of 1975.

Codes for Principal Business Activity and Principal Product or Service

These industry titles and definitions are based, in general, on the Enterprise Standard Industrial Classification system developed by the Office of Management and Budget, Executive Office of the President, to classify enterprises by type of activity in which they are engaged. The system follows closely the Standard Industrial Classification used to classify establishments.

Using the list below, enter on page 1, under C, the code number for the specific industry group from which the largest percentage of "total receipts" is derived. "Total receipts" means gross receipts (line 1, page 1) plus all other income (lines 4 through 10, page 1). On page 3, under M, state the principal business activity and principal product or service that account for the largest percentage of total receipts. For example, if the principal business activity is "Grain mill products," the principal product or service may be "Cereal preparations."

AGRICULTURE, FORESTRY, AND FISHING

Code
0400 Agricultural production.
0600 Agricultural services, forestry, fishing, hunting, and trapping.

MINING

Metal Mining:
1010 Iron ores.
1070 Copper, lead and zinc, gold and silver ores.
1098 Other metal mining.
1150 Coal mining.

Oil and gas extraction:
1330 Crude petroleum, natural gas, and natural gas liquids.
1380 Oil and gas field services.
Nonmetallic minerals (except fuels) mining:
1430 Dimension, crushed and broken stone; sand and gravel.
1498 Other nonmetallic minerals, except fuels.

CONSTRUCTION

General building contractors and operative builders:
1510 General building contractors.
1531 Operative builders.
1600 Heavy construction contractors.
Special trade contractors:
1711 Plumbing, heating, and air conditioning.
1731 Electrical work.
1798 Other special trade contractors.

MANUFACTURING

Food and kindred products:
2010 Meat products.
2020 Dairy products.
2030 Preserved fruits and vegetables.
2040 Grain mill products.
2050 Bakery products.
2080 Sugar and confectionery products.
2081 Malt liquors and malt.
2088 Alcoholic beverages, except malt liquors and malt.
2089 Bottled soft drinks, and flavorings.
2096 Other food and kindred products.
2100 Tobacco manufactures.
Textile mill products:
2228 Weaving mills and textile finishing.
2250 Knitting mills.
2298 Other textile mill products.
Apparel and other textile products:
2313 Men's and boy's clothing.
2345 Women's and children's clothing.
2388 Hats, caps, millinery, fur goods, and other apparel and accessories.
2390 Misc. fabricated textile products.
Lumber and wood products, except furniture:
2415 Logging camps and logging contractors, sawmills and planing mills.
2430 Millwork, plywood, and related products.
2498 Other wood products, including wood buildings and mobile homes.
2500 Furniture and fixtures.
Paper and allied products:
2625 Pulp, paper, and board mills.
2699 Other paper products.
Printing, publishing, and allied industries:
2710 Newspapers.
2720 Periodicals.
2735 Books, greeting cards, and misc. publishing.
2799 Commercial and other printing, and printing trade services.
Chemicals and allied products:
2815 Industrial chemicals, plastics materials and synthetics.
2830 Drugs.
2840 Soap, cleaners, and toilet goods.
2850 Paints and allied products.
2898 Agricultural and other chemical products.
Petroleum refining and related industries (including those integrated with extraction):
2910 Petroleum refining (including those integrated with extraction).
2998 Other petroleum and coal products.
Rubber and misc. plastics products:
3050 Rubber products; plastics footwear, hose and belting.
3070 Misc. plastics products.
Leather and leather products:
3140 Footwear, except rubber.
3198 Other leather and leather products.

Code
Stone, clay, glass, and concrete products:
3225 Glass products.
3240 Cement, hydraulic.
3270 Concrete, gypsum, and plaster products.
3298 Other nonmetallic mineral products.

Primary metal industries:
3370 Ferrous metal industries: misc. primary metal products.
3380 Nonferrous metal industries.

Fabricated metal products, except machinery and transportation equipment:
3410 Metal cans and shipping containers.
3428 Cutlery, hand tools, and hardware; screw machine products, bolts, and similar products.
3430 Plumbing and heating, except electric and warm air.
3440 Fabricated structural metal products.
3450 Metal forgings and stampings.
3470 Coating, engraving, and allied services.
3480 Ordnance and accessories, except vehicles and guided missiles.
3490 Misc. fabricated metal products.

Machinery, except electrical:
3520 Farm machinery.
3530 Construction, mining, and materials handling machinery and equipment.
3540 Metalworking machinery.
3550 Special industry machinery, except metalworking machinery.
3560 General industrial machinery.
3570 Office, computing, and accounting machines.
3598 Engines and turbines, service industry machinery, and other machinery, except electrical.

Electrical and electronic machinery, equipment, and supplies:
3630 Household appliances.
3665 Radio, television, and communication equipment.
3670 Electronic components and accessories.
3698 Other electric equipment.

Transportation equipment:
3710 Motor vehicles and equipment.
3729 Aircraft, guided missiles and parts.
3730 Ship and boat building and repairing.
3798 Other transportation equipment.

Measuring and controlling instruments; photographic and medical goods, watches and clocks:
3815 Scientific instruments and measuring devices; watches and clocks.
3845 Optical, medical, and ophthalmic goods.
3860 Photographic equipment and supplies.
3998 Other manufacturing products.

TRANSPORTATION, COMMUNICATION, ELECTRIC, GAS, AND SANITARY SERVICES

Transportation:
4000 Railroad transportation.
4100 Local and interurban passenger transit.
4200 Trucking and warehousing.
4400 Water transportation.
4500 Transportation by air.
4600 Pipe lines, except natural gas.
4700 Other transportation services.

Communication:
4825 Telephone, telegraph, and other communication services.
4830 Radio and television broadcasting.

Electric, gas, and sanitary services:
4910 Electric services.
4920 Gas production and distribution.
4930 Combination utility services.
4990 Water supply and other sanitary services.

WHOLESALE TRADE

Durable
5010 Motor vehicles and automotive equipment.
5030 Lumber and construction materials.
5050 Metals and minerals, except petroleum and scrap.
5060 Electrical goods.
5070 Hardware, plumbing and heating equipment.
5080 Machinery, equipment, and supplies.
5098 Other durable goods.

Nondurable
5110 Paper and paper products.
5129 Drugs, chemicals, and allied products.

Code
5130 Apparel, piece goods, and notions.
5140 Groceries and related products, except meats and meat products.
5147 Meats and meat products.
5150 Farm-product raw materials.
5170 Petroleum and petroleum products.
5180 Alcoholic beverages.
5190 Misc. nondurable goods.

RETAIL TRADE

Building materials, hardware, garden supply, and mobile home dealers:
5220 Building materials dealers.
5251 Hardware stores.
5265 Garden supplies and mobile home dealers.
5300 General merchandise stores.
5400 Feed stores.

Automotive dealers and service stations:
5515 Motor vehicle dealers.
5541 Gasoline service stations.
5598 Other automotive dealers.
5600 Apparel and accessory stores.
5700 Furniture and home furnishings stores.
5800 Eating and drinking places.
Misc. retail stores:
5912 Drug stores and proprietary stores.
5921 Liquor stores.
5995 Other misc. retail stores.

FINANCE, INSURANCE, AND REAL ESTATE

Banking:
6030 Mutual savings banks.
6050 Bank holding companies.
6090 Banks, except mutual savings banks and bank holding companies.
Credit agencies other than banks:
6120 Savings and loan associations.
6140 Personal credit institutions.
6150 Business credit institutions.
6199 Other credit agencies.
Security, commodity brokers, dealers, exchanges, and services:
6210 Security brokers, dealers, and notation companies.
6299 Commodity contracts brokers and dealers; security and commodity exchanges; and allied services.

Insurance:
6355 Life insurance.
6356 Mutual insurance, except life or marine and certain fire or flood insurance companies.
6359 Other insurance companies.

Real Estate:
6511 Real estate operators (except developers) and lessors of buildings.
6516 Lessors of mining, oil, and similar property.
6518 Lessors of railroad property and other real property.

6530 Subdividers and developers.
6599 Other real estate.
Holding and other investment companies:
6742 Regulated investment companies.
6743 Real estate investment trusts.
6744 Small business investment companies.
6749 Holding and other investment companies, except bank holding companies.

SERVICES

7000 Hotels and other lodging places.
7200 Personal services.
Business services:
7310 Advertising.
7389 Business services, except advertising.
Auto repair and services; misc. repair services:
7500 Auto repair and services.
7600 Misc. repair services.

Amusement and recreational services:
7812 Motion picture production, distribution, and services.
7830 Motion picture theaters.
7900 Amusement and recreation services, except motion pictures.

Other Services:
8015 Offices of physicians, including osteopathic physicians.
8021 Offices of dentists.
8050 Nursing and personal care facilities.
8071 Medical laboratories.
8099 Other medical services.
8111 Legal services.
8200 Educational services.
8599 Misc. services.

Schedule J Deemed and Actual Distributions to Shareholders for the Taxable Year (See instructions for Schedule J)**PART I—Deemed Distributions Under Section 995(b)(1)**

1 Gross interest derived during the year from producer's loans under section 995(b)(1)(A)	
2 Gain recognized on the sale or exchange of property under section 995(b)(1)(B) (see instructions—attach computation)	
3 Gain recognized on the sale or exchange of property under section 995(b)(1)(C) (see instructions—attach computation)	
4 Total of lines 1, 2, and 3	
5 (a) Taxable income (line 12, page 1)	
(b) Enter the amount from line 4 above	
(c) Line 5(a) less line 5(b) (if line 5(a) is a loss or is less than line 5(b), enter zero)	
(d) 50% of line 5(c) (deemed distribution under section 995(b)(1)(D))	
6 Total of line 4 and line 5(d)	
7 Earnings and profits for the taxable year (see instructions—attach computation)	
8 Enter the smaller of line 6 or line 7 (but not less than zero)	
9 Foreign investment attributable to producer's loans for the taxable year under section 995(b)(1)(E) (see instructions for limitation—attach computation)	
10 Total deemed distributions under section 995(b)(1) (add line 8 and line 9)	

PART II—Deemed Distributions Under Section 995(b)(2)

1 Annual installment of distribution attributable to revocation of election in a prior year	
2 Annual installment of distribution attributable to a failure to qualify as a DISC in a prior year	
3 Total deemed distributions under section 995(b)(2) (add line 1 and line 2)	

Schedule J—Continued**PART III—Actual Distributions**

1 Distributions to meet qualification requirements under section 992(c) (attach computation)	
2 Other actual distributions	
3 Total of line 1 and line 2	
4 Amount on line 3 treated as distributed out of:	
(a) Previously taxed income	
(b) Accumulated DISC income (including DISC income of the current year)	
(c) Other earnings and profits	
(d) Other	

Schedule K Shareholder's Statement of DISC Distribution
 (Attach a separate Copy A, Schedule K (Form 1120-DISC) for each shareholder receiving a deemed or actual distribution. Give Copy B to the shareholder. See instructions on the back of Copy C.)
Additional Information Required

	Yes	No
H Date incorporated		
I Did you claim a deduction for expenses connected with:		
(1) Entertainment facility (boat, resort, ranch, etc.)?		
(2) Living accommodations (except employees on business)?		
(3) Employees' families at conventions or meetings?		
(4) Employee or family vacations not reported on Form W-2?		
J Refer to page 8 of the instructions and state the principal:		
Business activity ▶		
Product or service ▶		
K Did you, at any time during the taxable year, have any interest in, or signature or other authority over, a bank, securities, or other financial account in a foreign country? If "Yes," attach Form 4683. (For definitions, see Form 4683.)		
L Were you a U.S. shareholder of any controlled foreign corporation? (See sections 951 and 957.) If "Yes," attach Form 3646 for each corporation.		
M Did you file all required Forms 1087, 1096, and 1099?		
N (1) Did 95% or more of your gross receipts for the taxable year consist of qualified export receipts (as defined in section 993(a))?		
(2) Did the adjusted basis of your qualified export assets (as defined in section 993(b)) at the close of the taxable year equal or exceed 95% of the sum of the adjusted basis of all your assets at the close of the taxable year?		
(3) If the answer to (1) or (2) is "No," did you make a pro rata distribution of property as defined in section 992(c)?		
O (1) Did you have more than one class of stock at any time during the taxable year?		
(2) Was the par or stated value of your stock at least \$2,500 on each day (for a new corporation, on the last day for making an election and for each succeeding day) of the taxable year?		
P Are you a member of a controlled group that includes other DISCs?		
If "Yes,"		
(1) Report in Part II, Section B of Schedule N the names, addresses, and employer identification numbers of the DISCs.		
(2) State the name and employer identification number of the DISC in your controlled group completing Column 3 of Part I, Section A and Part I, Section B of Schedule N.

1974 Department of the Treasury Internal Revenue Service Instructions for Form 1120-DISC Domestic International Sales Corporation Return

(References are to the Internal Revenue Code)

Rules provided in these instructions are subject to modification by final regulations relating to the DISC provisions.

Sec. 992. Requirements of a DISC

(a). **General rule.**—A DISC is a corporation that is incorporated under the laws of any State or the District of Columbia and satisfies the following conditions for the taxable year:

- (1) 95% or more of its gross receipts (as defined in section 993(f)) consist of qualified export receipts (as defined in section 993(a));
 - (2) the adjusted basis of its qualified export assets (as defined in section 993(b)) at the end of the taxable year equals or exceeds 95% of the sum of the adjusted basis of all its assets at the end of the taxable year;
 - (3) it does not have more than one class of stock and the par or stated value of its outstanding stock is at least \$2,500 on each day (for a new corporation, on the last day for making an election and for each succeeding day) of the taxable year;
 - (4) it has made an election to be treated as a DISC and the election is in effect for the taxable year;
 - (5) it has its own bank account on each day (for a new corporation, on the last day for making an election and for each succeeding day) of the taxable year and maintains separate books and records; and
 - (6) it is not an ineligible corporation.
- (b). **Election.**—An election by an existing corporation to be treated as a DISC for a taxable year must be made at any time during the 90-day period immediately preceding the beginning of the taxable year and by a new corporation within 90 days after the beginning of the first taxable year.
- In general, the election will be valid only if all persons who are shareholders in the corporation on the first day of the first taxable year for which the election is effective consent to the election. (See Form 4876, Election to be Treated as a DISC.)
- An election may be terminated by a revocation of the election for any taxable year after the first taxable year

for which the election is effective if made at any time during the first 90 days of the taxable year (or for the taxable year following the taxable year in which made, if made after the close of such 90 days).

The election will be terminated by the continued failure of the corporation to be a DISC for each of any 5 consecutive taxable years for which an election is effective.

(c). **Distributions to meet qualification requirements.**—A corporation that for a taxable year does not satisfy the gross receipts or qualified export assets conditions will be deemed to satisfy the condition for the year if it makes a pro rata distribution of property after the close of the taxable year to its shareholders (designated at the time of the distribution as a distribution to meet qualification requirements) with respect to their stock in an amount which is equal to (1) the portion of its taxable income attributable to its gross receipts that are not qualified export receipts if it fails the gross receipts condition, (2) the fair market value of those assets that are not qualified export assets on the last day of the taxable year if the qualified export assets condition is not met, and (3) the sum of (1) and (2) if neither condition is met.

See section 992(c)(2) for reasonable cause for failure to make distributions to meet qualification requirements and section 992(c)(3) for distributions made within 8½ months after the close of the taxable year.

(d). **Ineligible corporations.**—The following corporations are not eligible for DISC treatment:

- (1) a corporation exempt from tax under section 501;
- (2) a personal holding company as defined in section 542;
- (3) a financial institution to which section 581 or 593 applies;
- (4) an insurance company subject to the tax imposed by subchapter L;
- (5) a regulated investment company as defined in section 851(a);
- (6) a China Trade Act corporation receiving the special deduction provided in section 941(a); or
- (7) an electing small business corporation as defined in section 1371(b).

(e). **Restrictions on DISCs and DISC corporate stockholders.**—For any taxable year in which a corporation is a DISC or in which at any time it owns, directly or indirectly, stock in a DISC or former DISC such corporation is not allowed to take the Western Hemisphere Trade Corporation deduction (Section 922), and is not entitled to the benefits of Section 931.

Sec. 993. Definitions

(a). **Qualified export receipts.**—Except as provided by regulations under section 993(a)(2), qualified export receipts of a corporation are:

- (1) gross receipts from the sale, exchange, or other disposition of export property;
- (2) gross receipts from the lease or rental of export property that is used by the lessee of the property outside the U.S.;
- (3) gross receipts for services that are related and subsidiary to any qualified sale, exchange, lease, rental, or other disposition of export property by the corporation;
- (4) gain from the sale, exchange, or other disposition of qualified export assets (other than export property);
- (5) dividends (or amounts includible in gross income under section 951) with respect to stock of a related foreign export corporation;
- (6) interest on any obligation that is a qualified export asset;
- (7) gross receipts for engineering or architectural services for construction projects located (or proposed for location) outside the U.S.; and
- (8) gross receipts for the performance of managerial services in furtherance of the production of other qualified export receipts of a DISC.

(b). **Qualified export assets.**—Qualified export assets of a corporation are:

- (1) export property;
- (2) assets used primarily in connection with the sale, lease, rental, storage, handling, transportation, packaging, assembly, or servicing of export property, or the performance of engineering or architectural services as described in section 993(a)(1)(G) or managerial services in the furtherance of the production of qualified export receipts as described in section 993(a)(1)(A), (B), (C), and (G);
- (3) accounts receivable and evidences of indebtedness that arise by reason of transactions described in section 993(a)(1)(A), (B), (C), (D), (G), or (H);
- (4) money, bank deposits, and other similar temporary investments that are reasonably necessary to meet the working capital requirements of the corporation;
- (5) obligations arising in connection with a producer's loan;
- (6) stock or securities of a related foreign export corporation;

(7) certain obligations issued, guaranteed, or insured, in whole or in part, by the Export-Import Bank of the U.S. or the Foreign Credit Insurance Association in those cases where the obligations are acquired from the bank or association or from the seller or purchaser of the goods or services from which the obligations arose;

(8) certain obligations issued by a domestic corporation organized solely for the purpose of financing sales of export property pursuant to an agreement with the Export-Import Bank of the U.S. under which the corporation makes export loans guaranteed by the bank; and

(9) amounts (other than reasonable working capital) on deposit in the U.S. that are utilized during the period provided by regulations to acquire other qualified export assets.

(c). **Export property.**—Export property is property (except excluded property and property in short supply):

- (1) manufactured, produced, grown, or extracted in the U.S. by a person other than a DISC;
- (2) held primarily for sale, lease, or rental in the ordinary course of trade or business, by, or to, a DISC, for direct use, consumption, or disposition outside the U.S.;
- (3) consisting of a fair market value of which not more than 50% is attributable to articles imported into the U.S.; and
- (4) not sold or leased (i) by a DISC, or with a DISC as commission agent, to another DISC that is a member of the same controlled group (as defined in section 993(a)(3)) as the DISC or (ii) by any person to a Western Hemisphere trade corporation (as defined in section 921) that is a related person (a member of the same controlled group as defined in section 993(a)(3) or a relationship that would result in a disallowance of losses under section 267 or section 707(b)) immediately before or after a transaction with respect to the seller, lessor, or commission agent.

(d). **Producer's loans.**—An obligation subject to the rules provided in section 993(d)(2) and (3) will be treated as arising out of a producer's loan if:

- (1) the loan, when added to the unpaid balance of all other producer's loans made by the DISC, does not exceed the accumulated DISC income at the beginning of the month in which the loan was made;
- (2) the obligation is evidenced by a note (or other evidence of indebtedness) with a stated maturity date not more than 5 years from the date of the loan;
- (3) the loan is made to a person engaged in the U.S. in the manufacturing, production, growing, or extraction of export property; and
- (4) it is designated as a producer's loan at the time of the loan.

(e). **Related foreign export corporation.**—A DISC may acquire and receive income in the form of dividends and interest from the following investments that are related to exports from the U.S.:

- (1) stock possessing more than 50% of the total combined voting power of all classes of stock entitled to vote is owned directly by the DISC;
- (2) 95% or more of the foreign corporation's gross receipts for its taxable year ending with or within the taxable year of the DISC consists of qualified export receipts described in section 993(a)(1)(A) through (D) and interest on any obligation described in section 993(b)(3) and (4); and
- (3) the adjusted basis of the qualified export assets held by the foreign corporation at the close of the taxable year equals or exceeds 95% of the sum of the adjusted basis of all assets held by it at the close of the taxable year.

(f). **Real property holding company.**—A foreign corporation is a related foreign export corporation if:

- (1) stock possessing more than 50% of the total combined voting power of all classes of stock entitled to vote is owned directly by the DISC, and
- (2) its exclusive function is to hold title to real property for the exclusive use (under a lease or otherwise) of the DISC because of a requirement of applicable foreign law that the DISC cannot hold title.

(g). **Associated foreign corporation.**—A foreign corporation is a related foreign export corporation if:

- (1) less than 10% of the total combined voting power of all classes of the foreign corporation's stock entitled to vote is owned (within the meaning of section 1563(d) and (e)) by the DISC or by a controlled group of corporations (within the meaning of section 1563) of which the DISC is a member; and
- (2) the ownership of stock and securities in the foreign corporation by the DISC is determined to be reasonable in furtherance of a transaction or transactions giving rise to qualified export receipts of the DISC.

(f). **Gross receipts.**—The term gross receipts means the total receipts from the sale, lease, or rental of property held primarily for sale, lease, or rental in the ordinary course of a trade or business and gross income from all other sources.

In the case of commissions on the sale, lease, or rental of property, the amount taken into account will be the gross receipts on the sale, lease, or rental of the property on which the commissions arose.

(g). **United States.**—U.S. includes the Commonwealth of Puerto Rico and the possessions of the U.S.

Sec. 994. Inter-Company Pricing Rules

In the case of a sale of export property to a DISC by a person described in section 482, the taxable income of the DISC and the other person may be based upon a transfer price which would allow the DISC to derive taxable income attributable to the sale (regardless of the sales price actually charged) in an amount which does not exceed the greatest of:

- (1) 4% of the qualified export receipts on the sale of the property by the DISC plus 10% of the export promotion expenses of the DISC attributable to the receipts;
- (2) 50% of the combined taxable income of the DISC and the person which is attributable to the qualified export receipts on the property derived as the result of a sale by the DISC plus 10% of the export promotion expenses of the DISC attributable to the receipts; or
- (3) taxable income based upon the sale price actually charged (subject to the rules provided in section 482).

(Note: Generally, inter-company pricing rules (1) and (2) above will not permit the related person to price at a loss. See Schedule P (Form 1120-DISC).)

Export promotion expenses are those expenses incurred to advance the distribution or sale of export property for use, consumption, or distribution outside the U.S. but do not include income tax. They include freight expenses to the extent of 50% of the cost of shipping export property aboard airplanes owned and operated by U.S. persons or ships documented under the laws of the U.S. In those cases where law or regulations do not require that the property be shipped aboard such airplanes or ships.

General Instructions

A. **Corporations required to file Form 1120-DISC.**—Form 1120-DISC must be filed by a domestic corporation that has elected to be treated as a DISC and has satisfied the requirements under section 992 for treatment as a DISC for the taxable year.

A former DISC, as defined in section 992(a)(3), must file Form 1120.

B. **Where to file.**

If the principal business, office, or agency is located in:

	Use this address
New Jersey, New York City and counties of Nassau, Rockland, Suffolk, and Westchester	Internal Revenue Service Center 1040 Westway Avenue Holtsville, New York 11779
New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	Internal Revenue Service Center 310 Laurel Street Andover, Mass. 01812

Alabama, Florida, Georgia, Mississippi, South Carolina	Internal Revenue Service Center 4300 Buford Highway Chamblee, Georgia 30006
Michigan, Ohio	Internal Revenue Service Center Cincinnati, Ohio 45298
Arkansas, Kansas, Louisiana, New Mexico, Oklahoma, Texas	Internal Revenue Service Center 3631 S. Interregional Highway Austin, Texas 78749
Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming	Internal Revenue Service Center 1180 West 1200 South Street Ogden, Utah 84201
Illinois, Iowa, Missouri, Wisconsin	Internal Revenue Service Center 2306 E. Grandview Road Kansas City, Mo. 64170
California, Hawaii	Internal Revenue Service Center 5045 East Butler Avenue Fresno, California 93705
Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia	Internal Revenue Service Center 3313 Democrat Road Memphis, Tennessee 38110
Delaware, District of Columbia, Maryland, Pennsylvania	Internal Revenue Service Center 11501 Roosevelt Boulevard Philadelphia, Pa. 19155

The separate income tax returns of a group of corporations located in several Service Center regions may be filed with the Service Center for the area in which the principal office of the managing corporation that keeps all the books and records is located.

C. When to file.—Form 1120-DISC must be filed on or before the 15th day of the 9th month following the close of the taxable year.

No extension of time to file will be granted.

D. Period to be covered by the 1974 return.—The 1974 return is to be filed for calendar year 1974 and fiscal years beginning in 1974 and ending in 1975. If the return is for a fiscal year, fill in the taxable year space on the form.

Final return.—If the corporation ceases to exist, write "FINAL RETURN" at the top of the form.

E. Change in accounting period.—To change your accounting period, see section 1.442-1 of the regulations and Form 1128, Application for Change in Accounting Period.

F. Accounting methods.—A DISC may, generally, choose any method of accounting permissible under section 446(c) and the regulations thereunder. However, if a DISC is a member of a controlled group (as defined in section 993(a)(3)), the DISC may not choose a method of accounting that, when applied to transactions between the DISC and other members of the controlled group, will result in a material distortion of the income of the DISC or any other member of the controlled group. A material distortion would occur, for example, if a DISC chooses to use the cash method of accounting where the DISC acts as a commission agent in a sub-

stantial volume of sales of property by a related corporation that uses the accrual method of accounting and customarily pays commissions to the DISC more than 2 months after the sales.

Unless the law specifically permits, you may not change the method of accounting used to report income in prior years (for income as a whole or for any material item) without first obtaining consent on Form 3115, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—Money items may be shown as whole-dollar amounts by dropping any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

G. Stock ownership in foreign corporations.—If you owned 5% or more in value of the outstanding stock of a foreign personal holding company, attach the statement required by section 551(d).

If you control a foreign corporation or were a 10% or more shareholder of a controlled foreign corporation, you may be required to file Forms 2952 and 3646.

H. Financial statements.—The balance sheets must agree with your books and records. Any differences must be reconciled.

I. Attachments.—You may use attachments if the lines on the form schedules are not sufficient. They must contain all the required information; must follow the format of the official schedules; and must be attached to the return in the same sequence as the schedules appear on the official form. If an attachment is used in place of a schedule having a summary line on page 1, the total need not be entered on the schedule but must be entered on page 1.

Enter your name and identifying number on all attachments exactly as shown on page 1, Form 1120-DISC.

J. Amended return.—Correct any error in a previously filed return by filing an amended Form 1120-DISC.

K. Signature.—The return must be signed by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or by any other corporate officer (such as tax officer) authorized to sign.

A receiver, trustee, or assignee must sign any return that he is required to file on behalf of a corporation.

L. Total assets.—If there are no assets at the end of the taxable year, enter the total assets at the beginning of the taxable year.

M. Penalty for failure to file returns and provide information.—A penalty is imposed by section 6686 (in addition

to the penalty imposed by section 7203) on any person required to supply information or file a return who fails to supply information or file a return at the time prescribed or who files a return that does not show the information required.

Unless it is shown that the failure is due to reasonable cause, the penalty is (1) \$100 for each failure to supply information (the total amount imposed for all failures during any calendar year will not exceed \$25,000) or (2) \$1,000 for each failure to file a return.

N. Taxation of a DISC.—A DISC is not subject to any tax imposed by sections 1 through 1564 except for the tax imposed by sections 1491 through 1494 on certain transfers to avoid tax.

A DISC is not subject to the corporate income tax, the minimum tax on tax preferences, or the accumulated earnings tax.

A DISC is subject to the provisions of sections 1441 through 1461 relating to withholding of tax on nonresident aliens and foreign corporations.

O. Investment credit and work incentive (WIN) credit.—The investment credit and the work incentive (WIN) credit do not apply to a DISC and they do not pass through to any shareholder in a DISC.

P. Nonresident alien individuals and foreign corporations, trusts, and estates.—Treat all gains on the disposition of stock in a DISC or former DISC and all distributions out of accumulated DISC income, including deemed distributions, as effectively connected with the conduct of a trade or business conducted through a permanent establishment within the U.S.

Q. Stock Ownership.—For rules of stock attribution, see section 267(c). If the owner of the voting stock of the DISC was an alien individual or a foreign entity (corporation, partnership, trust, or estate), so indicate by placing an X in the "Yes" box in the "Foreign Owner" column and enter the name of the owner's country in parentheses in the address column. "Owner's country" for individuals is their country of residence; for other foreign entities, it is the country in which organized or otherwise created, or in which administered.

Specific Instructions

(Numbered to correspond with the line numbers on page 1 of the return.)

5. Cost of goods sold.—Enter the amount shown on line 7, Schedule A.

Cost of operations (where inventories are not an income-determining factor).—If the amount entered on line 5 includes an amount applicable to cost of operations, attach a schedule showing (1) salaries and wages and (2) other costs in detail.

Computation of Taxable Income

11(a). Net operating loss deduction.—The "net operating loss deduction" is the sum of the net operating loss carryovers and carrybacks to the taxable year. (Section 172(a).)

Generally, a net operating loss may be carried back 3 years and carried over 5 years. The net operating loss must first be carried to the earliest of the 8 taxable years to which it may be carried, then to the next earliest year, etc. The portion of the loss to be carried to each of the other 7 taxable years is the excess, if any, of the loss over the sum of the taxable income for each of the prior taxable years to which the loss may be carried. (Section 172(b).)

The term "net operating loss" means the excess of allowable deductions over gross income, computed with the following modifications under section 172(d):

- (1) No net operating loss deduction is allowed.
- (2) The dividends-received deduction in line 1 of Schedule I is computed without regard to the 85% limitation provided in section 246(b). See section 1.172-2 of the regulations.

A deficit in earnings and profits is chargeable in the following order:

- (1) first, to other earnings and profits, to the extent thereof;
- (2) second, to accumulated DISC income, to the extent thereof; and
- (3) finally, to previously taxed income.

except that a deficit in earnings and profits will not be applied against accumulated DISC income which has been determined is to be deemed distributed to the shareholders (pursuant to section 995(b)(2)(A)) as a result of a revocation of election or other disqualification.

In determining the taxable income that must be subtracted from a net operating loss to determine the portion of the loss that will still be available to carry to a subsequent year, the net operating loss deduction is determined without regard to the net operating loss for the loss year or any taxable year thereafter, and, under certain circumstances, without regard to any portion of a net operating loss attributable to a foreign expropriation loss.

12. Taxable income.—If either the gross receipts method or combined taxable income method is chosen for computing the taxable income of the DISC attributable to a transaction or group of transactions consisting of products or product lines, attach a Schedule P (Form 1120-DISC) showing, in detail, the computation of the DISC's taxable income attributable to each such transaction or group of transactions.

Schedule A—Cost of goods sold

If inter-company pricing rules are used, reflect in Schedule A actual purchases from a related supplier at the transfer price determined under the inter-company pricing rules of section 994. See Schedule P (Form 1120-DISC).

Where the DISC acts as a commission agent on a sale for any person, do not enter any amount in Schedule A for such sale. See Schedule P (Form 1120-DISC).

The method of valuing inventories may not be changed without permission. Application for permission to change must be made on Form 3115.

A corporation electing to use the last-in, first-out (LIFO) method of valuing inventory provided in section 472 must attach Form 970 or a statement that contains all the information required by Form 970 to its return for the first year that method is to be used.

Schedule B—Gross Income

(Numbered to correspond with the line numbers in Schedule B.)

Enter gross income in lines 1 through 3 categorized as either (1) qualified export receipts from the sale of export property, (2) other qualified export receipts, or (3) nonqualified export receipts. If an income item consists of two or more categories, report each on the applicable line. For example, if interest income consists of qualified interest from a foreign international sales corporation and nonqualified interest from a domestic obligation, enter the qualified interest on an attached schedule for line 2(g) and the nonqualified interest on an attached schedule for line 3(f).

Special rule when the DISC acts as a commission agent.—For commissions on the sale, lease, or rental of property, or the furnishing of services, list in column B the gross receipts on the sale, lease, or rental of property, or the furnishing of services on which the commissions arose and in column C the commissions earned. Receipts from non-commission sales, leases, rentals, or the furnishing of services and all other receipts should be reported on the appropriate lines in column D. Column E is the sum of commissions reported in Column C and receipts from non-commission sales, leases, or rentals and all other receipts reported in column D.

See instructions for lines 2(h) and 2(i) for details regarding the reporting of gains from sale of qualified export assets.

If you use the installment method of reporting, attach a schedule showing for the current and 3 preceding years: (a) gross sales, (b) cost of goods sold, (c) gross profit, (d) percentage of gross profit to gross sales, (e) amount collected, and (f) gross profit on the amount collected.

1. Qualified export receipts from the sale of export property.—These are receipts from the sale of property, such as inventory, produced in the U.S. for direct use, consumption, or disposition outside the U.S.

For a sale to meet the export requirement, it must meet (1) a destination test and (2) a requirement that the sale not be for ultimate use in the U.S.

The destination test will be considered satisfied if the property is delivered (regardless of the F.O.B. point or the place at which title passes or risk of loss shifts from the seller or lessor):

(a) Within the U.S. to a carrier or freight forwarder for ultimate delivery outside the U.S. to a purchaser or lessee (or to a subsequent purchaser or sublessee);

(b) Within the U.S. to a purchaser or lessee, if the property is ultimately delivered outside the U.S. (including delivery to a carrier or freight forwarder for delivery outside the U.S.) by the purchaser or lessee (or a subsequent purchaser or sublessee) within one year after the sale or lease;

(c) Within or outside the U.S. to a purchaser or lessee that, at the time of the sale or lease, is a DISC and is not a member of the same controlled group (as defined in section 993(a)(3)) as the seller or lessor;

(d) From the U.S. to the purchaser or lessee (or a subsequent purchaser or sublessee) at a point outside the U.S. by means of the seller's or lessor's own ship, aircraft, or other delivery vehicle;

(e) Outside the U.S. to a purchaser or lessee from a warehouse, a storage facility, or assembly site located outside the U.S., if the property was previously shipped by the seller or lessor from the U.S.; or

(f) Outside the U.S. to a purchaser or lessee if the property was previously shipped by the seller or lessor from the U.S. and if the property is located outside the U.S. pursuant to a prior lease by the seller or lessor, and either (a) the prior lease terminated at the expiration of its term (or by the action of the prior lessee acting alone), (b) the sale occurred or the term of the subsequent lease began after the time at which the term of the prior lease would have expired, or (3) the lessee under the subsequent lease is not a related person (a member of the same controlled group as defined in section 993(a)(3)) or a relationship that would result in a disallowance of losses under section 267 or section 707(b) immediately before or after the lease) with respect to the lessor and the prior lease was terminated by the action of the lessor (acting alone or together with the lessee).

The second part of the export requirement for sales is that the sale must not be for ultimate use in the U.S. This test is applied at the time of the sale. If the property is to be used predom-

inantly outside the U.S., the sale is not for ultimate use in the U.S.

Property sold to an unrelated person is considered sold for ultimate use in the U.S. if it is sold pursuant to an agreement or understanding that it will be used in the U.S. or if a reasonable person would have believed that it will be used in the U.S.

For example, if property is sold to a foreign wholesaler and it is known in trade circles that the wholesaler, to a substantial extent, supplies the U.S. retail market, the sale would not be a qualified export sale.

Special rules apply in the case of certain exported components incorporated into products imported into the U.S.

In general, related purchasers are purchasing corporations that are members of the same controlled group (as defined in section 993(a)(3)) as the DISC. Unrelated purchasers are all other purchasers.

1(a).—Enter the DISC's qualified export receipts (other than those entered on line 1(b)) from sales of export property to foreign unrelated purchasers for delivery outside the U.S.

1(b).—Enter the DISC's qualified export receipts from sales of export property for delivery outside the U.S. to (1) a related foreign entity for resale (directly or indirectly) to a foreign unrelated purchaser, or (2) an unrelated purchaser where a related foreign entity acts as commission agent. A related foreign entity is a foreign corporation that is a member of the same controlled group (as defined in section 993(a)(3)) as the DISC.

2(a). Leasing of export property.—Enter the gross amount received from the leasing (including subleasing) of export property to unrelated persons for use outside the U.S.

Whether the leased property satisfies the usage test is to be determined on a year-by-year basis.

The receipts from a lease of export property may qualify in some years and not in other years depending upon the place where the lessee uses the property in the years involved.

Deduct expenses such as repairs, interest, taxes, and depreciation on the proper lines for deductions.

2(b). Services related and subsidiary to a qualified export sale or lease.—A service is related to a sale or lease if it is of a kind customarily and usually furnished with that type of transaction in a trade or business in which the transaction arose and if the agreement to furnish the service is connected with the sale or lease. A service is subsidiary if it is of less importance and value as compared to the sale or lease.

2(c). Engineering and architectural services.—Receipts from engineering or architectural services on foreign con-

struction projects which are either located abroad or proposed for location abroad are qualified receipts. They include feasibility studies, design and engineering, and general supervision of construction but do not include services connected with exploration for minerals.

2(d). Export management services.—Include receipts for export management services provided to unrelated DISCs.

2(e). Qualified dividends.—Enter the amount from line 10, Schedule C. See instructions for Schedule C.

2(f). Interest on producer's loans.—A producer's loan must be evidenced by a note or other evidence of indebtedness, be designated as a producer's loan, have a stated maturity not to exceed 5 years, and be attributable to the borrower's assets used in exporting and research and development.

2(g). Other interest.—Enter interest on any qualified export asset other than interest on producer's loans.

Include, for example, interest on accounts receivable arising out of sales in which the DISC acted as a principal or agent and interest on certain obligations issued, guaranteed, or insured by the Export-Import Bank or the Foreign Credit Insurance Association.

2(h). Net capital gains.—Every sale or exchange of a capital asset must be reported in detail on a separate Schedule D (Form 1120) even though no gain or loss is indicated.

In addition to completing Schedule D (Form 1120), attach a separate schedule computing the gain from the sale of qualified export assets.

2(i). Ordinary gain or (loss).—Enter the total ordinary gain or loss from line 9, Part II, Form 4797.

In addition to completing Form 4797, attach a separate schedule computing the gain from the sale of qualified export assets.

3(b). Exports subsidized by the U.S. Government.—Enter receipts from the sale of products under a program of the U.S. Government, or any instrumentality thereof, that have been designated as excluded receipts.

3(c). Certain direct or indirect sales or leases for use by the U.S. Government.—Enter receipts from direct or indirect sales or leases of property or services for use by the U.S. Government, or any instrumentality thereof, where the use of U.S. products or services is required by statute or regulations.

3(d). Sales to another DISC in the same controlled group.—Enter receipts from a DISC that is a member of the same controlled group of corporations. See section 993(a)(3) for the definition of controlled group.

3(e). Nonqualified dividends.—Enter the amount from line 11, Schedule C. See instructions for Schedule C.

3(f). Other.—Include in an attached schedule any nonqualified gross receipts not reported on lines 3(a) through 3(e). Do not offset an item of income against a similar item of expense.

Schedule C.—Dividends

(Numbered to correspond with the line numbers in Schedule C.)

1. Enter dividends received from domestic corporations subject to income tax and the 85% deduction under section 243(a)(1).

Include on this line taxable distributions received from a DISC or former DISC that are designated as being eligible for the 85% dividends-received deduction.

For dividends received from a regulated investment company, see section 854 for the amount subject to the 85% deduction.

So-called dividends or earnings received from mutual savings banks, etc., are really interest and should not be treated as dividends.

2. Enter dividends received on the preferred stock of a public utility that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

3. Enter dividends received from foreign corporations that qualify for the 85% deduction provided in section 245(a).

4. Enter dividends received from wholly-owned foreign subsidiaries that are eligible for the 100% deduction provided in section 245(b).

5. Enter foreign dividends (including minimum distributions under subpart F) that are not reportable on lines 3 and 4. Exclude distributions of amounts constructively taxed in the current year or in prior years under subpart F.

6. Include income constructively received from controlled foreign corporations under subpart F. This amount should equal the total of amounts reported in Schedule A, line 5 of Form(s) 3646.

7. Enter taxable distributions from a DISC or former DISC that are designated as not being eligible for the 85% dividends-received deduction. (See sections 246(d), 995(b), and 996(a)(3).)

8. Include dividends (other than capital gain dividends) received from regulated investment companies that are not subject to the 85% deduction; dividends from tax-exempt organizations; dividends (other than capital gain dividends) received from a real estate investment trust which, for the taxable year of the trust in which the dividends are paid, qualifies under sections 856 through 858; dividends not eligible for a dividends-received deduction because of the holding period of the stock or an obligation to make corresponding payments with respect to similar stock; and any other taxable dividend income not properly reported above.

5

10. Dividends (and income constructively received from controlled foreign corporations under subpart F) from a qualified foreign investment of a DISC in a related foreign export corporation constitute qualified dividends. Generally, the investment will be in stock or securities of a foreign selling subsidiary of the DISC which qualifies as a foreign international sales corporation (FISC).

Schedule E.—Deductions

(Numbered to correspond with the line numbers in Schedule E.)

Enter export promotion expenses in line 1. Export promotion expenses are a DISC's ordinary and necessary expenses paid or incurred to obtain qualified export receipts (but do not include income taxes). Any expense (or any part of an expense) not incurred to obtain qualified export receipts should be entered in line 2.

1(c). Depreciation.—Attach Form 4562 if you claim a deduction for depreciation. Enter on this line the depreciation not claimed in Schedule A and elsewhere on the return.

1(h). Freight.—Enter one-half of the freight expenses (not including insurance) for shipping export property aboard U.S. flag vessels and U.S. owned and operated aircraft (unless required by law).

1(i). Compensation of officers.—Attach a schedule showing the name, social security number, title, amount of compensation, and expense account allowance for your 6 highest paid officers.

To determine the highest paid officers, add all allowances, including expense account allowances, to each officer's compensation. Expense account allowance means (1) amounts, other than compensation, received as advances or reimbursements and (2) amounts paid by or for the corporation for expenses incurred by or on behalf of an officer. The expense account allowance does not have to be shown for any officer for whom the combined compensation and expense account allowance is less than \$30,000.

For this purpose, an officer is a person, such as regular officer, chairman of the board, etc., who is elected or appointed to office or who is designated as an officer in the corporation's charter or bylaws.

1(j). Repairs.—Enter the cost of incidental repairs, such as labor and supplies, that do not add to the value or appreciably prolong the life of the property. Include on this line the total amount of repairs from Form 4832.

1(k). Amortization.—If you claim a deduction for amortization, attach a schedule showing: (1) a description of the expenditures being amortized; (2) date acquired, completed, or expended; (3) amount being amortized; (4) amortization deducted in prior years;

6

(5) amortization period (number of months); (6) amortization for this year; and (7) the total amount of amortization less the amount claimed in Schedule A and elsewhere on the return.

1(l). Pension, profit-sharing, etc. plans.—File Form 4848 with a Schedule A (Form 4848) and Form 4849 on or before the 15th day of the 5th month following the close of your taxable year, if you have adopted a pension, profit-sharing, or other funded deferred compensation plan.

1(m). Employee benefit programs.—Enter the amount of your contributions to employee benefit programs (e.g. insurance, health and welfare programs) that are not an incidental part of a pension, profit-sharing, etc., plan included on line 1(l).

2(a). Bad debts.—Bad debts may be treated in either of two ways—(1) as a deduction for debts that become worthless in whole or in part, or (2) as a deduction for a reasonable addition to a reserve for bad debts. (Section 166.)

Application to change the method of computing bad debts must be made on Form 3115.

2(b). Taxes.—Enter taxes paid or accrued during the taxable year and attach a schedule showing the type and amount of tax.

See section 164(d) for apportionment of tax on real property between seller and purchaser.

2(c). Interest.—Do not include interest on indebtedness incurred or continued to purchase or carry obligations on which the interest is wholly exempt from income tax. (Section 265.)

See section 267 for the limitation on deductions for unpaid expenses and interest in transactions between related taxpayers.

2(d). Contributions.—Enter contributions or gifts actually paid within the taxable year to or for the use of charitable and governmental organizations described in section 170(c) and any unused contributions carried over from prior years.

The total amount claimed may not exceed 5% of taxable income (line 12 of page 1) computed without regard to (1) any deduction for contributions, (2) the dividends-received deduction on line 11(b) of page 1, (3) deductions allowed under sections 249 and 250, (4) any net operating loss carryback to the taxable year under section 172, and (5) any capital loss carryback to the taxable year under section 1212(a)(1).

Charitable contributions in excess of the 5% limitation may not be deducted for the taxable year but may be carried over to the next 5 taxable years.

A contribution carryover is not allowed, however, to the extent that it increases a net operating loss carryover. See section 170(d)(2)(B).

Corporations on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3d month following the close of the taxable year, if the contributions are authorized by the board of directors during the taxable year. A declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the board of directors during the taxable year, and a copy of the resolution, must both be attached to the return.

Attach a schedule showing the name of each organization and the amount paid. If a contribution is made in property other than money, describe the kind of property contributed and the method used in determining its fair market value. If a contribution carryover is included, show the amount and how it was determined.

Special rule for contributions of certain property.—If you make a charitable contribution of property, the contribution must be reduced by the sum of

- (1) the ordinary income and
- (2) for certain contributions, 62½% of the long-term capital gain.

that would have resulted if the property were sold at its fair market value. The reduction for 62½% of the long-term capital gain applies to (1) contributions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for its exemption, and (2) contributions of any property to or for the use of certain private foundations. (Section 170(e).)

Bargain sale to a charitable organization.—If you claim a charitable contribution deduction for property sold to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

2(e). Freight.—Enter the freight expense not deducted on line 1(h) as an export promotion expense.

2(g). Other.—No deduction is allowable for any amount allocable to a class of exempt income other than exempt interest income. Items directly attributable to wholly exempt income must be allocated to such income, and items directly attributable to any class of taxable income must be allocated to such taxable income.

If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion of the item, determined in the light of all the facts and circumstances in each case, must be allocated to each.

Attach a statement showing (1) the amount of each class of exempt income and (2) the amount of expense items allocated to each class. Show the amount allocated by apportionment separately.

Schedule I.—Dividends received deduction

1. In general, no dividends-received deduction will be allowed on any share of stock (a) that is disposed of before the corporation has held it 15 days or less or (b) to the extent the corporation is under an obligation to make corresponding payments with respect to substantially identical stock or securities.

No deduction is allowed under section 243 for a dividend from a DISC or former DISC (as defined in section 992(a)) to the extent it is paid out of accumulated DISC income or previously taxed income or is a deemed distribution pursuant to section 995(b)(1).

2. Limitation on dividends-received deduction.—Line 2 may not exceed 85% of line 10, page 1.

For this purpose, line 10 is to be computed without regard to any capital loss carryback to the taxable year under section 1212(a)(1).

In a year in which a net operating loss occurs, sections 172(d) and 246(b) provide that this 85% limitation does not apply even if the loss is created by the dividends-received deduction.

Schedule J.—Deemed and Actual Distributions to Shareholders for the Taxable Year

Part I.—Deemed distributions under section 995(b)(1) (Numbered to correspond with the line numbers in Part I of Schedule J.)

2. Attach a computation showing the gain recognized by the DISC during the taxable year on the sale or exchange of property, other than property which in the hands of the DISC is a qualified export asset, previously transferred to it in a transaction in which gain was not recognized in whole or in part, but only to the extent that the transferor's gain on the previous transfer was not recognized.

3. Attach a computation showing the gain (other than the gain entered on line 2) recognized by the DISC during the taxable year on the sale or exchange of property (other than property which in the hands of the DISC is stock in trade or other property described in section 1221(1)) previously transferred to

it in a transaction in which gain was not recognized in whole or in part, but only to the extent that the transferor's gain on the previous transfer was not recognized and would have been treated as ordinary income if the property had been sold or exchanged rather than transferred to the DISC.

7. Attach a computation showing the earnings and profits for the taxable year.

For purposes of computing the earnings and profits for taxable years beginning after June 30, 1972, the allowance for depreciation (and amortization, if any) is the amount which would be allowable for such year if the straight line method of depreciation had been used for each taxable year beginning after June 30, 1972. See section 312(m)(2) for exception.

9. Attach a computation showing the amount of (1) foreign investment attributable to producer's loans (as defined in section 995(d)) of the DISC for the taxable year; (2) all accumulated earnings and profits including earnings and profits for the taxable year less the amount on line 8, Part I; and (3) accumulated DISC income. Enter the smaller amount (but not less than zero) on line 9.

Foreign investment attributable to producer's loans will be the smallest of:

- (1) the net increase in foreign assets by members of the controlled group (as defined in section 993(a)(3)) that includes the DISC,
- (2) the actual foreign investment by domestic members of the group, or
- (3) the amount of the DISC's outstanding producer's loans to members of the controlled group.

For the definitions of "net increase in foreign assets" and "actual foreign investment," see sections 995(d)(2) and 995(d)(3).

Part II.—Deemed distributions under section 995(b)(2)

A shareholder of a corporation that revoked its election to be treated as a DISC or failed to qualify as a DISC for a taxable year will be deemed to have

received a distribution taxable as a dividend equal to his pro rata share of the DISC income of the corporation accumulated during the immediately preceding consecutive taxable years for which the corporation was a DISC. The distributions will be deemed to be received in equal installments on the last day of each of the 10 taxable years of the corporation following the year of the termination or disqualification (but in no case over more than the number of immediately preceding consecutive taxable years during which the corporation was a DISC).

Schedule K.—Shareholder's Statement of DISC Distribution

Attach a separate Copy A, Schedule K (Form 1120-DISC) to Form 1120-DISC for each shareholder who had an actual or deemed distribution during the DISC's taxable year.

See instructions on the back of Copy C, Schedule K (Form 1120-DISC).

Schedule N.—Geographic Source of Gross Receipts

Complete and attach Schedule N (Form 1120-DISC) to Form 1120-DISC.

Complete Part I of the schedule to show the geographic source of the DISC's gross receipts for the taxable year and the DISC's and related U.S. persons' combined gross receipts for the current year and the two preceding years.

In Part II of the schedule, show the names, addresses and identifying numbers of related U.S. persons.

See the separate instructions for Schedule N (Form 1120-DISC).

Schedule P.—Computation of Inter-company Transfer Price or Commission

Attach a separate Schedule P (Form 1120-DISC) for each transaction or group of transactions to which the inter-company pricing rules of section 994 (a)(1) and (2) are applied.

See instructions on page 2 of Schedule P (Form 1120-DISC).

Codes for Principal Business Activity

These industry titles and definitions are based, in general, on the Enterprise Standard Industrial Classification system developed by the Office of Management and Budget, Executive Office of the President, to classify enterprises by type of activity in which they are engaged. The system follows closely the Standard Industrial Classification used to classify establishments. However, certain activities, such as manufacturing, do not apply to a DISC.

Using the list below, enter on page 1, under B, the code number for the specific industry group from which the largest percentage of "total receipts" is derived.

TRANSPORTATION, COMMUNICATION, ELECTRIC, GAS, AND SANITARY SERVICES**Code****Transportation:**

- 4400 Water transportation
- 4700 Other transportation services

Electric, gas, and sanitary services:

- 4910 Electric services
- 4920 Gas production and distribution
- 4930 Combination utility services

WHOLESALE TRADE**Durable**

- 5010 Motor vehicles and automotive equipment
- 5030 Lumber and construction materials
- 5050 Metals and minerals, except petroleum and scrap
- 5060 Electrical goods
- 5070 Hardware, plumbing and heating equipment
- 5080 Machinery, equipment, and supplies
- 5098 Other durable goods

Nondurable

- 5110 Paper and paper products
- 5129 Drugs, chemicals, and allied products
- 5130 Apparel, piece goods, and notions
- 5140 Groceries and related products, except meats and meat products
- 5147 Meats and meat products
- 5150 Farm-product raw materials
- 5170 Petroleum and petroleum products
- 5180 Alcoholic beverages
- 5190 Miscellaneous nondurable goods

"Total receipts" means all income (line 4, page 1). On page 5, question J, state the principal business activity and principal product or service that account for the largest percentage of total receipts. For example, if the principal business activity is "Wholesale trade: Machinery, equipment, and supplies," the principal product or service may be "Engines and turbines."

Do not use these codes for Schedule N (Form 1120-DISC). Use the product code system on page 2 of separate Instructions for Schedule N (Form 1120-DISC) when completing Schedule N.

RETAIL TRADE**Code**

Building materials, hardware, garden supply, and mobile home dealers:

- 5220 Building materials dealers
- 5251 Hardware stores
- 5265 Garden supplies and mobile home dealers
- 5300 General merchandise stores
- 5400 Food stores

Automotive dealers and service stations:

- 5515 Motor vehicle dealers
- 5541 Gasoline service stations
- 5598 Other automotive dealers
- 5600 Apparel and accessory stores
- 5700 Furniture and home furnishings stores
- 5800 Eating and drinking places

Miscellaneous retail stores:

- 5912 Drug stores and proprietary stores
- 5921 Liquor stores
- 5995 Other miscellaneous retail stores

SERVICES**Business services:**

- 7389 Export management services

Auto repair and services; miscellaneous repair services:

- 7500 Lease or rental of motor vehicles

Amusement and recreational services:

- 7812 Motion picture production, distribution, and services

Other services:

- 8599 Engineering and architectural services

[illegible]

GROSS INCOME

1	Gross receipts or gross sales	Less: Returns and allowances	
2	Less: Cost of goods sold (Schedule A) and/or operations (attach schedule)		
3	Gross profit		
4	Dividends (Schedule C)		
5	Interest on obligations of the U.S. and its instrumentalities		
6	Other interest		
7	Gross rents		
8	Gross royalties

1974 Department of the Treasury Internal Revenue Service

Instructions for Form 1120F U.S. Income Tax Return of a Foreign Corporation

(References are to the Internal Revenue Code)

General Instructions

A. Who must file.—Except as otherwise provided, Form 1120F must be filed by every foreign corporation that (1) is engaged in a trade or business in the U.S. at any time during the taxable year, (2) has income from U.S. sources that is not effectively connected with the conduct of a trade or business within the U.S. (section 881), (3) has income that is effectively connected with the conduct of a trade or business within the U.S. (section 882), or (4) has items of tax preference (described in section 57) which enter into the computation of unrelated business income.

For example, a foreign corporation engaged in a trade or business in the U.S. at any time during the taxable year must file Form 1120F even though (a) it has no income effectively connected with the conduct of a trade or business in the U.S., (b) it has no income from sources within the U.S., or (c) its income is exempt from income tax by reason of an income tax convention or any section of the Code. However, if the foreign corporation has no gross income for the taxable year, it is not required to complete the return schedules but a statement must be attached to the return showing the nature of any amounts excluded from gross income and the amounts of such exclusions to the extent they are readily determinable.

If a receiver, trustee in dissolution, trustee in bankruptcy, or assignee has possession of or holds title to all, or substantially all, the property or business of a corporation, whether or not the property or business is being operated, he must file a return for the corporation in the same manner and form required of other corporations. (Section 6012.)

If a foreign corporation has no office or place of business in the U.S. at the time a return is due, but has an agent in the U.S., the agent must file the return. (Section 882(f).)

Exceptions.—(1) A foreign corporation which at no time during the taxable year is engaged in a trade or business in the U.S. is not required to file if its tax liability for the taxable year is fully

satisfied by the withholding of tax at the source.

This exception does not apply to: (a) a foreign corporation which has income for the taxable year which is treated under section 882(d) or (e) as income which is effectively connected with the conduct of a trade or business in the U.S. by that corporation for the taxable year,

(b) a foreign corporation making a claim for the refund of an overpayment of tax for the taxable year, or

(c) to a foreign corporation described in section 1.532-1(c)(2)(i) of the regulations whose accumulated taxable income for the taxable year is determined under section 1.535-1(b)(2) of the regulations.

(2) A foreign corporation that is a beneficiary of an estate or trust which is engaged in a trade or business in the U.S. is not required to make a return for the taxable year merely because it is deemed to be engaged in a trade or business within the U.S. under section 875(2). However, the foreign corporation will be required to make a return if it otherwise satisfies the filing requirements.

(3) Foreign insurance companies described in section 1.6012-2(c)(1) and (2) of the regulations must file Form 1120L or Form 1120M. All other foreign insurance companies must file Form 1120F.

B. Where to file.—All foreign corporations (whether or not engaged in a trade or business within the U.S.) must file their return with the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pennsylvania 19155.

C. When to file.—Foreign corporations having an office or place of business within the U.S. must file on or before the 15th day of the 3d month following the end of their taxable year.

Foreign corporations NOT having an office or place of business within the U.S. must file on or before the 15th day of the 6th month following the end of their taxable year.

You may request an automatic 3-month extension of time to file Form 1120F by filing Form 7004.

Form 7005 may be used to request an additional extension but only by

those corporations that previously obtained an automatic 3-month extension by filing Form 7004.

D. Payment of tax.

(1) **Foreign corporations having an office or place of business within the U.S.**—The balance of tax due (line 7, page 1) must be paid in full when the return is filed or in two installments—50% by the 15th day of the 3d month and 50% by the 15th day of the 6th month after the close of the taxable year.

All payments, including payments of estimated tax, must be deposited with an authorized commercial bank depository or Federal Reserve bank. Do not remit directly to Internal Revenue Service. All deposits must be accompanied by a Federal Tax Deposit Form 503.

Enter the serial number of Form 503 on your remittance.

List all Form 503 deposits in Schedule K that relate to the taxable year for which this return is filed and which were made before or simultaneously with the filing of this return.

Timeliness of deposit will be determined by the date the deposit was received by the commercial bank depository or Federal Reserve bank.

Corporations needing Forms 503 may obtain them from the Internal Revenue Service Center where they will file their return. The application should include the corporation's name, identification number, address, taxable year to which the deposits relate, and a statement identifying the corporation as a foreign corporation filing Form 1120F.

(2) **Foreign corporations not having an office or place of business within the U.S.**—The balance of tax due (line 7, page 1) must be paid in full when the return is filed or in two installments—50% on or before the 15th day of the 6th month and 50% on or before the 15th day of the 9th month following the close of the taxable year.

The tax may be paid by check or money order drawn to the order of "Internal Revenue Service" and remitted to the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pennsylvania 19155.

Enter your employer identification number on all remittances.

E. Taxation of foreign corporations.—Foreign corporations are taxed at regular corporate tax rates on income that is effectively connected with the conduct of a trade or business within the U.S. (see instruction F), and at a 30% or lower treaty rate on income from U.S. sources that is not effectively connected with the conduct of a trade or business within the U.S. (See instruction G.)

F. Income effectively connected with the conduct of a trade or business within the U.S.—Foreign corporations engaged in a trade or business within the U.S. are taxed at regular corporate tax rates on the following income:

1. All income, gain, or loss from U.S. sources except as provided in the next paragraph.

2. Certain fixed or determinable annual or periodical income from U.S. sources and gain or loss from U.S. sources from the sale or exchange of capital assets will generally be treated as effectively connected income if (a) the income, gain, or loss is derived from assets used in, or held for use in, the conduct of the corporation's trade or business, or (b) the activities of the corporation's trade or business were a material factor in the realization of the income, gain, or loss.

3. Under certain circumstances, limited categories of income from foreign sources will be treated as effectively connected income.

A foreign corporation not engaged in a trade or business within the U.S. will not have any effectively connected income unless (1) it elects under section 882(d) to treat real property income as effectively connected income (see instruction H), or (2) it is a corporation created or organized in a U.S. possession and conducts a banking business in a U.S. possession and receives interest on U.S. obligations (in such case the interest will be treated as effectively connected income).

All gains on the disposition of stock in a DISC or former DISC and all distributions out of accumulated DISC income, including deemed distributions, are treated as effectively connected with the conduct of a trade or business conducted through a permanent establishment within the U.S.

For further details relating to effectively connected income, see section 864(c).

Complete Section II of the form to compute the tax on such income.

G. Income from U.S. sources not effectively connected with the conduct of a trade or business within the U.S.—In general, whether or not a foreign corporation is engaged in a trade or business, the gross amount of income is subject to tax at a 30% or lower treaty rate.

For taxable years beginning after 1971, a corporation created or organized in Guam or under the law of Guam is not considered a foreign corporation for purposes of the tax imposed by section 881.

In general, the income consists of the following types of income described in section 881 (to the extent not ef-

fectively connected with the conduct of a trade or business within the U.S.):

1. Interest (other than original issue discount as defined in section 1232(b)), dividends, rents and royalties, salaries, wages, premiums, annuities, compensation, remunerations, emoluments, and other fixed or determinable annual or periodical gains, profits, and income;

2. Gains described in section 631(b) or (c) from disposal of timber, coal, or domestic iron ore with a retained economic interest;

3. In the case of:

(a) bonds or other evidences of indebtedness issued after September 28, 1965 and before April 1, 1972, amounts which under section 1232(a)(2)(B) are considered as gain from the sale or exchange of property which is not a capital asset and, in the case of corporate obligations issued after May 27, 1969 and before April 1, 1972, amounts which would be so considered but for the fact that the obligations were issued after May 27, 1969,

(b) bonds or other evidences of indebtedness issued after March 31, 1972 and payable more than 6 months from the date of original issue (without regard to the period held by the taxpayer), amounts which under section 1232(a)(2)(B) would be considered as gain from the sale or exchange of property which is not a capital asset but for the fact that the obligations were issued after May 27, 1969, and

(c) the payment of interest on an obligation described in (b) above, an amount equal to the original issue discount (but not in excess of the interest less the tax imposed at a 30% or lower treaty rate) accrued on the obligation since the last payment of interest; and

4. Certain gains from the sale or exchange of patents, copyrights, and other intangible property, as described in section 881(a)(4).

No deductions are allowable against this income because the tax is imposed upon the gross amount received.

Treat all gains on the disposition of stock in a DISC or former DISC and all distributions out of accumulated DISC income, including deemed distributions, as effectively connected with the conduct of a trade or business conducted through a permanent establishment within the U.S.

Complete Section I of the form to compute the tax on such income.

H. Election to treat real property income as effectively connected in-

come.—A foreign corporation having income from real property located in the U.S., or from any interest in such real property, including (1) gains from the sale or exchange of real property or interest in real property, (2) rents or royalties from mines, wells, or other natural deposits, and (3) gains described in section 631(b) or (c), may elect to treat the income as being effectively connected with the conduct of a trade or business within the U.S. (See section 882(d).)

The election may be made by attaching to the return for the year to which the election is to apply (1) a statement to the effect that the election is being made, (2) a complete schedule of all real property, or any interest in real property, of which the taxpayer is titular or beneficial owner, which is located in the U.S., (3) a statement indicating the extent to which the taxpayer has direct or beneficial ownership in each item of real property, or interest in real property, (4) the legal identification and location of the real property or interest in the real property, (5) a description of any substantial improvements on the property, and (6) any other information required by regulations.

If you make this election, complete Section II to compute the tax on such income.

I. Deductions and credits.—No deductions are allowed against income that is not effectively connected with the conduct of a trade or business within the U.S. because the 30% or lower treaty rate is imposed upon the gross amount of such income.

Deductions and credits are allowed against income that is effectively connected with the conduct of a trade or business within the U.S. only if a return is filed, and only to the extent that they are connected with such income. Charitable contributions, however, may be deducted whether or not they are so connected.

For further details, see section 882(c).

J. Source of income.—Gross income of a foreign corporation includes only (1) gross income that is derived from sources within the U.S. and that is not effectively connected with the conduct of a trade or business within the U.S., and (2) gross income (regardless of source) that is effectively connected with the conduct of a trade or business within the U.S.

Except as otherwise provided by tax convention, determine the source of income under sections 861 through 864 and the regulations thereunder.

K. Trade or business within the U.S.—A foreign corporation that is a

member of a partnership or is a beneficiary of an estate or trust will be considered to be engaged in a trade or business within the U.S. if the partnership, estate, or trust is so engaged.

Under some circumstances, the term "trade or business within the U.S." does not include the trading of stocks, securities, or commodities through a resident broker, commission agent, custodian, or other independent agent. Special rules apply when the corporation is trading for its own account.

For details concerning trading in stocks, securities, or commodities, see section 864(b)(2).

L. Period to be covered by the 1974 return.—File the 1974 return for calendar year 1974 and fiscal years beginning in 1974 and ending in 1975. If the return is for a fiscal year, fill in the taxable year space on the form.

Final return.—If the corporation ceases to exist, write "FINAL RETURN" at the top of the form.

Amended return.—Correct any error in a previously filed income tax return by filing a Form 843 (if a claim for refund) or an amended Form 1120F.

Change in accounting period.—To change your accounting period, see section 1.442-1 of the regulations and Form 1128, Application for Change in Accounting Period.

M. Personal holding companies.—A foreign corporation that is a personal holding company as defined in section 542, but not a foreign personal holding company as defined in section 552, is subject to the tax imposed by section 541. Section 541 imposes a tax upon undistributed personal holding company income (as defined in section 545) of personal holding companies. Every foreign corporation that is a personal holding company under section 542 must file a Schedule PH (Form 1120) with its Form 1120F.

N. Foreign personal holding companies.—Section 551(a) requires that the undistributed foreign personal holding company income of a foreign personal holding company, as defined in section 552, must be included as a dividend in the gross income of its U.S. shareholders in the amount provided by section 551(b). Schedule PH (Form 1120) is not required, but Forms 957 and 958 must be filed by certain officers, directors, or U.S. shareholders. (Section 6035 and regulations thereunder.)

O. Signature.—The return must be signed by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or by any other cor-

porate officer (such as tax officer) authorized to sign.

A receiver, trustee, or assignee must sign any return that he is required to file on behalf of a corporation.

P. Claim for refund.—If a foreign corporation has only income that is not effectively connected with the conduct of a trade or business within the U.S. and this form is being used as a claim for refund, include all income from sources within the U.S., even though the tax on it has been fully satisfied at the source. If the refund results from the withholding of tax at the source, a statement must be attached to the claim for refund declaring that the person making the claim is the beneficial owner of the income and showing (1) the amounts of tax withheld, with the names and post office addresses of withholding agents, (2) the name in which the tax was withheld if other than that of the taxpayer, and, if applicable, (3) facts sufficient to show that, at the time the income was derived, the taxpayer was entitled to the benefit of a reduced rate of, or exemption from, tax with respect to that income under the provisions of an income tax convention to which the United States is a party.

Q. Tax treaties.—Section 881 imposes a tax of 30% on U.S. source income described in that section. However, if you are a corporation created under the laws of any country that has a treaty to which the U.S. is a party, refer to the applicable income tax convention to determine if you are entitled to an exemption from, or reduced rates of, U.S. income tax.

If the gross income of a foreign corporation includes income, the tax on which is limited by a tax convention, a statement must be attached to the return showing with respect to that income—

- The amounts of tax withheld.
- The names and post office addresses of withholding agents, and
- Information sufficient to show the taxpayer's entitlement to the reduced rate of tax under the tax convention.

For purposes of applying an exemption from, or a reduction of, any U.S. tax provided by any treaty with respect to income not effectively connected with the conduct of a trade or business within the U.S., a foreign corporation will be deemed not to have a permanent establishment in the U.S. at any time during the taxable year. (See section 894(b).)

For additional information about tax conventions, contact the Director of International Operations, Internal Revenue Service, Washington, D.C. 20225.

R. Accounting methods.—Taxable income must be computed using the method of accounting regularly used in maintaining the corporation's books and records. In all cases, the method adopted must clearly reflect taxable income. (See section 446.)

Unless the law specifically permits, a taxpayer may not change the method of accounting used to report income in prior years (for income as a whole or for any material item) without first securing consent on Form 3115, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—Money items may be shown as whole-dollar amounts by dropping any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

S. Estimated tax.—A corporation must make estimated tax payments if it can expect its estimated tax (income tax less credits less an estimated tax exemption) to be \$40 or more.

For taxable years beginning in 1975, the estimated tax exemption is 40% of the lesser of (1) \$5,500 or (2) total tax less credits. (Members of a controlled group of corporations must substitute 22% of their surtax exemption for the \$5,500 mentioned above.)

Form 1120-W may be used as a worksheet to compute corporate estimated tax.

If you overpaid estimated tax, you may apply on Form 4466 for a "quick refund" if the overpayment is (1) at least 10% of your expected income tax liability AND (2) at least \$500.

This application for a quick refund must be made within 2½ months after the end of the taxable year and before you file your tax return.

T. Information returns.—Various forms 1099 must be filed to report certain dividends, interest income, payments for medical and health care, miscellaneous income (e.g., rents; royalties; and commissions; fees; prizes, awards, etc. to nonemployees), original issue discount, patronage dividends, and lump-sum distributions from profit-sharing and retirement plans. See Form 1096 and instructions for details.

Form 1096 must be filed to summarize and transmit information returns. Schedule A (Form 1096) must be filed by corporations paying non-taxable dividends.

U. Consolidated returns.—Except for certain subsidiary corporations organized under the laws of Canada or Mexico and maintained solely for the

purpose of complying with the laws of such country as to title and operation of property, a foreign corporation may not be included as a member of an affiliated group of corporations for purposes of filing a consolidated return.

V. Financial statements.—The balance sheets must agree with your books and records. Any differences must be reconciled. Copies of balance sheets required by Federal, State, etc., authorities may be used in place of Schedule L.

Certificates of deposit should be included as cash in line 1 of the balance sheet.

You may elect to limit the balance sheets and reconciliation of income per books with income per return to:

(1) the corporation's assets located in the U.S. and its other assets used in the trade or business conducted in the U.S. and

(2) its income effectively connected with the conduct of a trade or business in the U.S. and its other income from sources within the U.S.

Banks, insurance companies, and other corporations required to submit substantially similar statements of income and expense to any Federal, State, etc., authority may submit copies of such statements in place of the information required on lines 1 through 30, page 3. In such cases, taxable income must be reconciled in Schedule M-1 with the net profit shown on the statement and entered as line 30, page 3.

W. Attachments.—You may use attachments if the lines on the form schedules are not sufficient. They must contain all the required information; must follow the format of the official schedules; and must be attached to the return in the same sequence as the schedules appear on the official form.

If an attachment is used in place of a schedule having a summary line on page 3, the total need not be entered on the schedule but must be entered on page 3.

Enter your name and identifying number on all attachments.

X. Minimum tax on tax preference items.—Corporations having tax preference items in excess of \$30,000 must attach Form 4626, Computation of Minimum Tax.

Items of tax preference are:

- accelerated depreciation on real property,
- accelerated depreciation on personal property subject to a net lease,*
- amortization of certified pollution control facilities,

- amortization of railroad rolling stock,
- amortization of on-the-job training facilities,
- amortization of child care facilities,
- reserves for losses on bad debts of financial institutions,
- excess percentage depletion, and
- capital gains.

*Applies only to personal holding companies.

Y. Transfers to corporation controlled by transferor.—If a person acquires stock or securities of a corporation in exchange for property, and no gain or loss is recognized under section 351, the transferor and transferee must attach the information required by section 1.351-3 of the regulations.

Z. Penalties.

1. A corporation that fails to file its tax return by the prescribed due date including any extensions of time for filing may be subject to a penalty of 5% a month, up to a maximum of 25%, for each month the return is not filed (the penalty is imposed on the net amount due—section 6651(a)(1)).

2. A corporation that fails to pay the tax when due may be subject to a penalty of ½% a month or fraction of a month, up to a maximum of 25%, for each month the tax is not paid (the penalty is imposed on the net amount due—section 6651(a)(2)).

The above penalties will not be imposed if the corporation can show that the failure to file or to pay was due to reasonable cause and not to willful neglect.

These penalties are in addition to the 6% a year interest charge imposed on unpaid tax.

3. A corporation that fails to pay the proper estimated tax when due, may be subject to an underpayment penalty of 6% a year for the period of underpayment (section 6655).

If you underpaid estimated tax and believe a penalty charge should not be assessed, attach Form 2220.

Specific Instructions for Section II

(Numbered to correspond with the line numbers on page 3 of the return.)

Gross Income

Enter in lines 1 through 10 gross income (regardless of source) which is effectively connected with the conduct of a trade or business within the U.S.

1. Gross receipts.—Enter gross receipts or sales from all business opera-

tions except those required to be reported in lines 4 through 10. For reporting advance payments and long-term contracts, see section 1.451-5 of the regulations.

If you use the installment method of reporting, enter on line 1 the gross profit on collections from installment sales and carry the same amount to line 3. Attach a schedule showing for the current and 3 preceding years: (a) gross sales, (b) cost of goods sold, (c) gross profit, (d) percentage of gross profit to gross sales, (e) amount collected, and (f) gross profit on amount collected.

2. Cost of goods sold.—The method of valuing inventories may not be changed without permission. Application for permission to change must be made on Form 3115.

Full absorption method of inventory costing.—Taxpayers engaged in manufacturing or production operations must use the full absorption method of inventory costing. Those using other methods must change to this method under which both direct and certain indirect production costs are included for inventory value purposes.

A special election is provided so that taxpayers will not have to change to the full absorption method for taxable years prior to the year for which the election is made. The election may be made by filing Form 3115 during the first 180 days of any taxable year beginning on or after September 19, 1973 and before September 19, 1975. The change shall be made for the tax year in which the election is made. For further details, see section 1.471-11 of the regulations.

Cost of operations (where inventories are not an income-determining factor).—If the amount entered on line 2 includes an amount applicable to cost of operations, attach a schedule showing (1) salaries and wages and (2) other costs in detail.

4. Dividends.—(Numbered to correspond with line numbers in Schedule C.)

(1) Enter dividends received from domestic corporations subject to income tax and the 85% deduction under section 243(a)(1). For dividends received from a regulated investment company, see section 854 for the amount subject to the 85% deduction.

Include on this line taxable distributions received from a DISC or former DISC that are designated as being eligible for the 85% dividends-received deduction.

So-called dividends or earnings received from mutual savings banks, etc., are really interest and should not be treated as dividends.

(2) Enter dividends received on the preferred stock of a public utility that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

(3) Enter dividends received from foreign corporations that qualify for the 85% deduction provided in section 245(a).

(5) If the corporation claims the foreign tax credit, the amount of tax deemed paid under section 902(a)(1) (relating to credit for corporate stockholder in foreign corporation) must be treated as a dividend received from the foreign corporation. (See section 906(b)(4).)

(6) Enter taxable distributions from a DISC or former DISC that are designated as not being eligible for the 85% dividends-received deduction. (See sections 245(d), 995(b), and 996(a)(3).)

(7) Include dividends (other than capital gain dividends) received from regulated investment companies that do not qualify for the 85% deduction; dividends from tax-exempt organizations; dividends (other than capital gain dividends) received from a real estate investment trust that, for the taxable year of the trust in which the dividends are paid, qualifies under sections 856-858; dividends not eligible for a dividends-received deduction because of the holding period of the stock or an obligation to make corresponding payments with respect to similar stock; and any other taxable dividend income not properly reported above.

6. Other interest.—Enter interest on loans, notes, mortgages, bonds, bank deposits, corporate bonds, tax refunds, etc.

Do not offset interest income against interest expense.

7. Gross rents.—Enter the gross amount received for the rent of property. Deduct expenses such as repairs, interest, taxes, and depreciation on the proper lines for deductions.

9(a). Net capital gains.—Every sale or exchange of a capital asset must be reported in detail in Schedule D even though no gain or loss is indicated.

If the net long-term capital gain exceeds the net short-term capital loss, or in case of only a net long-term capital gain, compute the alternative tax on separate Schedule D to see if it produces a lesser tax.

9(b). Ordinary gain or (loss).—Enter the total ordinary gain or loss from line 9, Part II, Form 4797.

10. Other income.—The attached schedule should include recoveries of bad debts deducted in prior years under the specific charge-off method.

Refunds of tax deducted in prior years should be reported here and not offset against current year's tax.

If "other income" consists of only one item, you may identify it by showing the account caption in parentheses on line 10.

Deductions

In computing the taxable income of a foreign corporation engaged in a trade or business within the U.S., deductions are allowed only to the extent that they are connected with income that is effectively connected with the conduct of a trade or business within the U.S. Charitable contributions, however, may be deducted whether or not they are so connected. See section 882(c)(1) for allocation of deductions.

12. Compensation of officers.—Complete column 8 of Schedule E for your 6 highest paid officers. To determine the highest paid officers, add all allowances, including expense account allowances, to each officer's compensation. Expense account allowance means (1) amounts, other than compensation, received as advances or reimbursements and (2) amounts paid by or for the corporation for expenses incurred by or on behalf of an officer. Column 8 does not have to be completed for any officer for whom the combined amount is less than \$30,000.

14. Repairs.—Enter the cost of incidental repairs, such as labor and supplies, that do not add to the value or appreciably prolong the life of the property. Include on this line the total amount of repairs from Form 4832.

15. Bad debts.—Bad debts may be treated in either of two ways—(1) as a deduction for debts that become worthless in whole or in part, or (2) as a deduction for a reasonable addition to a reserve for bad debts. (Section 166.)

Application to change the method of computing bad debts must be made on Form 3115.

17. Taxes.—Enter taxes paid or accrued during the taxable year and attach a schedule showing the type and amount of tax.

Do not include Federal income tax; foreign or U.S. possession income tax if a foreign tax credit is claimed; or taxes not imposed upon the corporation.

See section 164(d) for apportionment of tax on real property between seller and purchaser.

Section 906(b)(1) provides that certain foreign taxes imposed on income from U.S. sources may not be taken as a deduction.

18. Interest.—Do not include interest on indebtedness incurred or continued to purchase or carry obligations on

which the interest is wholly exempt from income tax. (Section 265.)

See section 267 for limitation on deductions for unpaid expenses and interest on transactions between related taxpayers.

19. Contributions.—Enter contributions or gifts actually paid within the taxable year to, or for the use of, charitable and governmental organizations described in section 170(c) and any unused contributions carried over from prior years.

The total amount claimed may not exceed 5% of taxable income (line 30) computed without regard to (1) any deduction for contributions, (2) the special deductions in line 29(b), (3) deductions allowed under sections 249 and 250, (4) any net operating loss carryback to the taxable year under section 172, and (5) any capital loss carryback to the taxable year under section 1212(a)(1).

Charitable contributions in excess of the 5% limitation may not be deducted for the taxable year but may be carried over to the next 5 taxable years.

A contribution carryover is not allowed, however, to the extent that it increases a net operating loss carryover. See section 170(d)(2)(B).

Corporations on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3d month following the close of the taxable year if the contributions are authorized by the board of directors during the taxable year. A declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the board of directors during the taxable year, and a copy of the resolution, must both be attached to the return.

Attach a schedule showing the name of each organization and the amount paid. If a contribution is made in property other than money, describe the kind of property contributed and the method used in determining its fair market value. If a contribution carryover is included, show the amount and how the carryover was determined.

Special rule for contributions of certain property.—In the case of a charitable contribution of property, the contribution must be reduced by the sum of

- (1) the ordinary income and
- (2) for certain contributions, 62½% of the long-term capital gain, that would have resulted if the property were sold at its fair market value. The reduction for 62½% of the long-term capital gain applies to (1) contributions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for

5

its exemption, and (2) the contributions of any property to or for the use of certain private foundations. (Section 170(e).)

Bargain sale to a charitable organization.—If you claim a charitable contribution deduction for property sold to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

20. Amortization.—If you claim a deduction for amortization, attach a schedule showing: (1) a description of the expenditures being amortized; (2) date acquired, completed, or expended; (3) amount being amortized; (4) amortization deducted in prior years; (5) amortization period (number of months); (6) amortization for this year; and (7) the total amount of amortization less the amount claimed in Schedule A and elsewhere on the return.

See section 169 and related regulations for conditions under which the cost of certified pollution control facilities may be amortized over 60 months.

Also, see section 188 for conditions under which certain expenditures for on-the-job training and child care facilities may be amortized over 60 months.

21. Depreciation.—Complete Schedule G if a deduction is claimed for depreciation of property, leasehold improvements, patents, or copyrights. Form 4562, Depreciation, may be used as a supplement to Schedule G.

Salvage value.—Salvage value must be taken into account in determining the depreciation deduction except under the declining balance method, Class Life (ADR) System, or Guideline Class Life System. For personal property (other than livestock) with a useful life of 3 years or more, salvage value may be reduced by an amount not in excess of 10% of the cost or other basis of the property. In no event may property be depreciated below a reasonable salvage value after making the salvage value reduction.

Tangible property other than real property.—Tangible personal property, whether new or used, may be depreciated under the straight line method or the 150% declining balance method.

New tangible personal property with a useful life of 3 years or more may also be depreciated under (1) the double declining balance method, (2) the sum of the years-digits method, or (3) any other method that does not result in accumulated allowances at the end of any year (during the first two-thirds useful life of the property) greater than

6

the total that could have been deducted if the double declining balance method had been used.

New section 1250 property.—The double declining balance and sum of the years-digits methods may be used only for (1) new residential rental property (from which at least 80% of the gross rental income is derived from rental of residential units), and (2) new real property placed in service after July 24, 1969, if construction, acquisition, or permanent financing arrangements were entered into before July 25, 1969. Other new real property may be depreciated under the straight line or 150% declining balance methods.

Used section 1250 property.—Used residential rental property with a useful life of 20 years or more, may be depreciated under the 125% declining balance method. Other used real property may be depreciated only under the straight line method.

Rehabilitation expenditures for low-income rental housing.—You may elect to compute the depreciation deduction under section 167(k) for rehabilitation expenditures incurred for low-income rental housing under the straight line method using a useful life of 60 months and no salvage value in lieu of any other method of computing depreciation.

Section 179—Additional first-year depreciation.—For the first year a depreciation deduction is allowable, corporations may elect to write off 20% of the cost (before adjustment for salvage value) of new or used tangible personal property with a useful life of 6 years or more, up to an aggregate cost of \$10,000.

Controlled corporate groups must apportion this \$10,000 amount among members of the group. For this purpose, section 179(d)(7) provides a special definition of controlled groups.

Enter total additional first-year depreciation on line 1 of the depreciation schedule.

If the additional first-year allowance is elected, the basis of the property must be reduced by the amount of the deduction before computing ordinary depreciation.

22. Depletion.—The percentage depletion rate for oil and gas wells is 22%. See section 613(b) for rates applicable to other natural deposits.

Attach Form T if a deduction is claimed for depletion of timber.

24. Pension, profit-sharing, etc. plans.—File Form 4848 with a Schedule A (Form 4848) and Form 4849 on or before the 15th day of the 5th month following the close of your taxable year, if you have adopted a pension, profit-sharing, or other funded deferred compensation plan.

25. Employee benefit programs.—Enter the amount of your contributions to employee benefit programs (e.g., insurance, health and welfare programs) that are not an incidental part of a pension, profit-sharing, etc., plan included on line 24.

26. Other deductions.—No deduction is allowable for any amount allocable to a class of exempt income other than exempt interest income, including income exempt by tax convention. Items directly attributable to wholly exempt income must be allocated to such income, and items directly attributable to any class of taxable income must be allocated to such taxable income.

If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion of the item, determined in the light of all the facts and circumstances in each case, shall be allocated to each.

Attach a statement showing (1) the amount of each class of exempt income and (2) the amount of expense items allocated to each class. Show separately the amount allocated by apportionment.

29(a). Net operating loss deduction.—The "net operating loss deduction" is the sum of the net operating loss carryovers and carrybacks to the taxable year. (Section 172(b).)

Generally, a net operating loss may be carried back 3 years and carried over 5 years. The net operating loss must first be carried to the earliest of the 8 taxable years to which it may be carried, then to the next earliest year, etc. The portion of the loss to be carried to each of the other 7 taxable years is the excess, if any, of the amount of the loss over the sum of the taxable income for each of the prior taxable years to which the loss may be carried. (Section 172(b).)

The term "net operating loss" means the excess of allowable deductions over gross income, computed with the following modifications under section 172(d):

(1) No net operating loss deduction is allowed.

(2) The special deductions in line 1 of Schedule A are computed without regard to the 85% limitation provided in section 246(b). See section 1.172-2 of the regulations.

(3) The special deduction allowed by section 247 (dividends paid on certain preferred stock of public utilities) is computed without regard to section 247(a)(1)(B).

As stated, the net operating loss deduction is the sum of the carryovers and carrybacks. However, in determining the taxable income that must be subtracted from a net operating loss to determine the portion of such loss

that will still be available to carry to a later year, the net operating loss deduction is determined (without regard to the net operating loss for the loss year or any taxable year thereafter and, under certain circumstances, without regard to any portion of a net operating loss attributable to a foreign expropriation loss).

If you have a net operating loss carryback and want a "quick refund" of tax, file Form 1139 within 12 months after the close of the taxable year in which the net operating loss occurred. (Section 6411.)

If a net operating loss carryback creates an unused investment credit or an unused work incentive (WIN) credit in a preceding year, the unused credit may be carried back to the 3 preceding years (however, the WIN credit cannot be carried back to years beginning before 1972), and, under the provisions of section 6411, a quick refund of the taxes affected may be obtained by filing Form 1139.

29(b). Special deductions.—See instructions for Schedule I.

Schedule I—Special Deductions

(Numbered to correspond with line numbers in Schedule I)

1. Exclusion of certain dividends.—In general, no dividends-received deduction will be allowed on any share of stock (a) that is disposed of before the corporation has held it 15 days or less, or (b) to the extent the corporation is under an obligation to make corresponding payments with respect to substantially identical stock or other securities.

No dividends-received deduction is allowed under section 243 for a dividend from a DISC or former DISC (as defined in section 992(a)) to the extent the dividend is paid out of the corporation's accumulated DISC income, previously taxed income, or is a deemed distribution under section 995(b)(1).

2. Limitation on dividends-received deduction.—Line 2 may not exceed 85% of line 28, page 3. For this purpose, line 28, page 3, is to be computed without regard to any capital loss carryback to the taxable year under section 1212(a)(1).

In a year in which a net operating loss occurs, sections 172(d) and 246(b) provide that this 85% limitation does not apply even if the loss is created by the dividends-received deduction.

3. Deduction for dividends paid on certain preferred stock of public utilities.—Section 247 allows public utilities a deduction of 29.167% of the lesser of (1) dividends paid on their preferred stock during the taxable year, or (2) taxable income computed without regard to this deduction. In a year in which a net operating loss occurs, section 172(d) provides that the deduction shall be computed without regard to section 247(a)(1)(B).

Schedule J—Tax Computation

1. Surtax exemption.—In general, corporations are entitled to a \$25,000 surtax exemption. Certain controlled corporations, however, are limited to a smaller amount under the provisions of sections 1561, 1562, and 1564. (See section 1563 for definition of controlled group.)

Under the provisions of section 1561, a controlled group of corporations, with respect to a specified December 31, must divide one \$25,000 surtax exemption equally among all component members of the group unless the group specifically consents to split up the \$25,000 amount among all component members in accordance with an apportionment plan. See section 1561, and the regulations thereunder, for the time and manner of making the consent.

For taxable year 1974, only one member of a group that has made an election under section 1562 may claim a full \$25,000 surtax exemption. The other members are each limited to \$4,167. (Fiscal year 1974—75 members, see below.) Section 1564(a)(2) provides that the component members of the controlled group must elect which member is to receive the full \$25,000 and which members are to be limited to \$4,167. See regulations section 1.1564-1(b) for the manner of making the election.

If the group elects to have each component member claim a separate surtax exemption under section 1562, each component member must pay an additional tax of 6% of the amount of income equal to its surtax exemption. If only one member of the group has any taxable income, the 6% additional tax does not apply. (Section 1562(b)(1)(A).)

Special rules apply to those members of a controlled group having a fiscal year beginning in 1974 and ending in 1975. See Form 1120-FY and example (7) of section 1.21-1(n) of the regulations.

2. Foreign tax credit.—A foreign corporation engaged in a trade or business within the U.S. is allowed a credit under section 901 for income, war profits, and excess profits tax paid (or deemed paid under section 902) or accrued during the taxable year to any foreign country or U.S. possession with respect to income effectively connected with the conduct of a trade or business within the U.S. For further details and exceptions, see section 906 and Form 1118.

3. Tax from recomputing a prior year investment credit.—If property is disposed of prior to the life-years category used in computing the investment credit, the investment credit must be recomputed using as the useful life the period the property was actually held. If the credit taken (including carrybacks and carryovers) exceeds the recomputed credit, the tax for the year of disposition must be increased by the excess. Form 4255 may be used to compute the tax.

The tax from recomputing a prior year investment credit may not be offset against the current year's investment credit.

4. Credit for wages paid or incurred in a work incentive (WIN) program.—Employers may claim a credit of 20% of the salaries and wages paid or incurred for employees hired under a WIN program. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. For special rules and limitations, see Form 4874 and sections 50A and 50B.

5. Tax from recomputing a prior year WIN credit.—If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, you must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred to that employee. (See Form 4874.)

The tax from recomputing a prior year work incentive credit may not be offset against the current year's work incentive credit.

6. Change in accounting period.—If you change your accounting period, you must file an income tax return for the short period (the period between the close of the old period and the beginning of the new). See section 443(b) for the computation of tax.

Codes for Principal Business Activity and Principal Product or Service

These industry titles and definitions are based, in general, on the Enterprise Standard Industrial Classification system developed by the Office of Management and Budget, Executive Office of the President, to classify enterprises by type of activity in which they are engaged. The system follows closely the Standard Industrial Classification used to classify establishments.

Using the list below, enter on page 3, under N, the code number for the specific industry group from which the largest per-

centage of "total receipts" is derived. "Total receipts" means gross receipts (line 1, page 3) plus all other income (lines 4 through 10, page 3). On page 3, under N, state the principal business activity and principal product or service that account for the largest percentage of total receipts. For example, if the principal business activity is "Grain mill products," the principal product or service may be "Cereal preparations."

AGRICULTURE, FORESTRY, AND FISHING

Code 0400 Agricultural production.
0600 Agricultural services, forestry, fishing, hunting, and trapping.

MINING

Metal mining:
1010 Iron ores.
1020 Copper, lead and zinc, gold and silver ores.
1098 Other metal mining.
1150 Coal mining.
Oil and gas extraction:
1330 Crude petroleum, natural gas, and natural gas liquids.
1380 Oil and gas field services.
Nonmetallic minerals (except fuels) mining:
1430 Dimension, crushed and broken stone, sand and gravel, and other mineral products.
1498 Other nonmetallic minerals, except fuels.

CONSTRUCTION

General building contractors and operative builders:
1510 General building contractors.
1531 Operative builders.
1600 Heavy construction contractors.
Special trade contractors:
1711 Plumbing, heating, and air conditioning.
1731 Electrical work.
1798 Other special trade contractors.

MANUFACTURING

Food and kindred products:
2010 Meat products.
2030 Dairies.
2030 Preserved fruits and vegetables.
2040 Grain mill products.
2050 Bakery products.
2050 Sugar and confectionery products.
2081 Malt liquors and malt.
2088 Alcoholic beverages, except malt liquors and malt.
2099 Bottled soft drinks, and flavorings.
2098 Other food and kindred products.
2100 Tobacco manufactures.
Textile mill products:
2228 Weaving mills and textile finishing.
2250 Knitting mills.
2298 Other textile mill products.
Apparel and other textile products:
2315 Men's and boys' clothing.
2345 Women's and children's clothing.
2388 Hats, caps, millinery, fur goods, and other apparel and accessories.
2390 Misc. fabricated textile products.
Lumber and wood products, except furniture:
2415 Logging camps and logging contractors, sawmills and planing mills.
2430 Millwork, plywood, and related products.
2498 Other wood products, including wood buildings and mobile homes.
2500 Furniture and fixtures.
Paper and allied products:
2625 Pulp, paper, and board mills.
2699 Other paper products.
Printing, publishing and allied industries:
2710 Newspapers.
2720 Periodicals.
2735 Books, greeting cards, and misc. publishing.
2799 Commercial and other printing, and printing trade services.

Chemicals and allied products:
2815 Industrial chemicals, plastics materials and synthetics.
2830 Drugs.
2840 Soap, cleaners, and toilet goods.
2850 Paints and allied products.
2898 Agricultural and other chemical products.
Petroleum refining and related industries (including those integrated with extraction):
2910 Petroleum refining (including those integrated with extraction).
2998 Other petroleum and coal products.
Rubber and misc. plastics products:
3000 Rubber products; plastics footwear, hose and tubing.
3070 Misc. plastics products.
Leather and leather products:
3140 Footwear, except rubber.
3198 Other leather and leather products.

Stone, clay, glass, and concrete products:
3225 Glass products.
3240 Cement, hydraulic.
3270 Concrete, gypsum, and plaster products.
3298 Other nonmetallic mineral products.

Primary metal industries:
3370 Ferrous metal industries; misc. primary metal products.

Nonferrous metal industries:
3380 Nonferrous metal industries.

Fabricated metal products, except machinery and transportation equipment:
3410 Metal cans and shipping containers.
3428 Cutlery, hand tools, and hardware; screw machine products, bolts, and similar products.
3430 Plumbing and heating, except electric and warm air.
3440 Fabricated structural metal products.
3460 Metal forgings and stampings.
3470 Coating, engraving, and allied services.
3480 Ordnance and accessories, except vehicles and guided missiles.
3490 Misc. fabricated metal products.

Machinery, except electrical:
3520 Farm machinery.
3530 Construction, mining, and materials handling machinery and equipment.
3540 Metalworking machinery.
3550 Special industry machinery, except metalworking machinery.
3560 General industrial machinery.
3570 Office, computing, and accounting machines.
3598 Engines and turbines, service industry machinery, and other machinery, except electrical.

Electrical and electronic machinery, equipment, and supplies:
3630 Household appliances.
3655 Radio, television, and communication equipment.
3670 Electronic components and accessories.
3698 Other electric equipment.

Transportation equipment:
3710 Motor vehicles and equipment.
3725 Aircraft, guided missiles and parts.
3730 Ship and boat building and repairing.
3798 Other transportation equipment.
Measuring and controlling instruments; photographic and medical goods, watches and clocks:
3815 Scientific instruments and measuring devices; watches and clocks.
3845 Optical, medical, and ophthalmic goods.
3860 Photographic equipment and supplies.
3998 Other manufacturing products.

TRANSPORTATION, COMMUNICATION, ELECTRIC, GAS, AND SANITARY SERVICES

Transportation:
4000 Railroad transportation.
4100 Local and interurban passenger transit.
4200 Truck and warehousing.
4300 Water transportation.
4400 Transportation by air.
4500 Pipe lines, except natural gas.
4700 Other transportation services.
Communication:
4825 Telephone, telegraph, and other communication services.
4830 Radio and television broadcasting.
Electric, gas, and sanitary services:
4910 Electric services.
4920 Gas production and distribution.
4930 Combination utility services.
4990 Water supply and other sanitary services.

WHOLESALE TRADE

Durable:
5010 Motor vehicles and automotive equipment.
5030 Lumber and construction materials.
5040 Metals and minerals, except petroleum and scrap.
5060 Electrical goods.
5070 Hardware, plumbing and heating equipment.
5080 Machinery, equipment, and supplies.
5098 Other durable goods.
Nondurable:
5110 Paper and paper products.
5129 Drugs, chemicals, and allied products.

Apparel, piece goods, and notions.
5140 Groceries and related products, except meats and meat products.
5147 Meats and meat products.
5150 Farm-product raw materials.
5170 Petroleum and petroleum products.
5180 Alcoholic beverages.
5190 Non-durable goods.

RETAIL TRADE

Building materials, hardware, garden supply, and mobile home dealers:
5220 Building materials dealers.
5251 Hardware stores.
5265 Garden supplies and mobile home dealers.
5300 General merchandise stores.
5400 Food stores.
Automotive dealers and service stations:
5511 New vehicle dealers.
5541 Gasoline service stations.
5598 Other automotive dealers.
Apparel and accessory stores:
5600 Furniture and home furnishings stores.
5601 Eating and drinking places.
Misc. retail stores:
5912 Drug stores and proprietary stores.
5921 Other retail stores.
5995 Other misc. retail stores.

FINANCE, INSURANCE, AND REAL ESTATE

Banking:
6030 Mutual savings banks.
6095 Banks, except mutual savings banks.
Credit agencies other than banks:
6120 Savings and loan associations.
6140 Personal credit institutions.
6150 Business credit institutions.
6199 Other credit agencies.
Security, commodity brokers, dealers, exchanges, and services:
6210 Security brokers, dealers, and flotation companies.
6299 Commodity brokers and dealers; security and commodity exchanges; and allied services.
Insurance:
6335 Life insurance.
6356 Mutual insurance, except life or marine and certain fire or flood insurance companies.
6359 Other insurance companies.
6411 Insurance agents, brokers, and services.
Real estate:
6511 Real estate operators (except developers) and lessors of buildings.
6516 Lessors of mining, oil, and similar property.
6518 Lessors of railroad property and other real property.
6550 Subdividers and developers.
6599 Other real estate.

Holding and other investment companies:
6742 Regulated investment companies.
6743 Real estate investment trusts.
6744 Small business investment companies.
6749 Holding and other investment companies.

SERVICES

7000 Hotels and other lodging places.
7200 Personal services.
Business services:
7310 Advertising.
7399 Business services, except advertising.
Auto repair and services; misc. repair services:
7500 Auto repair and services.
7600 Misc. repair services.
Amusement and recreational services:
7812 Motion picture production, distribution, and services.
7830 Motion picture theaters.
7900 Amusement and recreation services, except motion pictures.
Other services:
8015 Offices of physicians, including osteopathic physicians.
8021 Offices of dentists.
8050 Nursing and personal care facilities.
8071 Medical laboratories.
8099 Other medical services.
8111 Legal services.
8140 Medical services.
8199 Misc. services.

Schedule A INVESTMENT YIELD (See instructions)

	1. Interest	2. Accrual of discount	3. Amortization of premium	4. Total (for line 1: column 1 plus column 2 less column 3)
1 Interest:				
(a) Wholly exempt obligations (attach schedule)				
(b) U.S. obligations and U.S. instrumentalities				
(c) Loans, notes, mortgages, bank deposits, bonds, debentures, etc.				
(d) Totals				
2 Dividends (see instructions):				
(a) Domestic corporations subject to 85% deduction				
(b) Certain preferred stock of public utilities				
(c) Foreign corporations subject to 85% deduction				
(d) Qualifying dividends received from affiliated groups and subject to the 100% deduction (section 243(a)(3))				
(e) Qualifying dividends received from affiliated groups and subject to the provisions of section 1564(b)				
(f) Other (attach schedule)				
3 Gross rents (attach schedule)				
4 Gross royalties (attach schedule)				
5 Leases, terminations, etc.				
6 Net short-term capital gain reduced by any net long-term capital loss (line 10, Schedule D (Form 1120L))				
7 Gross income from trade or business other than insurance business (attach schedule)				
8 GROSS INVESTMENT INCOME (add lines 1 through 7)				
9 Investment expenses (attach schedule) (see Schedule H)				
10 Real estate expenses (attach schedule)				
11 Depreciation (Schedule K)				
12 Depletion (attach schedule)				
13 Trade or business deductions as provided in section 804(c)(5) (attach schedule)				
14 Total deductions (add lines 9 through 13)				
15 INVESTMENT YIELD (line 8 less line 14)				

Schedule B PART I—POLICY AND OTHER CONTRACT LIABILITY REQUIREMENTS (Section 805(a)) (See instructions)

1 Adjusted life insurance reserves (from Part VI)		%
2 Multiplied by the adjusted reserves rate (lesser of lines 1 or 7, Part III)		%
3 Pension plan reserves (line 5, column 7, Part V)		%
4 Multiplied by the current earnings rate (line 1, Part III)		%
5 Interest paid (from Part VII)		
6 Policy and other contract liability requirements (add lines 2, 4, and 5)		

PART II—ASSETS (Section 805(b)(4))

	1. Beginning of taxable year	2. End of taxable year	3. Mean of column 1 and column 2*
1 Real estate			
2 Mortgages: (a) Without service fees			
(b) With service fees			
3 Collateral loans			
4 Policy loans, including premium notes			
5 Corporate bonds			
6 Stocks			
7 Government obligations, etc. (attach schedule)			
8 Bank deposits, cash, etc.			
9 Other assets (attach schedule)			
10 Totals			

*Adjusted under section 806(a) (see instructions—attach schedule)

PART III—EARNINGS RATES (Section 805(b))

1 Current earnings rate (line 15, Schedule A, divided by line 10, column 3, Part II)	%
2 Earnings rate for first preceding year (attach schedule)	%
3 Earnings rate for second preceding year (attach schedule)	%
4 Earnings rate for third preceding year (attach schedule)	%
5 Earnings rate for fourth preceding year (attach schedule)	%
6 Total (add lines 1 through 5)	%
7 Average earnings rate (see instructions)	%

PART IV—AVERAGE INTEREST RATE ASSUMED (Section 805(c)(2))

1. Nature of reserve (life, annuity, etc.)	2. Assumed mortality or morbidity table	3. Assumed interest rate	4. Method of computation (Illinois Standard, etc.)	5. Amount of reserve at beginning of taxable year*	6. Amount of reserve at end of taxable year*	7. Mean of columns 5 and 6**	8. Column 3 times column 7
1							
2							
3							
4							
5 Totals							

6 Average rate of interest assumed in computing life insurance reserves (total of column 8 divided by total of column 7) %

*See instructions for section 805(b) and section 818(c) adjustments. **Adjusted under sec. 805(a) (attach schedule).

PART V—PENSION PLAN RESERVES (Section 805(d))

1 Section 805(d)(1)(A) reserves							
2 Section 805(d)(1)(B) reserves							
3 Section 805(d)(1)(C) reserves							
4 Section 805(d)(1)(D) reserves							
5 Totals							

PART VI—ADJUSTED LIFE INSURANCE RESERVES (Section 805(c)(1))

1 Mean of the reserves (column 7, line 5, Part IV)	
2 (a)	100%
(b) Plus 10 times the average rate of interest assumed (line 6, Part IV)	
(c) Total (add lines 2(a) and 2(b))	
(d) 10 times the adjusted reserves rate (line 2, Part I)	
(e) Line (c) less line (d)	%
3 Adjusted life insurance reserves (line 1 multiplied by line 2(e)). Enter here and on line 1, Schedule B, Part I	

PART VII—INTEREST PAID (Section 805(e))

1 Interest on indebtedness	
2 Amounts in the nature of interest	
3 Discount on prepaid premiums	
4 Interest on certain special contingency reserves	
5 Total interest paid (add lines 1 through 4). Enter here and on line 5, Schedule B, Part I	

Schedule C—TAXABLE INVESTMENT INCOME (See instructions)

1 Policyholders' share (section 804) (line 6, Part I, Schedule B, divided by line 15, Schedule A) but not to exceed 100%	%
2 Company's share	%
3 Total	100%

4 Interest wholly tax-exempt (line 1(a), col. 4, Schedule A—see instructions).

5 (a) Dividends from line 2(a), Schedule A

(b) Dividends from line 2(b), Schedule A

(c) Dividends from line 2(c), Schedule A

(d) Dividends from line 2(d), Schedule A

(e) Dividends from line 2(e), Schedule A

(f) Dividends from line 2(f), Schedule A

6 Other items of investment yield (line 15, Schedule A, less lines 4 and 5 above)

7 Net long-term capital gain (line 11, Schedule D (Form 1120L))

8 Totals (add lines 4 through 7)

REDUCTIONS

9 Interest wholly tax-exempt (line 4, column 3)

10 Dividends-received deduction (affiliated groups—see instructions):

(a) 85% of line 5(a), column 3

(b) 60.208% of line 5(b), column 3

(c) 85% of line 5(c), column 3

(d) Total, but not to exceed 85% of taxable investment income (line 13) computed without regard to this deduction

11 Small business deduction (10% of line 15, Schedule A, not to exceed \$25,000; members of a controlled group, see instructions)

12 Total (add lines 9, 10(d), and 11)

13 Taxable investment income (line 8 less line 12, but not less than zero). Enter here and on line 1(a), page 1

1 Policyholders' share (section 809) (line 6, Schedule E-1, divided by line 15, Schedule A), but not to exceed 100%	%
2 Company's share	%
3 Total	100%

4 Interest wholly tax-exempt (line 1(a), col. 4, Schedule A—see instructions).

(a) Dividends from line 2(a), Schedule A

(b) Dividends from line 2(b), Schedule A

(c) Dividends from line 2(c), Schedule A

(d) Dividends from line 2(d), Schedule A

(e) Dividends from line 2(e), Schedule A

(f) Dividends from line 2(f), Schedule A

6 Other items of investment yield (line 15, Schedule A less 4 and 5 above)

7 Totals (add lines 4 through 6)

8 Net long-term capital gain (line 11, Schedule D (Form 1120L))

9 Gross premiums Less: Return premiums, etc.

10 (a) Decrease in reserves (after adjustment under section 810(a)) (attach schedule)

(b) Decrease in section 811(b)(2) reserves (see line 3, Part II, Schedule E-2)

11 Other amounts (attach schedule). (Also include amount from line 34, Schedule D (Form 1120L))

12 Total (add lines 7 through 11)

DEDUCTIONS

13 Death benefits, etc.

14 Increase in reserves (after reduction for investment yield under section 810(b)) (attach schedule)

15 Assumption by another person of liabilities under insurance, etc., contracts

16 Interest wholly tax-exempt (line 4, column 3)

17 Investment expenses, etc., not deducted on Schedule A (attach schedule)

18 Small business deduction (line 11, Schedule C)

19 Other deductions not deducted on Schedule A (attach schedule)

20 Total (add lines 13 through 19)

21 Dividends-received deduction (affiliated groups, see instructions): (a) 85% of line 5(a), column 3

(b) 60.208% of line 5(b), column 3

(c) 85% of line 5(c), column 3

(d) Total, but not to exceed 85% of any excess of line 12 over line 20

22 Operations loss deduction (attach schedule)

23 Tentative deduction (add lines 20 through 22)

24 Plus: (a) Dividends to policyholders (line 7, Part I, Schedule E-2)

(b) Accident and health, and group life insurance (line 9, Part I, Schedule E-2)

(c) Certain nonparticipating contracts (line 11, Part I, Schedule E-2)

25 Total deductions (line 23 plus line 24)

26 Gain or (loss) from operations (line 12 less line 25). Enter here and on line 1(b), page 1

Schedule E-1 REQUIRED INTEREST (Section 809(a)(2))

1. Rate	2. Beginning of taxable year	3. End of taxable year	4. Mean of columns 2 and 3	5. Column 1 times column 4
1 Sec. 810(c)(1) reserves (from line 5, column 8, Parts IV and V, Schedule B)				
2 Sec. 810(c)(3) reserves				
3 Sec. 810(c)(4) reserves				
4 Sec. 810(c)(5) reserves				
5 Sec. 810(c)(6) reserves				
6 Required interest (add lines 1 through 5)				

Schedule E-2 PART I—LIMITATION ON DEDUCTION (LINE 24, SCHEDULE E) (Section 809(l))

1 Statutory amount	250,000
2 (a) Line 12, Schedule E	
(b) Less: Tentative deduction (line 23, Schedule E)	
3 Gain from operations without regard to line 24, Schedule E (line 2(a) minus line 2(b))	
4 Less: Taxable investment income (line 13, Schedule C)	
5 Excess of line 3 over line 4 (but not less than zero)	
6 Maximum possible deduction for line 24, Schedule E (line 1 plus line 5)	
7 Deduction for dividends to policyholders (Part II) (not in excess of line 6)	
8 Maximum deduction for accident and health, and group life insurance (line 6 less line 7)	
9 Deduction for accident and health, and group life insurance (Part III) (not in excess of line 8)	
10 Maximum deduction for certain nonparticipating contracts (line 8 less line 9)	
11 Deduction for certain nonparticipating contracts (line 3, Part IV, Schedule E-2) (not in excess of line 10)	

1 Dividends paid to policyholders	
2 (a) Increased by the excess of (i) over (ii):	
(i) Reserve at the end of the taxable year	
(ii) Reserve at the end of the preceding taxable year	
OR	
(b) Decreased by the excess of (i) over (ii):	
(i) Reserve at the end of the preceding taxable year	
(ii) Reserve at the end of the taxable year	
3 If the result on line 7, Schedule F-2, is negative, enter on line 10(b), Schedule F	

1	Amount of deductions allowed or allowable in prior years under section 809(d)(6)	
2	Net premiums	
3	Line 2 multiplied by 2%	
4	Tentative deduction—the lesser of line 3 or (50% of line 2, less amount on line 1)	

1	(a) Reserve at the end of the taxable year		
	(b) Less: Reserve at the beginning of the taxable year		
	(c) Increase (if the difference is negative, enter zero)		
	(d) Multiplied by	10%	
2	(a) Net premiums		
	(b) Multiplied by	3%	
3	Tentative deduction—the greater of line 1 or line 2		

1	(a) Balance at the end of the preceding year	
2	(b) Transfers under section 815(d)(1) and (4) for preceding year	
3	(c) Balance at the beginning of the taxable year (line 1(a) plus line 1(b))	
4	Life insurance company taxable income computed without regard to section 802(b)(3) (line 1(c), page 1, plus line 2, page 1)	
5	Net long-term capital gain in excess of net short-term capital loss, reduced by any income on line 2	
6	Dividends-received deduction (affiliated groups—see instructions):	
7	(a) 85% of line 2(a), Schedule A	
8	(b) 60.208% of line 2(b), Schedule A	
9	(c) 85% of line 2(c), Schedule A	
10	(d) Total, but not to exceed 85% of line 12 less line 20, Schedule E	
11	Interest wholly exempt from tax (line 1(a), column 4, Schedule A)	
12	Small business deduction (line 11, Schedule C)	
13	Total (add lines 1 through 6)	
14	Less: Tax liability for 1974 under section 802(a) (computed without regard to section 802(b)(3)) (income tax computed on line 2 as if line 2 was total life insurance company taxable income)	
15	Excess of line 7 over line 8	
16	Less: Distributions in 1974 (not to exceed line 9)	
17	Balance as of the end of the taxable year	

1	Balance as of the beginning of the taxable year	
2	Add: (a) 50% of any excess of the gain from operations over the taxable investment income (line 2, page 1)	
	(b) The deduction for certain nonparticipating contracts (line 24(c), Schedule E)	
	(c) The deduction for accident and health, and group life insurance (line 24(b), Schedule E)	
3	Total (line 1 plus line 2)	
4	(a) Actual distributions only in excess of line 9, Schedule F	
	(b) Tax increase on line 4(a) by reason of section 802(b)(3)	
	(c) Subtractions under section 815(d)(1) and (4) (see instructions)	
	(d) Tax increase on line 4(c) by reason of section 802(b)(3)	
	(e) Subtraction required under section 815(d)(2) due to termination	
5	Total of lines 4(a) through (e) (not to exceed line 3). Enter here and on line 3, page 1.	
6	Balance at the end of the year (line 3 less line 5)	

1	Mean of the assets for the taxable year (line 10, column 3, Part II, Schedule B)	
2	One-fourth of 1% of the mean of the assets (line 1)	
3	Mortgage service fees	
4	(a) (i) Investment yield computed without regard to investment expenses	
	(ii) Three and three-fourths percent of line 1	
	(iii) Line (i) less line (ii)	
	(iv) One-fourth of line (iii)	
	(v) Mortgage service fees (line 3)	
	(vi) Line (iv) less line (v)	
	(b) One-fourth of 1% of the amount on line 2(a), column 3, Part II, Schedule B	
	(c) The greater of (a)(vi) or (b)	
5	Investment deduction for investment expenses (add lines 2 through 4)

Department of the Treasury
Internal Revenue Service
**1974 Instructions for
Form 1120L
U.S. Life Insurance
Company Income Tax
Return.**

(References are to the Internal Revenue Code.)

General Instructions

A. Who must file Form 1120L.—Every domestic life insurance company and every foreign corporation carrying on an insurance business within the U.S. (if with respect to its U.S. business it would qualify as a life insurance company) which is engaged in the business of issuing life insurance and annuity contracts (either separately or combined with health and accident insurance) or non-cancelable contracts of health and accident insurance and of which the life insurance reserves, plus unearned premiums and unpaid losses (whether or not ascertained), on noncancelable life, health, or accident policies not included in life insurance reserves, comprise more than 50% of its total reserves, adjusted in each case for policy loans as required by section 801(d), must file a return on Form 1120L.

For this purpose, the term "noncancelable" includes guaranteed renewable life, health, and accident insurance which is not cancellable by the company but under which the company reserves the right to adjust premium rates by classes, in accordance with experience under the type of policy involved. The terms "life insurance reserves" and "total reserves" do not include deficiency reserves.

A burial or funeral benefit insurance company engaged directly in the manufacture of funeral supplies or the performance of funeral services is taxable under section 821 or section 831 and should file Form 1120M, U.S. Mutual Insurance Company Income Tax Return, or Form 1120, U.S. Corporation Income Tax Return. (Section 801(f).)

If a receiver, trustee in bankruptcy, or assignee has possession of, or holds title to, all or substantially all the property or business of a corporation, whether or not the property or business is being operated, he must make a return in the same manner and form as would be required were such corporation required to make its own return. (Section 6012.)

If a life insurance company disposes of its life insurance business and life insurance reserves under a reinsurance agreement with another company, but continues its corporate existence for the purpose of winding up and liquidating its affairs, it will not be taxable as a life insurance company after the effective date of such agreement.

B. Period covered.—The return is to be filed for calendar year 1974. (Section 843.) If the corporation ceases to exist, write "FINAL RETURN" at the top of the form.

C. Accounting methods.—The return must be filed using the accrual method

of accounting or, to the extent permitted under regulations, a combination of the accrual method with any other method, other than the cash receipts and disbursements method.

Unless the law specifically permits, you may not change the method of accounting used to report income in prior years (for income as a whole or for any material item) without first obtaining consent on Form 3115, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—The money items may be shown as whole-dollar amounts by eliminating any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

D. Where to file.

If the corporation's principal business, office, or agency is located in

	Use this address
New Jersey, New York City and counties of New York, Rockland, Suffolk, and Westchester	Internal Revenue Service Center 1045 Waverly Avenue Holmdel, N.J. 07733
New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	Internal Revenue Service Center 310 Lowell Street Andover, Mass. 01812
Alabama, Florida, Georgia, Mississippi, South Carolina	Internal Revenue Service Center 4800 Buford Highway Chamblee, Georgia 30006
Michigan, Ohio	Internal Revenue Service Center Cincinnati, Ohio 45298
Arkansas, Kansas, Louisiana, New Mexico, Oklahoma, Texas	Internal Revenue Service Center 3651 S. Interregional Highway Austin, Texas 78740
Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming	Internal Revenue Service Center 1160 West 1200 South Salt Lake City, Utah 84101

Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia	Internal Revenue Service Center 3131 Democrat Road Memphis, Tennessee 38110
Delaware, District of Columbia, Maryland, Pennsylvania	Internal Revenue Service Center 11501 Roosevelt Boulevard Philadelphia, Pa. 19151

Foreign corporations carrying on an insurance business within the U.S. must file their return with the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pa. 19155.

The separate income tax returns of a group of corporations located in several Service Center regions may be filed with the Service Center for the area in which the principal office of the managing corporation that keeps all the books and records is located.

E. When to file.—In general, Form 1120L must be filed on or before March 17, 1975.

You may request an automatic 3-month extension of time to file Form 1120L by filing Form 7004.

Form 7005 may be used to request an additional extension but only by those corporations that have previously obtained an automatic 3-month extension by filing Form 7004.

F. Depositary method of payment of tax.—The balance of tax due (line 18) must be paid in full when the return is filed or in two installments, 50% by March 17, 1975 and 50% by June 16, 1975.

All insurance companies must deposit all income tax payments, accompanied by Federal Tax Deposit Form 503, with an authorized commercial bank depository or Federal Reserve bank. Please enter the serial number of Form 503 on your remittance. Do not remit directly to Internal Revenue.

Timeliness of deposits will be determined by the date the deposit was received by the commercial bank depository or Federal Reserve bank.

Forms 503 will be mailed to insurance companies. Companies needing Forms 503 may obtain them from the Internal Revenue Service Center where they will file their returns. The application should include the company's name, identification number, address, and the taxable year to which the deposits relate.

Estimated tax.—A company must make estimated tax payments if it can expect its estimated tax (income tax less credits less an estimated tax exemption) to be \$40 or more.

For calendar year 1975, the estimated tax exemption is 40% of the lesser of (1) \$5,500 or (2) total tax less credits. (Members of a controlled group of corporations must substitute 22% of their surtax exemption for the \$5,500 mentioned above.)

Lines 13 through 19 of Form 1120-W may be used as a worksheet to compute estimated tax.

If you overpaid estimated tax, you may apply on Form 4466 for a "quick refund" if the overpayment is (1) at least 10% of expected income tax liability AND (2) at least \$500. This application must be made within 2½ months after the end of the taxable year and before you file your tax return.

G. Signature.—The return must be signed by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or any other corporate officer (such as tax officer) authorized to sign.

A receiver, trustee, or assignee must sign any return he is required to file on behalf of a corporation.

H. Information returns and forms that may be required.

1. Forms W-2 and W-3.—Employee's wage and tax statement; and transmittal of income and tax statements.

2. Form W-2P.—Statement for recipients of annuities, pensions or retired pay.

3. Forms 1097-DIV, INT, MED, MISC, and OID.—Nominees' information returns for reporting dividends, interest, medical and health care payments, miscellaneous income, and original issue discount that were received by a nominee on behalf of another person.

4. Form 1096 and Schedule A (Form 1096).—Annual summary and transmittal of U.S. information returns; and corporate report of nontaxable dividends.

5. Forms 966 and 1099L.—Information returns regarding dissolution or liquidation, and distributions in liquidation.

6. Forms 1099-DIV, INT, MED, MISC, OID, PATR, and R.—Information returns for reporting certain dividends, interest income, medical and health care payments, miscellaneous income payments, original issue discount, patronage dividends, and lump-sum distributions from profit-sharing and retirement plans.

1. Pension, profit-sharing, etc. plans.—File Form 4848 with a Schedule A (Form 4848) and Form 4849 on or before the 15th day of the 5th month following the close of your taxable year if you have adopted a pension, profit-sharing, or other funded deferred compensation plan.

Employee benefit programs.—You may deduct the amount of your contributions to employee benefit programs (e.g., insurance, health, and welfare programs) that are not an incidental part of a pension, profit-sharing, etc. plan.

J. Stock ownership in foreign corporations.—If you owned 5% or more in value of the outstanding stock of a foreign personal holding company, attach the statement required by section 551(d).

If you controlled a foreign corporation or were a 10% or more shareholder of a controlled foreign corporation, you may be required to file Forms 2952 and 3646.

K. Annual statement.—A copy of the annual statement for life insurance companies adopted by the National Association of Insurance Commissioners for the year 1974, as filed with the Insurance Department of the State, or District of Columbia, which shows the reserves used in computing the taxable income reported on the return, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany the return (see section 1.6012-2(c) of the regulations).

Similar copies for the 4 preceding years must also be furnished if not already filed for such years. In the case of a foreign life insurance company carrying on a life insurance business within the U.S., the copies submitted must relate to the U.S. business of the company.

If you use miniature statements, they may be filed instead of larger statements.

L. Attachments.—You may use attachments if the lines on the form schedules are not sufficient. They must contain all required information, must follow the format of the official schedules, and must be attached to the return in the same sequence as the schedules appear on the official form.

Enter your name and identifying number on all attachments.

M. Consolidated returns.—Subject to the provisions of sections 1501 through 1504, section 1552, and the regulations thereunder, an affiliated group of corporations, each qualifying as a life insurance company, may make a consolidated income tax return instead of separate returns. The parent corporation 2

must attach Form 851, Affiliations Schedule, to the consolidated return. For the first year a consolidated return is filed, each subsidiary must attach Form 1122.

N. Percentage computations.—In computing earnings rates, assumed rates, and policyholders' and company's share of investment yield, the computation should be carried out to a sufficient number of decimal places to insure substantial accuracy and to eliminate any significant error in the resulting tax liability.

O. Total insurance liabilities.—Domestic company.—The term "total insurance liabilities" means the sum of the total reserves (as defined in section 801(c)) as of the end of the taxable year plus (to the extent not included in total reserves) the items referred to in paragraphs (3), (4), (5), and (6) of section 810(c) as of the end of the taxable year. See section 819(a)(2) and instruction P below.

Foreign company.—The term "total insurance liabilities" relates only to U.S. business.

P. Segregated asset accounts.—All companies with segregated asset accounts must attach a schedule showing separately for the regular accounts and for the segregated asset accounts, section 819(a)(2) total insurance liabilities and section 805(b)(4) assets. See section 1.801-8(h) of the regulations.

Q. Transfers to corporation controlled by transferor.—If a person acquires stock or securities of a corporation in exchange for property, and no gain or loss is recognized under section 351, the transferor and transferee must attach the information required by section 1.351-3 of the regulations.

R. U.S. person.—The term "U.S. person" means: (1) a citizen or resident of the United States, (2) a domestic partnership, (3) a domestic corporation, or (4) any estate or trust (other than a foreign estate or trust within the meaning of section 7701(a)(31)). See section 1.6038-2(d) of the regulations for exception of certain residents of U.S. possessions.

Owner's country, for individuals, is their country of residence. For all others, it is the country where incorporated, organized, created, or administered.

G. Penalties.

1. A corporation that fails to file its tax return by the prescribed due date including any extensions of time for filing may be subject to a penalty of 5% a month, up to a maximum of 25%, for each month the return is not filed (the penalty is imposed on the net amount due—section 6651(a)(1)).

2. A corporation that fails to pay the tax when due may be subject to a penalty of ½% a month or fraction of a month, up to a maximum of 25%, for each month the tax is not paid (the penalty is imposed on the net amount due—section 6651(a)(2)).

The above penalties will not be imposed if the corporation can show that the failure to file or to pay was due to reasonable cause and not to willful neglect.

These penalties are in addition to the 6% a year interest charge imposed on unpaid tax.

3. A corporation that fails to pay the proper estimated tax when due may be subject to an underpayment penalty of 6% a year for the period of underpayment (section 6655).

If you underpaid estimated tax and believe a penalty charge should not be assessed, attach Form 2220.

Specific Instructions

(Numbered to correspond with the line numbers on the return.)

SCHEDULE A.—Investment Yield

The term "investment yield" means gross investment income, as defined in section 804(b), less the deductions allowed in section 804(c). The entire amount of the items of income and allowable deductions are to be reported in Schedule A. The purpose of including the entire amount of these items is to provide the basis for the exclusion of the policyholders' share of the investment yield from the life insurance company's taxable income.

1. Interest.—Enter interest from all sources during the taxable year. The gross amount of interest reported as gross income shall be decreased by the amortization of premium and increased by the accrual of discount (except market discount) attributable to the taxable year on bonds, notes, debentures, or other evidences of indebtedness, determined in accordance with: (1) the method regularly employed, if reasonable, or (2) regulations prescribed by the Secretary or his delegate. See section 818(b). (Attach a statement showing method and computation.)

2. Dividends.

(a) Enter dividends received from domestic corporations subject to income tax and which are subject to the 85% deduction under section 243(a)(1).

So-called dividends or earnings received from mutual savings banks, etc., are really interest and should not be treated as dividends.

For dividends received from a regulated investment company, see section 854 for the amount subject to the 85% deduction.

(b) Enter dividends received on the preferred stock of a public utility, that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

(c) Enter dividends received from foreign corporations and which qualify for the 85% deduction provided in section 245(a).

Also include in line 2(c) dividends received from wholly-owned foreign subsidiaries that are eligible for the 100% deduction provided in section 245(b). In general, this deduction applies to dividends paid out of the earnings and profits of a foreign corporation for a taxable year during which (1) all of its outstanding stock is owned (directly or indirectly) by the domestic corporation receiving such dividends and (2) all of its gross income from all sources is effectively connected with

the conduct of a trade or business within the U.S.

The 100% deduction does not apply to any dividend if an election under section 1562 (relating to multiple surtax exemptions by a controlled group of corporations) is effective for either (1) the taxable year of the domestic corporation in which such dividends are received, or (2) the taxable year of the foreign corporation out of the earnings and profits of which such dividends are paid.

If dividends received from wholly-owned foreign subsidiaries are included in line 2(c), attach a schedule showing the amount of these dividends included.

(d) Enter dividends entitled to the 100% dividends-received deduction under section 243(a)(3) and which are subject to the elective provisions of section 243(b). Corporations making this election are subject to the provisions of section 1562.

(e) Enter dividends that are subject to the elective provisions of section 243(b) and are entitled to the dividends-received deduction as computed under the provisions of section 1562(b). Corporations making this election are subject to the provisions of section 1562 as modified by section 1564.

(f) Attach a schedule showing separately:

(1) Foreign dividends (including minimum distributions under subpart F) not reportable on line 2(c). Exclude distributions of amounts constructively taxed in the current year or in prior years under subpart F.

(2) Include income constructively received from controlled foreign corporations under subpart F. This amount should equal the total of amounts reported in Schedule A, line 5 of Form(s) 3646.

(3) Include gross-up for taxes deemed paid under sections 902 and 903.

(4) Include dividends (other than capital gain dividends) received from regulated investment companies and which are not subject to the 85% deduction; dividends from tax-exempt organizations; dividends (other than capital gain dividends) received from a real estate investment trust which, for the taxable year of the trust in which the dividends are paid, qualifies under sections 856-858; dividends not eligible for the dividends-received deduction because of the holding period of the stock; and dividends that make corresponding payments with respect to similar stock; and any other taxable dividend income not properly reported above.

3. **Gross rents.**—Enter the gross amount received for the rent of property. Deduct expenses such as repairs, interest, taxes, and depreciation in the proper lines for deductions.

4. **Gross royalties.**—Enter the gross amount of royalties. If a deduction is claimed for depletion, report it on line 12.

5. **Losses, terminations, etc.**—Enter the gross amount of income from the

entering into (or the alteration or termination) of any lease, mortgage, or other instrument or agreement from which the life insurance company derives interest, rents, or royalties.

6. **Net short-term capital gain.**—Enter the amount (if any) by which the net short-term capital gain exceeds the net long-term capital loss. See separate Schedule D (Form 1120L).

7. **Gross income from trade or business other than insurance business.**—Enter the gross income from any trade or business (other than an insurance business) carried on by the life insurance company, or by a partnership of which the life insurance company is a member.

Deductions

9. **Investment expenses.**—Enter expenses which are properly chargeable as investment expenses. If you allocate general expenses to investment expenses, the total deduction cannot exceed line 5, Schedule H. Attach a schedule showing the nature and amount of items included and group the minor items into one amount.

10. **Real estate expenses.**—Enter the amount of taxes (section 164); all ordinary and necessary building expenses, such as fire insurance, heat, light, labor; and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinary efficient operating condition, exclusively on or with respect to the real estate owned by the company. Do not include any amount paid for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property is held for rental purposes. These taxes and other expenses should be itemized in an attached schedule. (For limitation on deduction, see instruction 11(f).)

11. **Depreciation.**—Enter the depreciation on property used for producing gross investment income. The deduction for depreciation is limited to the depreciation on property that is used, and to the extent used, for the purpose of producing gross investment income as defined in section 804(b). (For limitation on deduction, see instruction 11(f).)

Complete Schedule G if you claim a deduction for depreciation of property used for producing gross investment income. Form 4562, Depreciation, may be used as a supplement to Schedule K.

Salvage value.—Salvage value must be taken into account in determining the depreciation deduction except under the declining balance method, Class Life (ADRS) System, or Guideline Class Life System. For personal property (other than livestock) with a useful life of 3 years or more, salvage value may be reduced by an amount not in excess of 10% of the cost or other basis of the property. Property cannot be depreciated below a reasonable salvage value after you make the above salvage value reduction.

(b) **Tangible property other than real property.**—Tangible personal property, whether new or used, may be depreciated under the straight line method or the 150% declining balance method.

New tangible personal property with a useful life of 3 years or more may also be

depreciated under (1) the double declining balance method, (2) the sum of the years-digits method, or (3) any other method that does not result in accumulated allowances at the end of any year (during the first two-thirds useful life of the property) greater than the total that could have been deducted if the double declining balance method had been used.

(b) **New section 1250 property.**—The double declining balance and sum of the years-digits methods may be used only for new residential rental property from which at least 80% of the gross rental income is derived from rental of residential units. Other new real property may be depreciated under the straight line or 150% declining balance methods.

(c) **Used section 1250 property.**—Used residential rental property, with a useful life of 20 years or more may be depreciated under the 125% declining balance method. Other used real property may be depreciated under the straight line method.

(d) **Rehabilitation expenditures for low-income rental housing.**—You may elect to compute the depreciation deduction under section 167(k) for rehabilitation expenditures incurred for low-income rental housing under the straight line method using a useful life of 60 months and no salvage value in lieu of any other method of computing depreciation. For details, see section 167(k).

(e) **Section 179—Additional first-year depreciation allowance.**—For the first year a depreciation deduction is allowable, corporations may elect to write off 20% of the cost (before adjustment for salvage value) of new or used tangible personal property with a useful life of 6 years or more, up to an aggregate cost of \$10,000.

Controlled corporate groups must apportion this \$10,000 amount among members of the group. For this purpose, section 179(d)(7) provides a special definition of controlled groups.

If the additional first-year allowance is elected, the basis of the property must be reduced by the amount of the deduction before computing the ordinary depreciation.

(f) **Limitation on deductions relating to real estate owned and occupied.**—The deductions included on lines 10 and 11 for real estate owned and occupied for insurance purposes in whole or in part by the company, is limited to an amount which bears the same ratio to those deductions (computed without regard to the second sentence of section 804(c)(3)) as the rental value of the space not so occupied bears to the rental value of the entire property. Attach a detailed schedule.

12. **Depletion.**—The percentage depletion rate for oil and gas wells is 22%. See section 613(b) for rates applicable to other natural deposits.

Attach Form T if a deduction is claimed for depletion of timber.

13. **Trade or business deductions.**—Enter the total deductions attributable to any trade or business (other than an insurance business) income that is included in the life insurance company's gross investment income under section 804(b)(3). Do not include losses (a) from (or considered as from) sales or exchanges of capital assets, (b) from sales

or exchanges of property used in the trade or business (as defined in section 1231(b)), or (c) from the compulsory or involuntary conversion of property used in the trade or business.

The deduction for net operating losses (section 172) and the special deductions (sections 241 through 250) are not allowed.

SCHEDULE B—

Part I—Policy and Other Contract Liability Requirements (Section 805(a))

Purpose.—The next step after determining investment yield (Schedule A) is to determine the policy and other contract liability requirements. This computation furnishes the numerator, with the total of the investment yield as the denominator, to determine the policyholders' share of investment yield which is not included in computing taxable investment income (Schedule C).

Definition.—The term "policy and other contract liability requirements" means the sum of (1) the adjusted life insurance reserves (from Part VI), multiplied by the adjusted reserves rate (from Part III); (2) the mean of the pension plan reserves at the beginning and end of the taxable year (from Part V), multiplied by the current earnings rate (from Part III); and (3) the interest paid (from Part VI).

Part II—Assets (Section 805(b)(4))

Purpose.—This computation is necessary in order to determine the earnings rates in Part III.

Definition.—The term "assets" for this purpose means all assets of the company (including nonadmitted assets) and includes all moneys but does not include real and personal property (other than money) used by the company in carrying on an insurance trade or business.

Valuation.—The amount attributable to real property and to stocks is their fair market value. The amount attributable to other assets is the adjusted basis of such assets for purposes of determining gain on sale or other disposition. This adjusted basis is determined under section 1011, and related sections, without regard to section 817(b).

Section 805(a) adjustment.—If, during the taxable year, there is a change in life insurance reserves (either increases or decreases) attributable to the transfer between the taxpayer and another person of liabilities under contracts taken into account in computing such reserves, the mean of the assets must be appropriately adjusted on a daily basis to reflect the amounts involved in such transfer. See section 805 of the regulations. Attach a schedule showing the adjustment.

Part III—Earnings Rates (Section 805(b))

The term "current earnings rate" means the percentage determined by dividing the investment yield for the taxable year (Schedule A), by the mean of the assets at the beginning and end of the taxable year (Part II—Assets).

The term "average earnings rate" means the sum of the current earnings rate for the taxable year and the earnings rate for each of the 4 taxable years immediately preceding the taxable year,

divided by 5. If, in computing the 5-year average earnings rate for any taxable year, the company was an insurance company (but not a life insurance company) in any of the 4 years preceding the taxable year, the computation shall be made as if the company were a life insurance company for such year. Where the company was not in existence for one or more of the 4 preceding years or was not an insurance company for one or more of such years, no entry shall be made for such year or years. The average earnings rate (line 7) is determined by adding the percentages entered and dividing this sum by the number of applicable years. For example, if entries are made on three lines, divide the sum by 3. See General Instruction N.

Part IV—Average Interest Rate Assumed (Section 805(c)(2))

The purpose of this schedule is to determine a rate which is used in the computation of adjusted life insurance reserves (Part VI). See General Instruction N. Exclude pension plan reserves from life insurance reserves for the purpose of determining the taxpayer's assumed rate under this part. See Part V.

Columns 5 and 6.—Adjustment under section 806(b).—If the basis for determining the amount of any item referred to in section 810(c) (life insurance reserves, etc.) as of the close of the taxable year differs from the basis for such determination as of the beginning of the taxable year, then the amount of the item as of the close of the taxable year must be the amount computed on the old basis, and the amount of the item as of the beginning of the next taxable year must be the amount computed on the new basis.

Adjustment under section 818(c).—This adjustment is required where the company actually computes its life insurance reserves on one of the recognized preliminary term bases but elects to convert them to a net level premium basis in the computation of the reserves for tax purposes.

If elected, the conversion may be made by one of two methods:

Method 1. Exact revaluation: Under this method, the company must compute the reserves for all contracts (with respect to which reserves are computed on a preliminary term basis) on a net level premium basis using the same mortality assumptions and interest rates for both the preliminary term basis and the net level premium basis.

Method 2. Approximate revaluation: Under this method, with respect to contracts for which reserves are computed under the preliminary term basis, the reserves are increased by the sum of (1) \$21 per \$1,000 of insurance in force (other than term insurance), less 2.1% of reserves under such contracts; and (2) \$5 per \$1,000 of term insurance in force under contracts which at the time of issuance cover a period of more than 15 years, less 0.5% of reserves under such contracts.

A life insurance company may elect, under section 818(c), the approximate revaluation method for all its noncancellable accident and health reserves, and use the exact revaluation method for all its noncancellable accident and health reserves. (Revenue Ruling 68-61, 1960-1, C.B. 268.)

Column 7.—Adjustment under section 806(a).—If, during the taxable year, there is a change in life insurance reserves attributable to the transfer between the company and another person of liabilities under contracts taken into account in computing such reserves, the means of such reserves must be appropriately adjusted on a daily basis to reflect the amounts involved in such transfer. (See section 1.806-3 of the regulations.) This adjustment is applicable whether or not the transfer of the liabilities was the original insurer. However, this adjustment is not applicable to reinsurance ceded by another person to the taxpayer or by the taxpayer to another person. For the definition of "life insurance reserves," see section 801(b).

Part V—Pension Plan Reserves (Section 805(d))

These reserves must be adjusted under sections 806 and 818(c) as described in Part IV above.

Part VI—Adjusted Life Insurance Reserves (Section 805(c)(1))

This section constitutes the mean of the life insurance reserves (as defined in section 801(b)), computed under Part IV (excluding pension plan reserves taken into account under Part V), adjusted as set forth in Part VI, Schedule B.

Part VII—Interest Paid (Section 805(e))

1.—Enter all interest for the taxable year on indebtedness, except on indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from tax.

2.—Enter all amounts in the nature of interest, whether or not guaranteed, for the taxable year on insurance or annuity contracts (including contracts supplementary thereto) which do not involve, at the time of accrual, life, health, or accident contingencies.

3.—Enter all amounts accrued for the taxable year for discounts in the nature of interest, whether or not guaranteed, on premiums or other consideration paid in advance on insurance or annuity contracts.

4.—Enter all interest for the taxable year on special contingency reserves under contracts of group term life insurance or group health and accident insurance which are established and maintained for the provision of insurance on retired lives, for premium stabilization, or for a combination thereof.

SCHEDULE C.—Taxable Investment Income

General.—The policyholders' share of each item of investment yield (including tax-exempt interest, and dividends received) of any life insurance company cannot be included in taxable investment income.

1.—Enter the percentage that represents the policyholders' share of each item of investment yield. This percentage is determined by dividing the policy and other contract liability requirements (Schedule B) by the investment yield (Schedule A), except that if the amount of the policy and other contract liability requirements exceeds the investment yield, the policyholders' share of any items must be 100%. See General Instruction N.

2.—Enter the percentage that represents the life insurance company's share of any item of investment yield. This percentage is equal to the difference between 100% and the percentage on line 1.

4-7.—Enter on line 4, column 1, the amount of interest which is wholly exempt from tax under section 103. (Where securities of a municipality are originally issued at a price not less than par value and are subsequently acquired by a purchaser at a discount, such discount is not in the nature of tax-exempt interest within the meaning of section 103.) Multiply the amount on each line in column 1 by the percentage from line 1 and enter the product for each line in column 2. The amounts entered in column 2 represent the policyholders' share of these items which is not included in taxable investment income. Enter in column 3 the difference, obtained by subtracting column 2 from column 1. The amounts entered in column 3 represent the company's share of these items of investment yield.

Reductions.

9. Interest wholly tax-exempt.—Enter the amount from line 4, column 3. This amount is the company's share of wholly tax-exempt interest which, like the policyholders' share of such interest (from line 4, column 2), is not included in taxable investment income.

10. Dividends received deduction.—(a) Dividends received from domestic corporations.—Enter 85% of the company's share (line 5(a), column 3) of the amount received as dividends (except dividends on certain preferred stock of public utilities) from domestic corporations subject to income tax. Members of certain affiliated groups may elect to deduct 100% of the qualifying dividends received from other members of the same group if an election under section 1562 is not effective for the taxable year. Include the company's share of the 100% deduction on line 10(a). See section 243. If an election under section 1562 was in effect on April 22, 1969, section 1564 provides a dividends-received deduction of 97½% (instead of the 100% deduction provided by section 243(b)) of qualifying dividends. Include the company's share (97½% of line 5(a), column 3) of the deduction on line 10(a). See section 1564.

(b) Dividends received on certain preferred stock of public utilities.—Enter 60.208% of the company's share (line 5(b), column 3) of the amount received as dividends on the preferred stock of a public utility which is subject to income tax and which is allowed a deduction for dividends paid under section 247. See section 244.

(c) Dividends received from foreign corporations subject to the 85% deduction.—Enter 85% of the company's share (line 5(c), column 3) of dividends received from foreign corporations subject to the 85% deduction.

Also enter on this line 100% of the company's share of dividends received from wholly-owned foreign subsidiaries that are eligible for the 100% deduction provided in section 245(b).

See section 245 for qualifications and limitations on the amount of these deductions.

(d) Total dividends-received deduction.—The total of the dividends-received

deduction cannot exceed 85% of taxable investment income computed without regard to this deduction.

The limitation for a member of an electing affiliated group is 85% of taxable investment income computed without regard to this deduction. However, this deduction must be reduced by the deduction for 100% or 97½% (as described in 10(a) above) of the qualifying dividends received from the same group since these dividends are not subject to the 85% limitation.

In general, no dividends-received deduction will be allowed on any share of stock (a) that is disposed of if the corporation held it 15 days or less, or (b) to the extent the corporation is under an obligation to make corresponding payments with respect to substantially identical stock or securities.

11. Small business deduction.—Enter 10% of the investment yield (Schedule A) but not to exceed \$25,000. Members of certain affiliated groups are limited to one \$25,000 limitation. (Section 243.)

For the 1974 taxable year, section 1564 provides that only one member of a controlled group may claim a full \$25,000 small business deduction with the others being limited to \$4,167. After 1974, members of a controlled corporate group are limited to one \$25,000 small business deduction.

SCHEDULE E.—Gain and Loss From Operations

General.—The share of each item of investment yield (including tax-exempt interest and dividends received) of any life insurance company set aside for policyholders cannot be included in gain and loss from operations.

1.—Enter the percentage which represents the share of any item of investment yield which is set aside for policyholders. This percentage is determined by dividing the required interest (Schedule E-1) by the investment yield (Schedule A), except that if the amount of the required interest exceeds the investment yield, then the share of any item set aside for policyholders must be 100%. See General Instruction K.

2.—Enter the percentage which represents the life insurance company's share of any item of investment yield. This percentage is equal to the difference between 100% and the percentage on line 1.

4-6.—Enter on line 4, column 1, the amount of interest which is wholly exempt from tax under section 103. (Where securities of a municipality are originally issued at a price not less than par value and are subsequently acquired by a purchaser at a discount, such discount is not in the nature of tax-exempt interest within the meaning of section 103.) Multiply the amount on each line in column 1 by the percentage from line 1 and enter the product for each line in column 2. The amounts entered in column 2 represent the policyholders' share of these items which is not included in gain and loss from operations. Enter in column 3 the difference obtained by subtracting column 2 from column 1. The amounts entered in column 3 represent the company's share of these items of investment yield.

9.—Enter the gross amount of premiums and other consideration (including advance premiums, deposits, fees, assessments, and consideration from as-

suming liabilities under contracts not issued by the company) on insurance and annuity contracts (including contracts supplementary thereto); less return premiums, and premiums and other consideration arising out of reinsurance ceded. Except in the case of premiums or other consideration returned to another life insurance company from reinsurance ceded, amounts returned where the amount is not fixed in the contract but depends on the experience of the company or the discretion of the management cannot be included. However, amounts rebated or refunded due to policy cancellations or to erroneously computed premiums are treated as return premiums.

10(a). Decrease in reserves.—Enter the excess of the sum of the items described in section 810(c) as of the beginning of the taxable year over the sum of such items as of the close of the taxable year (reduced by the policyholders' share of investment yield not included in gain and loss from operations—(from line 7, column 2)).

10(b). Decrease in section 811(b)(2) reserves.—Enter the amount (from line 3, Part II, Schedule E-2) by which the decrease for the taxable year in the reserves for policyholder dividend exceeds the amount of dividends paid to policyholders during such year. Enter also one-tenth of any net decrease in reserves attributable to the operation of section 810(d).

11. Other amounts.—Enter the total amount of other income not included in computing investment yield and not otherwise included above to the extent that such items are includible in gross income. However, exclude all gains from the sale or exchange of capital assets and gains considered as gains from the sale or exchange of a capital asset.

Deductions

13. Death benefits, etc.—Enter the amount of all claims and benefits accrued (including matured endowments and amounts allowed on surrenders) and losses incurred (whether or not ascertainable) during the year on insurance, annuity, and supplementary contracts. The term "losses incurred (whether or not ascertainable)" refers to a reasonable estimate of the amount of the losses incurred but not reported, as well as losses reported but where the amount cannot be ascertained by the end of the year.

14. Increase in reserves.—Enter the excess of the sum of the items described in section 810(c) as of the close of the taxable year (reduced by the policyholders' share of investment yield not included in gain and loss from operations (line 7, col. 2)) over the sum of such items as of the beginning of the taxable year. Enter also one-tenth of any net increase in reserves attributable to the operation of section 810(d).

15. Assumption by another person of liabilities under insurance, etc., contracts.—Enter the amount of the consideration (other than consideration arising from reinsurance ceded) from the assumption by another person of liabilities under insurance and annuity contracts (including contracts supplementary thereto).

16. Interest wholly tax-exempt.—Enter the amount from line 4, column 3. This

5

amount is the company's share of wholly tax-exempt interest which, like the policyholders' share of such interest (from line 4, column 2), is not included in gain and loss from operations.

17. Investment expenses.—Enter the excess of the total investment expenses over the amount allowed in computing investment yield (Schedule A), and the amount (if any) by which the sum of the deductions allowable (line 14, Schedule A) exceeds the gross investment income (line 8, Schedule A). Attach a schedule showing computations.

18. Small business deduction.—Enter 10% of the investment yield (Schedule A) but not to exceed \$25,000. Members of certain affiliated groups are limited to one \$25,000 limitation. (Section 243.)

For the 1974 taxable year, section 1564 provides that only one member of a controlled group may claim a full \$25,000 small business deduction with the others being limited to \$4,167. After 1974, members of a controlled group are limited to one \$25,000 small business deduction.

19. Other deductions.—Enter the total amount of all other deductions, not included in computing investment yield and not included in lines 21 through 24, to the extent allowable as deductions in computing taxable income except as modified below:

(a) Interest.—No deduction is allowed under section 163 for interest on the items described in section 810(c).

(b) Bad debts.—No deduction is allowed for an addition to reserves for bad debts under section 166(c), but a deduction for specific bad debts is permitted to the extent that the other provisions of that section are applicable.

(c). Contributions.—Attach a schedule showing the name of each organization and the amount paid. If a contribution is made in property other than money, describe the kind of property contributed and the method used in determining its fair market value. If a contribution carryover is included, show the amount and how it was determined. For limitation and the application of a charitable contribution carryover, see section 1.809-6(c) of the regulations.

In applying section 170, the 5% limitation on total deductions must be computed under section 809(e) (3). See section 1.809-6(c) of the regulations.

Charitable contributions in excess of the 5% limitation may not be deducted for the taxable year but may be carried over to the next 5 taxable years.

Companies on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3d month following the end of the taxable year if the contributions are authorized by the board of directors during the taxable year. A declaration, signed by an officer, stating that the resolution authorizing the contribution was adopted by the board of directors during the taxable year, and a copy of the resolution, must both be attached to the return.

Special rule for contributions of certain property.—If you make a charitable contribution of property, the contribution must be reduced by the sum of

(1) the ordinary income and

(2) for certain contributions, 62½% of the long-term capital gain, that would have resulted if the property were sold at its fair market value. The reduction for 62½% of the long-term capital gain applies to (1) contributions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for its exemption, and (2) contributions of any property to or for the use of certain private foundations. (Section 170(e).)

Bargain sale to a charitable organization.—If a charitable contribution deduction is allowed by reason of a sale of property to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

(d) Amortizable bond premiums.—No deduction is allowed under section 171 since a deduction for such premiums has already been taken into account in Schedule A.

(e) Net operating loss deduction.—The deduction under section 172 is not allowed since in lieu thereof an "operations loss deduction" is allowed. See line 22.

(f) Dividends received.—No deduction is allowed under sections 243, 244, or 245 in view of the deduction allowed under section 809 (d)(8). See line 21.

Attach a schedule showing the nature and amount of items included and group the minor items into one amount. If a deduction is claimed for depreciation, attach a schedule similar to Schedule K. You may use Form 4562, Depreciation, as a supplement to the schedule.

21. Dividends-received deduction.—(a) Dividends received from domestic corporations.—Enter 85% of the company's share (line 5(a), column 3) of the amount received as dividends (except dividends on certain preferred stock of public utilities) from domestic corporations subject to income tax. Members of certain affiliated groups may elect to deduct 100% of the qualifying dividends received from other members of the same group if an election under section 1562 is not effective for the taxable year. Include the company's share of the 100% deduction on line 21(a). See section 243. If an election under section 1562 was in effect on April 22, 1969, section 1564 provides a dividends-received deduction of 97½% (instead of the 100% deduction provided by section 243(b)) of qualifying dividends. Include the company's share (97½% of line 5(a), column 3) of the deduction on line 21(a). See section 1564.

(b) Dividends received on certain preferred stock of public utilities.—Enter 60.208% of the company's share (line 5(b), column 3) of the amount received as dividends on the preferred stock of a public utility which is subject to income tax and which is allowed a deduction for

dividends paid under section 247. See section 244.

(c) Dividends received from foreign corporations subject to the 85% deduction.—Enter 85% of the company's share (line 5(c), column 3) of dividends received from foreign corporations subject to the 85% deduction.

Also enter on this line 100% of the company's share of dividends received from wholly-owned foreign subsidiaries that are eligible for the 100% deduction provided in section 245(b).

See section 245 for qualifications and limitations on the amount of these deductions.

(d) Section 246(b) limitation.—In applying this 85% limitation to the total dividends-received deduction, the gain from operations is computed without regard to the deductions for certain non-participating contracts (line 24(c)); accident and health insurance, and group life insurance (line 24(b)); dividends to policyholders (line 24(a)); the operations loss deduction (line 22); and the dividends-received deduction. Since these items have not been deducted, the 85% limitation is applicable to the excess, if any, of line 12 over line 20.

For a member of an electing affiliated group, the 85% limitation is applicable to the excess, if any, of line 12 over line 20. Line 20, however, must first be reduced by the deduction for 100% or 97½% (as described in 21(a) above) of qualifying dividends received from the same group, since these dividends are not subject to the 85% limitation.

Exception.—The 85% limitation does not apply to any year for which there is a loss from operations.

22. Operations loss deduction.—This deduction allowed under section 809(d) (4) and determined under section 812 is, in substance, the same as the net operating loss deduction provided by section 172.

The "operations loss deduction" is the sum of the operations loss carryovers and carrybacks to the taxable year (sec. 812 (a)). A loss from operations may be carried back 3 years and carried over 5 years. If the company is a new company for the loss year, the carryover is for 8 years. For the definition of a new company and for the limitations on the 8-year carryover, see section 812(e) and the related regulations. The loss from operations must first be carried to the earliest of the taxable years to which it may be carried, then to the next earliest year, etc. The portion of the loss that may be carried to each of the other taxable years will be the excess, if any, of the amount of the loss over the sum of the offsets for each of the prior taxable years to which the loss may be carried.

See section 844 for special loss carryover rules that pertain to an insurance company that has changed its form of organization or has had a change in the nature of its insurance business.

For tax treatment of recoveries of foreign expropriation losses, see section 1351.

The term "offset" (for any taxable year) means an amount equal to the increase in the operations loss deduction for the taxable year that reduces the life insurance company taxable income (computed without regard to section 802(b) (3)) for the year to zero.

6

The term "loss from operations" means the excess of allowable deductions (computed with the modifications in (a) and (b) below) over the amount on line 12.

(a) No operations loss deduction is allowed.

(b) The deductions allowed by section 243 (dividends received by corporations), section 244 (dividends received on certain preferred stock of public utilities), and section 245 (dividends received from certain foreign corporations) must be computed without regard to section 245 (b), as modified by section 809(d)(8)(B).

24.—The deduction for certain nonparticipating contracts, accident and health insurance and group life insurance, and dividends to policyholders cannot exceed \$250,000 plus the amount, if any, by which (a) the gain from operations for the taxable year, computed without regard to these deductions, exceeds (b) the taxable investment income for the taxable year. The limitation in the foregoing sentence will apply to the amount of the deduction for: first, dividends to policyholders; then, accident and health insurance and group life insurance; and finally, certain nonparticipating contracts. See Schedule E-2, Part I.

SCHEDULE E-1.—Required Interest (Section 809(a)(2))

The term "required interest" for any taxable year means the sum of the products obtained by multiplying (A) each rate of interest required, or assumed by the taxpayer, in calculating the reserves described in section 810(c), by (B) the means of the amount of such reserves computed at such rate at the beginning and end of the taxable year. See General Instruction N.

SCHEDULE E-2.—Part I—Limitation on Deduction (Line 24, Schedule E) (Section 809(f))

Parts II, III, and IV should be completed before making entries in this schedule. By completing this schedule, the limitation provided in section 809(f) and explained in connection with line 24, Schedule E, automatically applies.

Part II—Dividends to Policyholders (Section 809(d)(3))

The term "dividends to policyholders" means dividends and similar distributions made to policyholders in their capacity as such. In general, amounts returned where the amount is not fixed in the contract but depends on the experience of the company or the discretion of the management are to be treated as dividends to policyholders. The term does not include interest paid (as defined in section 805(e)), or, for example, so-called excess interest payments made with respect to supplementary contracts not involving life, accident, or health contingencies merely because such interest payments exceed the amounts guaranteed under such contracts.

The deduction is an amount equal to the dividends paid to policyholders during the taxable year plus (or minus) any increase (or decrease) in the reserves for policyholder dividends payable during the following taxable year. For this purpose, reserves for policyholder dividends at the end of any taxable year includes all amounts set aside before the 16th day of the third month of the year following such taxable year for payment of policyholder

dividends during the year following such taxable year.

If the amount of the decrease for the taxable year in the reserves for policyholder dividends exceeds the amount of dividends paid to policyholders during the year, the amount of the excess shall be taken into account as an income item (line 10(b), Schedule E).

Part III—Certain Accident and Health Insurance and Group Life Insurance (Section 809(d)(6))

This deduction is an amount equal to 2% of the premiums for the taxable year attributable to accident and health insurance contracts (other than those to which Schedule E-2, Part IV applies) and group life insurance contracts. The term "premiums" means the net amount of the premiums and other consideration taken into account in Schedule E. However, the deduction allowed for the taxable year and all preceding taxable years cannot exceed an amount equal to 50% of the premiums for the taxable year attributable to the contracts.

Part IV—Certain Nonparticipating Contracts (Section 809(d)(5))

This deduction is an amount equal to 10% of the increase for the taxable year in the reserves for nonparticipating contracts (excluding group contracts) or, if greater, an amount equal to 3% of the premiums for the taxable year (excluding that portion of the premiums which is allocable to annuity features) attributable to nonparticipating contracts (other than group contracts) which are issued or renewed for periods of 5 years or more. The term "reserves for nonparticipating contracts" means such part of the life insurance reserves (excluding that portion of the reserves which is allocable to annuity features) as relates to nonparticipating contracts (other than group contracts). The term "premiums" means the net amount of the premiums and other consideration taken into account in Schedule E.

The premiums referred to include only premiums attributable to nonparticipating contracts (other than group contracts) which are issued or renewed for periods of 5 years or more, but do not include that portion of the premiums which is allocable to annuity features. The determination of whether a contract meets the 5-year requirement will be made as of the date it was issued or renewed, whichever is applicable. Thus, a 20-year nonparticipating endowment policy will qualify under section 809(d)(5), even though the individual insured subsequently dies at the end of the second year, since the policy was issued for a period of 5 years or more. However, a 1-year renewable term contract will not qualify, in that, as of the date it was issued (or of any renewal date), it was not for a period of 5 years or more. Also, a policy originally issued for a 3-year period and subsequently renewed for an additional 3-year period will not qualify. However, if this policy were renewed for a period of 5 years or more, the policy would qualify under section 809(d)(5) from the date it was renewed.

SCHEDULE F.—Shareholders' Surplus Account (Section 815(b))

Section 815(b)(1) provides that each stock life insurance company (both domestic and foreign) must establish and maintain a shareholders' surplus account.

The balance remaining in this account as of January 1, 1974 must be increased by the net additions thereto as provided in section 815(b)(2) (lines 2-8 of the schedule). In determining the amount to be entered on line 3, the amount, if any, by which the net long-term capital gain exceeds the net short-term capital loss must be reduced by the taxable income (computed without regard to section 802 (b)(3)). For instructions on the limitation of the dividends received deduction on line 4 when the 100% dividends-received deduction under section 243(b) or the 97½% dividends-received deduction under section 1564 is applicable, see instructions for line 21(d), Schedule E. Subtract from this account any amount that is treated under section 815 as a distribution to shareholders. Any distribution to shareholders must be treated as made first out of this account, to the extent thereof.

SCHEDULE G.—Policyholders' Surplus Account (Section 815(c))

Section 815(c)(1) provides that every stock life insurance company that is domestic and foreign shall establish and maintain a policyholders' surplus account. The balance remaining in this account as of January 1, 1974 must be increased by the additions as provided in section 815(c)(2) (line 2 of the schedule) and must be decreased by the subtractions as provided in section 815 (c)(3) (line 4 of the schedule).

Enter on line 4(a) the actual distributions to shareholders in excess of the amount reported on line 9, Schedule F. The amount to be entered on line 4(b) is the tax attributable to the amount (which is treated as a subtraction from this account) which after deducting the tax is the amount reflected on line 4(a). This amount can be determined by applying to the amount on line 4(a), a ratio, the numerator of which is 100% and the denominator of which is 100% minus the taxpayer's tax rate (the sum of the normal tax rate plus, if applicable, the surtax rate). The subtractions to be entered on line 4(c) must be treated as made only after the subtractions have been made on lines 4(a) and (b).

Section 815(d)(5) provides that if any amount added to the policyholders' surplus account increases or creates a loss from operations and part or all of the loss cannot be used in any other year to reduce the company's taxable income, then the loss will reduce (as of the time the addition to the policyholders' surplus account was made) the policyholders' surplus account. The reduction from the account must be made after any addition and before any amounts are subtracted from the account. If the policyholders' surplus account has been added under section 815(d)(5) and the balance at the end of the preceding year is different from the balance as of the beginning of the current year, attach a schedule showing adjustments to reconcile the preceding balance and current balance.

SCHEDULE J.—Compensation of Officers

Complete column 8 of Schedule J for your 6 highest paid officers. To determine the highest paid officers, add all allowances, including expense account allowances, to each officer's compensa-

tion. Expense account allowance means: (1) amounts, other than compensation, received as advances or reimbursements, and (2) amounts paid by or for the corporation for expenses incurred by or on behalf of an officer. Column 8 does not have to be completed for any officer for whom the combined amount is less than \$30,000.

The information is to be submitted by each member of an affiliated group included in a consolidated return.

Tax Computation Instructions

General.—Section 802(a)(1) provides a normal tax and surtax on the life insurance company taxable income computed at the rates provided in section 11.

1. Normal tax.—Section 11 provides a normal tax equal to 22% of taxable income.

2. Surtax.—Section 11 provides a surtax equal to 26% of the amount by which the taxable income exceeds the surtax exemption.

3. Surtax exemption.—In general, corporations are entitled to a \$25,000 surtax exemption. Certain controlled corporations, however, are limited to a smaller amount under the provisions of sections 1561, 1562, and 1564. (See section 1563 for definition of controlled group.)

Under the provisions of section 1561, a controlled group of corporations, with respect to a specified December 31, must divide one \$25,000 surtax exemption equally among all component members of the group unless the group specifically consents to split up the \$25,000 amount among all component members in accordance with an apportionment plan. See section 1561 and the regulations thereunder for the time and manner of making the consent.

For taxable year 1974, only one member of a group that has made an election under section 1562 may claim a full \$25,000 surtax exemption. The other members are each limited to \$4,167. Section 1564(a)(2) provides that the component members of the controlled group must elect which member is to receive the full

\$25,000 and which members are to be limited to \$4,167. See section 1.1564-1(b) of the regulations for the manner of making the election.

If the group elects to have each component member claim a separate surtax exemption under section 1562, each component member must pay an additional tax of 6% of the amount of income equal to its surtax exemption. If only one member of the group has any taxable income, the 6% tax does not apply. (Section 1562(b)(1)(A).)

4. Credit for wages paid or incurred in Work Incentive (WIN) program.—Employers may claim a credit of 20% of the salaries and wages paid or incurred for employees hired under a WIN program. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. For special rules and limitations, see Form 4874 and sections 50A and 50B.

5. Tax from recomputing a prior year WIN credit.—If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, you must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred for that employee. (See Form 4874.)

The tax from recomputing a prior year work incentive credit may not be offset against the current year's work incentive credit.

6. Tax from recomputing a prior year investment credit.—If property is disposed of prior to the life-years category used in computing the investment credit, the credit must be recomputed using as the useful life the period the property was actually held. If the credit taken, including carrybacks and carryovers, exceeds the recomputed credit, the tax in the year of disposition must be increased by the excess. Form 4255 may be used to compute the tax.

The tax from recomputing a prior year investment credit may not be offset against the current year's investment credit.

7. Foreign corporations.—A foreign corporation carrying on an insurance business within the U.S. is taxable in the

same manner as a domestic insurance company with respect to its income effectively connected with the conduct of a trade or business within the U.S. See section 842. Income from sources without the U.S. which is attributable to U.S. business is treated as effectively connected with the conduct of a trade or business within the U.S. For further definition of effectively connected income, see section 864(c).

Any other U.S. source income received by a foreign corporation not effectively connected with the conduct of a trade or business within the U.S. is taxed at a 30% (or lower treaty) rate. See section 881. If you have any such income, attach a schedule showing: the nature of income, amount of income, rate of tax (30% or lower treaty rate), and amount of tax.

Where the surplus of a foreign life insurance company held in the U.S. is less than a specified minimum, an adjustment is required under section 819. When this minimum surplus adjustment is applicable, a reduction of tax imposed by section 881 is provided in section 819 (a)(3). Attach a statement showing the computation of reduction of section 881 tax and enter the net amount of the tax imposed by section 881 on line 13, page 1.

8. Minimum tax on tax preference items.—

Corporations having tax preference items in excess of \$30,000 must attach Form 4626, Computation of Minimum Tax.

Items of tax preference are:

- (1) accelerated depreciation on real property,
- (2) amortization of certified pollution control facilities,
- (3) amortization of railroad rolling stock,
- (4) amortization of on-the-job training facilities,
- (5) amortization of child care facilities,
- (6) reserves for losses on bad debts of financial institutions,
- (7) excess percentage depletion, and
- (8) capital gains.

a. Kind of property (if necessary, attach description)	b. Date acquired (mo., day, yr.)	c. Date sold (mo., day, yr.)	d. Gross sales price	e. Depreciation allowed (or allowable)	f. Cost or other basis and expense of sale	g. Gain or loss (d plus e less f)
41						

42 Total (If gain, enter on line 4; if loss, enter on line 31. Identify as gain or (loss) from Part VII.) _____

Instructions

(References are to the Internal Revenue Code.)

Every sale or exchange of property must be reported in detail even though no gain or loss results.

In general, all or part of the gain on a disposition of property may be required to be reported as ordinary income under the provisions of sections 1245, 1250 (see Parts V and VI), 1251, and 1252. The remainder of the gain may or may not be subject to capital gain treatment depending on the circumstances.

Rules for Dispositions of Farm Property and Certain Involuntary Conversions

(1) **Farm property.**—Refer to sections 1251 and 1252 for the treatment of gains on disposition of certain farm property.

(2) **Involuntary conversions.**—

(a) If gains from involuntary conversions arising from casualty or theft of property used in a trade or business or of any capital asset held more than six months equal or exceed the losses, the gains and losses are to be entered in Part VII and treated as section 1231 gains and losses along with gains and losses on dispositions of other section 1231 property. If the losses from such involuntary conversions exceed the gains, the gains and losses are to be entered in Part IV and treated as ordinary gains and losses. This applies to both insured and uninsured property.

(b) Gains from such involuntary conversions of property which is also section 1245 or 1250 property must first be reported in Part V or Part VI to determine how much gain is ordinary income. Any remaining gain (line 37, Part V, or line 40, Part VI) is included in the separate computation described in the above paragraph.

PART I

Capital assets.—Each item of property held by a corporation (whether or not connected with its trade or business) is a capital asset except: (1) inventory or property held primarily for sale to customers; (2) depreciable or real property used in the trade or business; (for life insurance companies, this relates only to property used in carrying on an insurance business, e.g., home office building; branch offices; office equipment; etc., and excludes investment assets that produce interest, rents, dividends or royalties) (see section 817 (a)(2)); (3) certain copyrights, literary, musical, or artistic compositions, letters or memorandums, or similar property; (4) accounts or notes receivable acquired in the ordinary course of a trade or business for services rendered or from the sale of property described in (1) above; and (5) certain short-term Federal, State, and municipal obligations issued on or after March 1, 1941, on a discount basis.

Thus, the gains or losses from the sale or exchange of depreciable assets attributable to any trade or business (other than an insurance business) carried on by the life insurance company, such as renting various pieces of real estate or operating a radio station, a housing development, or a farm, will be treated as gains or losses from the sale or exchange of capital assets.

Investment assets.—Gains or losses from the sale or exchange of investment assets are treated as gains or losses from the sale or exchange of capital assets. (See above.) All sales

of investment assets subject to sections 1245 and 1250 should be reported in Parts V and VI respectively, regardless of the length of time held. If held 6 months or less, the other gain reported in column k, Part V and column q, Part VI, should be entered on line 1, Part I and identified as gain from Part V or Part VI. If held more than 6 months, the other gain reported in column k, Part V and column q, Part VI, should be entered on line 4, Part I, and identified as gain from Part V or Part VI. Any amount included in column j, Part V and column p, Part VI as ordinary income from the sale of investment assets should be included in line 7, Schedule A.

Column g.—Except where section 817 is applicable, the gain or loss is the result of column d plus column e. Where section 817 is applicable, complete columns a through f and attach a schedule showing the method of computing the gain reported in column g. See instructions for "Basis."

Columns h-k.—These columns are to be used only in the event of gains on disposition of property if the F.M.V. of such property held on December 31, 1958 exceeded the adjusted basis for determining gain as of that date.

Line 4.—(A) Cols. a-g: Enter the total of applicable items from Part VII and other long-term capital gains and losses (excluding the gains from those assets whose F.M.V. on 12/31/58 exceeded the adjusted basis on that date).

(B) Cols. a-k: Enter only the long-term capital gains of those assets whose F.M.V. on 12/31/58 exceeded the adjusted basis on that date.

Capital losses.—Capital losses are allowed only to the extent of capital gains. A net capital loss may be carried back three years and forward five as a short-term capital loss. However, the amount allowable as a capital loss carryback is subject to the limitations of section 1221(a)(1).

Under the provisions of section 6411, a quick refund of the tax overpayment created by the capital loss carryback may be obtained by filing Form 1139. If a net capital loss carryback creates an unused investment credit or an unused work incentive (WIN) credit in a preceding year, the unused credit may be carried back to the three preceding years (however, the WIN credit cannot be carried back to years beginning before 1972), and, under the provisions of section 6411, a quick refund of the tax overpayment may likewise be obtained by filing Form 1139.

Worthless securities.—Except for banks, if securities which are capital assets become wholly worthless during the taxable year, the loss is to be treated as a capital loss as of the last day of the taxable year.

Losses not allowable.—No loss is allowed for wash sales of stock or securities. (See section 1091.) No loss is allowed (distributions in liquidation excepted) on transactions between related persons. (See section 267.)

Long-term capital gains from regulated investment companies.—Include in income as a long-term capital gain the amount the corporation has been notified constitutes its share of the undistributed capital gains of a regulated investment company.

Short sales of capital assets.—See section 1233 for rules relating to certain short sales of stock or other securities and transactions in commodity futures.

Basis.—The "basis" for certain property is not subject to the same rule for reporting gains as for losses.

(a) **Gain on property held on December 31, 1958.**—Section 817(b)(1), in effect, limits the amount of gain that is to be recognized on the sale or other disposition of certain property held by the company on December 31, 1958. This is accomplished by treating the gain on the sale or other disposition of such property as an amount (but not less than zero) equal to the amount by which the gain (determined without regard to section 817(b)(1)) exceeds the difference between the fair market value on December 31, 1958, and the adjusted basis (as provided in section 1016(a)) for determining gain as of such date. This limitation on the amount of gain recognized applies only if (1) the property was held by a life insurance company on December 31, 1958; (2) the fair market value of the property on December 31, 1958, is greater than the adjusted basis for determining gain as of that date; and (3) the taxpayer has been a life insurance company at all times on and after December 31, 1958, until the date of sale or other disposition of the property.

(b) **Certain substituted property acquired after December 31, 1958.**—See section 817(b)(2)(A) through (E) for certain rules for such property.

Section 817(b)(3) provides that the term "property" for purposes of (a) and (b), above, does not include insurance and annuity contracts (and contracts supplementary thereto) and property described in section 1221(l) (relating to stock in trade or inventory-type property).

(c) **Property held on December 31, 1958, and certain substituted property acquired after December 31, 1958.**—In determining loss for such property (described in (a) and (b), above) the basis is cost adjusted as provided by section 1016.

(d) **Other property acquired after December 31, 1958.**—Where property, other than property described in (b) above, was purchased after December 31, 1958, the basis is cost, adjusted as provided in section 1016. Where property was acquired by bequest, gift, involuntary conversion, or wash sale of stock, see sections 1014, 1015, 1033, and 1091, respectively.

(e) If a charitable contribution deduction is allowed by reason of the sale of property to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

PART III

Alternative tax.—If the net long-term capital gain exceeds the net short-term capital loss, then, in place of the normal tax and surtax imposed upon taxable income, there is imposed an alternative tax (if the tax is less than the normal tax and surtax).

The alternative tax is the sum of (1) a partial tax computed at the normal tax and surtax rates on the taxable income determined by reducing the taxable investment income, and the gain from operations, by the amount of the excess of the net long-term capital gain over the net short-term capital loss; and (2) 30% of such excess.

An alternative tax rate of 25%, however, is to apply to the lesser of (1) the amount of "subsection (d) gain" or (2) the excess of net long-term capital gain over any net short-term capital loss.

Subsection (d) gain consists of long-term capital gains, including installment proceeds (except gains from timber, coal or domestic iron ore under section 631 or from patents under section 1235) received before 1975 from sales or other dispositions under binding contracts entered into on or before October 9, 1969.

PART IV

Ordinary gains and losses.—(For investment assets, see instructions for Part I.) Include gains and losses from disposition or involuntary conversion of land and depreciable property held six months or less and gains and losses from compulsory or involuntary conversion of capital assets held six months or less.

If after grouping all section 1231 transactions the losses exceed the gains, report the net loss in Part IV as an ordinary loss.

If losses from involuntary conversions arising from casualty or theft of property used in a trade or business (as defined in section 1231) or of any capital asset held more than six months exceed the gains, enter the gains and losses in Part IV as ordinary gains and losses.

PART V

Gain from disposition of depreciable property and certain real property held more than six months. (Section 1245).—(Report any gain from property held not more than six months in Part IV. For investment assets, see instructions for Part I.)

In general, when section 1245 property (as defined below) is disposed of, gain will be treated as ordinary income to the extent of depreciation allowed (or allowable) after 1961. Except for certain involuntary conversions referred to in section 1231, the balance of the gain, if any, is to be combined in Part VII with gains and losses from section 1231 property.

Section 1245 property is property which is depreciable (or subject to amortization under section 169 or section 185) and is either—

(a) personal property,
(b) elevators and escalators,
(c) real property (other than property described in (d)) subject to amortization under section 169, 185, or 188, or

(d) tangible real property (except buildings and their structural components) used as an integral part of certain business activities or as a facility for research or as a facility for the bulk storage of fungible commodities (including commodities in a liquid or gaseous state) in connection with such activities. These business activities are manufacturing, production, extraction, or furnishing transportation, communications or certain other public utility services.

See section 1245(b) for exceptions and limitations involving: (a) disposition by gift, (b) certain tax-free transactions, (c) like kind exchanges, involuntary conversions, and (d) sales or exchanges to effectuate FCC policies and exchanges to comply with SEC orders.

Column 1.—Enter depreciation allowed (or allowable) after December 31, 1961. However,

use June 30, 1963 for elevators and escalators and December 31, 1969 for livestock.

PART VI

Gain from disposition of depreciable real property held more than six months. (Section 1250).—(Report any gain from such property held not more than six months in Part IV. For investment assets, see instructions in Part I.)

In general, when section 1250 property (as defined below) is disposed of, all or a portion of the "additional depreciation" will be treated as ordinary income. Except for certain involuntary conversions referred to in section 1231, the balance of gain, if any, is to be combined in Part VII with gains and losses from section 1231 property.

Section 1250 property is depreciable real property other than section 1245 property.

See section 1250(d) for exceptions and limitations involving: (a) disposition by gift, (b) certain tax-free transactions, (c) like kind exchanges, involuntary conversions, (d) sales or exchanges to effectuate FCC policies and exchanges to comply with SEC orders, and (e) disposition of qualified low-income housing.

Columns 1 and 2.—Additional depreciation.—In the case of section 1250 property held one year or less, additional depreciation is the total amount of depreciation claimed. In such case, omit columns 1 thru 4 and enter in column p the lesser of the amount of gain (column h) or the total amount of depreciation claimed (column 1).

For property held more than one year, additional depreciation is the excess of actual depreciation attributable to periods after December 31, 1963, over depreciation computed for the same period using the straight line method. Enter in column 1 the additional depreciation for the period after December 31, 1963, and before January 1, 1970, and in column 2 the additional depreciation for the period after December 31, 1969.

For additional depreciation attributable to rehabilitation expenditures, see section 1250 (b)(4).

Column 3, applicable percentage.—Enter 100% of column k in column 1 except as follows:

(1) In the case of section 1250 property disposed of pursuant to a written contract that was, on July 24, 1969 and at all times thereafter, binding on the owner of the property, the applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months;
(2) In the case of section 1250 property constructed, reconstructed, or acquired by the taxpayer before January 1, 1975, with respect to which a mortgage is insured under section 221(d)(3) or 235 of the National Housing Act, or housing is financed or assisted by direct loan or tax abatement under similar provisions of the State or local laws, and with respect to which the owner is subject to the restrictions described in section 1039(b)(1)(B), the applicable percentage is 100%, minus 1 percentage point for each full month the property was held after the date it was held 20 full months;
(3) In the case of residential rental property (as defined in section 167(d)(2)(B)) other than that covered by (1) and (2) above, the applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 100 full months; and

(4) In the case of section 1250 property for which a depreciation deduction for rehabilitation expenditures was allowed under section 167(k), the applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 4, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 5, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 6, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 7, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 8, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 9, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 10, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 11, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 12, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 13, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 14, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 15, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 16, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 17, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 18, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 19, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 20, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 21, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 22, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 23, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 24, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

Column 25, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

(4) In the case of section 1250 property for which a depreciation deduction for rehabilitation expenditures was allowed under section 167(k), the applicable percentage is 100% minus 1 percentage point for each full month in excess of 100 full months after the date on which the property was placed in service.

Column 6, applicable percentage.—The applicable percentage is 100% minus 1 percentage point for each full month the property was held after the date it was held 20 full months.

PART VII

Sale or exchange of property used in trade or business and involuntary conversion. (Section 1231).—Section 1231 provides special treatment for the recognized gains and losses on the sale or exchange of "property used in the trade or business" and upon the compulsory or involuntary conversion of (1) such property and (2) capital assets held more than six months.

Note: Refer to page 3 for rules for involuntary conversions resulting from casualty or theft.

After determining in Parts V and VI how much of the total gain from disposition of depreciable property is ordinary gain, combine the total other gain with other gains and losses from section 1231 property to determine if there is a net gain or net loss. The total shown on line 42 determines whether the items reflected therein represent a long-term capital gain or an ordinary loss. This total must be entered on line 4 or line 31, whichever is applicable.

In determining whether gains exceed losses, include the gains and losses to the extent they would be included if they were all ordinary gains and losses. The limitation of section 1211 on the deductibility of capital losses does not apply.

Section 817(a) provides that in applying section 1231(a), the term "property used in the trade or business" shall be treated as including only (1) property used in carrying on an insurance business, which is subject to depreciation provided in section 167 and held for more than 6 months (including real property but excluding (a) inventory or property held primarily for sale to customers, and (b) certain copyrights, literary, musical or artistic compositions; letters or memorandums; or similar property); and (2) timber, coal, and domestic iron ore to which section 631 applies.

The total shown on line 42, page 2, determines whether the items reflected therein represent a long-term capital gain or an ordinary loss. In either case, after the initial determination, the items must be segregated into (1) assets held on December 31, 1958, where the F.M.V. exceeded the adjusted basis on that date, and (2) other. Enter the totals into the appropriate schedules of Part I or Part IV.

Line 41.—Enter each section 1231 item not carried over from line 35.

Line 42.—Enter the net gain or loss of the section 1231 items described in Part VII.

Minimum tax on tax preference items.—If the net long-term capital gain exceeds the net short-term capital loss, you may be liable for minimum tax. See Form 4626.

Controlled corporations.—Controlled corporations: see Tax Computation Instructions for Form 1120-L.

Form **1120M** **U.S. Mutual Insurance Company Income Tax Return** **FOR CALENDAR YEAR 1974**

Department of the Treasury
Internal Revenue Service

(For Mutual Companies Other Than Life and Certain Marine Insurance Companies and Other Than Fire or Flood Insurance Companies That Operate on a Basis of Perpetual Policies or Premium Deposits)

Name _____ A Employer identification number _____
Number and street _____ B Date incorporated _____
City or town, State, and ZIP code _____ C Place incorporated _____

D Did you previously submit a copy of the annual statement for the preceding year as required by General Instruction I? ☐ Yes ☒ No
If "Yes," name the Internal Revenue Service Center where filed. _____

E Does a copy of the 1974 annual statement accompany this return? ☐ Yes ☒ No
If "No," explain why the statement is not attached. _____

F Did you at the end of the taxable year own, directly or indirectly, 50% or more of the voting stock of a domestic corporation? (For rules of attribution, see section 267(c).) If the answer is "Yes," attach a schedule showing: (a) name, address, and employer identification number; and (b) percentage owned. _____

G Were you a U.S. shareholder of any controlled foreign corporation? (See sections 951 and 957.) ☐ Yes ☒ No
If "Yes," attach Form 3546 for each such corporation. _____

K Did you file all required Forms 1087, 1096, and 1099? ☐ Yes ☒ No

TAXABLE INCOME

1 Taxable investment income or (loss) (Schedule A) _____
2 Statutory underwriting income or (loss) (Schedule B) _____
3 Amounts subtracted from the Protection Against Loss Account (line 9(d), Schedule C) _____

1974 Department of the Treasury Internal Revenue Service

Instructions for Form 1120M

U.S. Mutual Insurance Company Income Tax Return

(References are to the Internal Revenue Code.)

General Instructions

A. Who must file Form 1120M.—Every domestic mutual insurance company (except a life insurance company subject to tax under section 802 and other than a fire, flood, or marine insurance company subject to tax under section 831) and every foreign corporation carrying on an insurance business within the U.S. (if with respect to its U.S. business it would qualify as a mutual insurance company subject to tax under section 821) must file Form 1120M.

Exceptions.—(a) Certain mutual insurance companies exempt under section 501(c)(15). (See Form 990.)

(b) A mutual insurance company subject to tax under section 821, which disposes of its insurance business and reserves or otherwise ceases to be entitled to be taxed under section 821, but continues its corporate existence for the purpose of winding up and liquidating its affairs. (See Form 1120.)

B. Information returns and forms that may be required.—

1. Forms W-2 and W-3.—Employee's wage and tax statement; and transmittal of income and tax statements.

2. Form W-2P.—Statement for recipients of annuities, pensions or retired pay.

3. Forms 1087-DIV, INT, MED, MISC, and OID.—Nominees' information returns for reporting dividends, interest, medical and health care payments, miscellaneous income, and original issue discount that were received as a nominee on behalf of another person.

4. Form 1096 and Schedule A (Form 1096).—Annual summary and transmittal of U.S. information returns; and corporate report of nontaxable dividends.

5. Forms 966 and 1099L.—Information returns regarding dissolution or liquidation, and distributions in liquidation.

6. Forms 1099—DIV, INT, MED, MISC, OID, PATR, and R.—Information returns for reporting certain dividends, interest income, medical and health care payments, miscellaneous income, original issue discount, patronage dividends, and lump-sum distributions from profit-sharing and retirement plans.

C. Period covered.—This return is for calendar year 1974. (Section 843.) If the company ceases to exist, write "FINAL RETURN" at the top of the form.

D. Accounting methods.—Taxable income must be computed using the method of accounting regularly used in keeping the company's books and records. In all cases, the method adopted must clearly reflect taxable income. (See section 446.)

Unless the law specifically permits, you may not change the method of accounting used to report income in prior years (for income as a whole or for any material item) without first obtaining consent on Form 3115, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—The money items may be shown as whole-dollar amounts by eliminating any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

E. Where to file.—
If the corporation's principal business, office, or agency is located in: Use this address

New Jersey, New York City and counties of Nassau, Rockland, Suffolk, and Westchester	Internal Revenue Service Center 1040 Waverly Avenue Holtville, N.Y. 11799
New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	Internal Revenue Service Center 310 Lowell Street Andover, Mass. 01812
Alabama, Florida, Georgia, Mississippi, South Carolina	Internal Revenue Service Center 4800 Buford Highway Chamblee, Georgia 30006
Michigan, Ohio	Internal Revenue Service Center Cincinnati, Ohio 45228

Arkansas, Kansas, Louisiana, New Mexico, Oklahoma, Texas	Internal Revenue Service Center 3551 S. Interregional Highway Austin, Texas 78740
Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming	Internal Revenue Service Center 1160 West 1200 South Street Ogden, Utah 84201
Illinois, Iowa, Missouri, Wisconsin	Internal Revenue Service Center 2306 E. Hannibal Road Kansas City, Mo. 64170
California, Hawaii	Internal Revenue Service Center 5045 East Butler Avenue Fresno, California 93888
Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia	Internal Revenue Service Center 3131 Democrat Road Memphis, Tennessee 38110
Delaware, District of Columbia, Maryland, Pennsylvania	Internal Revenue Service Center 11601 Roosevelt Boulevard Philadelphia, Pa. 19155

Foreign corporations carrying on an insurance business within the U.S. must file their returns with the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pa. 19155.

The separate income tax returns of a group of corporations located in several Service Center regions may be filed with the Service Center for the area in which the principal office of the managing corporation that keeps all the books and records is located.

F. When to file.—The return must be filed on or before March 17, 1975.

You may request an automatic 3-month extension of time to file Form 1120M by filing Form 7004.

Form 7005 may be used to request an additional extension but only by corporations that have previously obtained an automatic 3-month extension by filing Form 7004.

G. Depositary method of tax payment.—The balance of tax due (line 21) must be paid in full when the return is filed or in two installments, 50% on or before March 17, 1975 and 50% on or before June 16, 1975.

Insurance companies must deposit all income tax payments, accompanied by Federal Tax Deposit Form 503, with an authorized commercial bank depositary or Federal Reserve bank. Please enter the serial number of Form 503 on your remittance. Do not remit directly to Internal Revenue Service.

Timeliness of deposits will be determined by the date the deposit was received by the commercial bank depositary or Federal Reserve bank.

Forms 503 will be mailed to insurance companies. Companies needing Forms 503 may obtain them from the Internal Revenue Service Center where they will file their returns. The applica-

tion should include the company's name, identification number, address, and the taxable year to which the deposits relate.

Estimated tax.—A company must make estimated tax payments if it can expect its estimated tax (income tax less credits less an estimated tax exemption) to be \$40 or more.

For the calendar year 1975, the estimated tax exemption is 40% of the lesser of (1) \$5,500 or (2) total tax less credits. (Members of a controlled group of corporations must substitute 22% of their surtax exemption for the \$5,500 mentioned above.)

Lines 13, through 19 of Form 1120-W may be used as a worksheet to compute estimated tax.

If you overpaid estimated tax, you may apply on Form 4466 for a "quick refund" if the overpayment is (1) at least 10% of your expected income tax liability AND (2) at least \$500.

This application must be made within 2½ months after the end of the taxable year and before you file your tax return.

H. Stock ownership in foreign corporations.—If you owned 5% or more in value of the outstanding stock of a foreign personal holding company, attach the statement required by section 551(d).

If you controlled a foreign corporation or were a 10% or more shareholder of a controlled foreign corporation, you may be required to file Forms 2952 and 3646.

I. Annual statement.—A copy of the annual statement for mutual insurance companies adopted by the National Association of Insurance Commissioners for the year 1974, as filed with the Insurance Department of the State or District of Columbia, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks) must accompany the return (see section 1.6012-2(c) of the regulations).

Similar copies for the preceding year must also be furnished, if not already filed for such year.

If you use miniature statements, they may be filed instead of the larger statements.

J. Signature.—The return must be signed by the president, vice president, treasurer, assistant treasurer,

chief accounting officer, or any other corporate officer (such as tax officer) authorized to sign.

A receiver, trustee, or assignee must sign any return he is required to file on behalf of a corporation.

K. Attachments.—You may use attachments if the lines on the form schedules are not sufficient. They must contain all required information, must follow the format of the official schedules, and must be attached to the return in the same sequence as the schedules appear on the official form.

Enter your name and identifying number on all attachments.

L. Penalties.

1. A corporation that fails to file its tax return by the prescribed due date including any extensions of time for filing may be subject to a penalty of 5% a month, up to a maximum of 25%, for each month the return is not filed (the penalty is imposed on the net amount due—section 6651(a)(1)).

2. A corporation that fails to pay the tax when due may be subject to a penalty of ½% a month or fraction of a month, up to a maximum of 25% for each month the tax is not paid (the penalty is imposed on the net amount due—section 6651(a)(2)).

The above penalties will not be imposed if the corporation can show that the failure to file or to pay was due to reasonable cause and not to willful neglect.

These penalties are in addition to the 6% a year interest charge imposed on unpaid tax.

3. A corporation that fails to pay the proper estimated tax when due may be subject to an underpayment penalty of 6% a year for the period of underpayment (section 6655).

If you underpaid estimated tax and believe a penalty charge should not be assessed, attach Form 2220.

Specific Instructions

(Numbered to correspond with the line numbers on the return.)

For Page 1 of Return

5. **Unused loss deduction.**—The amount of the deduction is the total of the unused loss carryovers and carrybacks to the taxable year.

Unused loss.—The term "unused loss" for any taxable year means the amount by which—

- (1) the sum of the statutory underwriting loss and the investment loss, exceeds
- (2) the sum of—
 - (a) the taxable investment income,
 - (b) the statutory underwriting income, and
 - (c) the amount required by section 824(d) to be subtracted from the protection-against loss account.

The unused loss for any loss year is (1) an unused loss carryback to each of the 3 taxable years preceding the loss year, and (2) an unused loss carryover to each of the 5 taxable years following the loss year. The entire amount of unused loss for any loss year must first be carried to the earliest of the taxable years to which the loss may be carried. The portion of the loss that may be carried to each of the other taxable years is the excess (if any) of the amount of the loss over the sum of the offsets (as defined in section 825(f)) for each of the prior taxable years to which the loss may be carried.

Limitations.—An unused loss may not be carried—

- (1) to or from any taxable year for which the insurance company is not subject to the tax imposed by section 821(a), or
- (2) to any taxable year if, between the loss year and such taxable year, there is an intervening taxable year for which the insurance company was not subject to the tax imposed by section 821(a).

See section 844 for special carryover loss rules regarding an insurance company that has changed its form of organization or has changed the nature of its insurance business.

8. Surtax.—For election and attachment required of a reciprocal to be subject to the limitation in section 826(b), see section 826(a) and the regulations thereunder.

Amount to be included by reciprocal.—If the mutual insurance company taxable income before giving effect to the election under section 826(a) is not less than \$25,000, then make no entry.

If the taxable income before giving effect to the election is not more than \$25,000, then:

- (1) Where taxable income after the election is \$25,000 or less, the excess of such taxable income over taxable in-

come before giving effect to the election must be entered as the amount required on line 3.

(2) Where taxable income after the election is over \$25,000, the excess of \$25,000 over taxable income before the election must be entered as the amount required on line 8.

Where the amount subtracted from the protection against loss account was added because of the election under section 826(a), then to the extent the amount increases mutual insurance company taxable income for the taxable year, the amount is not entitled to the \$25,000 surtax exemption. See section 1.826-2(b) of the regulations.

Where the surtax exemption is pro-rated under section 1561 because of an election under section 243(b), the pro-rated amount must be used in place of the \$25,000 referred to in the preceding paragraphs and line 8, page 1.

10. Alternative tax for certain small companies.—See instructions for Schedule A-2.

12(c). Credit for wages paid or incurred in Work Incentive (WIN) Program.—Employers may claim a credit of 20% of the salaries and wages paid or incurred for employees hired under a WIN program. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. For special rules and limitations, see Form 4874 and sections 50A and 50B.

15. Foreign corporations.—A foreign corporation carrying on an insurance business within the U.S. is taxable in the same manner as a domestic insurance company with respect to its income effectively connected with the conduct of a trade or business within the U.S. See section 842.

Any other U.S. source income received by a foreign corporation not effectively connected with the conduct of a trade or business within the U.S. is taxed at a 30% (or lower treaty) rate. See section 881. If you have any such income, attach a schedule showing the nature of income, amount of income, rate of tax (30% or lower treaty rate), and amount of tax. Enter the amount of tax imposed by section 881 on line 15, page 1.

16. Tax from recomputing a prior year investment credit.—If property is disposed of prior to the life-years category used in computing the investment credit, the investment credit must be recomputed using as the useful life the period the property was actually held.

If the credit taken, including carrybacks and carryovers, exceeds the recomputed credit, the tax in the year of disposition must be increased by the excess. Form 4255 may be used to compute the tax.

The tax from recomputing a prior year investment credit may not be offset against the current year's investment credit.

17. Tax from recomputing a prior year WIN credit.—If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, you must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred for that employee. (See Form 4874.)

The tax from recomputing a prior year work incentive credit may not be offset against the current year's work incentive credit.

18. Minimum tax on tax preference items.—Companies having tax preference items in excess of \$30,000 must attach Form 4626, Computation of Minimum Tax.

Items of tax preference are:

- (1) accelerated depreciation on real property,
- (2) amortization of certified pollution control facilities,
- (3) amortization of railroad rolling stock,
- (4) amortization of on-the-job training facilities,
- (5) amortization of child care facilities,
- (6) reserves for losses on bad debts of financial institutions,
- (7) excess percentage depletion, and
- (8) capital gains.

20(g). Credit by reciprocal for tax paid by attorney-in-fact.—See section 826(e) and the regulations thereunder.

20(h). Other tax credits.—Section 39 provides a credit for Federal excise tax on: (1) gasoline used (a) on a farm for farming use, (b) in vehicles and machines used off the highway, such as in boats and, generally, in commercial aircraft, and (c) in vehicles furnishing certain public transportation by land; (2) lubricating oil used for any purpose other than in a highway motor vehicle; and (3) special fuels used (a) on a farm for farming use, (b) in vehicles furnishing certain public transportation by land, and (c) generally in commercial aviation or under other conditions not subject to tax.

Also include on line 20(h) any of the tax included on line 15, page 1, which was withheld at the U.S. source.

SCHEDULE A.—Taxable Investment Income or (Loss)

1. Interest.—Enter interest received or accrued from all sources during the taxable year. The gross amount of interest reported as gross income must be decreased by the amortization of premiums attributable to the taxable year on bonds, notes, debentures or other evidences of indebtedness, determined (1) in accordance with the method regularly employed, if reasonable, or (2) in accordance with regulations. (Attach a statement showing method and computation.)

3. Gross rents.—Enter the gross amount received for the rent of property. Deduct expenses such as repairs, interest, taxes, and depreciation in the proper lines for deductions.

4. Gross royalties.—Enter the gross amount of royalties. If a deduction is claimed for depletion, report it on line 15.

5. Gross income from trade or business other than insurance business.—Enter the gross income from any trade or business (other than an insurance business) carried on by the mutual insurance company, or by a partnership of which the mutual insurance company is a member.

6. Leases, etc.—Enter the gross amount of income received from the entering into (or the alteration or termination) of any lease, mortgage or other instrument or agreement from which the mutual insurance company derives interest, dividends, rents, or royalties.

8. Net gain from sale or exchange of capital assets.—Report sales or exchanges of capital assets in separate Schedule D (Form 1120) (but see Schedule A-3, page 3). Every sale or exchange of a capital asset, even though no gain or loss results, must be reported in detail.

Losses from sales or exchanges of capital assets (except losses from capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders) are allowed to the extent of gains from such sales or exchanges with respect to companies taxable under section 821.

The net capital loss for such companies is the amount by which losses for

the year from sales or exchanges of capital assets exceed the sum of the gains from sales or exchanges and the lesser of (1) the taxable investment income (computed without regard to gains or losses from sales or exchanges of capital assets) or (2) losses from the sale or exchange of capital assets sold, or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders.

However, the amount of a net capital loss sustained in a taxable year may be carried back 3 years and forward 5 years as a short-term capital loss. The amount allowable as a capital loss carry-back is subject to the limitations of section 1212(a)(1).

For further information relating to gains and losses from sales or exchanges of property, see instructions for separate Schedule D (Form 1120) and Form 4797, Supplemental Schedule of Gains and Losses.

Deductions

10. Interest wholly exempt from tax.—Enter the amount of interest which is wholly exempt from taxation under section 103.

11. Investment expenses.—Enter expenses which are properly chargeable as investment expenses. If you allocate general expenses to investment expenses, the total deduction cannot exceed the limitation on line 18, Schedule A-1. Attach a schedule showing the nature and amount of the items and group the minor items into one amount. See section 822(c)(2).

12. Taxes.—Enter taxes paid or accrued exclusively upon real estate owned by the company as provided in section 164. For limitation on deduction, see instruction 19(a).

13. Real estate expenses.—Enter all ordinary and necessary building expenses, paid or accrued, such as fire insurance, heat, light, labor, etc.; and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinary efficient operating condition. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on fore-closed property before such property is held for rental purposes. For limitation on this deduction, see instruction 19(a).

14. Depreciation.—The amount deductible for depreciation is an amount

reasonably measuring a portion of the investment in depreciable property which, by reason of exhaustion, wear and tear, or obsolescence, is properly chargeable against the operations of the year. In any event, the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the income specified in section 822(b). For limitation on this deduction, see instruction 19(a).

For a more detailed explanation of depreciation, see instructions for Schedule F.

15. Depletion.—The percentage depletion rate for oil and gas wells is 22%. See section 613(b) for rates applicable to other natural deposits.

Enter the total depletion deduction allowed by section 611 on property used to produce investment income. Attach Form T if a deduction is claimed for depletion of timber.

16. Trade or business deductions.—Enter total deductions attributable to any trade or business (other than an insurance business), the income from which is included in the mutual insurance company's gross investment income by reason of section 822(b)(2). Do not include losses (a) from sales or exchanges of capital assets, (b) from sales or exchanges of property used in the trade or business, or (c) from the compulsory or involuntary conversion of property used in the trade or business.

17. Interest paid or accrued.—Enter the amount of interest paid or accrued during the taxable year on the company's indebtedness, except on indebtedness incurred or continued to purchase or carry obligations on which the interest is wholly exempt from taxation. (Section 265.)

18. Other capital losses.—Enter losses from capital assets sold or exchanged to provide funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders. Capital assets are considered as sold or exchanged to provide for such funds or payments to the extent that the gross receipts from their sale or exchange are not greater than the excess, if any, for the taxable year of the sum of: (a) dividends and similar distributions paid to policyholders, (b) losses paid, and (c) expenses paid, over: (1) amount on line 7, and (2) net premiums received. (See Schedule A-3.)

19. Total deductions:

(a) Limitation on deductions relating to real estate owned and occupied.—The deductions included on lines 12,

13, and 14 for real estate owned and occupied in whole or in part by the company are limited to an amount which bears the same ratio to those deductions (computed without regard to section 822(d)(1)) as the rental value of the space not so occupied bears to the rental value of the entire property. (Attach a schedule.)

(b) Items not deductible.—No deduction is allowable for any amount allocable to a class of exempt income other than exempt interest income. Items directly attributable to wholly exempt income must be allocated to such income, and items directly attributable to any class of taxable income must be allocated to taxable income.

If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion of the item, determined in the light of all the facts and circumstances in each case, must be allocated to each.

Attach a statement showing (1) the amount of each class of exempt income, and (2) the amount of expense items allocated to each such class. Show the amount allocated by apportionment separately.

21. Dividends-received deduction.—See instructions for Schedule E, Part II.

The 85% limitation on the dividends-received deduction does not apply for any year in which there is a loss from taxable investment income.

SCHEDULE A-2.—Alternative Tax for Certain Small Companies

Section 821(c) provides an alternative tax for companies if the gross amount reported on line 7, Schedule A, plus premiums, is over \$150,000 but not over \$500,000.

The term "premiums" means the total amount of the premiums and other consideration provided in the insurance contract without any deduction for commissions, return premiums, reinsurance, dividends to policyholders, dividends left on deposit with the company, discounts on premiums paid in advance, interest applied in reduction of premiums (whether or not required to be credited in reduction of premiums under the terms of the contract), or any other item of a similar nature.

Such term includes advance premiums, premiums deferred and uncollected, and premiums due and unpaid, deposits, fees, assessments, and consideration in respect of assuming liabilities under contracts not issued by the taxpayer (such as a payment or transfer of property in an assumption reinsurance).

ance transaction), but does not include amounts received from other insurance companies for losses paid under reinsurance contracts. (See section 1.821-4(a)(1)(ii) of the regulations.)

Any mutual insurance company that is subject to the tax imposed by section 821(c) may elect to be subject to the tax imposed by section 821(a). See section 821(d) and the regulations thereunder for election to include statutory underwriting income or loss.

The alternative tax is not available to a company that has a balance in its protection against loss account at the beginning of the taxable year, or to a company that has an election in effect under section 821(d) to be taxed under section 821(a).

SCHEDULE A-3.—Other Capital Losses

Total gross receipts from sales of capital assets, line 10, column 3, should not exceed the amount shown on line 9. If necessary, gross receipts from a particular sale of a capital asset should be apportioned in the above schedule and the excess reported in separate Schedule D (Form 1120).

Except for the apportionment, sales reported in this schedule should not be reported in separate Schedule D.

Enter total other capital losses (line 10, column 7) as line 18, Schedule A and line 13, Schedule B-1.

SCHEDULE B-1.—Income and Deductions

1. Investment income.—To all interest, dividends, and rents received during the taxable year, add interest, dividends, and rents due and accrued at the end of the preceding taxable year.

2. Premiums earned.—From the amount of gross premiums written on insurance contracts during the taxable year, deduct return premiums and premiums paid for reinsurance. To the result so obtained, add unearned premiums on outstanding business at the end of the preceding taxable year and deduct unearned premiums on outstanding business at the end of the taxable year.

3(a). Gain from sale or other disposition of capital assets.—Enter the amount of gain (only) from the sale or other disposition of capital assets from Schedule D (Form 1120).

3(b). Ordinary gain.—For reporting sales or exchanges of property (other than capital assets) including involun-

tary conversions, see Form 4797, Supplemental Schedule of Gains and Losses.

5. Decrease in subscriber accounts.—Enter the amount of the decrease for the taxable year in savings credited to subscriber accounts of an interinsurer or reciprocal underwriter. See instruction 20 for Schedule B-1 for savings credited to subscriber accounts.

Deductions

7. Salaries and wages.—Enter the amount of salaries and wages paid or accrued during the taxable year.

8. Rents.—Enter the amount of rent paid or accrued for business property in which the company has no equity.

9. Interest.—Do not include interest on indebtedness incurred or continued to purchase or carry obligations on which the interest is wholly exempt from income tax. (Section 265.)

See section 267 for the limitation on deductions for unpaid expenses and interest in the case of transactions between related taxpayers.

10. Taxes.—Enter taxes paid or accrued during the taxable year and attach a schedule showing the type and amount of tax. Do not include Federal income tax, foreign or U.S. possession income taxes if a foreign tax credit is claimed, or taxes not imposed upon the corporation.

See section 164(d) for apportionment of taxes on real property between seller and purchaser.

11. Losses incurred on insurance contracts.—To losses paid during the taxable year, add salvage and reinsurance recoverable outstanding at the end of the preceding taxable year and deduct salvage and reinsurance recoverable outstanding at the end of the taxable year. To this result, add all unpaid losses outstanding at the end of the taxable year and deduct unpaid losses outstanding at the end of the preceding taxable year.

12. Capital losses.—Enter only capital losses to the extent of capital gains from separate Schedule D (Form 1120). Capital gains should be entered on line 3. (Also, see instruction 8 for Schedule A.)

13. Other capital losses.—Enter the amount of losses from capital assets sold or exchanged to provide funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders. (Also, see instruction 18 for Schedule A.)

14. Worthless agency balances and bills receivable.—Enter the amount of debts in the nature of agency balances and bills receivable that became worthless during the taxable year.

15. Interest.—Enter the amount of interest earned during the taxable year that is excluded from gross income under section 103.

16. Depreciation.—See instructions for Schedule F.

17. Depletion.—See instruction 15 for Schedule A.

18. Contributions.—Enter contributions or gifts paid within the taxable year to or for the use of charitable and governmental organizations described in section 170(c) and any unused contributions carried over from prior years.

Corporations on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3d month after the end of the taxable year if the contributions are authorized by the board of directors during the taxable year.

A declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the board of directors during the taxable year, and a copy of the resolution, must both be attached to the return.

The total amount claimed may not exceed 5% of line 24, Schedule B-1, computed without regard to any deduction for contributions.

Charitable contributions in excess of the 5% limitation may not be deducted for the taxable year but may be carried over to the next 5 taxable years.

Attach a schedule showing the name of each organization and the amount paid. If a contribution is made in property other than money, describe the kind of property contributed and the method used in determining its fair market value. If a contribution carryover is included, show the amount and how it was determined.

Special rule for contributions of certain property.—If you make a charitable contribution of property, the contribution must be reduced by the sum of

- (1) the ordinary income and
- (2) for certain contributions, 62½% of the long-term capital gain,

that would have resulted if the property were sold at its fair market value. The reduction for 62½% of the long-term capital gain applies to (1) contri-

butions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for its exemption, and (2) contributions of any property to or for the use of certain private foundations. (Section 170(e).)

Bargain sale to a charitable organization.—If you take a charitable contribution deduction for property sold to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

19. Dividends paid or declared to policyholders.—Enter the amount of dividends and similar distributions paid or declared to policyholders.

20. Increase in subscriber accounts.—In the case of a mutual insurance company which is an interinsurer or reciprocal underwriter, a deduction is allowed for the increase in savings credited to subscriber accounts for the taxable year.

The term "savings credited to subscriber accounts" means such portion of the surplus credited to the individual accounts of subscribers on or before March 15, 1975. This applies only if the company would be obligated to pay such amount promptly to a subscriber if he terminated his contract at the close of the company's taxable year and only if the subscriber has been notified as required by section 1.823-6(c)(2)(v) of the regulations. For purposes of determining his taxable income, the subscriber must treat any such savings credited to his account as a dividend paid or declared.

21(a). Pension, profit-sharing, etc. plans.—File Form 4848 with a Schedule A (Form 4848) and Form 4849 on or before the 15th day of the 5th month following the close of your taxable year if you have adopted a pension, profit-sharing, or other funded deferred compensation plan.

21(b). Employee benefit programs.—Enter the amount of your contributions to employee benefit programs (e.g., insurance, health, and welfare programs) that are not an incidental part of a pension, profit-sharing, etc. plan included on line 21(a).

25. Dividends received deduction.—See instructions for Schedule E, Part II.

The 85% limitation on the dividends received deduction does not apply to any year in which there is a loss from statutory underwriting income.

SCHEDULE B-2.—Special Deduction

In the case of a taxpayer subject to the tax imposed by section 821(a), section 823(c) provides that if the gross amount received during the taxable year from the items described in section 822(b) (other than paragraph (1) (D)) and premiums (including deposits and assessments) is less than \$1,100,000, then there is allowed an additional deduction for the purposes of determining statutory underwriting income or loss under section 823(a) for the taxable year.

For definition of "premiums" see instructions for Schedule A-2.

SCHEDULE E.—Dividends

Part I.—Dividend Income

1. Certain domestic corporations.—Enter dividends received from domestic corporations subject to income tax and which are subject to the 85% deduction under section 243(a)(1).

So-called dividends or earnings from mutual savings banks, etc., are really interest and should not be treated as dividends.

For dividends received from a regulated investment company, see section 854 for the amount subject to the 85% deduction.

2. Certain public utility corporations.—Enter dividends received on the preferred stock of a public utility that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

3. Certain foreign corporations.—Enter dividends received from foreign corporations and which qualify for the 85% deduction provided in section 245(e).

Enter dividends received from wholly-owned foreign subsidiaries and which are eligible for the 100% deduction provided in section 245(b).

In general, this deduction applies to dividends paid out of the earnings and profits of a foreign corporation for a taxable year during which (1) all of its outstanding stock is owned (directly or indirectly) by the domestic corporation receiving the dividends and (2) all of its gross income from all sources is effectively connected with the conduct of a trade or business within the U.S.

If dividends received from wholly-owned foreign subsidiaries are included in line 3, attach a schedule showing the amount of these dividends.

4. Certain affiliated groups.—Enter only those dividends which are subject

to the elective provisions of section 243(b).

5. Other corporations.—Attach a schedule showing separately:

(a) Foreign dividends (including minimum distributions under subpart F) not reportable on line 3. Exclude distributions of amounts constructively taxed in the current year or in prior years under subpart F.

(b) Income constructively received from controlled foreign corporations under subpart F. This amount should equal the total of amounts reported in Schedule A, line 5 of Form(s) 3646.

(c) Gross-up dividends for taxes deemed paid under sections 902 and 960.

(d) Dividends (other than capital gain dividends) received from regulated investment companies and which are not subject to the 85% deduction; dividends from tax-exempt organizations; dividends (other than capital gain dividends) received from a real estate investment trust which, for the taxable year of the trust in which the dividends are paid, qualifies under sections 856-858; dividends not eligible for a dividends-received deduction because of the holding period of the stock or an obligation to make corresponding payments with respect to similar stock; and any other taxable dividend income not properly reported above.

Part II.—Dividends-received deduction

3. Dividends received from certain foreign corporations.—Enter 85% of dividends received from certain foreign corporations.

Enter on this line 100% of the company's share of dividends received from wholly-owned foreign subsidiaries and which are eligible for the 100% deduction provided in section 245(b).

See section 245 for qualifications and limitations on the amount of these deductions.

4. Total.—This total is subject to the 85% limitation provided by section 246(b) as follows:

(a) Schedule A.—The line 4 total may not exceed 85% of (line 20, Schedule A, less line 5, Schedule E, Part II).

(b) Schedule B-1.—The line 4 total may not exceed 85% of (line 24, Schedule B-1, less line 5, Schedule E, Part II).

5. Dividends received from certain members of affiliated groups.—Members of affiliated groups may elect under section 243(b) to deduct 100% of the qualifying dividends received from

other members of the same group. Qualifying corporations which elect to take the 100% deduction are limited to one \$25,000 surtax exemption which must be apportioned under section 1561 among the members of the controlled group. See section 243(b) for qualifications and restrictions applicable to this deduction.

SCHEDULE F.—Depreciation

Complete Schedule F if you claim a deduction for depreciation of property, leasehold improvements, patents, or copyrights. Form 4562, Depreciation, may be used as a supplement to Schedule F.

Class Life (ADR) System and Guideline Class Life System.—If depreciation is computed by using the Class Life (ADR) System or the Guideline Class Life System, you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System) with your return. For more information, see instructions for Form 4832, Form 5006, and Publication 534.

Salvage value.—Salvage value must be taken into account in determining the depreciation deduction except under the declining balance method, Class Life (ADR) System, or Guideline Class Life System. For personal property (other than livestock) with a useful life of 3 years or more, salvage value may be reduced by an amount not in excess of 10% of the cost or other basis of the property. Property cannot be depreciated below a reason-

able salvage value after you make the above salvage value reduction.

(a) Tangible property other than real property.—Tangible personal property, whether new or used, may be depreciated under the straight line method or the 150% declining balance method.

New tangible personal property with a useful life of 3 years or more may also be depreciated under (1) the double declining balance method, (2) the sum of the years-digits method, or (3) any other method that does not result in accumulated allowances at the end of any year (during the first two-thirds useful life of the property) greater than the total that could have been deducted if the double declining balance method had been used.

(b) New section 1250 property.—The double declining balance and sum of the years-digits methods may be used only for new residential rental property from which at least 80% of the gross rental income is derived from rental of residential units. Other new real property may be depreciated under the straight line or 150% declining balance methods.

(c) Used section 1250 property.—Used residential rental property with a useful life of 20 years or more may be depreciated under the 125% declining balance method. Other used real property may be depreciated under the straight line method.

(d) Rehabilitation expenditures for low-income rental housing.—You may elect to compute the depreciation deduction under section 167(k) for reha-

ilitation expenditures incurred for low-income rental housing under the straight line method using a useful life of 60 months and no salvage value in lieu of any other method of computing depreciation. For details, see section 167(k).

(e) Section 179—Additional first-year depreciation allowance.—For the first year a depreciation deduction is allowable, corporations may elect to write off 20% of the cost (before adjustment for salvage value) of new or used tangible personal property with a useful life of 6 years or more, up to an aggregate cost of \$10,000.

If the additional first-year allowance is elected, the basis of the property must be reduced by the amount of the deduction before computing the ordinary depreciation.

SCHEDULE G.—Compensation of Officers

Complete column 6 of Schedule G for your 6 highest paid officers. To determine the highest paid officers, add all allowances, including expense account allowances, to each officer's compensation. Expense account allowance means (1) amounts, other than compensation, received as advances or reimbursements, and (2) amounts paid by or for the corporation, for expenses incurred by or on behalf of an officer. Column 6 does not have to be completed for any officer for whom the combined amount is less than \$30,000.

The Internal Revenue Service does not require a seal on this form, but if one is used, please place it here.

[illegible]

Schedule K Computation of Undistributed Taxable Income and Summary of Distributions and Other Items

Computation of Corporation's Undistributed Taxable Income

- 1 Taxable income (line 28, page 1)
- 2 Less: (a) Money distributed as dividends out of earnings and profits of the taxable year
- (b) Tax imposed on certain capital gains (line 31, page 1)
- 3 Corporation's undistributed taxable income

Summary of Distributions and Other Items (attach additional sheets if necessary)

1. Name and address of each shareholder	2. Social security number	3. Stock ownership		4. Compensation	5. Percentage of time devoted to business
		Number of shares	Period held From To		
A					
B					
C					
D					

- 4 Actual dividend distributions taxable as ordinary income (Do not include amounts shown on line 6)
- 5 Actual dividend distributions taxable as long-term capital gains (after tax)*
- 6 Actual dividend distributions taxable as ordinary income and qualifying for dividend exclusion
- 7 Nondividend distributions
- 8 Undistributed taxable income—taxable as ordinary income or (loss)
- 9 Undistributed taxable income—taxable as long-term capital gain (after tax)*

*Each shareholder must be notified of his pro rata share of long-term capital gains that may qualify as subsection (d) gain. See section 1201(d).

10 Interest on investment indebtedness:

- (a) Investment interest expense
- (b) Net investment income or (loss)
- (c) Excess expenses over rental income attributable to net lease property
- (d) Excess of net long-term capital gains over net short-term capital losses attributable to investment property

11 Items of tax preference:

- (a) Accelerated depreciation on:
- (1) Low-income rental housing
- (2) Other real property
- (3) Personal property subject to a net lease

(b) Amortization of:

- (1) Certified pollution control facilities
- (2) Railroad rolling stock
- (3) On-the-job training facilities
- (4) Child care facilities

(c) Reserves for losses on bad debts of financial institutions

(d) Excess percentage depletion

(e) Net long-term capital gain (after tax)

12 Investment credit property:

- Basis of new property
- (a) 3 or more but less than 5 years
- (b) 5 or more but less than 7 years
- (c) 7 or more years

- Cost of used property
- (d) 3 or more but less than 5 years
- (e) 5 or more but less than 7 years
- (f) 7 or more years

Additional Information Required

- F Date incorporated
- G Did you at the end of the taxable year own, directly or indirectly, 50% or more of the voting stock of a domestic corporation? ☐ Yes ☐ No.

(For rules of attribution, see section 267(c).)
If the answer is "Yes," attach a schedule showing:
(a) name, address, and employer identification number; and
(b) percentage owned.

- H Did you have any contracts or subcontracts subject to the Renegotiation Act of 1951? ☐ Yes ☐ No. If "Yes," enter the aggregate gross dollar amount billed during the year

- I Taxable income or (loss) from line 28, page 1, Form 1120S for your taxable year beginning in: 1971; 1972; 1973

- J Refer to page 7 of instructions and state the principal:
Business activity
Product or service

- K Were you a member of a controlled group subject to the provisions of section 1561 or 1562? ☐ Yes ☐ No

- L Did you claim a deduction for expenses connected with:

- (1) Entertainment facility (boat, resort, ranch, etc.)? ☐ Yes ☐ No
- (2) Living accommodations (except for employees on business)? ☐ Yes ☐ No
- (3) Employees' families at conventions or meetings? ☐ Yes ☐ No
- (4) Employee or family vacations not reported on Form W-2? ☐ Yes ☐ No

- M Did you file all required Forms 1087, 1096, and 1099? ☐ Yes ☐ No

- N Did the corporation, at any time during the taxable year, have any interest in or signature or other authority over a bank, securities, or other financial account in a foreign country? ☐ Yes ☐ No

- O Answer only if (1) this is the first 1120S return filed since your election to be treated as a small business corporation and (2) the corporation was in existence for the taxable year prior to the election and had investment credit property: Was an agreement filed under section 1.47-4(b) of the regulations? ☐ Yes ☐ No

Schedule K-1 Shareholder's Share of Undistributed Taxable Income, etc. (Complete a separate Schedule K-1 (Form 1120S) for each shareholder. Attach Copy A to Form 1120S. Give Copy B to the shareholder. Keep Copy C for your records.)

Schedule L Balance Sheets

ASSETS	Beginning of taxable year		End of taxable year	
	(A) Amount	(B) Total	(C) Amount	(D) Total
1 Cash				
2 Trade notes and accounts receivable				
(a) Less allowances for bad debts				
3 Inventories				
4 Gov't obligations: (a) U.S. and instrumentalities				
(b) State, subdivisions thereof, etc.				
5 Other current assets (attach schedule)				
6 Loans to shareholders				
7 Mortgage and real estate loans				
8 Other investments (attach schedule)				
9 Buildings and other fixed depreciable assets				
(a) Less accumulated depreciation				
10 Depletable assets				
(a) Less accumulated depletion				
11 Land (net of any amortization)				
12 Intangible assets (amortizable only)				
(a) Less accumulated amortization				
13 Other assets (attach schedule)				
14 Total assets				
LIABILITIES AND SHAREHOLDERS' EQUITY				
15 Accounts payable				
16 Mtgs., notes, bonds payable in less than 1 year				
17 Other current liabilities (attach schedule)				
18 Loans from shareholders				
19 Mtgs., notes, bonds payable in 1 year or more				
20 Other liabilities (attach schedule)				
21 Capital stock				
22 Paid-in or capital surplus				
23 Retained earnings—appropriated (attach schedule)				
24 Retained earnings—unappropriated				
25 Shareholders' undistributed taxable income previously taxed				
26 Less cost of treasury stock				
27 Total liabilities and shareholders' equity				

Schedule M-1 Reconciliation of Income Per Books With Income Per Return

1 Net income per books	7 Income recorded on books this year not included in this return (itemize)
2 Federal income tax	(a) Tax-exempt interest \$
3 Excess of capital losses over capital gains	
4 Taxable income not recorded on books this year (itemize)	8 Deductions in this tax return not charged against book income this year (itemize)
5 Expenses recorded on books this year not deducted in this return (itemize)	9 Total of lines 7 and 8
6 Total of lines 1 through 5	10 Income (line 28, page 1)—line 6 less line 9

Schedule M-2 Analysis of Unappropriated Retained Earnings Per Books (line 24 above)

1 Balance at beginning of year	5 Distributions out of current or accumulated earnings and profits: (a) Cash
2 Net income per books	(b) Stock
3 Other increases (itemize)	(c) Property
	6 Current year's undistributed taxable income or net operating loss (total of lines 8 and 9, Schedule K)
	7 Other decreases (itemize)
	8 Total of lines 5, 6, and 7
4 Total of lines 1, 2, and 3	9 Balance at end of year (line 4 less line 8)

1974 Department of the Treasury Internal Revenue Service

Instructions for Form 1120S

U.S. Small Business Corporation Income Tax Return

(References are to the Internal Revenue Code.)

General Instructions

A. Who must file Form 1120S.—Every small business corporation (as defined in section 1371(a)) that has filed a proper and timely election under section 1372(a) not to be subject to the income tax imposed by chapter 1 (other than by sections 56 and 1378) must file Form 1120S. See Form 2553.

B. Consents of shareholders.—Consents of all shareholders must be included on the election form (Form 2553) notifying the Service Center Director of the election, or included as attachments to the election form. If the election was made before the first day of the taxable year, the consents of the persons, who became shareholders after the date of election and on or before such first day, must be filed with the Service Center Director with whom the election was filed as soon as practicable after the first day and no later than the last day prescribed for making the election. Copies of the latter consents must be attached to Form 1120S when the return is filed.

New shareholders (any person who was not a shareholder on the first day of the first taxable year for which the election is effective, or on the day on which the election is made, whichever is later) must consent to the election. The statement of consent of new shareholders must be filed with the Service Center Director with whom the election was filed within a period of 30 days after they become shareholders or the election is automatically terminated. Copies of the consents must also be attached to the return.

C. Termination or revocation.—The election by the corporation is automatically terminated: (1) if a new shareholder does not consent to the election as explained in B above; (2) if it ceases to be a small business corporation as defined in section 1371(a); (3) if it derives more than 80% of its gross receipts from sources outside the U.S.; or (4) if it has gross receipts more than 20% of which is passive investment income (defined in section 1372(e)(5)(C)), except during the first 2 taxable

years of active conduct of any trade or business if passive investment income is less than \$3,000. This termination is effective for the taxable year in which any one of the foregoing occurs and for all succeeding taxable years of the corporation (section 1372(e)).

The election may be revoked for any taxable year after the first taxable year for which the election is effective. An election to revoke may be made only if all persons who are shareholders on the day on which the revocation is made consent to the revocation. The revocation is effective (1) for the taxable year in which made, if made before the close of the first month of the taxable year, or (2) for the taxable year following the taxable year in which made, if made after the close of the first month; and for all succeeding taxable years. The revocation is to be made in the manner prescribed by section 1.1372-4 of the regulations.

If the small business corporation has made an election under section 1372(a) and the election has been terminated or revoked, the corporation is not eligible to make the election again under section 1372(a) for 5 years unless the Commissioner consents.

D. Period to be covered by 1974 return.—File the 1974 return for calendar year 1974 and fiscal years beginning in 1974 and ending in 1975. If the return is for a fiscal year, fill in the taxable year space on the form.

FINAL RETURNS.—If the corporation ceases to exist, write "FINAL RETURN" at the top of the form.

E. When to file.—In general, Form 1120S must be filed on or before the 15th day of the 3d month after the end of the taxable year.

You may request an automatic 3-month extension to file Form 1120S by filing Form 7004.

Form 7005 may be used to request an additional extension but only by corporations that have previously obtained an automatic 3-month extension by filing Form 7004.

F. Where to file.

If the corporation's principal business office, or agency is located in:

Use the following Internal Revenue Service Center address:

New Jersey, New York City, and counties of Nassau, Rockland, Suffolk, and Westchester 1040 Waverly Avenue
Chambers, N.Y. 11799

New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont 310 Lowell Street
Andover, Mass. 01812

Alabama, Florida, Georgia, Mississippi, South Carolina 4800 Buford Highway
Chamblee, Georgia 30006

Michigan, Ohio 45298

Arkansas, Kansas, Louisiana, Missouri, Nebraska, Oklahoma, Texas 3551 S. Interregional Highway
Austin, Texas 78740

Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming 1160 West 1200 South
Salt Lake City, Utah 84201

Illinois, Iowa, Missouri, Wisconsin 2306 E. Bennett Road
Kansas City, Mo. 64179

California, Hawaii 5045 East Butler Avenue
Fresno, California 93888

Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia 2111 Democrat Road
Memphis, Tenn. 38110

Delaware, District of Columbia, Maryland, Pennsylvania 11601 Roosevelt Boulevard
Philadelphia, Pa. 19155

Rounding off to whole-dollar amounts.—The money items may be shown as whole-dollar amounts by eliminating any amount less than 50 cents and increasing any amount from 50 cents through 99 cents to the next higher dollar.

J. Information returns that may be required.—

Form 1096.—Annual summary and transmittal of U.S. information returns.

Forms 1099—DIV, INT, MED, MISC, OID, PATR, and R.—Information returns for reporting certain dividends, interest income, medical and health care payments, miscellaneous income, original issue discount, patronage dividends, and lump-sum distributions from profit-sharing and retirement plans.

Actual dividend distributions taxable as ordinary income, actual dividend distributions taxable as long-term capital gains (after tax), nondividend distributions, and dividends qualifying for the dividend exclusion must be reported on Form 1099-DIV.

Constructive dividends (undistributed taxable income) do not have to be reported on Form 1099-DIV but must be reported on Schedule K-1 (Form 1120S).

Forms 966 and 1099L.—Information returns regarding dissolution or liquidation, and distributions in liquidation.

K. Stock ownership in foreign corporations.—If you owned 5% or more in value of the outstanding stock of a foreign personal holding company, attach the statement required by section 551(d).

If you controlled a foreign corporation or were a 10% or more shareholder of a controlled foreign corporation, you may be required to file Forms 2952 and 3646.

L. Balance sheets.—The balance sheets must agree with your books and records. Any differences must be reconciled. Copies of balance sheets required by Federal, State, etc., authorities may be used in place of Schedule L. Certificates of deposit should be included as cash on line 1 of the balance sheet.

M. Net operating loss and other deductions.—The deduction for net operating losses provided by section 172 and the special deductions in Part VIII (except section 248) of subchapter B are not allowed to an electing small business corporation. (Section 1373(d).)

N. Attachments.—You may use attachments if the lines on the form schedules are not sufficient. They must 2

contain all the required information, must follow the format of the official schedules, and must be attached to the return in the same sequence as the schedules appear on the official form.

If an attachment is used in place of a schedule having a summary line on page 1, the total need not be entered on the schedule but must be entered on page 1.

Enter your name and identifying number on all attachments exactly as shown on your preaddressed label.

O. Signature.—The return must be signed by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or any other corporate officer (such as tax officer) authorized to sign.

A receiver, trustee, or assignee must sign any return he is required to file on behalf of a corporation.

P. Transfers to corporation controlled by transferor.—If a person acquires stock or securities of a corporation in exchange for property, and no gain or loss is recognized under section 351, the transferor and transferee must attach the information required by section 1.351-3 of the regulations.

Q. Penalties.—

1. A corporation that fails to file its tax return by the prescribed due date including any extensions of time for filing may be subject to a penalty of 5% a month, up to a maximum of 25%, for each month the return is not filed (the penalty is imposed on the net amount due—section 6651(a)(1)).

2. A corporation that fails to pay the tax when due may be subject to a penalty of 1/2% a month or fraction of a month, up to a maximum of 25%, for each month the tax is not paid (the penalty is imposed on the net amount due—section 6651(a)(2)).

The above penalties will not be imposed if the corporation can show that the failure to file or to pay was due to reasonable cause and not to willful neglect.

These penalties are in addition to the 6% a year interest charge imposed on unpaid tax.

Specific Instructions

(Numbered to correspond with the line numbers on page 1 of the return.)

Gross Income

1. **Gross receipts.**—Enter gross receipts or sales from all business operations except those required to be reported on lines 4 through 10.

For reporting advance payments and long-term contracts, see section 1.451-5 of the regulations.

If you use the installment method of reporting, enter on line 1 the gross profit on collections from installment sales and carry the same amount to line 3. Attach a schedule showing for the current and 3 preceding years: (a) gross sales, (b) cost of goods sold, (c) gross profit, (d) percentage of gross profit to gross sales, (e) amount collected, and (f) gross profit on amount collected.

2. **Cost of goods sold.**—The method of valuing inventories may not be changed without permission. Application for permission to change must be made on Form 3115.

If you elect to use the last-in first-out (LIFO) method of valuing inventory provided in section 472, attach Form 970 or a statement that contains the information required by Form 970 to your return for the first year that method is to be used.

Full absorption method of inventory costing.—Taxpayers engaged in manufacturing or production operations must use the full absorption method of inventory costing. If they are not using the full absorption method of inventory costing, they must change to this method under which both direct and certain indirect production costs are included for inventory value purposes.

A special election is provided so that taxpayers will not have to change to the full absorption method for taxable years prior to the year for which the election is made. The election may be made by filing Form 3115 during the first 180 days of any taxable year beginning on or after September 19, 1973 and before September 19, 1975. The change shall be made for the taxable year in which the election is made. For further details, see section 1.471-11 of the regulations.

Cost of operations (where inventories are not an income-determining factor).—If the amount entered on line 2 includes an amount applicable to cost of operations, attach a schedule showing (1) salaries and wages and (2) other costs in detail.

6. **Other interest.**—Enter interest on loans, notes, mortgages, bonds, bank deposits, corporate bonds, etc.

Do not offset interest income against interest expense.

7. **Gross rents.**—Enter the gross amount received for the rent of property. Deduct expenses such as repairs, interest, taxes, and depreciation in the proper lines for deductions.

9. Sales or exchanges of capital assets and other property.—See separate Schedule D (Form 1120S), and Form 4797, Supplemental Schedule of Gains and Losses.

If line 9(b) exceeds \$25,000, see instructions for Schedule J—Tax Computation.

Every sale or exchange of a capital asset must be reported in detail in Schedule D (Form 1120S) even though no gain or loss is indicated.

10. Other income.—The attached schedule should include recoveries of bad debts deducted in prior years under the specific charge-off method. Refunds of taxes deducted in prior years should be reported here and not offset against current year's taxes.

If "other income" consists of only one item, you may identify it by showing the account caption in parentheses on line 10.

Deductions

12. Compensation of officers.—Complete column 7 of Schedule E for your 6 highest paid officers. To determine the highest paid officers, add all allowances, including expense account allowances, to each officer's compensation. Expense account allowance means (1) amounts, other than compensation, received as advances or reimbursements and (2) amounts paid by or for the corporation for expenses incurred by or on behalf of an officer. Column 7 does not have to be completed for any officer for whom the combined amount is less than \$30,000.

14. Repairs.—Enter the cost of incidental repairs, such as labor and supplies, that do not add to the value or appreciably prolong the life of the property.

Include on this line the total amount of repairs from Form 4832.

15. Bad debts.—Bad debts may be treated in either of two ways—(1) as a deduction for debts that become worthless in whole or in part, or (2) as a deduction for a reasonable addition to a reserve for bad debts. (Section 166.)

Application to change the method of computing bad debts must be made on Form 3115.

17. Taxes.—Enter taxes paid or accrued during the taxable year and attach a schedule showing the type and amount of tax.

Do not include Federal income tax or taxes not imposed on the corporation. See section 164(d) for apportionment of taxes on real property between seller and purchaser.

18. Interest.—Enter interest expense, including investment interest expense, but do not include interest on indebtedness incurred or continued to purchase or carry obligations on which the interest is wholly exempt from income tax. (Section 265.)

See section 267 for limitation on deductions for unpaid expenses and interest on transactions between related taxpayers.

19. Contributions.—Enter contributions or gifts actually paid within the taxable year to or for the use of charitable and governmental organizations described in section 170(c) and any unused contributions carried over from prior years.

The total amount claimed may not exceed 5% of taxable income (line 28, page 1) computed without regard to this deduction.

Charitable contributions in excess of the 5% limitation may not be deducted for the taxable year but may be carried over to the next 5 taxable years.

Corporations on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3d month after the end of the taxable year if the contributions are authorized by the board of directors during the taxable year. A declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the board of directors during the taxable year, and a copy of the resolution, must both be attached to the return.

Attach a schedule showing the name of each organization and the amount paid. If a contribution is made in property other than money, describe the kind of property contributed and the method used in determining its fair market value. If a contribution carryover is included, show the amount and how it was determined.

Special rule for contributions of certain property.—If you make a charitable contribution of property, the contribution must be reduced by the sum of

- (1) the ordinary income and
- (2) for certain contributions, 62½% of the long-term capital gain,

that would have resulted if the property were sold at its fair market value. The reduction for 62½% of the long-term capital gain applies to (1) contributions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for its exemption, and (2) contributions of any property to or for the use of certain private foundations. (Section 170(e).)

Bargain sale to a charitable organization.—If you take a charitable contribution deduction for property sold to a charitable organization, the adjusted basis for determining gain from the sale is an amount which is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

20. Amortization.—If you claim a deduction for amortization, attach a schedule showing: (1) a description of the expenditures being amortized; (2) date acquired, completed, or expended; (3) amount being amortized; (4) amortization deducted in prior years; (5) amortization period (number of months); (6) amortization for this year; and (7) the total amount of amortization less the amount claimed in Schedule A.

See section 169 and related regulations for conditions under which the cost of certified pollution control facilities may be amortized over 60 months.

Also see section 188 for conditions under which the cost of certain expenditures for on-the-job training and child care facilities may be amortized over 60 months.

21. Depreciation.—Complete Schedule G if you claim a deduction for depreciation of property, leasehold improvements, patents, or copyrights. Form 4562, Depreciation, may be used as a supplement to Schedule G.

Salvage value.—Salvage value must be taken into account in determining the depreciation deduction except under the declining balance method, Class Life (ADR) System, or Guideline Class Life System. For personal property (other than livestock) with a useful life of 3 years or more, salvage value may be reduced by an amount not in excess of 10% of the cost or other basis of the property. Property cannot be depreciated below a reasonable salvage value after making the above salvage value reduction.

Tangible property other than real property.—Tangible personal property, whether new or used, may be depreciated under the straight line method or the 150% declining balance method.

New tangible property with a useful life of 3 years or more may also be depreciated under (1) the double declining balance method, (2) the sum of the years-digits method, or (3) any other method that does not result in accumulated allowances at the end of any year (during the first two-thirds useful life of the property) greater than the total that could have been deducted if the double declining balance method had been used.

3

New section 1250 property.—The double declining balance and sum of the years-digits methods may be used only for new residential rental property from which at least 80% of the gross rental income is derived from rental of residential units. Other new real property may be depreciated under the straight line or 150% declining balance methods.

Used section 1250 property.—Used residential rental property with a useful life of 20 years or more may be depreciated under the 125% declining balance method. Other used real property may be depreciated under the straight line method.

Rehabilitation expenditures for low-income rental housing.—You may elect to compute the depreciation deduction under section 167(k) for rehabilitation expenditures incurred for low-income rental housing under the straight line method using a useful life of 60 months and no salvage value in lieu of any other method of computing depreciation. For details, see section 167(k).

Section 179—Additional first-year depreciation allowance.—For the first year a depreciation deduction is allowable, corporations may elect to write off 20% of the cost (before adjustment for salvage value) of new or used tangible personal property with a useful life of 6 years or more, up to an aggregate cost of \$10,000.

Controlled corporate groups must apportion this \$10,000 amount among members of the group. For this purpose, section 179(d)(7) provides a special definition of controlled groups.

If the additional first-year allowance is elected, the basis of the property must be reduced by the amount of the deduction before computing the ordinary depreciation.

22. Depletion.—The percentage depletion rate for oil and gas wells is 22%. See section 613(b) for rates applicable to other natural deposits.

Attach Form T if a deduction is claimed for depletion of timber.

24. Pension, profit-sharing, etc. plans.—File Form 4848 with a Schedule A (Form 4848) and Form 4849, on or before the 15th day of the 5th month following the close of your taxable year, if you have adopted a pension, profit-sharing, or other funded deferred compensation plan.

If you have a profit-sharing or stock bonus plan, it will be disqualified unless it specifically states that plan foritures attributable to employer con-

tributions after 1970 tax years cannot benefit a shareholder-employee.

Taxability of shareholder-employee beneficiaries.—See section 1379(b) for inclusion of excess contributions in gross income of the shareholder-employee beneficiary. Also, see instructions for column 4 of Schedule K.

25. Employee benefit programs.—Enter the amount of your contributions to employee benefit programs (e.g. insurance, health and welfare programs) that are not an incidental part of a pension, profit-sharing, etc., plan included on line 24.

26. Other deductions.—No deduction is allowable for any amount allocable to a class of exempt income other than exempt interest income. Items directly attributable to wholly exempt income must be allocated to such income, and items directly attributable to any class of taxable income must be allocated to such taxable income.

If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion of the item, determined in the light of all the facts and circumstances in each case, must be allocated to each.

Attach a statement showing (1) the amount of each class of exempt income and (2) the amount of expense items allocated to each such class. Show the amount allocated by apportionment separately.

30. Minimum tax on tax preference items.—Electing small business corporations are subject to the minimum tax only with respect to the capital gains item of tax preference and only to the extent that the gains are subject to the tax imposed by section 1378. Corporations having such capital gains in excess of \$30,000 must attach Form 4626, Computation of Minimum Tax. This capital gains item of tax preference, after deducting a \$30,000 exemption, the amount of taxes imposed for the year, and tax carryovers to the taxable year, is taxed at a 10% rate.

All other items of tax preference, excluding capital gains, must be apportioned among the shareholders in a manner consistent with the way net operating losses are apportioned under section 1374(c)(1).

The capital gains are excluded from this apportionment since these gains are (1) passed through to the shareholders, (2) included in their income on Schedule D (Form 1040), to the extent provided under the rules in section 1375(a), and (3) included in the computation of the shareholders' capital gains tax preference.

SCHEDULE J

Tax Computation

Section 1378 imposes a tax on certain capital gains of an electing small business corporation.

If net long-term capital gain reduced by any net short-term capital loss (line 9(b), page 1) exceeds \$25,000 and you are not liable for the tax, attach an explanation why this tax does not apply. (Questions A through D in this section of the instructions may be answered and this page attached to your return as an explanation.)

By answering the following questions, you can determine if you are liable for the tax.

If the answers to Questions A, B, and C or Questions A, B, and D are "Yes," the tax applies and you must complete Schedule J—Tax Computation on page 2. Otherwise, you are not liable for the tax.

A. Does taxable income, line 28, page 1, exceed \$25,000? ☐ Yes ☐ No

B. Does net long-term capital gain reduced by any net short-term capital loss (line 9(b), page 1) exceed \$25,000, and exceed 50% of taxable income (line 28, page 1)? ☐ Yes ☐ No

C. Have you been other than an 1120S corporation at any time during the 3 immediately preceding taxable years or since existence if less than 4 years? ☐ Yes ☐ No

D. If answer to Question C is "No," does any long-term capital gain (line 6, Schedule D (Form 1120S)) represent gain from property described in items 1, 2, and 3 below? ☐ Yes ☐ No

1. Property acquired during the taxable year or within 36 months preceding the taxable year;

2. Property acquired, directly or indirectly, from a corporation that was not in existence as an 1120S corporation during the taxable year or within 36 months preceding the taxable year up to the time of the acquisition; and

3. Property having a substituted basis (basis determined by reference to its basis in the hands of the transferor corporation) to you?

If the answer to Question D is "Yes," and the tax is applicable, compute 30% (25% in certain situations) of the excess of the net long-term capital gain over the net short-term capital loss attributable to property described in Question D. If this amount is less than

4

the tax on line 2 or line 6, Schedule J, attach this computation to the return. Enter this amount on line 7 and note to the left of the amount, "Substituted Basis." (Section 1378(c)(3).)

In applying the provisions of section 1201(a), to line 5, Schedule J, the \$25,000 limitation on line 4 must first be deducted from the amount subject to tax as provided in section 1201(a)(1)(B) to the extent thereof; and then from the amount subject to tax as provided in section 1201(a)(1)(A). (Section 1378(b).)

Capital gains tax.—The capital gains tax rate for electing small business corporations is 30%. However, the 25% rate still applies to amounts received before 1975, from sales or other dispositions pursuant to binding contracts (excluding sections 631 and 1235) entered into on or before October 9, 1969, including installment sales described in section 453(a)(1). (See section 1201(d).)

For purposes of Questions C and D above, a corporation is not considered to be in existence for any taxable year that precedes the first taxable year in which the corporation has shareholders, acquires assets, or begins business, whichever occurs first.

If the corporation is a component member of a controlled group of corporations, see sections 1561, 1562 and 1564 and related regulations to determine the surtax exemption and tax computation for line 2, Schedule J. If the corporation (1) is a component member of a controlled group of corporations electing section 1562, (2) is filing for a taxable year beginning in 1974 and ending in 1975, and (3) is determining its income tax on capital gains on line 2, Schedule J, it must prorate its tax under the provisions of section 21. For details, see the regulations under section 21. Show the computation, including the proration of tax if applicable, on an attachment and enter the amount of such tax on line 2, Schedule J.

SCHEDULE K

Computation of Undistributed Taxable Income and Summary of Distributions and Other Items

Lines 1, 2, and 3.—Undistributed taxable income is taxable income less the sum of:

- (1) The taxes imposed by sections 56 and 1378(a), and
- (2) The amount of money distributed as dividends out of earnings and profits of the taxable year.

Distributions of money made within 2 months and 15 days after the close

of the corporation's taxable year are treated as distributions of that prior year's undistributed taxable income to the extent of the shareholders' pro rata shares.

Summary of Distributions and Other Items

Actual dividend distributions described on lines 4, 5, 6, and 7 of Schedule K should be reported on Form 1099-DIV. The amount shown on line 7 of Schedule K (nondividend distribution) should be entered in the space provided for nontaxable distributions on Form 1099-DIV.

If a prior actual distribution reported to shareholders as ordinary income on Form 1099-DIV is determined to be capital gain at the close of the corporation's taxable year, the corporation must issue amended Forms 1099-DIV. The amended Forms 1099-DIV should be given to the shareholders with their Schedule K-1 (Form 1120S).

The constructive dividends, as described on lines 8 and 9 of Schedule K, must be reported on Schedule K-1.

Column 3.—If the number of shares owned by a shareholder changed during the year, attach a statement showing the number of shares held for each period.

Column 4.—Enter the compensation paid to each shareholder including any excess contributions to a pension, profit-sharing, etc. plan made on behalf of a shareholder-employee. Excess contributions are those deductible by the corporation under section 404(a)(1), (2), or (3) over the lesser of:

- (1) 15% of the compensation received or accrued by the shareholder-employee from the corporation during its taxable year, or
- (2) \$7,500.

A shareholder-employee of the corporation is an employee or officer who owns (or is considered as owning under section 318(a)(1)) on any day of the taxable year of the corporation, more than 5% of its outstanding stock.

Line 4.—Enter the actual dividend distributions of money or property that are out of current earnings and profits and taxable as ordinary income. A dividend distribution of property does not reduce undistributed taxable income.

Line 5.—Enter actual dividend distributions that are to be treated by the shareholders as long-term capital gain after tax.

Line 6.—Only those dividends that are not considered to be out of the earnings and profits of the taxable year qualify for the dividend exclusion. For

purposes of this rule, the earnings and profits of the taxable year are deemed not to exceed taxable income for the year. The dividends entitled to the exclusion would include, for example, dividends paid out of accumulated earnings and profits.

Line 7.—Enter the total amount of distributions of money and property not out of earnings and profits.

For taxable years after the first taxable year to which the Subchapter S election applies, include any distribution of undistributed taxable income previously taxed to shareholders. (See section 1375(d).)

Distributions of money made within 2 months and 15 days after the close of the taxable year are treated as nondividend distributions of such year's undistributed taxable income to the extent they do not exceed the shareholders' shares of undistributed taxable income for such year. (See section 1375(f).)

Line 8.—Enter that portion of undistributed taxable income that is to be treated by the shareholders as ordinary income. The undistributed taxable income is the amount that the shareholders would have received as a dividend if such income had been distributed pro rata to them on the last day of the corporation's taxable year.

A dividend distribution of property other than money may cause the corporation's undistributed taxable income (line 3) to exceed the total of lines 8 and 9.

If there is a net operating loss for the taxable year, report it here.

Line 9.—Enter that portion of undistributed taxable income that is to be treated by the shareholders as long-term capital gain after tax.

The amount cannot exceed taxable income (line 28) for the taxable year computed as provided in section 1373(d).

Line 10. Interest on investment indebtedness.—The amount of interest on investment indebtedness that may be deducted by a shareholder is subject to a limitation. Interest on investment indebtedness, and the applicable items of: (1) net investment income or (loss), (2) excess expenses over rental income attributable to net lease property, and (3) excess net long-term capital gains over net short-term capital losses attributable to investment property, are taken into account in computing the corporation's taxable income in the regular manner. However, each shareholder must be notified as to his pro rata portion of these items so he

5

may compute the limitation at the shareholder level. (See Form 4952 and section 163(d).)

Line 11.—Enter the amount of each item of tax preference. These amounts are also taken into account in computing the taxable income of the corporation in the regular manner but are subject (with certain reductions) to a minimum tax at the shareholder level. (See instruction 30.) These amounts are to be taken into account by the shareholder along with similar items of tax preference from all other sources in preparing Form 4625, Computation of Minimum Tax.

SCHEDULE K-1

Shareholder's Share of Undistributed Taxable Income, etc.

Schedule K-1 (Form 1120S) must show complete information with respect to all persons who were shareholders of the corporation during any portion of the taxable year. Shareholders generally are taxed on their distributive shares of the current taxable income of the corporation, whether or not actually distributed. Since each shareholder is required to include his share in his individual return, he should be given Copy B of Schedule K-1. In addition to the undistributed taxable income, Schedule K-1 also includes each shareholder's pro rata share of items of tax preference, items used to compute the limitation for interest on investment indebtedness, property eligible for investment credit, and property subject to recapture of investment credit.

Report actual dividend distributions aggregating \$10 or more to a shareholder during the calendar year on Form 1099-DIV.

PART I.—Income

Line 1.—Enter each shareholder's pro rata share of undistributed taxable income that is taxable as ordinary income. This amount is to be reported by the shareholder on Schedule E (Form 1040). Each shareholder's share of a net operating loss is also reported on line 1 and on Schedule E (Form 1040).

Actual dividend distributions taxable as ordinary income must be reported on line 1, Part I, Schedule B (Form 1040).

Line 2.—Enter each shareholder's pro rata share of undistributed long-term capital gain after tax. This amount is to be reported by the shareholder on

6

Schedule D (Form 1040) as "net long-term gain from small business corporations (Subchapter S)."

Actual dividend distributions taxable as long-term capital gain must be reported on line 1, Part I, Schedule B (Form 1040).

Each shareholder is entitled to treat as long-term capital gain a portion of the sum of the dividends he received plus his share of undistributed taxable income. His portion is determined by applying to the excess of net long-term capital gain over net short-term capital loss (line 9(b), page 1) reduced by any tax (line 31) the same ratio that the amount of his dividends (actual and constructive), which are out of earnings and profits of the current year, bears to the total dividends (actual and constructive) includible by all shareholders from the same source.

In making the allocation, the excess of net long-term capital gain over net short-term capital loss (reduced by tax) cannot exceed taxable income (line 28, page 1).

PART II.—Interest on Investment Indebtedness

Each shareholder must be notified of his pro rata share of interest on investment indebtedness and the applicable items of: (1) net investment income or (loss), (2) excess expenses over rental income attributable to net lease property, and (3) excess net long-term capital gains over net short-term capital losses attributable to investment property. These items are combined with similar items from other sources to compute the shareholder's limitation on the deduction for interest incurred on investment indebtedness. (See Form 4952 and section 163(d).)

PART III.—Items of Tax Preference

All items of tax preference are taken into account by the shareholders, along with similar items from other sources, in preparing Form 4625, Computation of Minimum Tax. The items of tax preference, except capital gains, are apportioned to each shareholder on a daily basis and not as of the end of each year. This manner is consistent with the way net operating losses are apportioned under section 1374. (See section 1374 and instruction 30.)

PART IV.—Property Eligible for Investment Credit

Investment Credit.—Shareholders are allowed a tax credit on their indi-

vidual returns for their share of the corporation's investment in certain depreciable property. Shareholders claiming the credit must attach Form 3468 to their returns.

PART V.—Property Used in Recomputing a Prior Year Investment Credit

When property is disposed of prior to the "life years" assigned, each shareholder must be notified. He must recapture the amount by which the credit taken in a prior year or years exceeds the credit as recomputed due to the early disposition of the property. See section 1.47-4 of the regulations and instructions for Form 4255.

Credit for wages paid or incurred in Work Incentive (WIN) program.—Shareholders are allowed a WIN credit on their returns for their share of the WIN wages paid or incurred by the corporation. The credit is 20% of the salaries and wages paid or incurred by the corporation to employees hired under a WIN program. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. For special rules and limitations, see Form 4874 and sections 50A and 50B.

The corporation must attach a statement showing each shareholder's share of WIN wages for each WIN employee. This statement must also show each WIN employee's name, social security number, initial date of employment, and total WIN wage.

Shareholders must attach Form 4874 to their returns.

Tax from recomputing a prior year WIN credit.—If a WIN employee is dismissed before the end of the first 12 months of employment or during the following 12 calendar months, each shareholder must be given a statement showing his share of WIN wages attributable to each such WIN employee and the employee's name, social security number, and period of employment.

Each shareholder must add to his tax liability the prior credit taken with respect to each such WIN employee.

For exceptions and limitations, see Form 4874 and section 1.50A-5 of the regulations.

Single copies of Publication 334, Tax Guide for Small Business (1975 edition), may be obtained without cost from most IRS offices.

Computation of Investment Credit

1974

▶ Attach to your tax return.

Name _____ Identifying number as shown on page 1 of your tax return _____

1 Qualified investment in new and used property. (See instructions C and D for eligible property.)
NOTE: Include your share of investment in property made by a partnership, estate, trust, small business corporation, or lessor.

Type of property	Line	(1) Life years	(2) Cost or basis (See instruction G)	(3) Applicable percentage	(4) Qualified investment (Column 2 x column 3)
New Property	(a)	3 or more but less than 5		33 1/3	
	(b)	5 or more but less than 7		66 2/3	
	(c)	7 or more		100	
Used Property (See instructions for dollar limitation)	(d)	3 or more but less than 5		33 1/3	
	(e)	5 or more but less than 7		66 2/3	
	(f)	7 or more		100	

2 Total qualified investment.—Add lines 1(a) through 1(f).**3 Tentative investment credit.**—7% of line 2 (4% for public utility property).**4 Carryback and carryover of unused credit(s).** (See instruction F and instruction for line 4—attach computation.)**5 Total.**—Add lines 3 and 4.

Limitation

- 6 (a) Individuals.**—Enter amount from line 16, page 1, Form 1040.
(b) Estates and trusts.—Enter amount from line 24 or 25, page 1, Form 1041.
(c) Corporations.—Enter amount from line 5, Schedule J, Form 1120.
- 7 Less:** (a) Foreign tax credit.
(b) Retirement income credit (Individuals only).
(c) Tax on lump-sum distributions. (See instruction 7.)

8 Total.—Add lines 7(a), (b), and (c).**9 Line 6 less line 8.****10 (a)** Enter amount on line 9 or \$25,000, whichever is lesser. (Married persons filing separately, controlled corporate groups, estates, and trusts, see instruction for line 10.)

(b) If line 9 exceeds line 10(a), enter 50% of the excess.

11 Total.—Add lines 10(a) and (b).**12 Investment credit.**—Amount from line 5 or line 11, whichever is lesser (enter here and on line 50, Form 1040; line 6(b); Schedule J, Form 1120; or the appropriate line on other returns).

Schedule A

If any part of your investment in line 1 above was made by a partnership, estate, trust, small business corporation, or lessor, complete the following:

Name (Partnership, estate, trust, etc.)	Address	Property		
		New	Used	Life years
		\$	\$	

If property is disposed of prior to the life-years used in computing the investment credit, see instruction E.

Form 3468 (1974)

General Instructions

(References are to the Internal Revenue Code.)

A. Who Must File.—Any individual, estate, trust, or corporation claiming an investment credit must attach this form to its income tax return.

Partnerships and small business corporations are not required to file this form because the credit is claimed by the partners and shareholders, but they must complete Schedule K on their returns showing the allocation of investment credit property to the partners and shareholders.

The investment credit is not applicable to a Domestic International Sales Corporation (DISC) and does not pass through to any DISC shareholder.

An estate or trust is allowed a credit for its share of the investment in certain depreciable property with an estimated useful life of 3 or more years. Estates and trusts that apportion the investment between themselves and the beneficiaries should, in addition to filing this form, attach a statement showing the allocation of the investment among the beneficiaries. The statement must show each beneficiary's allocable share of (1) the basis of the new property and (2) the cost of used property, and the "life years" assigned to the property.

B. When Allowed.—The credit is allowed for the first year the qualified property is placed in service.**C. Property Defined.**—You are allowed a credit against your tax for investment in certain depreciable property with an estimated useful life of 3 years or more. Except as provided below, the investment credit is applicable to:

- (1) tangible personal property,
- (2) elevators and escalators,
- (3) real property (except buildings and their structural components) if used as an integral part of manufacturing, production, or extraction, etc., or used as a research facility or bulk storage facility for fungible commodities in connection with these activities, and
- (4) livestock (other than horses) if substantially identical livestock (not subject to recapture tax) is not sold or disposed of (except in

an involuntary conversion) during the one-year period beginning 6 months before the acquisition date. You must reduce the cost of the acquired livestock by the amount realized on the disposition of the substantially identical livestock.

The investment credit is not applicable to:

- (1) certain property used predominantly outside the U.S.;
- (2) property used for lodging or in connection with furnishing lodging, except (a) property used in certain commercial facilities located therein (such as a restaurant), (b) property used by a hotel or motel, or (c) coin-operated vending machines, washing machines, and dryers;
- (3) property used by a tax-exempt organization (except when the unrelated business income tax applies);
- (4) property used by governmental units; and
- (5) that portion of a pollution control facility, railroad rolling stock, coal mine safety equipment expenditures, rehabilitation of low income housing, job training facilities, or day care facilities (see sections 169, 184, 187, 187(h), 188, respectively) that the taxpayer has elected to amortize over a 5-year period.

D. Election for Leased Property.—A lessor may elect to treat all or part of an investment in new property as if made by the lessee instead of the lessor. (See section 48(d).) For limitation on availability of the credit to certain lessors, see section 46(d)(3).**E. Recomputed Tax on Early Disposition of Property.**—If property is disposed prior to the life-years category used in computing the investment credit, recompute the credit using as the useful life the period the property was actually held. In recomputing the credit, use the life year categories shown on page 1. If the credit taken, including carrybacks and

carryovers, is more than the recomputed credit, you must increase the tax for the year of disposition by the excess. You may use Form 4256 to compute the tax increase.

F. Carryback and Carryover of Unused Credits.—Any part of an investment credit you cannot use because it exceeds the amount allowable (including any unused credit created by the carryback of a net capital loss or a net operating loss) may be carried back 3 years and forward 7 and may be used to the extent permissible within the limitations applicable in those years.**Special rule for carryover of unused credits from taxable years ending before 1971.**—Unused credits from taxable years ending before 1971 that can be carried over to a taxable year beginning after 1970, may be carried forward for a total of 10 years.

Similarly, unused credits not absorbed because of the special 20% limitation on carryovers and carrybacks to years beginning after 1968 and before 1971 may also be carried forward a total of 10 years.

You may make a claim for refund based upon the carryback of an unused investment credit by filing Form 843, Form 1040X (Individuals), Form 1120X (Corporations), or an amended return for the year to which the unused credit is carried. Taxpayers who want a tentative (quick) refund may file Form 1045 (Individuals) or Form 1139 (Corporations).

G. Basis and Cost.—The credit for new property applies to the basis of the property. The credit for used property applies to the cost of the property. The cost of used property does not include the basis of any property traded in unless the trade-in resulted in the recapture of all or any portion of an investment credit previously allowed or in a reduction of an investment credit carryback or carryover.

No adjustment for additional first-year depreciation or salvage value is required.

For purposes of the investment credit, the useful life of the qualifying property must be the same as the useful life used for depreciation or amortization.

Specific Instructions

Line 1. New Property.—Enter the basis of property (as described in instructions C and G) placed in service during the taxable year.**Used Property.**—Enter the cost (subject to dollar limitation below) of used property placed in service during the taxable year. See instruction G. Property inherited, received as a gift, or acquired from certain related parties does not qualify for the investment credit.**Dollar Limitation on Used Property.**—In general, the amount of used property you may take into account may not exceed \$50,000 (determined without regard to the applicable percentages based on useful life).

If a husband and wife file separate returns, each may claim up to \$25,000 unless one of them has no qualifying used property, in which case the other may claim up to \$50,000.

The amount of used property placed in service by a partnership, small business corporation, estate, or trust that may be taken into account may not exceed \$50,000. The \$50,000 limitation

also applies to each partner, shareholder, and beneficiary.

A controlled group of corporations (see section 48(c)(3)(C)) must apportion the \$50,000 limitation among the component members of the group based on the total cost of used property each member placed in service. Make the apportionment without regard to both the \$50,000 limitation and the applicable percentages based on useful life.

Estates and Trusts.—In case of an estate or trust the amount of investment is apportioned between the estate or trust and the beneficiaries based on the income of the estate or trust allocable to each.**Line 4. Priority of Application of Unused Credits.**—The limitation is first absorbed by:

- (a) unused credits carried from years ending before 1971, then by
- (b) credits for property placed in service in the current year, and then by
- (c) unused credits from taxable years ending after 1970.

Line 7. Tax on Lump-Sum Distributions.—Enter the amount of partial tax included in line 6 by the recipients of lump-sum distributions from qualified employees' trusts or annuity plans.**Line 10. Limitation.**—If the tax liability (line 9) is \$25,000 or less, the investment credit may not exceed the amount of the tax liability.

If the tax liability exceeds \$25,000, the credit may not exceed \$25,000 plus 50% of the excess.

If a husband and wife file separate returns and both are entitled to an investment credit, compute the limitation by substituting \$12,500 for the \$25,000 shown in line 10(a).

Controlled corporate groups (see section 46(a)(5)) must apportion the \$25,000 among all component members.

An estate or trust must reduce the \$25,000 amount to (a) \$25,000 multiplied by (b) the qualified investment apportioned to the estate or trust, divided by (c) the aggregate qualified investment apportioned among the estate or trust and its beneficiaries.

Form **4626**Department of the Treasury
Internal Revenue Service**Computation of Minimum Tax**(In general, this form is to be filed only if the items of tax preference exceed \$30,000. Exceptions pertain to certain members of a controlled group and certain estates and trusts—see instructions.)
▶ Attach to your tax return.**1974**

For Corporations and Fiduciaries.—To be attached to Forms 1120, 1120F, 1120L, 1120M, 1120S, 1041, and 990-T.

Name as shown on tax return

Employer Identification Number

1 Tax Preferences:

- (a) Accelerated depreciation on real property: (1) low-income rental housing under sec. 167(k)
(2) other real property
- (b) Accelerated depreciation on personal property subject to a net lease (does not apply to a corporation other than an electing small business corporation and a personal holding company)
- (c) Amortization of certified pollution control facilities
- (d) Amortization of railroad rolling stock
- (e) Amortization of on-the-job training facilities
- (f) Amortization of child care facilities
- (g) Stock options (not applicable to corporations)
- (h) Reserves for losses on bad debts of financial institutions
- (i) Depletion
- (j) Capital gains
- 2 Total items of tax preference—Add lines 1(a) through 1(j)
- 3 Less exclusion—Enter \$30,000. (Estates, trusts and controlled groups—see instruction 3)
- 4 Line 2 less line 3
- 5 (a) Taxes imposed under Chapter 1 for the taxable year other than tax on lump-sum distributions as defined in section 402(e), personal holding company tax, accumulated earnings tax, and minimum tax. (See instructions)
(b) Plus tax carryover to the taxable year. (Attach computation—see instructions)
- 6 Line 4 less line 5
- 7 Enter 10% of line 6
- 8 Amount of net operating loss for 1974 remaining as a CARRYOVER to a succeeding year. (Attach computation)
- 9 Deferred minimum tax—Enter the lesser of line 8 multiplied by 10%, or line 7
- 10 Line 7 less line 9
- 11 Enter minimum tax deferred from prior year(s) until this year. (See instructions)
- 12 Total minimum tax—Add lines 10 and 11. Enter on appropriate line of tax return per instruction 12

General Instructions

(References are to the Internal Revenue Code.)

Who Must File.—All taxpayers (other than individuals, certain members of a controlled group, and certain estates and trusts) having items of tax preference in excess of \$30,000, and who are not exempt from income tax imposed by chapter 1 of the Code, or who are exempt organizations that have unrelated business income taxable under section 511, must complete Form 4626 and attach it to their return whether or not the minimum tax applies.

A member of a controlled group (as defined in section 1563(a)) that has items of tax preference of \$30,000 or less, does not have to file Form 4626 unless the items of tax preference exceed the amount of the exclusion allocated to it.

Estates or trusts having tax preference items of \$30,000 or less allocated to the estate or trust do not have to file Form 4626 unless the items of tax preference exceed the amount of the exclusion apportioned to the estate or trust. See instruction 3.

The tax preference item of accelerated depreciation on personal property subject to a net lease (line 1(b)) does not apply to a corporation other than an electing small business corporation and a personal holding company.

Stock options (line 1(g)) is not applicable to corporations.

Regulated Investment Companies and Real Estate Investment Trusts.—The amount of net long-term capital gain in excess of the net short-term capital loss of a regulated investment company or a real estate investment trust is to be treated as an item of tax preference (line 1(j)) only to the extent that such item is not taken into account as income by shareholders. Accelerated depreciation on real property (line 1(a)) is taken into account in full as a tax preference item of real estate investment trusts and is not included in the apportionment of tax preferences to shareholders as described in the following paragraph.

The remaining items of tax preference of a regulated investment company and a real estate investment trust are used in computing the minimum tax in the same proportion that the taxable income of such company or trust (section 852(b)(2) or 857(b)(2)) bears to taxable income computed without regard to the deduction for dividends paid. The remaining proportion of tax preferences is treated as items of tax preference of the shareholders of such company or trust on the basis of the dividends (other than capital gains dividends) paid to each shareholder. The company or trust must advise shareholders of their portion of each item of tax preference.

Such item will then enter into the computation of each item of tax preference by shareholders.

Electing Small Business Corporations.—Electing small business corporations are subject to the minimum tax only with respect to capital gains and only to the extent such gains are subject to the tax imposed by section 1372. All other items of tax preference are to be apportioned among the shareholders in a manner consistent with section 1374(c)(1). The capital gains are excluded from the apportionment since such gains are actually passed through to shareholders and includable in their income to the extent provided under the rules in section 1375(a) and will thus enter into the computation of the shareholders' capital gains tax preference. Each item will retain its character for purposes of the shareholders' computation of each item of tax preference.

Estates and Trusts.—Tax preference items of an estate or trust are to be apportioned between the estate or trust and the beneficiaries on the basis of the income of the estate or trust that is allocable to each. Thus, if the items of tax preference allocated to the estate or trust don't exceed the exclusion allocated to the estate or trust, the estate or trust does not have to file Form 4626. The direct allocation of amortization, depreciation, depletion and capital gains under the existing estate or trust rules

(Continued on back)

Form **4626** (1974)

serves to effectively allocate these items of tax preference on the basis of income, and they are not included in the apportionment of other items of tax preference. No further allocation is needed. Each item will retain its character for purposes of the beneficiaries' computation of each item of tax preference.

Participants in Common Trust Funds.—Items of tax preference of a common trust fund (as defined in section 584(a)) for each taxable year of the fund are treated as items of tax preference of the participants of such fund. Each item of tax preference, except capital gains, is apportioned pro rata among the participants and enters into their own computation of each item of tax preference. Capital gains are passed through to participants under the rules in section 584(c) and enter into the participants' computation of capital gains tax preference.

Foreign Source Tax Preference Items.—Tax preferences attributable to foreign sources are to be included for purposes of computing the minimum tax only to the extent they result in foreign losses which reduce the tax imposed on U.S. income. Stock options (line 1(g)) and capital gains (line 1(j)) attributable to foreign sources are to be taken into account as tax preferences only if the tax laws of the foreign country or U.S. possession give them preferential treatment. Transfer of stock and sales and exchanges of capital assets shall be considered as having received preferential treatment if such country or possession imposes no significant amount of tax on such item.

Consolidated Returns.—An affiliated group of corporations filing a consolidated return is required to compute its minimum tax on a consolidated basis.

Domestic International Sales Corporations (DISC).—Domestic International Sales Corporations are not subject to the minimum tax.

Specific Instructions

(Numbered to correspond with line numbers on page 1.)

1. Tax Preferences:

(a) Accelerated depreciation on real property is depreciation allowable on each section 1250 property (as defined in section 1250(c)) to the extent it exceeds the depreciation deduction which would have been allowable for the year under the straight line method. A separate computation of the excess must be made for each property.

(1) Enter the excess depreciation attributable to expenditures to rehabilitate low-income rental housing (as defined in section 167(h)(3)). The excess depreciation is the amount that exceeds the depreciation deduction which would have been allowable under the straight line method without regard to the useful life permitted under section 167(h).

(2) Enter the excess depreciation on all other section 1250 property.

(b) Accelerated depreciation on personal property subject to a net lease is depreciation allowable on each section 1245 property (as defined in section 1245(a)(3)) which is the subject of a net lease (as defined in section 57(c)), to the extent it exceeds the depreciation deduction which would have been allowable for the year under the straight line method. A separate computation of the excess must be made for each property.

This item of tax preference does not apply to a corporation other than an electing small business corporation and a personal holding company.

Amortization of:

(c) certified pollution control facilities; (d) railroad rolling stock; (e) on-the-job training facilities and (f) child care facilities.

With respect to each certified pollution control facility, unit of railroad rolling stock, on-the-job training facility and child care facility, enter the amount by which the amortization allowable exceeds the depreciation deduction otherwise allowable.

(a) Stock options: The tax preference amount is the amount by which the fair market value of a share of stock at the time of exercise of a qualified stock option or a restricted stock option (as defined in sections 422(b) and 424(b)) exceeds the option price.

(b) Reserves for losses on bad debts of financial institutions: The tax preference amount applies only with respect to financial institutions subject to section 585 or 593. It is the amount by which the deduction allowable for the taxable year for a reasonable addition to a reserve for bad debts exceeds the amount that would have been allowable had the institution maintained its bad debt reserve for all taxable years on the basis of actual experience.

(f) Depletion: The tax preference amount applies to each property as defined in section 614. If the excess of the deduction for depletion allowable under section 611 for the taxable year over the adjusted basis of the property at the end of the taxable year (determined without regard to the depletion deduction for the taxable year).

(j) Capital gains: Generally, for a taxpayer other than a corporation, the amount of capital gains tax preference is one-half of the net section 1201 gain (excess of net long-term capital gain over net short-term capital loss) for the taxable year. However, if an estate or trust realizes a long-term capital gain and pays or, in some cases, permanently sets aside the amount of the gain to a charitable organization (see section 642(c)), the capital gains deduction under section 1202 is not to be treated as an item of tax preference.

In the case of a corporation, the capital gains item of tax preference applies only if the alternative tax under section 1201 or other comparable section applies for the taxable year.

If the alternative tax does apply, the capital gains tax preference may be determined by the following formula: A minus B divided by .48.

(A) Tax on taxable income as computed under section 11 or other comparable section minus (B) Alternative tax on taxable income as computed under section 1201 or other comparable section.

.48

Foreign corporations take capital gains into account only to the extent such gains are effectively connected with the conduct of a trade or business in the United States.

3. Exclusion.—The \$30,000 exclusion must be divided equally among the component members of a controlled group of corporations (as defined in section 1563(a)) unless all component members consent to a plan providing for an unequal allocation.

The exclusion for estates or trusts must be reduced to an amount which is that percent of \$30,000 that the sum of the tax preference items allocated to the estate or trust is of the total tax preference items.

If a return is made for a period of less than 12 months, refer to section 443(d) for computation of the exclusion.

5(a). Taxes imposed for the year.—Include income taxes from applicable forms as follows:

Form 1120—Sum of lines 8, 10 and 11, Schedule J

Form 1120F—Sum of lines 1 and 2, page 1
Form 1120L—Sum of lines 11, 12, 13 and 14, page 1

Form 1120M—Sum of lines 14, 15, 16 and 17, page 1

Form 1120S—Line 29, page 1

Form 1041—Sum of lines 30, 31 and 32, page 1. Do not include tax on lump-sum distributions as defined in section 402(e).

Form 990-T—Line 23, page 1

5(b). Tax carryover.—If the tax less credits for a taxable year exceeds the sum of the items of tax preference in excess of \$30,000, the excess may be carried forward for 7 years to reduce the amount subject to minimum tax. See section 56(c).

If this carryover is from more than one prior year, use the carryover from the earliest year. Attach a schedule showing computation of the carryover.

11. Minimum tax deferred from prior year(s).—If a net operating loss carryover from 1973 reduces taxable income for 1974, and the carryover resulted in the deferral of minimum tax in 1973, all or part of the deferred minimum tax may be includable on line 11 as a tax liability imposed for 1974.

The deferred minimum tax is to be included on line 11 to the extent the portion of the net operating loss carryover attributable to the deferred minimum tax reduces taxable income. For purposes of computing the amount attributable, the portion of the net operating loss carryover which is not attributable to the deferred minimum tax has priority and is applied in reducing taxable income before such other portion.

Example:

A taxpayer sustained a net operating loss (NOL) in 1973, \$1,000 of which remained as a carryover to 1974. Minimum tax on \$800 of tax preferences (after minimum tax exclusion) was deferred in 1973 because of the NOL. Therefore, \$800 of the \$1,000 1973 NOL carryforward is attributable to tax preferences and \$200 constitutes the remaining portion which is not attributable. The 1974 taxable income (before adjustment under section 172 (b)(2)) is \$600.

(a) Amount of NOL carryover from 1973 which reduced 1974 taxable income \$600

(b) Amount of 1973 NOL carryforward not attributable to tax preferences \$200

(c) Amount of 1973 NOL attributable to tax preferences which reduced taxable income in 1974 (line (a) less line (b)) \$400

(d) Amount of 1973 deferred minimum tax imposed as tax liability for 1974 (line (c) × minimum tax rate of 10%) \$40

Because of adjustments to taxable income required under section 172(b)(2), the portion of the \$1,000 NOL carryover absorbed in 1974 may exceed the \$600 used to reduce taxable income. The actual amount of NOL carryover remaining will be used in the subsequent year's computation.

12. Minimum tax.—Taxpayers file Forms 1120, 1120F, 1120L, 1120M, 1120S, 1041 and 990-T must enter the total minimum tax from line 12 on the appropriate line of their 1974 return.

4626-10-82254-1

General Instructions

(References are to the Internal Revenue Code.)

Employers may claim an income tax credit of 20 percent of the salaries and wages they paid for the first 12 months employment of a worker hired under a Work Incentive (WIN) Program. The credit does not affect an employer's deduction of the salaries and wages as a business expense. This credit is allowed and computed under sections 40, 50A and 50B.

A. Who Must File.—Any individual, estate, trust, or corporation claiming a tax credit for salaries and wages paid or incurred in a WIN program must attach this form to its income tax return.

Small business corporations and partnerships must attach to their income tax return a statement showing the allocation to each shareholder or partner of its WIN wages with respect to each WIN employee. This statement must also show each WIN employee's name, social security number, date employment began and the WIN wages paid or incurred.

An estate or trust that apportions the WIN wages between itself and the beneficiaries should, in addition to filing this form, attach a statement showing the allocation of the WIN wages for each employee between the estate or trust and each beneficiary.

For further details on the allocation of WIN wages see sections 1.50B-2, 3, and 4 of the regulations.

B. WIN] Wages.—The term "WIN wages" means the salaries and wages of employees who are certified by the Secretary of Labor as:

(1) having been placed in employment under a WIN program established under section 432(b)(1) of the Social Security Act, and

(2) not having displaced any individual from employment.

The WIN wages must be for services rendered by such employees during the first 12 months of employment (whether or not consecutive).

Wages paid WIN employees must be comparable to wages paid non-WIN employees performing comparable services.

The term "salaries and wages" means only cash remuneration (including amounts deducted and withheld).

C. Limitations.—

(1) The WIN wages must be incurred in a trade or business:

- (2) The credit cannot be claimed on WIN wages for which the employer is reimbursed;
 - (3) The WIN employee must work in the United States;
 - (4) No WIN wages may be taken into account after the end of the 24-month period beginning with the date of initial employment of the WIN employee.
- The initial date of employment is the date the WIN employee reported to the employer for work.

(5) The WIN employee cannot be closely related to the employer as determined under section 152(a)(1) through (8), or a dependent of the employer as determined under section 152(a)(9).

If the employer is a corporation the WIN employee cannot be closely related to, or a dependent of, any individual who directly or indirectly owns more than 50% in value of the outstanding stock of the corporation as determined under section 267(c).

If the employer is an estate or trust, the WIN employee cannot be a grantor, beneficiary, or fiduciary of the estate or trust, or closely related to, or a dependent of, such grantor, beneficiary, or fiduciary.

D. Recapture of WIN Credit.—The employer must repay any tax credit previously taken on the WIN wages paid or incurred with respect to an employee, if:

(1) the WIN employee is dismissed before the end of the first 12 months of employment (whether or not consecutive) or during the following 12 calendar months.

(2) the employer makes his working conditions so intolerable that he is compelled to quit, or

(3) the employer pays less than the wages paid to other employees performing comparable services. The recaptured credit is added to the tax liability for the year the employee is dismissed (or the year comparable wages are not paid).

This recapture provision does not apply to a WIN employee who:

(1) voluntarily quits work,
(2) was dismissed due to misconduct as determined under the applicable State unemployment compensation law, or

(3) becomes disabled and cannot return to work within the first 12 months of employment (whether or not consecutive) or during the following 12 calendar months.

For further details see sections 1.50 A-3 and 4 of the regulations.

Specific Instructions

Mutual savings institutions, regulated investment companies, real estate investment trusts, and cooperatives—see section 1.50B-5 of the regulations for special limitations.

Estates and Trusts.—In the case of an estate or trust the WIN wages are apportioned between the estate or trust and the beneficiaries on the basis of the estate or trust income allocable to each.

Small Business Corporations and Partnerships.—In the case of a small business corporation or partnership, the WIN wages are prorated among the shareholders or partners.

A small business corporation must prorate the WIN wages among those who are shareholders on the last day of the corporation's taxable year.¹

Line 4.—Priority of Application of Unused Credits.—The limitation is first absorbed by: (1) credit for WIN employee wages for the current year, and then by (2) unused WIN credits from taxable years beginning after 1971.

Line 7. Tax on Lump-Sum Distributions.—Enter the amount of partial tax included in line 6 by the recipients of lump-sum distributions from qualified employees' trusts or annuity plans.

Line 10. Limitation.—If the tax liability (line 9) is \$25,000 or less, the credit may not exceed the amount of the tax liability. If the tax liability exceeds \$25,000 the credit may not exceed \$25,000 plus 50% of the excess.

• If a husband and wife file separate returns and both are entitled to the WIN credit, compute the limitation by substituting \$12,500 for the \$25,000 shown on line 10(a).

Controlled corporate groups (see section 1563(a)) must apportion the \$25,000 among all component members. A component member's consent to an apportionment plan is made by a statement signed by an authorized person stating that the member consents to the apportionment plan. The controlled group must file annually a consent to an apportionment plan.

For an estate or trust, the \$25,000 must be reduced to (a) \$25,000, multiplied by (b) the qualified salaries and wages apportioned to the estate or trust, divided by (c) the aggregate qualified salaries and wages apportioned among the estate or trust and its beneficiaries.

Unused Credit.—If the credit for the tax year is more than the allowable amount, the unused portion may be carried back three years (but not to years beginning before 1972) and then forward seven years from the year the unused credit originated.

General Instructions

Purpose of Form.—Recently enacted legislation increased the corporate surtax exemption from \$25,000 to \$50,000 (the computation of lines 9 through 16, Part I and lines 20 through 27, Part II take into account the increase in the surtax exemption from \$25,000 to \$50,000) and changed the tax rates from 22% of the first \$25,000 of taxable income and 48% of any excess, to 20% of the first \$25,000 of taxable income; 22% of the next \$25,000 of taxable income; and 48% of taxable income in excess of \$50,000. These changes are effective for taxable years ending after December 31, 1974 but will not apply after December 31, 1975. These changes are changes in tax rates under section 21 and will affect corporations filing fiscal year 1974-75 tax returns. These corporations must prorate their tax by computing a tax for the period before 1975 and a tax for the period after 1974, using the rates and surtax exemption in effect for each period. Form 1120-FY provides for this proration.

Form 1120-FY will be used by fiscal year 1974-75 corporations instead of the Tax Computation Schedule in Forms 1120, 1120F, 990-C and 990-T.

If You Have Filed Your Return.—Corporations that have already filed their fiscal year 1974-75 return without taking the change in the tax rate and surtax exemption into account will not have to file an amended return due to these changes because IRS will automatically recompute your tax to take these changes into account. IRS will also make any necessary adjustments to your account resulting from these changes and send any refund to which you may be entitled.

Since there are other provisions of the Tax Reduction Act that are also retroactive, you should carefully review the instructions contained in the Revised Corporation Package for 1974 to determine whether any of the new provisions affect your tax liability because IRS's recomputation will not take into account any changes other than the change in the tax rate and the surtax exemption. Corporations which are affected by any of the other new provisions, will have to file an amended return on Forms 1120X, 990-C, 990-T, or 1120F, and attach Form 1120-FY, and other required forms and schedules.

Corporations required to file an amended return should, of course, take the changes in the tax rate and surtax exemption into account.

IRS will not recompute the tax of members of controlled groups that have already filed.

Notes: You will have to take into account certain changes if you are a fiscal year 1974-75 taxpayer who will be using the following 1974 forms: Form 1120-W, Form 1120X, Form 2220, Form 4466, or Form 4626.

For further information, obtain a copy of "Supplemental Instructions for Fiscal Year 1974-75 Corporations" from your local Internal Revenue Service office.

Members of a Controlled Corporate Group That Have Elected Multiple Surtax Exemptions Under Section 1562.—This form also takes into account the repeal of section 1562, effective for the period after December 31, 1974. Section 1562 provided for multiple surtax exemptions and imposed a 6% additional tax on corporations electing multiple surtax exemptions. For further information, see the instructions for line 2, Part I.

Computation of Tax.—If line 8, Part I is \$50,000 or more, omit lines 9 through 15 and enter on line 16: (Line 8 × 48%) minus \$13,500.

In computing the tax, the corporation computes a regular tax (Part I) and an alternative tax (Part II) for each period and takes the lower tax for each period. The sum of the prorated tax for each period is the total on line 5, Part III.

If the alternative tax applies, complete the applicable parts of Schedule D, Form 1120, and then complete Alternative Tax Computation, Part II of Form 1120-FY.

Specific Instructions**Part I**

Line 1, Form 990-T Filers.—Form 1120-FY is not applicable to trusts taxable at trust rates. Such trusts are to use the tax computation schedule provided on the 1974 Form 990-T.

Line 2, Surtax Exemption.—Members of a controlled corporate group, enter your surtax exemption determined under the provisions of section 1561 or section 1562. If an election is effective under section 1562, only one member of a controlled corporate group may claim a full \$25,000 surtax exemption while each of the other members is limited to a surtax exemption of \$4,167.

Line 6.—If only one component member of the controlled group has taxable income, the 6% tax does not apply. (Section 1562(b)(1)(A).)

Lines 9 and 11.—Members of a controlled group are to allocate the \$25,000 amount on lines 9 and 11 in the same manner the surtax exemption is allocated (see section 1561(a)).

Part II

Line 8.—If only one component member of the controlled group has taxable income, the 6% tax does not apply. (Section 1562(b)(1)(A).)

Lines 11 and 29.—Subsection (d) gain consists of long-term capital gains, including installment proceeds (except gains from timber, coal or domestic iron ore under section 631, or from patents under section 1235) received before 1975 from sales or other dispositions under binding contracts entered into on or before October 9, 1969 (section 1201(d)).

Part III

Line 2, Portion of Tentative Tax.—Multiply line 1 by:

(a) number of days in taxable year before 1/1/75
number of days in taxable year

OR

(b) applicable decimal from table below (column (A)). Taxpayers with a 52-53 week taxable year must use (a) above.

Line 4, Portion of Tentative Tax.—Multiply line 3 by:

(a) number of days in taxable year after 12/31/74
number of days in taxable year

OR

(b) applicable decimal from table below (column (B)). Taxpayers with a 52-53 week taxable year must use (a) above.

Table

Fiscal year	(A) Before 1975 Line 1 × applicable fraction or decimal listed below and enter result on line 2	(B) After 1974 Line 3 × applicable fraction or decimal listed below and enter result on line 4
2/1/74-1/31/75	334/365 or .915068	31/365 or .084932
3/1/74-2/28/75	306/365 or .838356	59/365 or .161644
4/1/74-3/31/75	275/365 or .753425	90/365 or .246575
5/1/74-4/30/75	245/365 or .671233	120/365 or .328767
6/1/74-5/31/75	214/365 or .586301	151/365 or .413699
7/1/74-6/30/75	184/365 or .504110	181/365 or .495890
8/1/74-7/31/75	153/365 or .419178	212/365 or .580822
9/1/74-8/31/75	122/365 or .334247	243/365 or .665753
10/1/74-9/30/75	92/365 or .252055	273/365 or .747945
11/1/74-10/31/75	61/365 or .167123	304/365 or .832877
12/1/74-11/30/75	31/365 or .084932	334/365 or .915068

Line 6(b), Investment Credit.—The investment credit has been increased from 7% to 10% (11% in certain cases) for certain property and has been extended to include progress payments. See Form 3468-FY (FY 1974-75).

Line 6(c), WIN Credit.—Taxpayers may now claim the WIN credit for certain eligible employees (see section 508(g)) who are employed for a period in excess of 30 days and are hired after March 29, 1975. For further information, see sections 50A and 50B and Form 4874-FY (FY 1974-75).

Line 12, Minimum Tax.—If line 3, Part II is less than \$50,000 and the alternative tax applies, you will have to use a proration to determine your capital gains item of tax preference. If line 3, Part II is \$50,000 or more, no proration will be required. For further information, obtain a copy of "Supplemental Instructions for Fiscal Year 1974-75 Corporations" from your local Internal Revenue Service office.
